#### EDITORIAL COMMENT. -The next electoral college will have

401 votes. It will take 201 to elect a president. The solid south has 153 electoral votes, which southern papers and orators tell us are already assured for Cleveland & Hendricks. Southern delegates to the National Democratic Convention pledged the solid south in advance to the democratic presidential ticket and said to northern democracy "you have only to get 48 electoral votes to add to our 153 already pledged to elect your candidates." Why is it that the solid south is always solidly democratic and stands ready to give her 153 electoral votes to the democratic presidential nominees, without the slightest doubt of her ability to do it? Should the Republicans of the Northern states pledge a solid north to Blaine & Logan they would be charged with "sectionalism" and "bloody shirtism" and contemplated frauds. And yet the democrats boast that the solid south is to remain unbroken and all they have to do to put the solid south in power is to wrest from the north only 48 electoral votes! If this isn't "sectionalism," what is it? The solid south has met a divided north before and we know what it means. It means if the democratic party is placed in power that the solid south is to rule this country which it once tried to destroy. Northern democracy is but a small portion of the great democratic body. The mission of the Republican party will not be ended until by a free ballot and an honest return, the solid south is broken and the dread specter of sectionalism disappears. A divided north stands ready to meet the solid south on that issue until it is settled and the Republican party will live and fight until it is settled. Cassius M. Clay has recently told his erring brothers of the south some plain truths which they will do well to heed. And when he speaks they generally hear what he says. Four years from now if the solid south still remains unbroken there will be solid north. It is surely coming.

-If Ben Butler owns the earth he'd better grease the axle and not let it go twisting around in a hot box the way and see. it did last Friday.

-Since Hallack freed himself from the prohibition party's clutch he talks through his paper, the Saturday Post, his sentiments fully and freely. And he gives the party prohibs just the scourging they deserve for playing directly into the hands of the democratic party which opposes sumptuary legislation. The Post is an out and out prohibition paper but it isn't like the prohib. party, a democratic annex.

-Belva Lockwood, the woman suffrage candidate for President, doesn't seem to be stirring around much. May-

be she is waiting for her new fall bon-

-The Des Moines Leader, the chief ago published a Prohibition electoral ticket for Iowa, with the name of the Rev. Dr. Bennett, editor of the Dubuque Prohibitionist, as one of the electors. Thereupon Dr. Bennett published in his own paper the following plain and pertinent propositions:

So auxious are the Democrats for a St. John electoral ticket that last week the Leader, the official organ of that party at Des Moines, actually put one in the field. The Register immediately exposed the fraud. The editor of the Prohibitionist was printed as an elector. We had never been consulted, we had no opportunity to resign, and we will not assist in any third-party movement. The dodge shows the temperance men of Iowa a few points:

1. The Democracy are hopelessly whipped unless they can organize a third party for St. John. 2. The Democracy regard with favor all St. John organizations as tending to

3. In view of the Democracy a ballot for St. John is an aid to Cleveland. 4. Democrats say that Democratic Prohibitionists can be relied upon to vote for Cleveland and the saloon, but Republican Prohibitionists cannot be ex-pected to vote for Blaine. Which way

The above propositions are just as per tinent in Michigan as in Iowa. The fusionists of this state base all their hopes of success on the prohibition movement and are contributing liberally of their aid to keep up the St. John sideshow.

-Every road out of the Republican camp leads directly or indirectly into the Democratic camp. It makes little difference whether you go via Butler, via St. John, or straight through to Cleveland & Hendricks. The next president will be James G. Blaine or Grover Cleveland. The next administration will be Republican or Democratic. Voters begin to realize this fact and there fore the people may expect to see Blaine & Logan triumphantly elected.

-Gen. A. M. West, of Mississippi, candidate for Vice President on the Butler ticket, was a rebel officer and did what he could to destroy the Union. Every man who votes the fusion ticket West as well as for Cleveland & Hendricks. During the war Hendricks was a blamed sight meaner man than West. His carcass was on the Union side and his sympathies on the rebel side.

-There is a very loud protest coming up from the women of this country The wisest among these women say, in order to prevent this calamity, the vo ters should cast their ballots for Blaine & Logan.

-The official election returns of Maine show a Republican plurality of 19,851 and a Republican gain over the vote of 1880 of 20,020. The majority for the prohibitory amendment was over 40,000. These results show to democracy and party prohibitionists that the Republican party is not quite ready to collapse.

Think of it. -The sanguinary row among the stockholders and various managers of the Detroit Evening Journal has been ended by the purchase of that paper by S. J. Tomlinson, of Lapeer, a practical and capable newspaper man. The Journal will be continued as as undependent

-The New York Sun (Dem.) says "the newly published Mulligan letters adds nothing that is new and material to the caseattempted to be made out against Mr. Blame."The Sun proves on the other hand that Blaine told the truth and Mulligan lied about the "missing letter" of Oct. 24, 1871.

