Republican County Convention.

A Convention of the Republicans of Kent County is hereby called to meet at the Circuit Court Room in the City of Grand Rapids, on Thursday, April 17, 1834, at 11 o'clock a. m. for the purpose of electing thirty (30) delegates to the Republican State Convention to be held at said City of Grand Rapids on Thursday, April 24, 1884, which latter Convention is called to elect delegates to the Republican National Convention to be held at Chicago, Illinois, on the 3d day of Juns next for the nomination of candidates for President and Vice President.

No separate District Convention will be called in this Congressional District.

Pursuant to resolution adopted at our last County Convention the subject of the readjustment of the representation of the several Townships and Wards in our County Conventions will also be considered and determined, and such other business transacted as may properly come before the Convention. Each Township and Ward will be entitled to three delegates.

EDITORIAL COMMENT.

-Ex-Gov. Jerome's open letter to Prof. Dickie was a stinging rebuke which the conceited professor seeks to ward off by saying that he was "incorrectly reported." The professor, howeyer, waited about a month before it was convenient for him to find out that he was "incorrectly reported." And candidate and a first lass legislator. even now he doesn't say he was "incorrectly reported' except in two or three statements, when in the same speech were recorded over a dozen outrageous false hoods. After denouncing as false Dickie's statements concerning Gov. Jerome the latter concludes his letter as follows: "It seems to me that a man who assumes to become an instructor of public morals is guilty of a positive wickedness which approaches the magnitude of a crime, when he attempts to mislead the public by a willful perversion of facts or even by loose statements of which he has no proof. I confess, too, that in the code to which I have been accustomed, the false witness violates the laws of God and of common honesty just as thorities. surely as those who commit other sins, and in my judgment the man who has been so unfortunate as to fall under the bondage of strong drink will get off quite as easily in the final settlement of accounts as the hypocrite who practices deceit or the calumniator who seeks to blacken his neighbor's character."

-The cause of temperance in Charlotte was advanced (?) on election day by the action of the "Union party" in running a ticket of their own and refusing to act with the Citizens' Temperance voters in supporting a clean temperance ticket. The result was the election of the democratic anti-temperance ticket. This fairly illustrates the mission of the Union party whose leaders are more eager for notoriety than anything else Charlotte is the home of D. P. Sagendorph, prohibition candidate for Governor two years ago, whose total vote in the state was 6,752. He is one of the new party leaders who won't vote for the best temperance men in the state on either of the old tickets. He would put out a fire with a quill squirtgun, if made of a prohibition quill, rather than have it done by a Republican hose company. It must be done as he says or not dene at all. If prohibition isn't accomplished in Michigan until brought about by such men it will be a long time be a before it is accomplished. Put a pin

-Prof. Dickie, the Union party leader has led himself into deep water. He now says he did not accuse Gov. Jerome of "insincerity" &c. and that if the Republican organs had published his "disavowal" it would have been so understood before. Several Detroit and other state papers have been trying hard, but trying in vain, to find out when and where he made his "disavowal" he speaks of. They are making it very uncomfortable for this wise Albion professor. He will find the political field different from a school room, in several respects. He has been out long corner building west of Scott's hardenough already to learn that he isn't half as smart as he thought he was.

SAGINAW CITY, March 31. Prof. Dickie's statement about myself wholly false.

DAVID H. JEROME, Cotton and the Tariff.

Georgia farmers can't raise cotton cheaply as it is grown in Egypt and In dia, even when their farms are self su taining. England is fostering cotton growing in those countries, to get the advantage of this cheap cotton in he mills. The price of cotton in this country is already affected by the eastern supply. When the free traders put the cotton growers and the cotton manufacturers here on a footing of direct competition with the eastern growers and the English manufacturers the Georgia cotton crop will not bring the farmers money enough to pay for their western mules. From the Cleveland Leader.

