## Lowell Reading Aid Program

A new "Creative Reading Program," which can teach children in the early elementary grades having serious reading problems to read sentences within an hour, is now in use here at Runciman Elementary School. The local school is one of nearly a thousand classrooms in 24 states, that have begun to use this remarkable program this Fall. It is produced by Grolier Educational Corporation.

The program had been tested in over 100 classrooms in Baltimore, Connecticut, New Jersey, New York City and Philadelphia during the past year, always with positive results. It supplements the teacher's own methods and techniques.

At first school administrators and educators are skeptical when a representative calls on them to demonstrate our Creative Reading Program.

Then we ask them to bring forth the poorest reader in the first, second or third grades in their school. Many of these children have never been able to read a word, even though a variety of methods and systems have been used in an attempt to help them. In nearly every case, the child is reading sentences — and enjoying the experience — within an hour.

The basic element in Grolier's reading program is a small, blue-and-white record player, which most children dub "The Blue Machine." Accessories include audio records and hundreds of cards printed with words, phrases and simple sentences on one side and a colored dot on the other. The dots on the cards are color-coded to colored bars on the record player.

After the child "reads" each card, the "Blue Machine" tells him immediately if he is correct. He quickly learns the words he sees and hears, and after a short while, the cards begin to tell him a story. The first story he learns is "Cinderella." When the child has mastered it — in about six weeks — he takes home a "Cinderella" booklet and reads the story to his family.

Grolier emphasizes that the new program is not a miracle-worker. It is an effective, supplemental aid to any teacher's preferred approach to reading.

## Protest Added Special Assessment For Sewers

There were 15 citizens who have property assessed for construction of new sewer on Foreman Street and High Street present at the hearing on Monday.

Their assessments which were originally estimated at \$3.35 per front foot increased to over \$6.00 a front foot. The city officials tried to explain that the effects of inflation were not taken into consideration when the \$3.35 figure was used to estimate costs.

Because of the big difference in total costs, the council offered the option of extending the time of payment and offered an adjustment in the carrying charges on the increased cost.

### Appointed Gould Rivette

The Mayor named Gould O. Rivette, 417 Washington Street to the planning commission to fill the vacancy caused by the resignation of Dr. Robert Reagan. Reagan was appointed last July but found his work as president of the school board kept him from attending meetings.

Mr. Rivette is a member of the school board and active in many Lowell organizations.

## Post-Office Men Win Safe Driving Award

The National Safety Council Safe Driver Award was awarded to four employees of the Lowell Post Office this week.

The following names and award years given were as follows: Jack Fonger, 9 year award; William Dawson, 8-year award; Paul Kerekes, 8-year award; and Bernard Kropf, 4-year award.

The National Safety Council Safe Driver Award is the recognized trademark of professional drivers who have proved their skill in avoiding traffic accidents. The more than two million drivers who have earned the award since 1930 have made it the highest award for professional safe driving performance.

The Safe Driver Award emblem is a gold-plated metal shield bearing the words "National Safety Council Safe Drivers Award" in gold on a hard fired, blue enamel background that borders the familiar figure of the man behind the wheel. A wallet-sized certificate accompanies each award. This certificate indicates the number of safe driving years, the date earned, the registered serial number of the award.

The total miles driven during this period is over 575,000 and all were driven within a radius of seven miles from the Lowell Post Office.

## UNION BANK PROMOTES TWO LOCAL MEN

ERNEST E. GRAF

M. JACK HARTLEY

"If schools had the money to hire enough teachers, para-professionals, or aides to work with each non-reader or poor-reading child on a one-to-one basis, most children would learn to read," Mr. Waller says. "But few schools can afford the one-to-one help that, in effect, is what this program provides — because the child works with the Blue Machine, all by himself. The recorded voice quietly and pleasantly talking to him alone becomes his good friend, as well as his teacher."

After the child learns to read the cards alone, he then reads them to his teacher, who may be a para-professional, teacher's aide or even an older child. When he does this successfully, he goes on to the next set of cards. In the meantime, his teacher is free to attend to her other responsibilities.

