## Forest Hills Voters Turn Down Special Millage: No 392, Yes 349

### Honey Creek to Vote July 6th to Join Forest Hills; Meeting June 22 at School

Lynn Bartlett, Superintendent of Public Instruction, has approved the resolution for annexation of Honey Creek School, District 4, Ada Township to the Forest Hills Public School District.

The Honey Creek School Board has designated Monday, July 6, as

the date of this special election. Polls will be open at the school from 1 p. m. to 8 p. m.

**Information Meeting**  
An information meeting to explain the resolution is planned for Monday evening, June 22, at 8 p. m. in the Honey Creek School. Members of the Forest Hills Board and the County Board of Education will be present.

**Important Vote**  
The vote of Honey Creek is important to not only that district but to River School District and Egypt Valley as well. There is little doubt but the County Board of Education will also assign these two districts to the Forest Hills district when a favorable vote to annex is obtained from Honey Creek, if the law requiring all districts to have kindergarten to 12th passes the state senate. This bill is already approved by the legislature and the governor has said he approves the decree.

### Ada Congregational Church Bible School

The Vacation Bible School at the First Congregational church at Ada begins on June 16, and runs through June 19, and again on June 23 through the 26th, beginning at 9 a. m. and ending at 11 a. m. The theme of the Bible School is "God in His World."

The Bible School includes children from 4 years of age through Junior High School. There is no charge for registration, but registration should be made at the church office before the date the school begins.

Mrs. Marvin Karsten is acting as Superintendent. Mrs. Gerald Brian has charge of the music. The Nursery will be taken care of by Mrs. Lester Williams, assisted by Mrs. Frank Osmolinski.

Kindergarten teachers are Mrs. Gordon Svoboda and Mrs. Hugh Bolhuis. Primary grades 1, 2 and 3 will be taught by Mrs. Orison Weaver, Mrs. Mary Jane Murphy, Mrs. Gerald Smith and Mrs. Ronald Collins. The Lower Junior, 4th 5th and 6th grades will be taught by Mrs. Holly Hand and Mrs. Kenneth Anderson. The Juniors, 7th, 8th and 9th grades will be in charge of Rev. Alvin Brewer.

### Citizens Committee Equips Car for Election

The Forest Hills School District Citizens Advisory Committee met June 2, at the Collins School. It was decided that the Committee would equip a car with sound equipment to cover the area for the school election that was held Monday.

Mr. Hansen of the Adult Education committee reported that classes will start in the fall on approximately September 31, on a fee basis. If sufficient interest is shown there will be classes in Physical Education, Typing, Sewing, Art, Spanish, French, Cake Decorating, Party Foods and Bridge.

Information will be sent out in the fall, but you can be thinking about joining one or more of these classes in the fall.

### CAMPAIGN FOR FUNDS FOR CLASSROOMS

A campaign for funds to finance additional classrooms for the Ada Christian School will be held the week of June 22. Those who help with this, please meet at the school on Wednesday, June 17, at 8 p. m. for briefing.

### Appear In Follies of '59

Candace and Brian Bross, son and daughter of Mr. and Mrs. Ronald Bross, 6668 Cascade Rd., SE, appeared in the Follies of '59 at the St. Cecelia Auditorium on Saturday, June 6. Brian was in the All American football number and Candace was a wooden puppet.

The music and dance recital was put on by the pupils of Alyce Hogan.

### New Forest Hills Teacher Named to Attend Seminar

Miss Carolyn Scholten, a new teacher hired to teach girls physical education at Forest Hills schools next September, and a June graduate of Hope College, has been selected as one of 50 from the nation to participate in a student citizenship seminar in Washington this summer. Miss Scholten is from Steen, Minn., and our schools are very fortunate to have such a fine young teacher coming here in the fall.

Seminar participants hold jobs in federal agencies to gain first-hand experience, and participate in a lecture-discussion program with distinguished government leaders. Christian implications of government problems are especially stressed.

The program is sponsored by the National Student YM-YWCA. Miss Scholten will be working in the bureau of census.

### Girl Scout Troop 91 Attend Weekend Campout

Girl Scout Troop 91 spent Saturday and Sunday camping at Anna Behrens on Lake Michigan. The troop leaders are Mrs. Hugh Weaver and Mrs. O. Spadetti. They were accompanied by Mrs. Donald Crum and Mrs. Warren Isberg. The girls who camped were: Robyn Johnson, Kathy Rosenburg, Delores Isberg, Linda Smith, Sharon Norman, Kathy May, Sherrill Crum, Patty Kennedy, Susan Bushman, and Marcia Jaeger.

Also attending were Penny Beatty, Louise Staven, Judy Hellberg, Becky Turritten, Laurie Baines, Nancy Gaskell and Patty McCarthy.

### CASCADE BUSINESSMEN HOLD LUNCHEON

The Cascade Businessmen's Association held their monthly luncheon on Tuesday at the Fellowship Hall of the Cascade Christian church.

The luncheon was served by the Denison Guild of the church.

It is easier to believe a lie that one has heard a thousand times than to believe a fact that one has never heard before.

### Make Final Preparations For Thornapple Minstrel Show, June 17-18

Excitement runs high these days in the Cascade area and it mounts every day as the date of the Thornapple Minstrel Show draws near. Rehearsals have been carried on for the past month and, with only one week to go, just about all of the rough edges have been smoothed over. Under the guidance of Jack Breidenfeld, Lyle Dykhuizen, Margaret Good and Gordon Konkle, some forty people of all ages have been working three nights a week at Fellowship Hall of the Cascade Christian Church and the results have been more than gratifying.