The law of supply and demand invariably affects prices. It is this law which makes gold the very highest standard of If this metal were as plentiful as iron the value of the two would approximate, or, perhaps, in consideration of the many uses to which it may be applied, iron would be deemed the more high prices while a bountiful yield of breadstuffs tends in the opposite direction. The tariff nears a close relation to this law of supply and demand. Protection as we now have it encourages the creation of a supply equal to the de mand, while at the same time it lowers prices by exciting domestic competition. Take the case of the oft quoted steel rail industry. Only a few years ago there was not a steel rail manufactured in the United States and our railway managers were paying as high as \$100 per ton for the English article. Protection enabled our home manufactures to start the manufacture. Mills multiplied to such an extent as to meet the entire home demand, and American steel rails are now being furnished at \$32.50 per ton. This is only about one-fifth of the former English price, and fairly illustrates the benefit of protection to consumers. Pri-or to the civil war the country had a ow tariff. All manner of cotton goods were then higher than now. In 1860 standard sheetings averaged nearly 9 cents per yard, now they are only 8 cts. Bleached shirtings sold in 1880 at 124 ct. per yard, while the price under protec tion is 12 cents, or thereabouts, Cali coes which sold for 91 cents then, now sell for 6. Delaines formerly imported at 35 cents per yard were manufactured in this country for 20 cents as far back as 1868. Facts of this character prove that the tendency of protection is to reduce prices, while that of a low tariff or free trade, serves to put them up. We and show that the result has been about | in the the same in every case. Ten years ago was 74 cents a barrel, and salt is a tected article. Without going any fur-

"For God and Home and Native Land." PLEDGE. We the undersigned, for our own good, and the good of the world in which we live, do hereby promise and engage, with the help of Almighty God, to abstain from buying, selling, or using Alcoholic or Malt Beverages, Wine and Cider included.

(This column is edited by the Press Committee of the W. C. T. U. of Lowell.)

Here is a specimen of the laws in "Ye olden time." Extracts from Colony Records of Mass., found in the Chicago Inter Ocean.

"Oct., 1632.-It is ordered, that noe person shall take any tobacco publiquely, under paine of punishment; also that every one shall pay 1 d. for every time hee is convicted for takeing tobacco in any place, and that any Assistant shall have power to receive evidence, give order for the levyeing of it, as also to give order for the levyeing of the officer's charge. This order to begin the 10th of November next."

"Sept., 1634 .- It is ordered, that noe person shall take tobacco publiquely, under penalty of 2 s. 6d., nor privately, in his own house, or in the house of another before strangers, and that two or more shall not take it togeather, anywhere, under the aforesaid penalty for every offence." Then follows several laws relative to the same subject. And in November, 1637 it was decreed that "all former laws against tobacco are repealed and tobacco is sett at liberty.' And in the following year the subjoined was announced:

"Sept., 1638 .- The (General) Court, finding that since the repealing of the former laws against tobacco, the same is more abused than before, it hath therefore ordered, that no man shall take any tobacco in the fields, except in his journey, or at meale times. under paine of 12 d. for every offence; nor shall take any tobacco in (or so near)any dwelling house, barne, corne or hay rick as may likely endanger the fireing thereof, upon paine of 10 s. for every offence; nor shall take any tobacco in any inne or common victualing house, except in a private room there, so as neither the master of the same house nor any other guests there shall take offence thereat; which if they do, then such person is forthwith to forbeare, upon paine of 2 s. 6 d. for each offence.

The following items are from the Steuben Signal, Hornellsville, N. Y. Roberts, Mr. Jacob Myers of Woodland The first is an extract from an article by Dr. James C. The faculty of this institution also publish a The bride received several presents both monthly "Health Journal,"-"The Laws of Life," which is well known throughout the United States and Canada.

