Lenson Saulsbury of Bowne, arrested for assault and battery on the person of Richard Dulse of the same town, appeared before Justice Hunter, pleaded guilty and paid fine and costs—\$10.50.

Mr. J. W. Converse of Boston has about \$1,000,000 invested in Grand Rapids. He is president of the Phoenix Furniture Co.

Let the legislature pass a bill prohibiting snoring in sleeping coaches, authorizing the porter to enforce the law with a boot-jack.

A donation for the benefit of Rev. J. E. Turner will be given at the residence of D. Hill, South Boston, Wednesday evening, Feb. 11.

Don't gamble on the back-bone of winter just yet. Sometimes when we think it's broken it's only getting ready to hump itself again.

Monday was Candlemas Day. The woodchuck did not see his shadow. You bet he didn't. He knew enough to stay in his hole, sun or no sun.

Noun then a verb-ad article appears in a certain school journal. In conjunction with some others we pronounce judgment on low literature.

Mr. Rodman of Ionia has opened a dry goods and millinery store in the Avery building, east side, and invites the public to come and see him.

"Mother, may I go out to skate?" "You may, my precious daughter! Just skate around to Joneses well. And pump a pail of water."

If the party who stole an ax from the JOURNAL office wood room some time ago will return it he will be suitably rewarded. We have a chrono for him.

A Keene boy struck another boy on his nose and the latter proposed to fight it out. There is no part of a boy's anatomy that receives so many blows as his nose.

Topics for next Sunday at the Congregational church. Morning, "A timely prayer;" Evening, "What think ye of Christ?" The testimony of those outside the church.

Speaker and Ransford announce that they will give a hop at Train's Hotel on Friday evening Feb. 13, and extend a cordial invitation to "yourself and ladies" to be present.

Say what you will—roller skating is healthful exercise and rare sport. Like eating, it shouldn't be carried to excess. The proper use and the abuse are two very different things.

The Cadillac News pays Judge S. S. Fallas of that circuit a good compliment. The Judge was a Fallsburgh boy and his old friends here take pride in his advancement.

The Hastings ladies gave a supper recently for the benefit of the new (old) railroad scheme and netted \$25. They will buy a sign—"Railroad Crossing! Look out for the Cars!"

A progressive euchre party at Mrs. H. Mitchell's Wednesday night and another at Mrs. E. A. Sunderlin's Saturday night, last week. The game is now "all the rage" and very amusing.

A card from Manchester, N. Y. states that Mrs. C. O. Sunderlin's health has not been so good since her arrival there as it was before she left home. Her Lowell friends hope to hear better news soon.

After thoroughly testing the Mansfield steam fire engine the Common Council concluded that it did not fill the bill and therefore decided not to accept it. They will probably try another kind.

At the regular meeting of the School Board Friday evening, Arthur Morgan was appointed "truant officer" to see that all children between the age of 8 and 14 attend school in compliance with the law.

Mr. and Mrs. J. C. Scott started yesterday for Jacksonville, Fla. and will go thence to Deland. Mrs. Scott will probably remain in Florida until the first of May. Mr. Scott expects to be away from home about a month.

"The Beacon," a weekly paper published in Detroit in the interest of the Congregational churches of Michigan, is an excellent journal. It is edited by the Rev. John P. Sanderson and its subscription price is only \$1.25 a year.

Mention is made in another item of Ous Richards' wayward conduct. Yesterday's Grand Rapids Democrat gave a half-column report of his doings in that city, which shows that Ous lost his head and much money in bad company.

We have received an invitation to attend Gov. Alger's levee in Detroit Thursday evening, Feb. 12. The event promises to be the grandest of the kind that ever occurred in the State. The cards of invitation are elaborate and beautiful.

Lowell can now telephone with Detroit—a distance of about 140 miles—with good results. A gentleman stepped into the central office here the other day and talked with a Detroit operator who at once recognized his voice. Great is the telephone.

MICHIGAN MATTERS. Collied and Condensed by the Journal's Committee on "State Affairs."

Genesee county has 5,400 farmers. Allegan's revival continues with unabated interest.

Copper, in a varietal form, has been found near Ellington.

S. R. Richey, Chief of the Signal Service Station at Grand Haven, has been ordered to Fort Bennett, Dakota.

Rochester, Oakland county, has five churches, but owing to the hard times services are held in but one this winter.

John Chick, grocer at Maple Rapids has made an assignment. Liabilities \$3,000; assets, \$1,000.

A reward of \$100 is offered for the apprehension of the fellow who set fire to Col. Savier's skating rink at St. Louis.

Robert Nelson's \$1,000 Norman station broke from the stable, near Lapeer, Thursday night, wandered to a lake, fell into a hole, and was frozen to death.

T. J. Post, of Bay City, has been appointed Deputy Oil Inspector of the Twelfth district, made up of Saginaw, Bay, Tuscola, Aracac, Midland and Grand counties.

Mrs. Hattie Russell, formerly of Grand Rapids, is making a bold fight for the \$40,000 left by her father, a printer, who died recently in New York. Mrs. Russell is, or was, a doctress in Grand Rapids.

TIMELY TOPICS.

The total damages to property by the late dynamite explosions in England is carefully estimated at \$70,000.

All the royal apartments in Windsor Castle are closed to visitors, and none but officials and reporters are allowed either in the Tower or Westminster Hall.