Staging and scenery plans are just about complete with only the actual construction remaining to be done. The gymnasium of Forest Hills High School, scene of the show this year, is beginning to take on the atmosphere of a showboat and within several days this illusion will be complete. Special scenery and several novel ideas

on lighting are expected to add considerably toward achieving the desired atmosphere. Quite a bit of the activity seems to be centered around Cascade Pharmacy, ticket headquarters and what seems to be promotional center in the area. Banners and posters advertising the entertainment event of the year are in evidence everywhere. In fact the whole area seems to have adopted the show as more of a community project, even though sponsored by the Men's Fellowship of the Cascade Christian Church, and originally put on entirely by that organization. There is no doubt that the entire community profits from and enjoys the show more and more each year.

### Begin Work on New Buildings at Forest Hills

Work has been begun on the new buildings to be constructed at the Forest Hills High School this summer. Footings and the cement wall above the footings are in for the first six classroom unit.

The footings are in for the Shop and Homemaking Building, and are ready to put in the footings for the Multi-purpose Building.

The football field proper has been completed as far as the grading and top dirt. The field is 50 yards by 100 yards. The next step is to provide a water piping system and seed it. They are now in the process of digging the well for this purpose.

### Summer Choirs Organized

Two children's choirs are being organized for special music during the summer months at the Cascade Christian Church. Any child wishing to sing in the choir should be at the church on Tuesday afternoon, June 16, at 3 p. m.

The first and second grade choir will be directed by James Scripps and the third, fourth and fifth grade choir will be under the direction of Barbara Heaven Reynolds.

It is hoped that there will be a good turnout at these rehearsals, which will last approximately an hour.

### ADA BUSINESSMEN'S ASSOCIATION MEETING

The Ada Businessmen's Association will meet at the Ada Town Hall at 9 p. m. on Thursday, June 18.

The Constitution and By-Laws of the organization are being mailed at this time.

1822 Fort Saginaw built on the Saginaw River; Fort Brady established at Sault Ste. Marie.

In a turn out of over 750 voters in the Forest Hills District on Monday the special operating millage for up to 5 mills for 5 years was turned down by the voters 392 No; 349 Yes. This increase would have increased the present 2½ mills raised primarily for transportation to 5 mills. These extra funds would have provided additional staff for special work; increased teachers

salaries, provided library and special class room equipment; provided athletic fields and improved grounds around buildings.

There is some discussion that the citizens committee which meets in July may ask the board to re-vote this issue again in the fall.

This is the first time that the voters of the Forest Hills District have turned down a request for money for operating or bonds for building since the district was organized. In September 1956 the first \$800,000 bond issue was approved; in July 1957 2½ mills of operating millage for 5 years was approved; last September the voters approved an issue of \$700,000 for construction bonds.

### Incumbent Board Members Win

In the vote for two members of the Board of Education the two incumbent members of the board John Adrianse and R. Dale Charters were re-elected for three year terms. The vote was as follows:

John Adrianse, 412; R. Dale Charters, 386; Mrs. Helen Burkhead, 338; and John C. Hoekje, 297.

### Daily Vacation School At Eastmont Reformed

All the boys and girls, age 5-12 are invited to come "Adventure with Christ" at the Eastmont Reformed Church Vacation Bible School. Eight activity filled mornings are in store from Tuesday, June 16, to Thursday, June 25. There will be handicraft, stories, and surprises every day from 9 until 11:30 a. m.

A new theme song will be learned, and every morning will begin with a worship service that will include lots of singing. Everybody is welcome to join the crowd at Vacation Bible School, where you will see castles, knights and ladies all involved in a great adventure with Christ, and don't forget to save Thursday evening, June 25 for the wonderful final program at 7:30 p. m. All the interesting things done by the children will be shown to the Moms and Dads.

For information about this years bus route, please call GL 4-9828.

### PLAN JULY 4TH PROGRAM WITH FIREWORKS AT ADA

A July 4th program including a fireworks display with everyone welcome is being planned by the Ada Merchants.

There will be a ball game at 7 p. m. and the fireworks at 9:30.

Plan now to attend the July 4th program at Ada.

### ENTERTAINS MARTIN TEACHERS AT LUNCHEON

Mrs. L. P. Farnsworth of 1042 Waltham entertained the teachers of Martin Building Wednesday for luncheon. Those present were Mrs. Arndt, Banhegel, Garrison, McDermott, Roth, Sout, Taylor and Mr. Spoelman.

Gifts were presented to the teachers who are leaving, Mrs. Garrison, Mrs. McDermott and Mrs. Taylor.

## Faith in Michigan and Our Community Necessary for Real Progress

The Mackinac Bridge and industrial development in our town may not seem related—but they have a common denominator—faith.

The faith of the people of Michigan in our great state gave the builders of the Mackinac Bridge the strength to overcome countless obstacles before the bridge became a reality.

Today, the Mackinac Bridge—the world's greatest and costliest bridge—not only links the Upper and Lower Peninsulas but is symbolic of the spirit, strength and unity of the people of Michigan.

Thus, qualities which made the Mackinac Bridge possible, exist in each Michigan community.

If used properly, they will help us overcome the obstacles which threaten our efforts to grow and prosper, providing a fourth important element is present.

