### LOWELL JOURNAL

BY JAS. W. HINE.

#### EDITORIAL COMMENT.

—We fear Gov. Hill of New York is an offensive partisan. For partisan purposes he vetoed the Census Bill, thus preventing a legislative reapportionment. Gov. Hill was elected Lt. Governor when Mr. Cleveland was elected Governor. He now wears Mr. Cleveland's gubernatorial mantle and it is too large for his frame. Two good eggs to one bad one that Gov. Hill will not be his own successor.

—It is remarked by a wise man in the east that Th. Nast "is one of a very few artists who does not flatter himself while drawing his own picture." Very few men have been flattered by Mr. Nast's pencil. Ben Butler is the only exception we know of. In drawing his picture Mr. Nast would run out of imagination every time.

—Harper's Weekly did all in its power to secure the election of Mr. Hendricks as Vice President. The last number of Harper's Weekly says Mr. Hendricks is decidedly opposed to civil service reform and that fact has been an open secret for a long time. Harper's Weekly is no jewel. Consistency is a jewel.

—Hon. Reward Beecher hath received his reward. His boy Herbert has been appointed collector of customs at Puget Sound. Thus does the mugwump secure a crumb.

—Isn't it a little singular that so many of the newly appointed foreign ministers are men who stood up and were counted for the "lost cause"? Well, no, can't say it is.

—The Detroit base ball club is getting there again—towards the foot of the list. Safest club to bet on in the league.

—Gen. Rosecrans succeeds Blanche K. Bruce (colored) as register of the treasury. One by one the roses fall.

—If Mr. Lthrop doesn't get out of this state pretty soon our gushing legislature will hug him to death.

—An eastern paper says the last deal of the Illinois legislature turned up Jack. Quite right, you joker.

—The summer styles for young men are very loud. Some of them are as loud as thunder.

—O yes, of course, brilliant administration; certainly. But what has he done?

—Oscar Folsom Cleveland to the President: "Anything for me to do, pa?"

From the estimates submitted, it appears that the Michigan wheat crop this year promises a greater yield than that of many other states. As a rule Michigan, with its varied resources, is one of the most reliable states in the Union.

The Marshal asks the JOURNAL to say to stock owners that horses, cattle and swine must not be allowed to run at large in any of the streets in this village. Boys can earn a quarter very quickly by driving to the "Pound" any such animal so found.

The Lowell Furniture Company has won a reputation for making excellent furniture. Parties desiring to purchase this company's goods will please bear in mind that they can be found in this village only at the store of Coons and McNaughton. 51tf

The date at the right of each subscriber's name as printed on this paper every week indicates the time to which the paper is paid for. We make this explanation thinking that several on our list may have forgotten just what it is put on there for.

Wm. R. Bainbridge of Gaines, this county, was killed at a barn raising last Saturday. A heavy piece of timber fell upon him, crushing him so badly that he lived only two hours after the accident. He was nearly 60 years old and leaves a wife and three sons.

Protective Unions are being formed in many towns; the object being protection against deadbeats. The man who tries to get out of paying his honest debts is going to be shown up as he deserves to be. Honest men are getting tired of deadbeatism and it is time to do something.

Miss Maud Whitfield, formerly of this village, now a student at the State Normal School at Mankato, Minn., read an essay at the recent "Commemoration" entitled "Honor to whom honor is due."

The Mankato Free Press speaks highly of the young lady and her essay. Maud's Lowell friends will be pleased to hear of her advancement.

M. Medler, of Cedar Springs, having seen the "big pig" items in the JOURNAL lately, rises to inquire whether said big pigs were weighed dressed or on foot? We understood "dressed." Mr. S. F. Medler of Pine Lake sold a five months old pig that weighed 170 lbs. after it was dressed.

On returning to his home in Oakland, California, Mr. C. S. Chamberlain, president of the Lowell Manufacturing Company, was tendered a cordial reception.

About eighty ladies and gentlemen were present at his elegant mansion to receive him and there was feasting and dancing, speech making and merry making until the hour hand of the clock was found sliding down hill.

