New Fire Building Approved at Ada

Ada Township Annual Meeting voted to set a budget of 2 mills to raise about \$4,300 to put an addition on the town hall to house additional equipment, a 500 gallon water supply tank and a tower to dry hose. Seven township citizens were present besides the township board to hear the budget for the coming year and accept the board's proposed budget for the coming year. In addition to the funds for enlarging the fire department, one mill will be taxed for highway purposes. This, Supervisor Fase stated, will not blacktop any roads but will be used to make necessary road improvements and to chloride the roads for dust.

Carl Peters who was at the meeting told the group that the Ada Athletic Ass'n has plans underway to install a large pump at the park so the area could be flooded for ice skating in the winter and the same pump could be used to pump water for the fire department. The board told Peters that when plans for the pump were ready in the fall the township board would investigate helping with the cost.

Report on New M-21 Lighting

Supervisor Fase also reported to the meeting that final plans were ready for the board's acceptance for lighting of the M-21 intersec-Burns Sunday tions on each side of the new bridge. In my opinion the President has responded to the demand of our citizens for an improvement in the effectiveness of the Army, Navy, and Air Force. The burden is now Forces to respond. No one expects 100 percent concurrence with the White House proposal (I have several reservations myself) but it is a good blueprint from which the Congress can build a stronger, more economical and efficient Department of Defense.

New Food Boosts Trout

It's feeding time at the Conservation Department's Wolf Lake fish hatchery as some hungry trout get a serving of dry food pellets. Development of this pelleted fish food has doubted fish plantings because the new food produces faster growth at less expense than former methods. During 1957, some 2,560,000 hatchery trout were released in Michigan lakes and streams.