That element is community attitude, sometimes called "climate,"—toward our present industry.

If we appreciate our present industry and let everybody know that it is appreciated, then our efforts to get new industry will, like the Mackinac Bridge, become a reality.

For many years, the Mackinac Bridge was nothing more than just a dream. Its completion and opening to traffic prove one thing—anything can be accomplished if we have faith, confidence and optimism.

The Mackinac Bridge would not have been built if Michigan had lacked faith.

Our desire to grow and prosper will be accomplished if our community attitude is at a high level

at all times, and if we are united in our efforts to get new industry.

The vital role of community attitude in efforts to get new industry is the theme of an advertisement entitled "They Said It Couldn't Be Done" which appears today in this newspaper. It is another in a series of industrial development advertisements sponsored by the Michigan Press Association and the Michigan Economic Development Department which appear in this and 316 other Michigan newspapers as a public service.

### Strawberry Crop Up For This Year

Michigan Crop Reporting Service predicts that Michigan will produce about eight percent more strawberries this year than last.

Crop reports indicate that the west coast states should produce fewer strawberries for freezing than in 1958. This may strengthen demand for frozen berries in Michigan, according to G. N. Motts, farm economist at Michigan State University.

Motts says about one-third of Michigan's strawberry crop usually goes to freezing plants. The state ranks third or fourth nationally in production. Top strawberry-growing counties are Berrien and Van Buren.

If the man is gay, the girl is likely not to be gay that evening, the reason for which is a mystery.

## Handicapped Like Independence; Over-Protection Can Slow Adjustment

Over-protecting a handicapped person is one of the surest ways of slowing his mental and physical adjustment. "You can help him most," says a therapist at The University of Michigan Medical Center, "by helping just as little as necessary."

Miss Lyla M. Spelbring, supervisor of occupational therapy at U-M Hospital, said the best home therapy for the handicapped persons is to encourage him to become self-sufficient.

"Rather than emphasize the handicap," she said, "the goal of a rehabilitation program should be to make the maximum use of the patients' remaining capabilities."

In the hospital hours of training go into teaching each patient the tasks he can still manage, and this program should be continued when he returns home.

Sometimes highly specialized devices must be tailored for an individual patient by the Adaptive Equipment Section of the U-M Medical Center.

More often, however, the therapists have discovered ways to adapt simple equipment to meet the needs of their patients. They bring skill, energy and a lively imagination to their work.

A fork with a sharpened edge serves as both knife and fork and allows a one-armed boy complete independence in feeding himself.

One housewife who was paralyzed on one side from a stroke needed her good arm for the cane that helps her walk. Yet she has learned to set her dinner table in one quick trip. An ordinary wheeled cart does the trick. She loads the dishes on the cart, hangs her cane on the handle, and uses the cart for needed support as she moves from kitchen to dining room.

Not only does this save hundreds of steps, but it gives her new assurance that her usual role in the family is far from ended.

"Doing things for himself, no matter how limited, gives the handicapped person needed self-respect and a feeling of achievement," Miss Spelbring said. On the other hand, over-protectiveness by family or friends may actually harm his chances for physical and psychological recovery.

At the U-M Medical Center men and women with limited use of their hands can even be re-taught to play cards. Women learn to cook meals. There is a complete program on personal hygiene, so the handicapped can re-gain their sense of independence.

But urging the patient to help himself does not mean pushing him into things he cannot do, Miss Spelbring warned. The decision requires a professional sense of judgment, and calls for consulting doctors and therapists.

Luckily, most handicapped persons can be taught to conduct their own personal, vocational and recreational needs, Miss Spelbring believes. It takes time, effort and concentration. By not helping him too much, you will actually aid him in the long run to become an integral part of the family.

### THORNAPPLE EXTENSION GROUP ELECTS OFFICERS

The Thornapple Extension group met Monday evening at the home of Mrs. M. DeGood. The officers for the following year are Mrs. C. Heemstra, chairman; Mrs. H. Sytsma, vice-chairman; Mrs. M. DeGood, secretary-treasurer; and M. E. Strong, community chairman.

Mrs. L. Scott and Mrs. M. DeGood will be project leaders; Mrs. P. Paap, safety chairman and Mrs. R. Timmer will serve in the office of the reporter.

"Sure it will grow hair on a door knob. Look!"

# THE NEWSPAPER

... all things to all men ... and by all taken for granted!

## Picture Your Town Without A Newspaper!

Downright compulsive, isn't it, this consuming curiosity about what's going on around town?

No, you're not nosy—just curious. You believe that most of your public servants are honest . . . that your police servants are honest . . . that your police and courts are free from corruption . . . that the politicians aren't plotting to steal the city hall.

And then you try to picture your town without a newspaper!

Dimly, you recall something that Thomas Jefferson once said: "Were it left to me to decide whether we should have a government without newspapers or newspapers without government, I should not hesitate to prefer the latter."

Nonsense! That was long ago. It's different now. This is the electronic age. What with split atoms, split stocks and split second jet-way-of-living, we now have all sorts of checker-uppers on our civic goings-on.

But have we? Let's take inventory.

Whatever wonders and wizardries communication offers today, one thing remains the same: the heart of the free press is still the good reporter. And the good newspaper—its printed words documenting human happenings—is still the initial instrument in the protection of rights and liberties throughout the land.

