Has any of our readers a copy of the JOURNAL of April 4? It so, we will pay a reasonable price for two of them, having lost that number from our files.

J. B. Evans, of Grand Rapids, F. Millard, of Palo, J. B. Rogers, of Grand Rapids, Ben. White and John Fisher, of Smyrna, C. D. Ferguson, of Covington, Ky., and George Hill, of Portland, were among the guests at Train's hotel Monday.

It's no use to tell the publisher of some papers that you would like to have them credit items from your paper, instead of stealing them outright. Their want of honor is only equalled by the amount of real "mind" they apparently have.

The present Senate is particularly noted for the high intellectual standing of its members, conspicuous among whom may be mentioned Messrs. Koon, Shoemaker, Hine, Seymour, Richmond, Whiting and Pennington. These gentlemen are exceptionally able legislators.—[Lansing Journal.]

Moss' minstrels, who appear at Train's hall, Friday evening, are highly spoken of by the press in this and other States, and are, without doubt, a first-class company. Their entertainment is spoken of as chaste and moral, and we predict for them a crowded house. Reserved seats tickets are on sale at the post office news depot.

Considerable complaining is heard regarding the odor issuing from the slaughter house on south side of Train's track. It really does not smell any too sweet and, with the wind in the right direction, the perfume (?) wafted by the gentle breeze to the residents on Hudson street cannot be very consoling. It's a nuisance and should be abated. The Council should authorize a sanitary inspection.

The Chicago driving park management has just arranged what promises to be the most sensational trotting event of the season in the shape of a special race between St. Julien and Clingstone, admittedly the fastest trotters on the turf except Maud S., for \$1,000 a side, with \$5,000 added by the association and \$1,000 added that they beat the record 2:10; mile heats, best 3 in 5 to rule, to be trotted Thursday, July 19, the 5th day of the Chicago summer trotting meeting. The race fully arranged, play or pay, \$1,000 a side in the hands of Secretary Hall.

We have been requested to give the law regarding hunting deer and present it herewith. Section 1, of the game laws of Michigan says: That no person or persons shall pursue, or hunt, or kill any deer, save only in the Upper Peninsula, from the 15th day of August to the 15th day of November, and in the Lower Peninsula from the 1st day of October to the 1st day of December, inclusive, in each year, or kill at any time any deer when it is in its red coat, or any fawn when it is in its spotted coat, or have in his possession the skin of such deer or fawn, in the red or spotted coat, and the having in possession of the skin of such deer or fawn, shall be prima facie evidence of such illegal killing. No person shall, at any time, kill or capture any deer in the waters of any of the streams, ponds, or lakes within the jurisdiction of this State, or kill or capture any deer by means of any pit, pit-fall or trap.

The Saranac Local has adopted the cash-in-advance system. That's right.

Joseph Wilson Post, G. A. R., will celebrate the Fourth of July in Lowell.

There is no town in Michigan that has more business enterprise than Lowell.

Since her death, Lydia E. Pinkham is receiving more notoriety than ever before.

Saranac enjoys the luxury of a tent meeting, under the auspices of the Seventh Day Advents.

The residence of S. Hover, of Saranac, was destroyed by fire Friday night, with its entire contents, insured.

It is estimated that 3,000 buildings—business blocks and dwelling houses—will be built in Grand Rapids this summer.

We are informed that Mr. Train intends to put plate fronts in the Weather store. A much-needed improvement.

The Grand Traverse Herald issued a twelve-page paper, with three full-page advertisements. That's what we call enterprise.

A. L. Braisted, of Lowell, has been tendered and has accepted a position with Col. Gowan, of Gowan, Mich., as book-keeper.

A celebration of which Lowell should well be proud is what we want to make the coming celebration of Independence day.

Smith, the photographer, is making quite a "hit" on cabinet photos. He makes an excellent picture and is having an excellent trade on this class of work.

Readers of the JOURNAL, don't forget that Lowell celebrates this year. And when we say that "Lowell celebrates" it is significant that she will do so in modern style.

