Teachers view Board offer

Recently the Forest Hills School Board published a statement in regard to an offer made relative to the need to adjust the current wage plan and year round employment for those teachers who are the primary wage earner in their fam-.Other fringe benefits were discussed such as extra sick leave, and extra pay for outstanding service.

The following statement was issued in answer to the Board by Gerald Broekschmidt, Chief Negotiator for the Forest Hills Education Association which represents the teachers and their views

'We feel that the school board proposal insofar as it offers full year employment to those who desire it is very commendable. It recognizes that the teaching profession is made up of two distinct groups: The primary wage earner who must work the entire year to support his family and others who because of their personal situation need only to work during the regular school year.'

'Current teacher shortages make it obvious that both types of teacher are very necessary. We believe that this shortage exists today because many who are trained as teachers do not enter the profession or leave it early in their careers due to inadequate yearly salaries. In the past these primary wage earners have been forced to take whatever non-professional employment they could find during the summer. Needless to say, this yearly summer job hunting is not a very encouraging prospect after one has spent four or five years in college

preparing for his profession." "From the community's standpoint we feel that a very comprehensive summer program could be developed at a very reasonable cost since the physical plant and the administrative structure are already

"A preliminary bargaining session brought out that major areas of difference exist with regard to progression, differential for summer employment and fringe benefits. Education has long lagged behind other occupations in the area of fringe benefits and this is very evident at Forest Hills where no medical or life insurance is offered. We are hopeful that an agreement can be reached but the original board offer was unacceptable in the above mentioned areas.'

Thieves take St. Bernard

Thieves with big ideas struck at the home of Mr. and Mrs. Thomas Irwin, 5136 Cascade Road, SE, early Sunday morning. Not content with waiting for the Easter Bunny, they made off with Irwin's 240-lb. St. Bernard, Christopher, and 20 foot of chain.

Chris, described by the State Police as "definitely stolen" is a friendly giant with a very black face. He is the pet of the Irwin's five grandchildren and you can be sure they are five very sad children right now.

There is a reward being offered for information leading to the recovery of the dog.

Police officials are now on the alert for a robbery where the loot consists of dog food.

Dog Found

Shortly before Suburban Life went to press we were informed of Chris' safe arrival home. Five very thankful youngsters greeted him.

The case is still under investi-