The fact is plain. And it's reiterated in the record: Almost every day some American newspaper—ranging in size from the mighty metropolitan daily to the small town weekly—is acclaimed for its constructive efforts in helping to build a better community . . . or for its vigilance in searching out and snuffing out corruption, tyranny and injustice.

In this service, traditionally—yes, and inimitably—the newspaper is still supreme.

So, if you will, keep on taking your free press for granted. But—if you value your freedom—don't let anything or anybody take your newspaper away from you.

## THEY SAID IT COULDN'T BE DONE

They were dreamers . . . the men who talked of a bridge some day linking Michigan's Upper and Lower Peninsulas.

But after nearly 100 years of dreaming, the bridge that couldn't be built is a reality.

The Mackinac Bridge—one of the world's wonders—stands majestically today as a symbol of the spirit, strength and unity of the people of Michigan.

Let it too be a symbol of the vision, the strength and the united determination of our own community.

Let us work together—no letup, no factions—for the progress and prosperity of our community. . . . Some will say it can't be done.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community grow and prosper.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

**QUOTE:**  
What makes democracy work is the tireless activity of the few and the comparative indifference of the many—provided that the few don't make themselves into an all-powerful class and are never relieved of the fear that the many may wake up.

Everyone in the family can help keep the house in order by putting things in their planned storage place, say home management specialists at Michigan State University. Clothes thrown on chairs or on the floor and books left on tables result in a cluttered house and a frustrated homemaker.

### Living Beauty in Michigan

Many of Michigan's wildflowers, such as this pink lady's slipper, are becoming rare in the southern lower peninsula due to man's intensive use of land for agriculture, transportation, industry and suburban developments. Although much of this has been essential to the state's growth, a great deal of unnecessary damage has, and is, being done to natural habitats through ignorance and unconcern. Indiscriminate picking and commercialization of wildflowers fall into this latter category.

## LANSING Observer

Advancing through the Legislature is a bill empowering the State Superintendent of Public Instruction to compel 1,737 rural school districts to build new high schools or consolidate with their neighbors against their will.

The voters and taxpayers would have little to say in the matter—except dig up their money.

Conceivably, the step toward state dictatorship could add \$300 million dollars to the school construction debt which already exceeds \$650 million in Michigan.

The Utopian planners who control the Department of Public Instruction and the Michigan Education Association would scatter new high schools from Monroe to Ironwood, and compel about 100 rural districts to replace buildings they consider obsolete.

The plan originated in the department of Dr. Lynn M. Bartlett, the Democratic State Superintendent of Public Instruction. It has the approval of the politically-potent M.E.A.

Surprisingly, the bill establishing a state dictatorship passed the House by a vote of 66 to 33 without creating much protest. It is now in the education committee of the Senate, headed by Senator Arthur Dehmel, Unionville Republican.

The Association for Rural Education is alarmed. So are the Farm Bureau and the Michigan Township Association. But the determined drive by "progressive" educators to win arbitrary power over the local school districts has not attracted much public attention because of the hot legislative fight over new taxes.

Dr. Bartlett and his colleagues have been frustrated by the repeated refusal of voters to consolidate districts. Their dream of a dictatorship was conceived years ago, but no direct action was taken until the people in more than a dozen districts voted down consolidation schemes during the last year.

So they struck with force this year, contending that the voters should be stripped of their right to govern themselves.

At present, two or more districts can consolidate if a majority of

Nearly all of the 1,737 districts without a high school now pay tuition for their high school students by contracting with a neighboring district.

Tuition costs are re-imposed by the state under the distribution of a maximum of \$190 per student.

Of the 2,320 districts in Michigan, only 583 have high schools.

The bill approved by the House provides that if a school district does not maintain grades nine to twelve, "each such district within 36 months shall attach itself totally or in part to one or more districts maintaining grades kindergarten through twelve, or establish grades kindergarten through twelve within the district."

The people of the district would vote on the construction of a new high school, if one were necessary. But the State Superintendent would have power to approve or veto the plan.

The districts would have until the fall of 1963 to consolidate or start their high schools.

Thereafter, the State Superintendent and the State Board of Education could compel compliance.

Louis Schwinger, former member of the legislature and now president of the Saginaw County School Board, wrote Senator Dehmel:

"If this bill is passed, a long step toward totalitarian government will have been taken."

Ultimate goal of the educators is consolidation of Michigan's 2,320 school districts into three—in the Lower Peninsula and one in the Upper.

It is part of a drive to eliminate townships and slice the state into a handful of counties.

Dr. C. Rolan Anderson, director of Field Services from Eastern Michigan College, let the plot out of the bag when he told a Port Huron Conference of school teachers:

"We may have needed 1,750 townships in 1909, but we surely don't need them now. I don't think we even need 83 counties."

"There is no more need for 2,320 school districts than there is for our 1,750 townships."

the voters in each district consent.

### The Luckless Legion by Irwin Caplan

The Travelers Safely Service

"READING NOT REQUIRED FOR A DIPLOMA THESE DAYS?"

Drivers under 25 were involved in 27% of the fatal accidents in 1958.

### What Would a 'Piggy-Back' Income Tax Really Cost You?

Sample figures (for typical family of 4, with \$5445 income)	Your own figures from your Federal tax return
My 1958 Federal income tax payment was . . . . . \$500	\$
State tax would be 7% of Federal tax . . . . . x 7%	x 7%
Amount of state tax for year . . . . . \$ 35	\$

(If you want to get the approximate amount which would be withheld from your pay, divide the last figure in the right-hand column by the number of your paydays. In the example shown in the left-hand column above, the state would withhold about 67 cents a week from the taxpayer's pay.)