-The party prohibitionists and the democrats agree to disagree on one point. The former say Mr. Blaine is not a prohibitionist and the latter insist that he is. On the main question, however, the p. p.'s and the dem's., exactly agree. That main question is "anything to beat the Republican party."

-When Ben Butler was in Michigan he rather admitted that he was the best man in the country and had given the people about all the good advice they had ever received. He didn't say he was the author of "The Bread Winners" but we understand he's coming this way again before election.

-The democratic party is very anxious to postpone discussion on the tariff question until after election. The Re publicans propose the discussion shall take place before election. The free trade raft in this country is in a sinking condition and don't you forget it.

-Some prohibitionsts claim that St. John & Daniel will carry three or four states this fall. Such nonsense is too absurd. If they carry a single county in any state they will do well! Wait

-It is an undeniable fact that the Union prohibition party of Michigan is pursuing a course that is heartily approved by the liquor interests of this

-Party prohibitionists in Lenawee Co. claim they have lost votes on account of Prof. Dickie's extravagant statements and rabidness. Shouldn't wonder.

-The Saginaw Daily Times (Ind.) has come out for Blaine & Logan. Bound to go with the winners this time.

-Gov. Cleveland is a very fast twoyear-old but he loses this race.

Rapids, who has always voted the democratic ticket, but who is now enthusi-Democratic organ in Iowa, a few days astically supporting Blaine, told the editor of this paper one day last week that he could name 300 Irish democrats in that city who would yote for Blaine &

Logan this fall. He further said that when the Orangemen in Canada appealed to their friends in the United States to oppose Blaine they opened the eyes of thousands of true Irishmen in this country to a realizing sense of the political situation. He also said that free trade England wanted to put the same kind of yoke on the neck of this country that it had on Ireland and he was done with the democratic free trade party that had always toadied to England's

interests and desires.

-The burnt powder the Detroit Free Press is using in its attacks on Mr. Blaine is supposed to be the scrapings from its ammunition box of 1861 when it "accelerated" the march of our Union soldiers by its "fire in the rear." This same paper that talked "fire in the rear"in 1861, and "declared the war a failure" in 1864 was a fit exponent of democracy then and is now. Politically it has been consistent with itself all these years. That is, it has served the disunion devil and the British lion with marked fidelity for a quarter of a century.

-The New York Mail and Express closes a long editorial on the "Mulligan letters" as follows: "Mr. Blaine has defied his enemies to fire all the shot in their lockers. This last volley is as ineffectual as that which Mr. Blaine took in person, on the floor of the House. It marks the end of all serious efforts to discredit him with the American people." Mulligan and Fisher have gone to meet Proctor Knott. Now let Mr. Blaine's enemies get up a "Morey letter" or something of that sort.

-The leading members of Mr. Beecher's Plymouth church having held a meeting in which they expressed regret at Mr. Beecher's political attitude, the Plymouth preacher became ruffled and said "he could live without Plymouth church." There are some people who in Michigan this fall votes for Butler & think there would be just as many souls saved if Beecher should give his whole time to politics.

-A subscriber wants to know why we don't have more to say about Gov. Cleveland's moral character. 'Cause he haint got any. Give us another.

-What is the gentleman's name-the against making Maria Halpin's boy's man they are running for Governor no use trying to remember it anyway. -Alexander Sullivan, ex-president of the Irish National League, has come out for Blaine & Logan and his Irish

A correspondent of the Grand Rapids Democrat suggests that it would be a good plan to have Gen. Geo. B. Mc Ciellan make a few speeches in Michigan and other states to offset Gen Logan. A REPORT is in circulation that Major Wm. C. Stevens, in his conduct of the auditor general's office, at Lansing, wholly disregards the interests of soldiers, appointing civilians to clerkships in preference to soldiers. The Big Rapids Current shows the flimsiness of this charge by giving the following facts: "Being in Lansing recently we took occasion to investigate the matter and found the following to be the proportion of soldiers and civilians employed in that office. The whole number employed in that office, including old and experienced clerks who were there when Gen. Stevens took possession, is 65, of whom 31 are soldiers or soldiers' widows, or daughters and 34 are civilians. Gen. Stevens has made eleven appointments since he took posession of his office, eight of whom were soldiers and three civilians. Six had resigned, two being soldiers and four civilians, and one has been discharged. Fifty-two of sixtyfive are permanent clerks, half of whom soldiers or soldiers' widows or daugh ters, and half civilians. Of the 13 temporary clerks, employed only during the busy season, six are soldiers and seven civilians. Soldiers certainly cannot complain at the liberal treatment they receive at the hands of our soldier auditor general, and the grand army boys cannot complain at his fidelity to the principles of their order, of which he is an honored member, in giving soldiers' widows and orphan daughters employment in the state department over which he has control,"-Lansing Republican.