Schools that have been using the Creative Reading Program tell about its additional benefits: for instance, many children who previously had a high rate of absenteeism are no longer absent; many who were discipline problems aren't troublesome any longer; many with little or no interest in their other classroom subjects become more interested; their personalities improve; they are more readily "accepted;" and best of all, many who seldom smiled start smiling often.

## Jaycees To Hold Meeting

The possibility of organizing a Jaycee chapter in Lowell will be aired at an open meeting which has been scheduled by the Kentwood Jaycees for 8 p.m., Monday, January 11, at the Lowell City Hall.

According to the Kentwood Jaycees, the meeting was set at the request of many city young men, already contacted, who have expressed an interest in forming a Jaycee unit here. Donald H. Ludwig, President of the Kentwood Jaycees has reported that many young men already contacted will be present for the meeting.

At the briefing meeting, the Kentwood Jaycees will explain various phases of their own operation, community and membership benefits resulting from Jaycee operations and Jaycee chapter and membership requirements. A question and answer period will close the session, which will last no longer than ninety minutes.

The Jaycees is an organization whose membership is open to all young men between the ages of 21 and 35.

Purpose of the world-wide organization is the improvement of the communities in which chapters are located and personal development of its members; both objectives being accomplished through a wide variety of project activities.

Jaycee chapters are located in 6,100 communities in the United States and have a total membership of over 285,000. Internationally—Jaycee chapters exist in over 81 countries and territories.

Jaycees in this country have their own headquarters in Tulsa, Oklahoma—a memorial of honor of World War II dead.

## Water And Sewer Hearing For 36th St. Project

A hearing was held Monday evening prior to the regular bi-monthly meeting of the Cascade Township board. The township had received petitions and letters from residents on the north side of 36th Street asking for a water district between Patterson and Kraft Avenues. Sixty-two percent of the residents were willing to proceed and about fifty-three percent have agreed to favor a similar sewer project.

Resolutions to establish the water and sewer districts after engineers from Williams and Works prepare estimates and a second hearing is held were passed. It was felt that a closer look at estimate figures could be held in February. The interest was pegged at 1 percent over which the bonds are sold for with a probable seven percent total.

## 4-H Member Wins Award

An eighteen-year-old Alto girl was one of three 4-H members from Michigan who claimed a share of \$2,800 in scholarships at the 49th National 4-H Congress in Chicago recently.

Miss Janis Folkertsma, daughter of Mr. and Mrs. John Folkertsma, 5477 McCords Avenue, Alto, received a \$600 scholarship in the Entomology program from Hercules Incorporated.

Miss Folkertsma shared the scholarship award with James Koldoa of Wallace, and Dwight Baur of Charlotte. Each was named a national winner in programs arranged by the National 4-H Service Committee and supervised by the Cooperative Extension Service.

Some 1,600 delegates representing every state, Washington, D. C., Puerto Rico and Canada, participated in the congress.

In assemblies delegates were challenged through the theme "We Care." They were recognized for their accomplishments by leaders of business and treated to cultural and educational features.

## Bill Extends Council Terms

The Odd Year Election Bill that was signed by the governor December 22 automatically extends the terms of office of Lowell City Council members. Under the new act, the expiring terms of office of Harold F. Jefferies, Virginia Myers and Herbert Reynolds will be extended from April until January 1, 1972. The other two council members, Carlen Anderson and Dr. Herbert Mueller, are extended until January 1, 1974.

The law was designed to keep all elections in November, a time that most agree brings a better turn-out of voters; originally it was hoped that all cities and school districts would come under this provision of the law. However, because of opposition, the schools and cities that optioned themselves out of the act could keep their election dates the same. The Lowell council accepted the new election date and took no action to option the city out of the Odd Year Law.

If the Lowell Council was to option the city out of the Odd Year Act, it would have had to take the action on January 4; the last day to file petitions under the city charter is January 18 which is the date of the next council meeting. No action was necessary to bring Lowell under the Odd Year Act; the council will have to pass an ordinance before April 1 to extend the terms of office from one and two years to two and four years.