Several items from last Thursday's Detroit Free Press read precisely the same as did several "local" items in last Saturday's Lowell Independent. The Free Press ought not to take undue advantage of a new paper by publishing two or three days in advance the same items the new paper publishes two or three days later. Brer Jackson's shears cut well, though.

The class in Modern Literature will hereafter meet on Wednesday, instead of Thursday, of each week at 2:30 p. m. This afternoon it meets with Miss Kittie Mason. Each member will furnish her own exercise from some American author, giving item of interest in regard to the author selected. Music in care of Miss Mattie Perrin. Next week the class will meet with Mrs. J. W. Hine and will begin the study of Victor Hugo.

If the individual who has been heard to say that the circulation of the JOURNAL has "fallen off" since last fall, will call at this office we'll soon convince him that he is mistaken. We'll show him at least twice as many new subscriptions received since last fall as subscriptions ordered discontinued since then. This may not be comforting to him but it is to us. We can't all be happy over the same thing, you know.

The tea social at Mrs. W. J. Medler's Friday evening was a very pleasant as well as profitable affair. Enough funds were realized to make out the full amount due on the Congregational church furnace, and the church and society tender a vote of thanks to Mr. & Mrs. Medler for their liberal entertainment of the large company present.

Mr. John Welch showed his respect for the occasion by voluntarily closing his saloon, close by, during the hours of the social. An act which was warmly commended.

We understand our village authorities propose to grant no licenses to wheel-of-fortune men or any similar devices for chance gaming or gambling.—Lowell Journal.

This is very creditable in the village authorities, especially as they have no right whatever under the state laws to license gambling of any kind. Wheel-of-fortune men come to grief very quickly in this city. One who tried to run a wheel here on circus day paid to Squire Curry \$23 for a very few minutes run, and left the city poorer and wiser than he came.—Ionia Standard.

That's the stuff. We like your style. Which way do you go to get to your town?

We do not boast of carrying three times as much furniture in stock as any other firm in town, but we do intend by square dealing and strict attention to business, to sell three times as much furniture as any other firm in Lowell.

COONS & MCNAUGHTON.

THE DIME COMEDY COMPANY.

Tucker and Bourne's Dime Comedy Company commenced a week's engagement at Music Hall Monday night, opening with "Hazel Kirke." A fine audience was present and the company made a good impression. It gives more for a dime than nine-tenths of the traveling shows do for 25 and 35 cents.

To-night, "Fanchon;" Thursday night, "Esmeralda;" Friday night, "Kathleen Mavourneen;" Saturday night, Grand Comedy Bill. Admission 10 cents. Reserved seats 20 cents; secured at the Post-office news stand.

#### OWEN FAWCETT.

Music Hall, June 17.  
For one night only, Mr. Owen Fawcett, the well known and highly popular comedian, will visit Lowell. On Wednesday evening June 17, he with his excellent company will be at Music Hall where he will undoubtedly be welcomed by a large audience. Mr. Fawcett has won a fine reputation as a comedian and has few if any superiors, in his peculiar line, on the stage to day. It is very seldom that an actor so renowned as he, is seen in Lowell, therefore it is but natural to bespeak for him a full house. Music Hall is now well equipped with new scenery, a handsome drop curtain and pleasing decorations. Mr. Fawcett's company is a good one to re-dedicate it.

LOWELL JOURNAL, LOWELL - MICHIGAN. A chemist in New York asserts that in every one hundred pounds of green tea used in this country the consumer drinks more than a half pound of Prussian blue and gypsum.

GLASSPOTERS accumulated in such quantities at a gate on a Wheatland (Cal.) ranch at the end of the month that it was necessary to remove them with a shored in order to get the gate.

The Knights of Labor count among their colleagues one Governor, one United States Senator, three Congressmen and one hundred and twenty-five members of State Legislatures.

In New York the flower-missionaries began their work in earnest about mid-October will receive and distribute flowers and delicacies to the hospitals, homes and asylums, and to the sick poor in treatment houses.

