LOWELL JOURNAL

JAS. W. HINE, EDITOR.

What We know about Gov. Jerome The editor of the JOURNAL is in receipt of letters asking various questions concerning the "conduct" of Gov. Jerome at Yorktown. These letters come from parties who knew we accompanied the Michigan delegation to that sacred historic spot and that a kind Providence saw us safe home again without loss of life. Governor Jerome has been charged with unbecoming conduct, inattention, drunkenness, &c. We saw the Governor several times while at Yorktown, at his headquarters with his staff, and elsewhere. We were sufficiently near bim several times to be able to detect the Kentucky atmosphere in his breath-had there been any there to detect. see him feel in his vest pocket for cloves. the influence of liquor. Before leaving the mormons must go. Yorktown we made up our mind that any man that didn't get drunk there would never get drunk anywhere else The town was one vast commissary department, subdivided into divisions, brigades, batalions, platoons and sections -and pretty much all home talent. It was just the place for a moderate drinker to become a celebrated drunkard in a few minutes. This was owing largely to a natural desire inherent in man to adapt himself to his surroundings. It was evidently the fond desire and certain expectation of the natives that no visitor should leave Yorktown sober, but

EDITORIAL TALK.

-The JOURNAL has received a circular

letter in the interest of the drive well claimant, claiming that "the Green patent has again been confirmed, the last decision being by U. S. Judge Blatchford of the Western District of New York," The circular also states that "six U. S. Judges are now recorded in its favor and that no adverse decision greater dispatch of business. Now if has ever been given." It also says while David Davis were only on the bench the royalty is \$10 on each well, that infringers may pay \$5 within 20 days sections. "from the date of this notice" (Feb. 7.) and get a license covering all past and in Dakota don't want that territory adfuture use. The circular is signed "Wm. mitted as a state. They want to know D. Andrews and Bro. 238 Broadway, N. Y. Joint owners and Attorneys for pat entee." A touching postscript is added stating that one James E. Franklin of Grand Rapids, is agent, who no doubt is sitting up nights waiting for remittan- that's enough to kill a dog. ces to come in.

The circular lies. Judge Blatchford is not of the "Western District of New York." There is no such district. If Judge Samuel Blatchford of the Southern District of N. Y. has rendered any decision in Green's favor, we should have known it before this, and the circular would be very likely to give the full text of the decision. The recent decision of Judge Wallace, adversely to Green, has been published which proves three left and is bearing up under him that the circular lies again. It looks affliction as well as could be expected .like a scheme to scare somebody. We Sat. Ere. Post. trust none of our readers will be scared. Keep your \$5, and get your boots tapped with the thickest sole leather you mean. can find. And if any "agent" comes around after royalty money for using drive wells, take your boot away from his coat tails just as often and as hard as you can, until he asks permission to drive on. Serve all swindlers in the same christian-like manner. Heaven loves a good kicker when he kicks for the right. And we don't know of a better subject to practice on than the drive well swindler.

-The city of Adrian has been all stirred up on account of a stupendous swindle. -If we can compromise with the mormons by letting them have Dr. Mary Walker, we are in favor of a compromise, because we are in favor of the speedy extinction of the sinful sect. If her presence among the mormons wouldn't paralyze polygamy, then polygamy can't paralyze.
