LOCAL NEWS.

H. J. Bosworth is on the bridge with a fresh supply of confectionery etc.

The weather is fine and vegetation is on the center.

Tar roofing is a swindle. Sprague Bros have been lifting the swindle from their brick store and covering it with tin. It takes the "tin" to make a roof of tin, but it pays.

Wooding & Look and Hunt & Hunter have been pumping sweetened wind from their soda fountains for several days. The article has been in good demand.

The Secretary tells us, just as we go to press, that "we are going to have a fine show". Fine horses are coming in from all points. Next Tuesday the races will commence, and the week promises to be the liveliest ever seen in Lowell.

A temperance lecture will be delivered in the M. E. Church of this village, on Friday evening, May 30th, by the Rev. Mr. Flagg pastor of the Lowell Baptist Church. Admission free.

Little boys don't ask "Mother may I go out to swim," anymore. They go without asking. If these boys would carry birch gads with them when they return home from the water, they would save time and travel.

The Wonderful Decapitation which takes place in the museum, separating a man's head from the body and passing it around the museum, is not advertised on the bills but will positively be done at each performance. Thus it will be seen that Mr. Grady has more on exhibition than he advertises.

Mr. W. W. Hatch returned last week from a short visit to Minnesota and Wisconsin. He purchased while in the latter State, six car loads of spring wheat of the finest quality and ordered it shipped immediately to Lowell. Messrs. Hatch & Gray have made arrangements to have more of the same shipped in the future we understand.

No stuffed animals or wax figures in Grady's museum. Do not fail to witness the aerial flight to the clouds of Professor Plattner which takes place on the show grounds. Free to all; without money and without price. The lion and the lamb will lie down together in Grady's great show.

Among the delegates present at the General Conference of the Congregational Church of Michigan, held at Lansing last week, we notice the name of Rev. E. A. Sniderlin, of Lowell. We have done our very best to regard this as a joke too serious for anything except sober consideration and careful comment, but struggle as we may, there is a mischievous spirit behind us constantly urging us to inquire "Vots der brice uv beans Jake?"

DECORATION DAY.—Friday is Decoration day. Most of the larger towns are to observe this day in an appropriate manner. It is a day that should never be permitted to pass unobserved. Gorgeous show and grand military display are uncalled for. Gather your garlands of flowers; visit the cemeteries where sleep the fallen comrades, and quietly place them over their graves, thus renewing the vows you made years ago, never to forget their noble deeds and sacrifices.

LIVE MEN.—Among the live, go-ahead men in Grand Rapids are the Levi Bros., of the Star Clothing House. Besides carrying on an immense trade in the clothing line—probably the largest in the city—they are actively engaged in the sale of real estate. Having recently made an addition to the city of Grand Rapids, they are now selling city lots at \$150 and upwards, giving purchasers very liberal inducements in regard to time of payment. They only ask \$10 down and the balance to be paid in monthly installments of \$5. The Levi Bros. are square dealers and earnest workers.

UP THE G. R. & I.—We took the train at Grand Rapids at 7:15 in the morning and arrived at Clam Lake, a distance of 96 miles, at 12:30 in the afternoon. The day was bright and beautiful, and the ride truly enjoyable. The stations along the road are numerous. Some of them would hardly be recognized by the stranger upon second sight unless the name of the station should be chalked out on one of the twenty stumps found in every square rod of space. But the size of the place does not always indicate its smartness. A little burgh just born, yet unfeathered and hardly large enough to look at, is just as ready to show you a big pile of lumber as are the older and larger towns. Howard City presents a live appearance to the railroad passenger. A vast number of new buildings have been erected, and it is evident that the place is destined to become an important port for trade.

Clam Lake, a little more than a year ago was just peeping out from behind the stumps, a place hardly noticeable to the passer by. To-day we are informed that the inhabitants of this place number over 1000. The numerous saw mills are in constant operation, all doing an immense amount of work. Building is the order of the day. Four hotels are doing a good business, and dry goods and groceries, boots and shoes, hardware etc., may be found at the several stores in abundance. Messrs Fallas & Sawyer, lawyers, are comfortably fixed and are having a good patronage. A good local paper, C. L. Frazier publisher, is well supported and has become one of the indispensables of Clam Lake.