The Troy (N. Y.) Times says that a clergyman has discovered that all the salaries of religious teachers in that country added together do not amount to so much as the sum which the country spends annually in keeping dogs.

All the Government officials in Japan were privately instructed some time ago to wear European costume during office hours, but as some are still using Japanese dress, the authorities are said to have resolved on making the measure compulsory after July next.

The assertion having been made that lawyers as a rule are skippers in Michigan, the Philadelphia Times has taken pains to investigate the matter so far as its own city is concerned. Of the 1,500 members of the Philadelphia bar, nine hundred are either church members or have well-defined church affiliations.

Overalls and tricycles are extremely popular in Kyoto, Japan, and the young people spend most of their spare time riding about in these machines. So many accidents have occurred recently in the crowded streets from these vehicles that the Governor has forbidden them to be used in the city.

The fruit dealers in Arkansas recently discovered "strawberry day," and donated the fruit for that day to the inmates of the Institute. The fruit for the blind, deaf and mute in a state and State Penitentiary. The children picked the berries, the owners gave them, the merchants paid for the crates, and the railroads handled them free.

It is said that the people of New Orleans are satisfied with the results of the Exposition, which closed May 31. The retail stores do a more active business than in what is known as splendid years, the hotels and boarding houses are crowded; the railroad lines had every car employed; the rents were higher and many tenants paid their rents through casual boarders.

For the purpose of being imprisoned, to secure shelter and food, Frank E. Downs, a newspaper writer, broke the window of a jewelry store, at St. Louis, late the other night, abstracted some articles, and then made his escape. The woman told a story of great suffering, and wanted to be sent to the penitentiary. Some of the officers believed that her mind had become deranged.

ALAN MEIER, of Girardville, Pa., a crippled miner, who lives by peddling groceries, was recently robbed of \$800 which he had saved out of his rare pension. A few mornings after-ward he found the money on his doorstep neatly wrapped up. It was supposed that the thief became conscience-stricken at the thought of having robbed a unfortunate and industrious old man.

The following is told of an Illinois Justice of the Peace: "A couple of overzealous lawyers in his court got into an argument the other day. One offered the other fifty dollars to go to jail, the other a point of law, and the bet was quickly taken. The Justice became the stakeholder, and when the money was put up he promptly took the loser's side for contempt of court, and appropriated the fund to pay the fine."

In a letter addressed to an Indian graduate of the Carlisle (Pa.) school Senator Edmunds says: "I shall be glad at the next session to do anything in my power to make a general provision that any Indian who chooses voluntarily and in some formal way to renounce his allegiance to his tribe and assert his desire to become a citizen of the United States, with all its rights and responsibilities, may do so."

THOMAS WELCH, the venerable colored man who, whenever the United States Supreme Court is in session, sits outside the main entrance, and takes up cents and closes it for visitors and lawyers, has been in the employ of that court for thirty years, and is full of interesting reminiscences of the justices and of the lawyers who have practiced before them since 1846 or thereabouts. He thinks much of the dignities of the court and the respect that should be shown it.

Payment for pensions at Washington during the month of May amounted to \$10,000,000. During the previous month \$6,000,000 were distributed, and for March \$5,000,000 were required. This gives a total of eleven months of the present fiscal year of \$69,000,000. The pension payments for the corresponding period of last year were \$88,000,000. The increase of \$19,000,000 is accounted for by the law passed last winter granting an increase of pensions for the loss of an arm at the shoulder, joint and armpits or of one limb.

LOWELL JOURNAL, LOCAL NEWS. Dr. Mrs. R. M. Malcolm like Kansas. Kent county real estate transfers, \$58,127.30. J. F. H. John, of Kansas, is expected to visit this city on his return from a five-months tour in Europe, by way of London, by Rev. C. Oldfield last Sunday.

A large number of Grand Rapids Democrats are getting in lively work to prevent E. A. Burlingame from securing the appointment of revenue collector at Grand Rapids. He is said to be a very capable man, and feels confident he will catch the plum.

The boys had a big time at the encounter of N. O. V. at Lansing last week. At the banquet F. D. Eddy responded to the toast—"The Ladies," in a very happy manner. Gov. Alger and other notables were present and made speeches.