A Consistent Policy.

The following incident, which occur

red in one of the towns in Wayne county, illustrates the weakness of the position taken by the prohibitionists. The minister of the village church met one Sunday. We trust the Republicans will had concluded to vote the prohibition the public school system exists. not follow this pernicious example. Six ticket. They Nominated Stark. The democrats and greenbackers of this (2d) legislative district met at Ada last Thursday to nominate a fusion candidate for representative. This was a and to many of Mr. Johnson's friends democratic victory over the greenbacksore dissapointment. Sometime

prior to the convention it was generally redicted in these parts that Johnson would easily secure the nomination, but a few days ago it seems a quiet but strong under-current set in against him, started by the democratic side of the fusion house, which resulted in Johnson's overthrow and the nomination of democrat. In short the democrats proposed to have a candidate of their own this time and in order to make sure of their game they had to go to work and down Johnson, who was the reenbacker's choice and the most formdable candidate in the field. The fact that it took 33 ballots to kill Johnson showed that the fight was somewhat

"Let it Die."

From the Chicago Times, Wednesday, Nov. 10, 80. The recent presidential election has shown that there is an invincible reason why the democratic party can never win a National victory.

It is that the youths of this republic are not democratic. The sons of democratic fathers have grown up republicans. The tear-soiled camp letters which the mother read aloud in the long, bitter evenings, while the boys clustered at her knees, did not fall upon democratic ears. The girls' sobs, blended with the mother's weeping, did not make democrats of their brothers. Perhaps the father had been a democrat all his life! 'The children go to school. There is not a democrat on its benches. The first reader contains the portrait of Abraham Lincoln-that kind and sturdy face never made a democrat. On its simple pages, in words of one or two syllables, is told the story of his birth and death. That story never made a democrat. In the pranks of the play ground the name silences the frolicsome and makes the iolliest grave. The name never made a democrat. In the pictures that light up the geography are the firing on Fort Sumter and the death of Elsworth. Those pictures make no democrats. The first page of the history contains a representation of the surrender of Lee at Appomattox. No boy ever gazes on that and ever after avows himself a democrat.

In the higher grades the same subtle and unresisted influence is at work. The text-book contains extracts from Those speeches make no democrats. The great battles are briefly described; the narrative has no democratic listen-

ers. The strain of martial music runs through the readers, and that music makes no democrats. Sketches of the great generals are given; the brave deeds arouse the enthusiasm of the lads, but there is no democrat among them. The horrors and sufferings of the slaves are of Chemnitz compare favorably with the boy's cheek is not democratic blood, The curse of slavery has pursued the democratic party, and has hounded it to its death. Therefore, let it die; and no lip will be found to say a prayer over the grass on its grave.

The late defeat need not be attributed to any other causes. The result was accomplished because the youths of the epublic are not democratic. That party therefore without a future and without a hope. The following speaks for itself: To the Inhabitants of the city of Owosso. A PROCLAMATION.

Prohibition Points. A recent number of the Northwestern Christian Advocate contains a communication from R. W. Keeler, D. D., a prominent member of the Upper Iowa Conference, in which he says:

Iowa prohibitionists have no sympathy whatever with the distinct third party movement. We tried it in Iowa and failed. We had to abandon it. It can never establish prohibition. Whatever influence the St. John movement may have next November will be against the temperance cause in my opinion. It was "born out of due time." When the states can be controlled by prohibition, it will do to try the nation, but not un til a majority of the states adopt the policy. I regret this great blunder.

And Rev. R. M. Hatfield, of Evanston, says in the Inter Ocean:

It would be strange indeed if the practical and level-headed men of Iowa had any sympathy with a movement cause of temperance, not only in Iowa, but throughout the whole country. The third party of to day is doing the precise work that is most acceptable to the

crazed by fanaticism, ought to be able to appreciate the fact.

In the Methodist Conference at Lan-Kalamazoo, made the following pointed remarks:

"Methodist ministers are a unit as to what they want but honestly differ as to how it should be obtained. There is

to how it should be obtained. There is great danger from the hasty conduct of friends. Let us go carefully. We cannot force public sentiment; we may lead it. We must educate the people. The majesty of the law depends upon the ability to enforce it; we have law enough. The analogy of slavery and prohibition is carried too far. We must draw the temperance elements together, on this question alone, independent of party politics. I am accused, said he, of favoring the Republican party. For more than three years I carried a musket. To me it means a great deal to be a Repubme it means a great deal to be a Republican. The Republican party stood by the soldier. It stands by the Negro. The Republican party is the best agency through which to educate the Negro,

suppress Mormonism and intemperance. I vote as I shot." Here he was asked why he did not vote as he prayed. He said he did, for he prayed as he shot.