Among the arrivals at Train's hotel Saturday were Miles Ayrant, of Bay City; C. O. Tromp, of Cleveland; "Bob" Mack, advance agent for Moss' Minstrels; John Pratt, well-known here; W. P. Hewitt of Muir; Geo. Burch, of Ionia.

The work of excavating for the new brick block where the remains of the Davis House were commenced last week, Carr & Davis having the contract for that work. The new block which Mr. M. Lyon proposes to build will be 64x90 and will be divided into four stories.

The editor of the JOURNAL is home from Lansing and will hereafter give his personal attention to his journalistic duties. After an absence of over five months he settles down in his easy editorial chair thankful that his life has been spared to resume his editorial labors. If the latch string is not out you will find the door thrown wide open. The invitation is general and admittance as free as advice.

What the water works will do for Lowell: It will protect the town from fire, thereby saving, on an average at least \$10,000 a year; it will give the town a reputation for enterprise, bringing at least \$10,000 a year to us in business; it will increase the value of property at least 20 per cent.—more than the amount required to secure it. All this, water works will do for Lowell. Then is it not for the interest of every citizen to work and vote for it?

On Friday evening, Henry King, a 15 year old son of Geo. King, living in South Boston, undertook to ride a 3-year old colt. He put a younger brother on the horse in front of him and then, fastening the reins around his body and leg started. The colt became frightened and ran away, throwing both boys to the ground. The younger brother escaped with slight injury, but Henry was dragged on his back over the ground for a distance of over a hundred rods. He only gasped after aid reached him and then died. What a warning!

Lowell celebrates.

A meeting will be held this evening to hear the report of the committee and to perfect arrangements for the coming celebration of Independence Day.

The large circus tent of "Bar-num's great and only" burned at Chicago on Tuesday morning of last week. The tent covered nearly six acres of ground and cost about \$20,000.

We were surprised on Friday night by a rumor that F. D. Eldy had failed. We understand that the business was closed up on a chattel mortgage held by Mrs. F. D. Eldy.

Lowell is bringing out some very fine and a few very fast horses, among which are those owned by Messrs. C. D. Hodges, Geo. Parker, Ed. Morse, M. Hiller, Ed. Johnson and Dr. Malcolm.

The editor of the Yankee Dutch, of Grand Rapids and Adrian De Young had a set to recently, on account of an article which appeared in that paper. The editor was "knocked out in the first round."

An injunction has been issued by the circuit court restraining the sale of certain property in Lowell under a levy made by Ex-Sheriff Lamoreaux. Edwin R. Crawford of Lowell is complainant.—[G. R. Democrat.]

Mrs. James Flinn received news on Thursday that her son, Johnie Tobin, at Roscommon, who has been working on the log drive at that place, was lying very ill, and she departed for that place Friday morning.

The West side will look handsome when the new brick blocks are built on each side of the Jones block, and would be still more handsome if the two wooden buildings west of F. B. Hine's hardware were replaced with brick.

The market report this week is about the same as last, except a change in the prices of potatoes and butter. Selected peach blots and rose are quoted at 35 to 40 cents, other kinds of potatoes, 30 to 35. Butter, fresh packed and roll, 14 cents.

An occurrence which transpired in Lowell a few days since and which resulted in one party leaving for the East, shows how foolish and inconsistent some people may be in not trusting a friend until they find proof that he is not worthy of their confidence, instead of listening to those who wish to injure that friend's reputation.

Priscilla Brighton, beloved wife of James Tredeknick, was born in Marietta, Lancaster Co., Pa., Dec. 25, 1831, and died at her home in Keene, Ionia Co., May 29, 1883. In early life she embraced religion and united with the M. E. church. Her protracted and painful illness was borne with much patience and resignation and her trust in God was abiding, though but little hope had been entertained of her recovery, death came unexpectedly, giving no opportunity for farewell words to loved ones. During her illness she gave from time to time positive evidence of the presence of the Savior and we have the assurance that she now rests in heaven.

MILTON M. PERRY, P. M.