Under the Odd Year Act, the last day to file petitions is now June 15, 1971 for the primary election August 3, 1971. The same rule holds that there must be more than twice the number of candidates than there are offices to hold a primary (more than six candidates). The 1971 election will be on November 2, 1971 with the two candidates with the highest number of votes receiving four year terms and the third highest receiving a two-year term.

Two resident surgeons and four trained nurses are assisted by eight African medical aides and forty-five student nurses who have been selected out of two thousand applicants. Well-baby clinics are held in outlying villages. Other missionary families consist of ministers and teachers for the local primary and secondary schools and churches.

Miss Jones plans to return to the States in August and continue her medical studies.

## Cascade Board Hears Protest On Youth Group

At a well attended meeting of the Cascade Township Board on Monday evening, both sides of an issue regarding the Young Marines camp grounds on Thornapple River Drive were heard.

Presenting the position of the youth group were Commander Charles Reintges and First Sergeant Paul Gelmay. The Young Marines have been occupying land owned by Robert Wagner and using the property as a boot camp and training ground for boys between the ages of eight to seventeen. The property is zoned R-1, residential, and as such should not be used for such purposes, according to the township code.

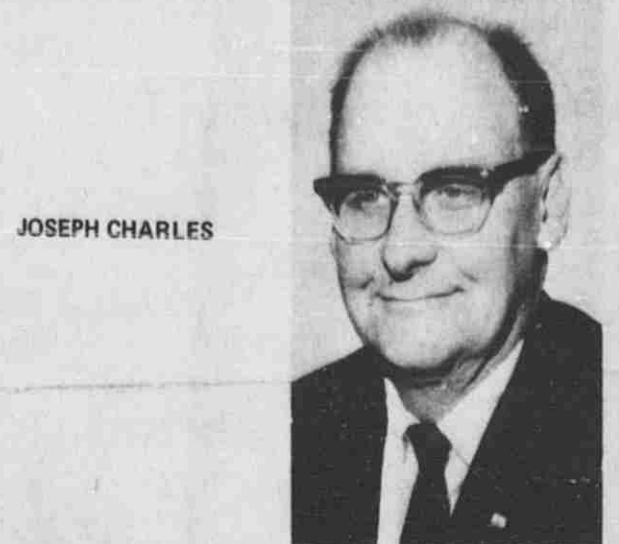

Several residents objected to the use of the land by the Young Marines and claimed noise and parking in the area were a nuisance. They asked the board to order the organization to evacuate the grounds.

Board members have been trying to locate more suitable land area for the boy's group in a location within an A-1, agriculture zone. The question of a relocation date was tabled temporarily pending more investigation.

The board voted to raise to \$75 the opening and closing charges for gravesites to non-residents effective immediately. Letters so noting will be sent to all funeral directors. The former charge was \$50; there is no charge to residents of the township.

Bids on the 28th Street bond sale were opened and read. Low bid offered by Old Kent Bank of Grand Rapids was accepted by the board, subject to review by township attorney, Walter Freihofer, with the Detroit Bond Council. The total bid was for \$93,332.50 with an effective rate of 4.3360 percentage between August 1, 1971 and August 1, 1980. There was no premium. Other bidders were Union Bank; Bayport State Bank; Leon McArthur Company, Battle Creek; Ryan-Sutherland and company, Toledo, Ohio; and National Bank and Trust, Chicago.

The board agreed to give Richard Marsman, Marsman Court, a temporary occupancy permit until December 1, 1971.

The men will meet for a luncheon at the Snow United Methodist Church; reservations may be made at the church office or with Martin Johnson or Robert Barnes, also by Thursday.

Saturday dinner will be for all team members, committee personnel, and other interested persons at 7:30 in the church dining room. This will be a potluck, with the meat being furnished. Again the evening program will be at 7:30 in the sanctuary, and nursery care will be provided for infants and small children.