E. H. W. writes from Chocoma, Cal.: "We are well but the weather is very hot. Mercury today is up to 100° and going higher. Mr. Hatch also says he does not receive the Journal. It is mailed from here every week to 'E. Hatch, Chico, Cal.' and should reach him regularly. Get a search warrant on the Chico post-office."

Harrer's for July will be largely an out-of-door number. Frequenters of M. Desert will be delighted with a series of charming poems, "Misadventure at Michigan," by Mrs. M. B. Bangor, with equally charming illustrations by Harry Penn, and lovers of the Adirondacks will be pleased in their turn with the paper "Amperman's Lake and Mountain," also fully illustrated.

Howard, France & Co. Have been through their immense stock of clothing, marking prices lower than ever before known in Lowell. They are determined to reduce their stock and to this they have adopted a method which cannot fail. Elegant dress suits can now be bought of them for the price paid elsewhere for cheap suits. Cheap suits can be bought of them 25 to 40 per cent cheaper than elsewhere. They make these astonishingly low prices because they have decided not to carry over spring and summer goods beyond the present season. Bargains, therefore, in clothing, hats, gents furnishing goods, can now be had at their store never before offered by any firm in Lowell. Doing as they believe. A look at their stock and prices will convince any man that that means what they say.

HALL'S Vegetable Sicilian HAIR RENEWER was the first preparation perfectly adapted to the natural color of the scalp, and it restores the natural color, growth, and youthful beauty of the hair. It has had many imitations, but only our fully met all the requirements needed for the proper treatment of the hair and scalp. Persons calling for our Sicilian Hair Renewer will please say "advertised" and give the date of this notice. M. M. PRATT, Dr.

The distinguished U. S. Senator from Indiana, Hon. Daniel W. Voorhees, certifies that in a case of rheumatism in the back, he obtained relief by the use of Hall's Hair Renewer. He says it is remarkable remedy.

LOWELL JOURNAL.

Lowell, Mich., June 10, 1885.

DROPPED DEAD.

Joseph Babcock, of South Boston, dropped dead with heart disease yesterday morning. He was a well known and highly esteemed citizen of Ionia Co., and his sudden death is a severe shock to his many friends.

W. R. C.

The ladies of Lowell and vicinity are invited to meet at Joseph Wilson Post Room on Monday Eve. June 15, at 8 o'clock, sharp, for the purpose of organizing a WOMEN'S RELIEF CORPS. The object and purpose of this organization will be stated at the meeting.

How Hi Is Do?

Groton, Dakota, June 1st, 1885.  
Dear Sir, Enclosed find a large and elegant dollar to apply on JOURNAL subscription. Politically you are "way off" but for putting over melon vines in the garden to keep the bugs off, I had just as soon have the JOURNAL as any paper of its size, that I know of.

Yours very truly, H. Now is the time to keep off the bugs. Next!

Another Old Settler.

Smyrna, June 1st 1885.  
Editor Lowell Journal:—Having no record in your paper the claims of old settlers of Michigan I would offer as my claim that I moved from Covington, Genesee Co. N. Y. with my father, Solomon Wales, to Michigan, Macomb Co. Township of Shelby, May 15th 1823, and have lived in Michigan ever since. There are four of us still living; we also represent four generations, as my oldest sister is still living and has great-grand children. Mrs. B. M. JOSLIN, Smyrna, Mich.

AT REST.

Last week's JOURNAL published the sad announcement of the death of Emma Barkley. The funeral services occurred on Wednesday afternoon at the family residence, Rev. C. Oldfield officiating. The casket was laden with beautiful floral offerings—emblematical of the pure young life, translated to the brighter realm. The bereaved mother and sisters feel that words are inadequate to express their gratitude to the attending physicians and the many kind friends for their untiring devotion to Emma during her illness. Human aid, though powerless to save, was powerful in bringing relief to the sick and consolation to the sorrowing.

THE SONS OF MICHIGAN.