Editorially Speaking.

The Legislature adjourned sine die June 9th. The poor state will now have a rest.

The Pennsylvania legislature closed its session with a disgraceful row. They probably felt a little jealous of the Governor of Massachusetts.

It will cost, it is said, \$1,000,000 to preserve the scenery of Niagara Falls. It has cost more than that to preserve the hackmen of Niagara Falls. Hackmen first, scenery next.

Within ten months the circulation of the Grand Rapids Daily Democrat has increased over 1,000 copies. Mr. Ball, the editor and proprietor, has evidently struck his sphere.

Secretary Teller announces his intention to expend all the money he can legally in the purchase of stock cattle for the Indians. Wonder if he has been gored into it by Sitting Bull?

The democrats have been killing off their presidential candidates with commendable courage. Nothing they have done for, to these many years, has looked so much like reform as this. Next!

The legislative session of 1881 and the session of 1883 were exactly the same length, measured by days. Measured by the amount of good accomplished it is hard to say which session deserves the highest mark.

Harvard refused to bestow a doctorate upon his scellency, Gov. Ben. Butler. Whereupon the Governor bestows upon Harvard a scornful, withering look with his worst eyes. The saddest words of tongue or pen are—"Harvard's bosses won't have Ben."

Gen. Crook holds up serenely at Silver Creek with 230 captives of the Lo family. He is expected to make another haul soon. His command is in good fighting condition and determined, by hook or by crook, to wallop the redskins until their war paint peels off.

It is about time for the Democrats to formulate a platform for 1884. They should at least look up their timber and begin hewing right soon for when they come to the free trade knot it will be slow work. If the party can't split the knot the knot will split the party. There's bound to be a split somewhere when they strike that impediment.

A small reward is offered to the individual who will forewarn with tolerably unerring accuracy the declaration of principles upon which the democratic and greenback parties will unite in 1884. I collect it to be no scrub game in 1884—no platformless campaign. The "anything to beat" platform may work in local and state elections but when you come to a national election there must be well defined issues. Who will prophesy?

Gov. Begole wisely refused to sign the "minority bill." It was a bad bill—worse than a counterfeit bank bill. But the Governor vetoed a few bills without giving good reasons therefor. One of them was a bill abolishing the office of state swamp land commissioner. The office is a sinecure. The few thousand acres of swamp land remaining in the title of the state do not need the watchful care of a state officer, deputy and clerk any longer. The Governor also vetoed a very meritorious bill for the protection of hotel and boarding house keepers.

Young man, Michigan is one of the best states in this great and glorious Union and if you are comfortably fixed here you will have to hunt a good while before finding a good excuse for pulling up stakes. Listen to your kind old uncle and be sensible. Stay right here in the old Wolverine state, marry a Michigan girl, invest your earnings in Michigan property, and if any body tells you of a fairer clime than this, where wealth is gained with little or no labor, toss him a salute from the hem of your ear. Play to him a tune from your nose a la flute and bid him begone before you pin him to a tree with a pitchfork. There, now, s-n-y, run down to the depot and meet the boys on their way back from Dakota.

The W. C. T. U. Column.