ASK YOURSELF WHETHER THIS IS A FAIR METHOD OF TAXATION. Remember that the alternative of a 1-cent increase in the use (sales) tax would mean a one percent increase in the cost of everything you buy.

LANSING—Governor Williams this week asked all Michigan citizens to figure out for themselves how the proposed "piggy back" state income tax would affect them.

The Governor circulated copies of the above form, on which he said, any taxpayer can figure his own cost under the bi-partisan plan which has been advanced by the House Taxation Committee.

"The people of Michigan have been subjected to an incredible propaganda campaign against any form of income tax," the Governor said. "But it will be impossible to fool the people on this 'piggy back' tax because every taxpayer can figure out for himself how much it will cost him."

"All he has to do is to fill out the simple form reproduced here. All he needs is one figure—the amount of income tax he paid Uncle Sam for 1958.

"If Michigan taxpayers will figure their own tax on this simple form I am sure they will come to the conclusion that this type of income tax is simple, fair and reasonable.

"For about half the people

of Michigan, this income tax would cost less than a one-cent increase in the use tax. That would be true for most family groups with incomes of \$6,000 a year or less.

"Those who would pay more under this program should remember that it will permit cancellation of other state taxes—the intangibles tax, the corporation franchise tax and the business activities tax. A one cent increase in the sales (use) tax would not permit cancellation of these other taxes.

"As a matter of fact I think upper-income taxpayers will react favorably to this program, once they understand it—because I don't think they ever wanted a free ride on the sales tax pennies of those who earn less than themselves. I believe Michigan citizens at all income levels are willing to pay state taxes according to ability to pay—provided they can see what it would cost them, and provided everybody is treated alike.

"So I say to Michigan citizens—get out your pencil and fill in this simple form. Don't be misled by propaganda—figure it out for yourself!"

Your Washington Review  
by  
Congressman  
**JERRY FORD**

President Eisenhower holds a weekly conference on legislative and related matters every Tuesday morning at 8:30. The Vice-President, members of the Cabinet, his White House staff and the Republican leaders in the House and Senate regularly attend. When special legislative issues are on the agenda individual members of the House or Senate who are most familiar with the subject are invited to participate in the discussions. On three occasions this year your Congressman has attended White House legislative conferences and in each case the purpose was to discuss various aspects of our national defense program.

Perhaps it might be well to explain the overall purpose of these weekly conferences. First, the President wants to be fully and currently informed on the status of his legislative recommendations to the Congress. Such a report by the House minority leader, Congressman Halleck, and the Senate Republican leader, Senator Dirksen, keeps the Cabinet officers and the White House staff up-to-date on what is taking place in committees and on the floor.

The second aim of such weekly conferences is to offer an opportunity for the minority leaders to submit Republican legislative policy to the President and others in the executive branch of the federal government. In other words, these meetings have a dual objective—a two way street which results in greater cooperation, a singleness of purpose and better results.

When you are scheduled to appear at a White House morning conference, you leave the family after an early breakfast and allocate plenty of time to arrive before 8:30. You drive up to the gate on Pennsylvania Avenue, a White House guard checks to see if you are on the list and you drive in and park on the grounds. You walk into the Executive office wing on the west side and are shown to the Cabinet Room.

As you enter a few minutes before 8:30 you see a table with hot coffee. One picks up a cup and moves down the room to the seat set up for him at the conference table. While awaiting the others, members of the staff, the Cabinet, and of the Congress chat informally. When the President enters the Cabinet Room from his office, everyone rises. He takes his seat at the middle of the table and the conference begins with a discussion of the first problem on the well-planned agenda.

The agenda last week had the Defense Appropriations bill at the head of the list. The President

made a few remarks; then asked Representative Taber, ranking Republican on the Committee on Appropriations, to kick off the discussion on what our Committee had done with the military budget. Your Congressman followed with a detailed explanation of the major changes and issues in the \$40 billion appropriations bill.

The President asked many questions and requested comments from his staff. Also participating was the Vice-President who attends all such gatherings and sits across from the President. Senators who were present expressed their views. After 45 minutes of informal but penetrating discussion the conference passed on to the next problem on the agenda.

The four of us who were there on military matters, the Deputy Secretary of Defense, the Comptroller for the Defense Department, Rep. Taber and your Congressman, picked up our papers and quietly left the Cabinet Room.

I came away from the White House with the personal feeling that President Eisenhower has strong views on the adequacy of his recommendations for our national security. He did not agree in every detail with the action taken on his program but in general he approved. He was very pleased that the Committee had left him certain flexibility in the handling of the funds which is so necessary in this era when scientific breakthrough can make yesterday's weapons obsolete tomorrow.

Let me conclude by saying our President appears to be in excellent health. He was vigorous in expressing his views and is determined to achieve the results he believes are sound. Under no circumstances is he a "lame-duck." President who is merely marking time during the remainder of his second term. In my judgment, contrary to the forecasts of the cynics, he is doing a most forceful and effective job.

ON THE FLOOR: Later that same day the floor debate on the Defense appropriation bill got underway. The House of Representatives after two long days and a total of approximately 12 hours of debate, accepted the Committee recommendations with but one minor amendment. This provision, with which no one will quarrel, would bar the use of any funds for support by the armed forces of the Olympic Winter Games if any free nation of the world is prevented from participating. This action resulted from a recent decision by the Olympics Committee to expel athletes of the Republic of China from Olympic Activities.