The Michigan Sons of Veterans are coming to the front. The numbers are rapidly increasing. New camps are being mustered in every week. The following officers were elected at the Lansing encampment last week:

Commander, F. W. Rowison, Grand Rapids.  
Lt. Commander, M. E. Hall, Hillsdale.  
Vice Lt. Commander, W. L. Bowdish, Lansing.  
Chaplain, L. A. Baker, Lansing.

DIVISION COUNCIL.

Chas. R. Cowdin, Rockford, E. H. Wines, Howell, A. L. Peck, Lowell.  
Delegate at large to 3d Grand Division Encampment, F. D. Eddy, Lowell.  
Delegate, R. J. Shank, Lansing.  
Alternates, C. J. Post and M. E. Hall.  
Delegate to Com. in Chief, L. A. Baker, Lansing.

Next annual encampment will be held at Grand Rapids. The Corps Badge adopted was the "Clover Leaf."

Fursman & Co's Great Allied Shows.

The popular cry of low prices is answered by the celebrated show, with the above title, which is to exhibit at Lowell Friday June 19. This show, while it has greatly augmented its attractions, has reduced its admission price to twenty-five cents, and as it is the first big show to make this reduction its patronage will only be limited by the capacity of its canvases. But Fursman & Co., have not only made this reduction, but they have greatly added to their already large show. And have engaged such notable performers as the D'Alma Family, Millie Tona, the celebrated high-wire artiste and running globe performer, M'le Madeline, the oriental juggler, and M'le Georgia, the female Sampson. They also have combined with their other exhibitions an extensive Museum of living curiosities, many of them never before exhibited.

Different Opinions.

Editor Lowell Journal:—I noticed in your issue of May 20 an item that says "The board of health is doing a good work." Now if the board of health is doing such a vast amount of good I would like to know in what way. I for one am unable to see any good they have ever done. Can you recall an instance where it was ever known to prevent sickness or save any person's life? Are people any healthier in consequence of it than they used to be? Go back to the time when there was no such organization known, were not the inhabitants healthier, as a rule, than they are at the present time? Isn't there more sickness and death in the land, according to the population, than there was then? I think you will agree that there is. In view of these facts, and what little experience I have had with it, I can't help but feel that the board of health, so called has done, and is doing more hurt than good, and that it did me and my family a great wrong in time of affliction and that it is making a needless expense to the state all for nothing, and that a great many people die, especially children, in consequence of it, that would not perhaps if no such organization existed. And there are a good many that will agree with me in these conclusions. G. H. GODFREY, Alton, May 30 1885.

NOTE.—The JOURNAL spoke of our village board of health which is certainly doing good work in improving the sanitary condition of Lowell. Of the State Board of Health we have not room here to speak further than to say that we fail to see how it can be held responsible for what our correspondent lays at its door.

Bowme Zephyrs.

Plenty of rain for the present. Working upon the roads the past week was the general order.

M. J. Nash visited Grand Rapids Wednesday.

A. Good Templar lodge was organized at Bowme Center, Friday evening, in the presence of a large audience. Mrs. McElwin, of Hastings, assisted by members of the L. O. G. T. of Freeport, conducted the meeting.

Uncle Stephen Johnson, who has been suffering with a severe attack of inflammation of the kidneys for the past week is reported better. DAVE.

Vergennes Visitor.  
Mrs. H. Soules is very sick.  
Mrs. B. N. Lobdell starts this Monday for her home in Northville, N. Y. Her mother, Mrs. D. M. Miller, goes with her. Mrs. Miller's friends regret very much to have her go.  
Mrs. Fred Goodenough, of near Coral, has been visiting her sister, Mrs. James Buchanan, and other friends.  
Saturday night some miserable sneak thief took from Mr. A. Yerkes' cellar a dish of soapuds is death to currant worms. Try it. He gives the dose in such strength as will curl them up in a second of time. He uses it very strong and after it has served this good purpose the rains wash it down and it acts as a stimulant to the bushes.  
Will some of the farmers tell us if cream will rise in 12 hours as much as it will in 24 hours, if the animal heat is taken from it in 20 or 25 minutes by the aid of icewater, or would it be better to stand 48 hours? Will it rise as quickly in deep setting as in shallow? Say take 12 lbs. of milk in two shallow pans and then 12 lbs. in one pan of the same diameter. None so well as the farmers know, how oats, corn, beans and potatoes grow. J. W. R.