New York .- Eagle Sept. 20. Republican Tariff Legislation. There are three points the republican

party has constantly kept in view in its legislation with reference to the tariff: 1st. Discriminating duties. The policy has been to place heavy duties upon luxuries-diamonds wines and liquors, laces and costly fabrics, etc.,-such articles as the rich alone buy have paid

the heaviest duties. 2d. Protection to labor, Duties have been so laid as to prevent the pauper labor of Europe regulating and controling the price of labor in this the county should participate. Parents country. There are many articles the give your children the benefit of this cost of which consists largely in the la- grand gala day; the pleasure and benebor required for their manufacture. If made in Europe and imported without to make it a paying investment for both duty, no competition would be possible except by putting down the price of lawhisky interests of Illinois; and all men bor to a level with that of the Europ- Bring of your abundance, compare

Washington Gardner, of Thus manufacturies are built up w hich could not otherwise exist, the American laborer is fairly rewarded, and the government gets its income.

3d. The creation of a market for aggriculture products. If every man was a farmer, there would be such a surplus of agricultural products as would greatly reduce their value. This is especially true of the lighter and more perishable products of the farm. By promoting manufacturies and giving a diversity to industry, a market for farm products is created and prices are kept up.

These points have constantly been kept in view by the Republican party in its legislation upon the tariff. They are vital points, in which all classes of people are interested. There are others that have not been disregarded-such as building up a nation independent of other nations-keeping the money of the country at home etc.,-but these we have first named have been sufficient to control the policy of the government, and no party has dared to raise its voice and risk its success in opposition to

The Democratic Side-Show. Under the above caption the Chica-

go Tribune truthfully says: "St. John, the Prohibition candidate for the Presidency, who is running a side-show for the benefit of Cleveland, employed the last Sabbath day for a pobtical electioneering meeting at Jacklican platform. His assault upon the Show a stock of Republican platform grows out of the fact that it takes no cognizance of prohibition, because that question has nothing to do with national politics. Every man, irrespective of party, who has common sense or is not a crank on the subject, knows that it belongs to the police powers of the State to regulate the liquor traffic, as much so as any run a presidential candidate upon that issue is absurd and irrational. The Republican party is a party of sense and intelligence, and St. John knows it, and

day and to make it the occasion of a political electioneering pow wow. And yet this man St. John pretends to be a pious Christian and to regard Sunday as a sacred day to be devoted to preaching, prayer, and Godly introspection! With such yiews, he does not hesitate to prostitute the Lord's day to political purposes, to bear false witness against his neighbors, and to harangue crowds indirectly in favor of the Democratic candidates, whose money probably enables him to carry on his campaign against the Republican party. If were a Republican who had thus violated the holy Sabbath day, his hands would have been lifted in sanctified horror, and he would have proclaimed it from the housetops as almost blasphemous and impiously irreverent. But he can do it, and do it in behalf of the

Democratic party! CLEVELAND AT HOME. The Buffalo Telegraph of Sept. 20th contains the following significant bit of

"The Blaine & Logan democrats of the First ward had a large and enthusi-astic meeting last night. A 60 foot pole was raised, a splendid banner swung to the breeze, and Capt. John McAnnaly and Richard English stirred up great enthusiasm by their speeches. The club now numbers 286, nearly all of whem have been thorough-going democrats until this fall."

The first ward of Gov. Cleveland's city is doing very nicely. Bets have been offered, without takers, that Cleveland can't carry his own ward and that he can't carry his own city.

It is reported that a day or two ago Mr. St. John went into a Kansas drug

Statement You May Confide In.

It seems to have been reserved for Dr. David Kennedy, of Rondeut, N. Y., to accomplish, through his preparation widely known as KENNEDY'S FAVORITE REMEDY, what others have falled to compass. The subjoined letter will be found of vital interest to sufferers from gravel and to the general public:

Alkany, March 29, 1884.

Dr. D. Kennedy, Rondout, N. Y.:

Dr.An Sin?' Let me tell you frankly that I have never been partial to proprietary medicines, as I believe the majority of them to be nothing better than methods of ofitaining money from people whom suffering makes ready to catch at any hope of relief. They are mean cheats and delus ions, But your FAVORITE REMEDy I know byhappy experience to be a totally different thing. I had been a sufferer from gravel for many years and had resorted to many eminent physicians for relief, but no permanent good came of it. About three years ago your FAVORITE REMEDY was recommended to me. I can give you the result in a seatence: I tried it and it cured me completely. I am confident it saves my life. You can use this letter if you think best.