On Sunday morning the visiting laymen will speak at both the 8:30 and 11 o'clock worship services, and they will also participate in the youth and adult classes during the church school hour. A potluck luncheon will be held at 12:30 with everyone invited.

The youth of the church and their guests will follow a separate schedule planned by the United Methodist Youth Fellowship and their advisers. Mr. and Mrs. John Gregg of South Bend will act as Youth Coordinators.

All persons of the church and any others in the community who may be interested are urged to attend the various phases of the Lay Witness program.

FOREST HILLS HI-LITES

It's always fair weather when good fellows get together. This well-founded cliche was proven again during the holidays by a group of neighbors and friends of the Bruce Chadwick's.

It was Jean's and Bruce's twenty-fifth anniversary. Grace Parker with the help of Marj Lyons organized a dinner party at Howard Johnson's for forty people anxious to aid the "bride and groom" in celebration. They thought to provide a wedding cake decorated with bells as a reminder of earlier days.

The stove will go aboard the Charlotte-Jean, the Chadwick's forty-five foot schooner which is berthed at Pentwater. Before it could be used, however, Bruce and Jean took a second honeymoon to Charlevoix. At least that's the name they laughingly gave their trip.

Among the guests at the party were Jean's mother, Mrs. E. D. Summers; her brother and his wife from Spring Lake, Jack and Rosie Summers; Bruce's mother and father, the Maurice Chadwick's; and the three Chadwick daughters, Holly, Claire, and Heather. Missing from the festivities was son, Christopher, who was home until the day before Christmas, but who had to return to Navy duty before the commencement.

On one day they played bridge, took in a movie, and had dinner at a restaurant. The following day they met to sew children's clothing for a charity organization. Tired of that after several hours, they cooked gourmet foods which they proceeded to eat in the glow of candlelight.

The third day found the women driving to Chicago for a shopping spree and a theatre date. Since they have remained friends throughout the continuous operation, they claim they will allow husbands to take off in the spring with best wishes.

Now the poinsettia can be set outdoors. If the plant has grown much, place it in a bigger pot. Carlson recommends a potting soil of two parts garden soil, one part peat moss and one part sand. Mix one tablespoon of superphosphate with each pot of soil.

When night temperatures don't go below 50 degrees, sink the poinsettia, pot and all, in the ground to the pot rim. "Best outdoor locations are well drained and slightly shaded," says Carlson.

## Saranac Youth Is Accidentally Killed

A ninth grade student in Saranac died from severe abdominal injuries after being pinned between a tractor bucket and his father's truck on the Carl Rasch farm on Ashley road near Lowell early Tuesday morning, December 29.

The youth, Steven Ross Trierweiler, 15-one of ten children, was riding his father Raymond of 5020 Page road, Saranac, when the tractor tipped forward about 8:45 a.m. The blade of the front loader crushed his body against the truck on which was mounted a portable grist mill.

Critically injured, the youth was taken to Blodgett hospital in Grand Rapids in the rear of the Rasch family station wagon. On arrival emergency measures relieved the unconscious boy and he was rushed into surgery, according to Kent county sheriff authorities.

However, he died on the operating table at 10:45 a.m. authorities said, from a lacerated spleen, liver and pancreas, and a tear in one of the larger blood vessels in the body.

The boy's father operates a portable mill in nearby areas moving from farm to farm grinding grain. Kent county authorities said the bucket struck the boy across the abdomen on a diagonal line.

Young Steven, active on the junior varsity football team at Saranac high, was also a member of the Boy Scouts in Saranac, and attended St. Anthony's Catholic Church.

Born February 9, 1955 in Lansing, he is survived by his parents, Mr. and Mrs. Raymond Trierweiler; three sisters, Diana of Traverse City, Gloria and Mary at home; six brothers, Michael in military service in Vietnam; and Roger, Allan, Mark, John and Jeffery at home.

Also surviving is his grandmother, Mrs. Pauline Trierweiler of DeWitt.

Services were held in Saranac January 2, from St. Anthony's Catholic Church.

Burial in Saranac Cemetery.

Respectfully submitted,  
Harold Metternick, Secretary