DEAR EDITOR OF THE TEMPERANCE COLUMN.—We confess to a feeling of considerable anxiety, at the non appearance of the W. C. T. U. column in the JOURNAL, but are happy to know that our fears were groundless, and that we may still let our light shine, feeble though it be, through the pages of the JOURNAL. We are glad, and can heartily commend the advice given in the issue of May 31, and while the foundation of our organization, was laid in prayer and faith, and these should still be the strongholds in which we may wage a successful warfare, for "God and Home and Native Land," yet these should not be supplemented by faithful persistent labor and effort. There is no tedious drill-work to be accomplished, we are ready to meet with success the enemy in an open field and strike the final blow, and it is necessary that each one fall into line, and do his or her part of the preparatory work. Some tell us that public sentiment is not cultivated up to the necessity of Prohibitory measures, in suppressing the liquor traffic, therefore if prohibitory laws were enacted, they would not be enforced. Be this as it may, we know that "knowledge is power," and a true knowledge of the uses and evils of the evil effects of the liquor traffic—as it is, on our moral, social and material interests, as individuals, and as a nation, would make victory sure and prominent, when the question is submitted to the people. We of the W. C. T. U. have thought, denied the rights of suffrage, may make diligent use of the means within our reach to spread temperance truth and knowledge, thereby strengthening our cause, 'till it shall become a power, to which even our Legislators must submit. To this end, let us send temperance papers and books, to any who may be indifferent. D. C. Cook of Chicago publishes Prohibition and Temperance papers, and sends them out on such easy terms, that any Union however weak can supply many persons with yearly copies. And the "Lives" which is doing such grand aggressive work for God and the right, could each sister of our Unions send a yearly copy to some friend or person who is indifferent, it would prove a powerful ally on our side, by helping many to see the justice, and arouse them to the cause of the cause advocate. And let us have Unions organized wherever practicable, and as Unions, if not able singly, let us unite together and employ good temperance speakers, who understand the situation, and can prove to our voters that the way is to go forward, and thus encourage each other to "go forward" in the face of the opposing forces. Ever bearing in mind that our struggle is one of right against wrong, and that the cry of the weak and tempted, the stricken wives and mothers, the homeless, breadless children, has entered the ear of One who loves justice and delights in mercy, and who is more for us, than all that can be against us.—[J. Be this as it may, we know that "knowledge is power," and a true knowledge of the uses and evils of the evil effects of the liquor traffic—as it is, on our moral, social and material interests, as individuals, and as a nation, would make victory sure and prominent, when the question is submitted to the people. We of the W. C. T. U. have thought, denied the rights of suffrage, may make diligent use of the means within our reach to spread temperance truth and knowledge, thereby strengthening our cause, 'till it shall become a power, to which even our Legislators must submit. To this end, let us send temperance papers and books, to any who may be indifferent. D. C. Cook of Chicago publishes Prohibition and Temperance papers, and sends them out on such easy terms, that any Union however weak can supply many persons with yearly copies. And the "Lives" which is doing such grand aggressive work for God and the right, could each sister of our Unions send a yearly copy to some friend or person who is indifferent, it would prove a powerful ally on our side, by helping many to see the justice, and arouse them to the cause of the cause advocate. And let us have Unions organized wherever practicable, and as Unions, if not able singly, let us unite together and employ good temperance speakers, who understand the situation, and can prove to our voters that the way is to go forward, and thus encourage each other to "go forward" in the face of the opposing forces. Ever bearing in mind that our struggle is one of right against wrong, and that the cry of the weak and tempted, the stricken wives and mothers, the homeless, breadless children, has entered the ear of One who loves justice and delights in mercy, and who is more for us, than all that can be against us.—[J. S. West Bowne Union.

DEAR EDITOR OF THE TEMPERANCE COLUMN.—We confess to a feeling of considerable anxiety, at the non appearance of the W. C. T. U. column in the JOURNAL, but are happy to know that our fears were groundless, and that we may still let our light shine, feeble though it be, through the pages of the JOURNAL. We are glad, and can heartily commend the advice given in the issue of May 31, and while the foundation of our organization, was laid in prayer and faith, and these should still be the strongholds in which we may wage a successful warfare, for "God and Home and Native Land," yet these should not be supplemented by faithful persistent labor and effort. There is no tedious drill-work to be accomplished, we are ready to meet with success the enemy in an open field and strike the final blow, and it is necessary that each one fall into line, and do his or her part of the preparatory work. Some tell us that public sentiment is not cultivated up to the necessity of Prohibitory measures, in suppressing the liquor traffic, therefore if prohibitory laws were enacted, they would not be enforced. Be this as it may, we know that "knowledge is power," and a true knowledge of the uses and evils of the evil effects of the liquor traffic—as it is, on our moral, social and material interests, as individuals, and as a nation, would make victory sure and prominent, when the question is submitted to the people.