The nationality of the foreign immigration to the United States in 1884 was: Germany, 150,851; Ireland, 57,078; England and Wales, 51,618; Canada, 48,418; Sweden, 23,436; and Austria, Norway and Italy about 13,000 each.

A Boston physician advises everybody to ascertain what diseases have carried off his ancestors, with a view to guarding himself against inherited tendencies by adopting the requisite manner of life, place of residence, and general self-treatment.

The factories of London, England, are discharging indiscriminately all employes of Irish birth. The London police are satisfied they have the correct lead to a solution of the late dynamite outrages, and have arrested some parties and placed others under surveillance.

The letter "O" on a United States coin denotes that it was coined at the New Orleans mint; "S" at the San Francisco mint; "C.C." at Carson City, Nevada, and "D." at Denver, Col. The coins having no mark on them were made at the Philadelphia mint.

Connecticut boasts of over 6,000 persons above 80 years old, of whom 651 are more than 90, and 190 are more than 100 years. New England is a great place for old people. An old doctor once explained this by saying that their curiosity kept them alive.

Next Fall the most important State election will occur in New York that it has witnessed since 1879. A Governor and all the other State officers, a full State Senate, and a full Lower House of the Legislature are to be elected.

Owing to the three-year term of the Governor of New York, it is but once in a series of years that all the State officers are elected on one ticket. Such an event will not occur again till 1891, after next year.

New York Tribune: Mr. St. John is positively cruel. Here is Mr. J. S. Clarkson of Iowa, almost begging him to bring a libel suit to prove the wickedness and falsity of the charges against the late Prohibition candidate, and yet Mr. St. John will not consent. He prefers to wait until Judgment Day. So far as the present generation of voters is concerned, a suit in the United States Circuit Court in the district embracing Iowa would be more effective.

The Chicago Journal calls the attention of the public authorities to the numerous propositions and threats of so-called Socialists in that city, who publicly and privately advocate the destruction of property by dynamite. It thinks that a careful examination of the laws and ordinances ought to result in finding a law by which these mousing miscreants can be squelched, before their insane agitation shall bear bloody and destructive fruit. Repression is always easier than suppression, if taken in time.

INTERESTING ITEMS ABOUT OLD NEIGHBORS.

Extensive operations of the Robinsons. So many of our readers are friends and acquaintances of Messrs. G. W. and Rix Robinson of Millview, Fla., (formerly of this section) that we give considerable space this week to an article from the Pensacola Commercial, showing what the Robinsons down there have done and are doing. We take from the Commercial the following:

While presenting with commendable pride and gratification so many important business enterprises and institutions of the city, county and of the adjacent territory of West Florida, we turn to that of George W. and Rix M. Robinson with especial feelings of pride and pleasure. This firm, of which we presume Geo. W. Robinson is the senior, commenced their work in Millview, on Perdido bay, in February, 1878, with what is now known as the old Robinson mill, and after the pioneer mill of Millview, built by Dr. McLam, was destroyed by fire. Their first mill when started had a capacity of 20,000,000 feet per year, with a gang circular and edging saws, and with other necessary appliances and improvements since made have largely increased the capacity of this mill.

The second mill of Geo. W. Robinson & Co. was built in 1881-2. It is far out in the Perdido bay, is approached by a long bridge and with its front in water deep enough for the steamboats to land their tugs directly to the mill.

This mill has two circular saws with edgers and is run with a 250 horsepower engine, with ten boilers, while the old mill has eleven boilers with an engine of the same size.

The present capacity of both mills is 180,000 feet per day. The two mills give employment to 150 hands in the mill work proper, while 350 additional find steady employment in logging and other outside work, making the output for labor alone over \$600 per day.

Starting from a point nearly directly across the bay, and in Baldwin county, Ala., the company has a railroad now extended eight miles and intersecting a large body of pine lands owned by the company and tributary to the mills in this county, which gives them access to and control of about 100,000 acres of pine lands in Florida and Alabama. The road is laid with 30-lb. steel rails and is equipped with 30 cars and 2 first-class locomotives that deliver the logs to the steamboat, by which they are towed direct to the mills.

Mr. George W. Robinson has been successfully engaged in the lumber milling business since 1866; he was born in 1840, and is yet in the prime of life, with good health and unabated energies.

There is also owned and operated by this company a planing mill with a capacity of 15,000 feet per day, which was built and put in operation in 1879.

The inventory of property and capital invested, carefully taken last year, amounts to over \$600,000, including lands, lumber, machinery, steamboats, railroad cars, locomotives, etc.

The mills have a direct connection with the city and bay of Pensacola by means of the Perdido R.R., which has switches to all the mills, while Robinson & Co. themselves own all the cars on this road that are used by them in the transfer of their lumber to the city and the ships they may be loading in the bay of Pensacola.

The company have a large store of groceries, dry goods and general merchandise connected with their lumber business and transact a general mercantile business amounting to from \$130,000 to \$140,000 per year.

These mills are undoubtedly the most perfect and completely equipped of any in the Southern States and evince unmistakably the controlling influence and organizing executive and administrative ability of a master mind perfectly familiar with the work and accurately posted as to all its details, as well as able to grasp the entire business in its comprehensive outlines and many intricacies.

Nearly all the logs used in these mills are hauled by teams owned by the company and cut by hands in their employ. The teams number about sixty, with six oxen to each team, besides the mules, horses and wagons for necessary work connected with the business including sixty or seventy log carts. Robinson & Co., of New York, sell nearly all the lumber for this company.