A few years, and these fresh born towns, favorably located, will be full grown, divided into wards and measured by avenues.

A NARROW ESCAPE.—Our readers have frequently read of thrilling accounts of children being plucked from the cradle by the great American Eagle, and carried to the giddy height of some rocky cliff, but they never dreamed of the danger by which they are surrounded, when the western mosquito is about, seeking whom it may devour somebody. Having seen a scene which filled us with horror, we feel it our duty to warn the readers of the JOURNAL by relating it in brief.

It was in a sultry afternoon in May, that a solitary horse stood hitched to a bickory post on Monroe street. The noble animal stood for hours pawing the earth and gnawing the post unconsciously of approaching danger. Suddenly a Michigan mosquito, discovering its prey, swooped down from its airy flight and fastened its talons in the animal's head, instantly lifting him from his fore feet into the air, leaving only his hind feet resting on the ground. It now requires but a short stretch of imagination to be overcome with horror. Just imagine that at this critical moment, another Michigan mosquito had come down and buried its huge claws in the farther extremity of the animal's back. Then think of the utter astonishment and dismay of the people on seeing those mosquitoes soaring up, up into the clouds as it were, bearing their prey to the banks of Grand River, to be picked of his flesh by these vultures of the season. We stop here without attempting to say what would have become of the saddle and bridle, or the hitching post. Give us Iowa tornadoes, a campaign with the Modocs, an hour with George Francis Train, but deliver us from the clutches of a Michigan mosquito.

CERTAIN DOCTORS.—Doctors sometimes disagree and sometimes don't do as they agree. Dr. Barth & Co., of Grand Rapids belong to the class last mentioned. They advertised liberally with the press, and before paying for the advertising found it convenient to bust.

Speaking of doctors reminds us of that scientific man at Middleville—Dr. Barnard. He is considered to rank several degrees below the angels, by those who know him best. He lectures on heavenly things sometimes but don't always pay his debts. He evidently believes in the debt forgiving theory. His account at this office, contracted during our absence, is just \$4.50. If we could feel assured that he would never again show his face in Lowell, the debt would be cheerfully cancelled—and yet we should be rather pleased to see the doctor. We send him a paper this week, postage prepaid. Nice man.

RUNAWAY AND ACCIDENT.—Last Thursday while Mr. — Burr, of So. Boston, was returning home from this village, his team, a fractious span, started to run when near Mr. Crawford's residence on the south side of Grand River, throwing out Mr. Burr and his grandson, who was with him. Mr. Burr received a broken arm and severe injuries about the head and neck. He was taken in and cared for at the house of Mr. Crawford, until his wounds were dressed, when Mr. M. C. Barber took him home. Drs. Lamb and Smith set the broken limb and the patient at last account was doing well. The boy escaped unharmed. Mr. B. says it was the result of driving a premium team.

Wooding and Fuller must have more according to their strength. The recent enlargement of their harness shop answers the purpose.

It has been in use six seasons, and we have handled it two without selling a cent's worth of extras; and it has established a reputation second to none.

We now offer it to farmers as the CHEAPEST MOST SIMPLE, and PRACTICABLE, machine in use. It is more durable and of Lighter Draft than any other mower made, and is

A NEW THING UNDER THE SUN!

West's American Tire Setter

For Setting Carriage and Wag-on Tire Cold, on the wheel,

With which a set of BEGGY TIRES can be set in

Ten Minutes.

It is one of the most wonderful time and labor-saving machines of the age.

No tearing the wheel to pieces, no taking out bolts, no breaking paint, no burning the felloe or boring new holes, but simply taking the wheel from the axle, putting it into the machine, and returning it to the owner, tightened in the most satisfactory manner, all in two or three minutes.

The undersigned has one of these machines at his blacksmith shop, and has the

EXCLUSIVE RIGHT

For the town of Lowell. All who have seen it operate pronounce it the best invention in use for setting tires.

Remember I warrant all tire set with this Machine.