Of all substances which human beings have come to use habitually, either as foods or drinks, science has as yet discovered nothing so efficient in developing personal sordiness and utterly killing public spirit in every form, as alcohol. it takes rank over all drugs, all medicines, all poisons known, when used in any of its commixtures as an habitual beverage by any person. In this respect it stands out by itself. It is peculiar in its effects. Its worst influence is always seen in the false action its presence in the blood forces the brain to take on. It is a deadly, subtle, slow-working poison, always nearly a year, is at her old home for having, it any, only one effect, viz: that of deranging, perverting, diseasing or destroying the natural functions of the nervous system in man. It is scientifically impossible that it should have any salutary effect. If it appears to have, it is deceiving the observer and draining the life-out of the subject.

ADA'S BUDGET.

Mrs. Lucy Robinson, wife of John R. Robinson, died at her home in Mt. Pleasant April 8, after a short but severe illness. The remains were brought to Ada, her former home for interment. The funeral was held in the M. E. church Mrs. Deborah French April 11, when Rev. H. M. Joy preached Mr. Nimrick, family a very impressive sermon and a large concourse of relatives and friends filled the church.

Capt. John Headley went to Luther April 7 to look after his lumber interests at that place.

Mrs. Mary Moses from Dakota is visiting her sister, Mrs. Henry Smith. W. A. Waldron and Miss Happie Livigston attended the institute at

Mrs. Jane Bristol and children spent last week visiting in Spring Lake.

Springs last week.

Alonzo Chilson is on the sick list. Mr. Zebulon Rood, a pioneer settler of Cannon, died Friday, April 11, 1884. Mr. Rood came to this town in the year 1840, settled on section 19, on or near which he has since resided. Funeral services were held at his residence Sunday the 13th, 2 p. m.

Herbert and David Ladner of Big Rapids were visiting their brother George during the last week.

Bostwick and Son have purchased the property of William J. Thomas and after making some repairs will convert the building into a general store.

Manager of the Union party of Cannon will not bury said party till Nov. 4 when the services of "His royal Highness" from Hades can be procured.

The moral atmosphere at the M. E. church is being somewhat renovated. We quote two familiar stanzas from a crap book:

In speaking of a person's faults
Pray don't forget your own:
Remember those with homes of glass
Should never throw a stone.
If we have nothing else to do
Than talk of those who sin,
Tis better we commence at home
And from that point begin.

Now let us all, when we commence
To slander friend or foe,
Think of the harm, one word may do
To those we little know;
Renaember curses, sometimes, like
Our chickens, "roost nt home;"
Don't speak of others' faults until
We have none of our own."

have none of our own.

GRATTAN GATHERINGS

The pioneers met with C. Close the first Monday in April, as has been the custom for some time, to arrange for the annual meeting in June. Called to in Maine is "bad for the bar-keeper, but order by President L. B. Cook. Election of officers as follows: President, M. C. Watkins; Treas., Henry Green; Recording Secretary, Wm. C. Slayton; Cor. Sec., M. A. Lessiter. A committee of arrangements consisting of eight citizens were next chosen, also committees of location, and programme, of three persons each. These several committees will meet Saturday, May 3, 1884 at Grattan Center, to further determine in regard to our annual pioneer gathering which takes place June 11 this year. As these meetings have yearly increased in interest and attendance, we hope to make this a day all pioneers and friends will be proud of.

SUPPLEMENT.

NO. 43

A San Francisco paper says that the fastest time ever made between that port and Honolulu by a sailing vessel was made by the American bark Comet in 1861—10 days and 20 hours, and that the quickest steamer's time was made by the Mariposa—6 days and 8 1-2 hours.

Professor Huxley said recently at the London Hospital Medical College that, in granting decrees, the tripartite qualification of medicine, surgery and midwifery should be insisted upon, and that to allow anyone to practice without it at the present age of the world was "perfectly monstrous."

Americans who have recently returned from Europe refer to the fact, often mentioned, "that the American Consulates, abroad, with few exceptions, are very shabby and unattractive, and by no means consistent with the dignity or importance of the country represented." Jefferson Davis is not rich, but fairly comfortable. He has the plantation his brother "Joe" Davis left him below Vicksburg, which brings him something, and he has the cottage property at the seaside which a lady left him. He is out of dependence, but has not much money.