## Church Membership and Crime Both Soaring in United States

America is having "both a religious revival and a moral decline," says William Hard in a magazine article, "How Law-Abiding Are We—Really?" He urges observance of Law Day, May 1, with pledges of respect for the laws of America and God.

Church membership, in proportion to population, was 36 percent in 1900, 49 percent in 1940 and 61 percent in 1957 but, in what Hard terms "a woeful paradox," we have the growth of dishonesty and violence. Since 1950 our crime rate has increased four times as fast as our population.

Bank robberies? In fiscal 1957: total of 157. In 1958: 270. Bank losses to robbers? In fiscal 1957: \$944,713. In 1958: \$1,621,561.

The cost of employe dishonesty

Third—A school where the basic skills for self-sufficiency and a respect for the cultural heritage of mankind are masterfully taught.

These are not isolated responsibilities but are shared mutually and cheerfully by the home, church and school.

These are notably present in the Forest Hills School District and in abundance. These factors made our work easier and rewarding. Our grateful thanks to all who have contributed to making the First Year of the Junior-Senior High School a success.

C. J. Boerman,  
 Principal, Junior High  
 D. Van Landingham,  
 Principal, Senior High

in American business enterprises can be safely estimated at between 500 million and one billion dollars a year, according to Philip Laing of the Aetna Life Affiliated Companies of Hartford, Conn. And it is increasing. Bonding companies paid two and a half times more in dishonesty losses in the last full fiscal year than they did the year before.

Nor is such white collar crime limited to poorly paid employees. The head of a business investigation firm in New York says that 60 percent of dishonest behavior in business is by supervisors and executives.

Women account for 70 percent of dishonesty turned up in recent months: Dishonesty now costs America many times more each year than fire. Fraud is the most rapidly increasing type of crime, with bad checks written in 1958 having a face value of eight million dollars.

In an attempt to reverse the trend, recent Presidential proclamations have established Law Day to be marked each year on May One. It is being promoted by such organizations as the American Heritage Foundation, United States Conference of Mayors and General Federation of Women's Clubs. The American Bar Association is supporting the movement.

### New Fire Fighting Weapons Being Used By Conservation Dept.

The Conservation Department's fire fighting forces, featuring several new weapons and tactics, are keyed for the busy months that lie ahead.

Two newly-acquired Piper Cubs have been assigned at Newberry and Gladwin in an experiment designed to test the efficiency and dependability of using aircraft in fire detection.

Piloted by Robert Howard, the plane at Gladwin will cover Clare, Gladwin, Isabella, Midland, Bay, Arenac, Osceola and Mecosta counties and the northern portion of Montcalm, Gratiot and Saginaw counties. From the Newberry station, pilot James Knoll will patrol the upper peninsula east of the Hiawatha national forest.

The Department's other planes are based at Marquette, Lansing and Roscommon.

Department fire control crews will use new tactics demonstrated at two fire behavior schools last winter. Instruction at the schools was aimed at providing fire fighters with an understanding of weather conditions, fire characteristics and their interactions. A similar school will be staged in June for employes responsible for fire control in the upper peninsula.

Elsewhere, spring tests will be made on a rotary sand spreader which was developed at the Department's forest fire experiment station last winter. The device is expected to be a prime weapon in controlling crown fires.

Despite these advance measures, the responsibility of fire prevention rests squarely on the shoulders of the public. Milton M. Bergman, in charge of the Department's fire control section, urges the public to use extreme caution during the critical months of April and May.

Bergman also reminds landowners that they must obtain a burning permit before starting open fires other than the domestic type.

Persons failing to do so are liable to a \$50 fine and-or 90 days in jail. Persons caught maliciously setting fires are liable to a fine of not less than \$100 nor more than \$500 and-or 10 years in jail.

### THINGS TO COME

An inexpensive clothes hanger for drip-drying garments inflates into shoulder form.

An anti-sleep ear-button alarm for drowsy drivers emits a spiningling whine when the head nods, shuts off when it snaps to.

Read Suburban Life Ads!

## Reviewing the Year

When the Forest Hills High School opened in Sept., '58, no one anticipated the full fruitful year we have experienced. The exceptional success is the result of three factors: one, a student body whose goals are high; whose attitude toward learning is exceptional; and whose ambition is to get the finer things from life; two, a parent body who expect the best of and for their children and extend sincere cooperation to the faculty to obtain the best education possible; three, a faculty deeply dedicated to education as a profession and who love to work with youth.

All three elements are considerably above average in this area. It has been established that three things must be present to develop the best in a young person—

First—A home where good manners and the graces for successful happy living are taught.

Second—A church where the youth obtains a moral and spiritual background to meet the adversities of life with clarity of thought and purpose.

*The Old Timer*

"America has more experts on marriage than any other country—and more divorces."

## Second Polio Shots to Be Given in Cascade

Dr. W. B. Prothro, City-County Health Officer, reminded the parents of those children who received Polio immunizations in May at the Health Departments special Polio clinics, that the next series of immunizations will be given in Cascade Township Hall, June 16, from 9 to 11:30 a. m.

Dr. Prothro reminded again that the main objective in providing the clinics is to make sure that children in the age group "three months to twenty years" have at least two of the three desired immunizations before this year's Polio season. Those having had two injections at least seven months ago may secure their third injection.

Fourth injections are not thought necessary and will not be given at the clinics.

Meerscham, used in pipes, is a soft white mineral.

## Surgery Helps Many Restore Their Hearing

Modern surgical advances are helping many deaf persons regain normal hearing, say two specialists from The University of Michigan Medical Center.

Dr. John Magielski and Dr. Merle Lawrence (Ph.D.) of the Department of Otolaryngology report that many hearing problems can be corrected by surgery if the cause lies in certain parts of the ear.

If the difficulty lies in the external ear canal, ear drum or a part of the middle ear, hearing can often be restored. "But surgery is useless," the doctors point out, "if the nerve that carries the sound waves to the brain is not functioning properly."

In normal hearing, sound waves vibrate through several chambers to reach the inner ear. Then audi-

tory nerves carry the signal to the brain. An interruption anywhere along this chain can create a hearing problem.

The simplest form of hearing interference is a bone blocking the external ear canal, sometimes found in the newborn. Surgeons can create a new entrance for the sound.

Enlarged or infected adenoids often back up fluid in the middle ear and cause a hearing loss. The surgeon can correct this problem by removing the adenoids and draining the fluid through a small incision in the ear drum.

Other operations deal with defects of the ear drum and the structures behind it in the middle ear, Doctors Magielski and Lawrence report. To relay sound waves efficiently, the ear drum should be intact and skin grafts are sometimes used by otolaryngologists to repair any punctures.

Surgeons can also reconstruct other defective parts of the ear,

but have been unsuccessful in correcting damage to the nerve itself.

Your physician can determine the kind of hearing loss you have and if an operation could help.

## Run Your Home in Business-Like Way

You may not run a grocery store or gift shop, but if you have a family you have a "business." According to Eleanor Densmore, County Extension Agent in Home Economics, the homemaker is often the business manager, especially when it comes to keeping track of things.

Any business has important papers to look after, and the family is no exception. Why not set aside some time to put things in order?

For instance, both husband and wife—and other responsible family members—should know what valuable papers the family has and where they are located. You may

like to keep some things in a safe-deposit box at the bank. Many families use these facilities for storing insurance policies, stocks and bonds, property records, contracts, household inventories, and other valuable papers that would be difficult to replace.

At home—in a safe place—things such as cancelled checks, guarantees and copies of income tax returns can be filed. It's also well to keep a list of valuable papers stored in the safe-deposit box.

When you take time to sort things you have an opportunity to check those life insurance policies to be sure the beneficiaries are correct. Check to see that the insurance on your house and furnishings is enough to cover their present value. You can also make sure your will is up to date.

Running your family is like running a business, and it's well to keep your business in order.

The Workers' Conference of the Cascade Christian Church will meet in Fellowship Hall on Tuesday evening, June 16, at 8 p. m.

### Health Dept. Reports On Leading Death Causes In Michigan

Two changes occurred among the 10 leading causes of death in Michigan during 1958, the Michigan Department of Health reported today. Arteriosclerosis moved up from eighth to seventh spot, changing places with immaturity. And postnatal asphyxia and atelectasis (inability to breathe immediately after birth) replaced cirrhosis of the liver as the 10th leading cause. Deaths in Michigan last year totaled 65,460, according to the health department's provisional figures. This was a decrease of 484 from the comparable figure for 1957.

As they have for the last half century, heart diseases ranked as the No. 1 cause of death in Michigan last year. However, deaths from this cause were 144 fewer than the previous year.

Other leading diseases that caused fewer deaths in 1958 than in 1957 were strokes, accidents, pneumonia and influenza, congenital malformations, and immaturity. Immaturity refers to babies weighing 5½ pounds or less at birth. Cancer, the second leading cause of death again in 1958, claimed 134 more lives than in 1957. Other causes that took more lives in 1958 than in 1957 were diabetes, arteriosclerosis and postnatal asphyxia and atelectasis.

The 10 leading causes of death in Michigan in 1958 and the number of deaths caused by each were as follows:

Heart diseases	25,043
Cancer	10,863
Strokes	7,505
Accidents	3,215
Pneumonia and influenza	2,202
Diabetes	1,590
Arteriosclerosis	1,284
Immaturity	1,205
Congenital malformations	1,011
Postnatal asphyxia and atelectasis	878

### 30 Million Conifers To Be Planted

Cooperators in Michigan's 75 soil conservation districts are getting their "green thumbs" limbered up to plant nearly 30 million conifer trees this spring.

These plantings are carried out as part of the reforestation, erosion control and water management activities sponsored by the districts, according to Russell G. Hill, extension specialist in soil conservation at Michigan State University.

Hill estimates that in addition to these 30-million seedlings an equal number is being planted by own-

### South Kent

### Scout Column

In Memoriam

On Wednesday, June 3, our South Kent District Commissioner, Theodore Novakowski was the victim of a heart attack. Ted had just assumed the office of Commissioner on April 7, at our annual meeting. He had taken part in the regular training course at Chicago on April 18, and the instructors training course at St. Mary's Lake on February 21.

He assisted Dale Robert, retiring Commissioner for several years, helping organize and carry out plans for each monthly round table, and also served as neighborhood commissioner for several years. Ted was Assistant Cubmaster of Pack 3282 which meets at Godfrey Lee, and has been in Scouting about five years.

#### District Meeting

The District meeting of the South Kent District Committee will meet at Godwin High School on Thursday, June 18, at 7:30 p. m.

#### Win Safety Award

At the Grand Valley Council meeting held at Camp Lion, June 4, a traveling safety award trophy was presented to the Kent County district, Boy Scouts of America, by Vernon Hale, on behalf of the Greater Grand Rapids Safety Council, in cooperation with the downtown Kiwanis Club.

This group developed a Youth Safety Council, made up of three divisions; Grand Rapids High Schools, high schools of Kent County and youth sponsored organizations. It was as one of an approximate eighteen of the latter organizations that the Boy Scouts won the trophy for outstanding accident prevention program, public safety, the Emergency Service traffic survey, bicycle safety tests, anti-jay walking campaign, and the distribution of tornado safety pamphlets, were part of the program the Boy Scouts carried out.

### Letter to Editor

Dear Sir;

We know that the cold winter is past and we don't want to think of the next winter coming—but we would like to thank Mr. Brunsink of Cascade Lumber Co. for letting Mr. Burger clean up this old gravel pit so the kids of Cascade can sled in safety next winter.

Thank you, Mr. Brunsink and Mr. Burger.

Sincerely,  
Mothers of Cascade

ers who are not soil conservation district cooperators. Foresters at Michigan State say that between 2½ to 3 million acres of privately owned land remains to be planted even though tree plantings have increased rapidly in recent years.

Most of the planting made by soil conservation district cooperators will be left to mature as lumber, chemical or pulp trees. Some may be harvested for Christmas tree purposes. Such returns along with cost-sharing from the agricultural conservation programs will help reimburse a land owner for this important long-time conservation work, points out the specialist.

Most of the planting stock is purchased from private and public nurseries. A few districts operate their own tree nurseries, but they contribute only a small part of the total planting stock. Many districts have mechanical tree planters for renting to cooperators at a nominal fee. These planters along with many educational programs have helped increase reforestation work in recent years.

### Polio Immunization at Forest Hills, June 15

Dr. W. B. Prothro, City-County Health Officer, reminded the parents of those children who received polio immunizations in May at the Health Department's special polio clinics, that the next series of immunizations will begin on June 15.

Dr. Prothro reminded again that the main objective in providing the clinics is to make sure that children in the age group "Three months to twenty years" have at least two of the three desired immunizations before this year's polio season. Those having had two injections at least seven months ago may secure their third injection. Fourth injections are not thought necessary and will not be given at the clinics.

Dr. Morris Wilderom, Public Health Physician in charge of the Health Department's school health program, announce that the location and time of the clinic in this area would be at the Cascade Township Hall on Tuesday, June 16, from 9 to 11:30 a. m.

Dr. Wilderom said that children coming to the clinic for the first time must have a "Parent Consent Slip" that contains the following information: Child's name, age, a statement requesting the immunization, and whether 1st, 2nd or 3rd injection, and signature of the parent or guardian.

Those attending the May clinics need not bring a second consent slip.

Dr. Prothro said that with the peak months of the polio season approaching it behooves every citizen regardless of age, to contact their private physician for polio immunizations.

#### VISITS FROM TEXAS

Don Kleinhans of Houston, Texas, formerly of Cascade, was a visitor in Cascade the past week end. He has been spending two weeks with his parents in Michigan City, Indiana.

#### ELECTED STUDENT COUNCIL PRESIDENT

Jerry Gretzinger, son of Mr. and Mrs. Gerald Gretzinger, East Paris Rd., was elected President of Ottawa Hills High Senior student council for the 1959-60 school year.

#### AFTER GRADUATION PARTY

Mr. and Mrs. Frank Atherton, Buttrick Ave. S. E., entertained for their son, James, after his graduation Wednesday evening from Middleville High School.

There were about 35 friends and relatives in attendance.

#### COMMUNITY CLUB PICNIC ON TUESDAY, JUNE 16

The Sunshine Community Club will meet at the home of Mrs. Milton Heaven, 7249 Denison Dr., S. E., on Tuesday, June 16, for their annual picnic and the last meeting of the year.

Bring your own table service and potluck picnic. Coffee and ice cream will be furnished. Dinner will be at 1 p. m.

### BIRTH ANNOUNCEMENTS

Mr. and Mrs. Ed VandenBerg, 5850 Hall St. S. E., are receiving congratulations on the birth of a daughter, Joan Kay, on May 24, at Blodgett Memorial hospital.

Rachelle Renee is the name given a daughter born to Bruce and Kathy Beak, Canterbury S. W., on May 28 in Blodgett Memorial hospital. Bruce is the son of Mr. and Mrs. Charles Beak, Laraway Lake Drive S. E.

#### MR. AND MRS. POTLUCK PICNIC, JUNE 12TH

The Mr. and Mrs. Club of the Ada Community Reformed church will have a potluck picnic supper at Fallsburg Park on Friday evening, June 12, meeting at the church at 7 p. m.

#### SNOW METHODIST CHURCH BIBLE SCHOOL TO BEGIN

The Snow Methodist Church will hold their Daily Vacation Bible School for two weeks, beginning Monday, June 15 from 9:30 a. m. until noon.

Anyone having transportation to offer, please call Mrs. Edna Hadden, TW 7-7686.

#### ATTENTION MOTHERS OF LITTLE LEAGUERS!

The Women's Auxiliary of the Little League will hold an important meeting at the Cascade Town Hall on Thursday, June 11, at 8 p. m.

This meeting is for all mothers of Little League players, including the Minor League.