Freeport Herald-ings.  
Mrs. A. C. Clemens is having a new cellar built and otherwise improving her residence.

Mr. & Mrs. A. Brunner, of Lowell, were the guests on Sunday last of his brother, Mr. J. Brunner of this place.

Mr. August Goch is making noticeable improvements on his new purchase, the Bergy place.

The Clarksville cornet band will be invited to assist the Freeport band here the coming fourth.

We are pleased to announce that Mr. Fred Fox is rapidly regaining his former health. Fred's experience in New Mexico does not prove that section of the country to be the most healthy locality in the world.

Better accommodations than ever before will greet the people who celebrate in Freeport this year. The new and commodious hotel will be one attraction and the rink will be another. The appointment of a reception committee who will attend to their duties will make the occasion much pleasanter for our guests.

There is a lively time in the camp of the Philistines over our little 25 cent P. O.

In the interest of "reform" our present efficient P. M. must go. But they are quarreling among themselves as to whom shall have the honor. They are like the Frenchman who said "he called me a thief, he called me a liar, he called me every thing just as I was." As it is cat fighting cat, we Republicans stand from under and let them go it.

Mrs. Carrie Cedar and her two children have gone to Cedar Springs on a visit after spending three weeks with the family of her brother Dr. Ford.

Now do not print that Mrs. "Miss" as you did before, as she does not care to have it go out that she is a Miss, with two children of her own. That would be amiss indeed.

Some 15 couples of young folks from Keene picknicked at Murray's Lake Saturday.

TO KILL CURRANT WORMS.—Mr. R. Hurbert, Portland, Mich. says he knows by two years successful experience that a dish of soapuds is death to currant worms. Try it. He gives the dose in such strength as will curl them up in a second of time. He uses it very strong and after it has served this good purpose the rains wash it down and it acts as a stimulant to the bushes.

Will some of the farmers tell us if cream will rise in 12 hours as much as it will in 24 hours, if the animal heat is taken from it in 20 or 25 minutes by the aid of icewater, or would it be better to stand 48 hours? Will it rise as quickly in deep setting as in shallow? Say take 12 lbs. of milk in two shallow pans and then 12 lbs. in one pan of the same diameter. None so well as the farmers know, how oats, corn, beans and potatoes grow. J. W. R.

Now that the season of currant worms has arrived, I will give a simple and very cheap remedy. One-half pint kerosene, one half-pint sour milk, whip together thoroughly, and it will then readily mix with water. Put it with a pailful of water and apply to the bushes with a sprinkling can.

The cut-worms are a great pest and if any one can tell me an easy and efficient way of getting rid of them I shall be much obliged. Can any reader of the JOURNAL inform me how long the cut-worm remains in the grub or larva state and what kind of a butterfly it eventually forms?

E. H. asks at what price it pays to feed our potatoes. At the present comparative prices of corn and potatoes, i. e., 60c. and 20c., I think that potatoes are cheaper food for hogs and horses than corn. A little care is necessary not to feed a horse too much at first; four quarts being enough to begin on. This may soon be increased to a peck, or even a half bushel at a feed. That all depends, of course, on what other feed the horse has. I can say from experience that horses do well on them. C. W.

OHIO CROP REPORT.

The Report of the State Board of Agriculture for the Month of June.

COLUMBUS, June 6.—The June crop report of the Ohio Board of Agriculture based on returns from about 900 regular township correspondents, give the following estimates: Wheat, probable bushels, with good weather till harvest, 20,000,000, which is 51 per cent of an average crop and 20,000,000 short of the last five years average, 8,000,000 short of the April estimate and 2,000,000 short of the estimate for May. Rye, condition 71 per cent; barley, area 81, condition 72; oats, area 106, condition 92; corn, area 105, condition 92; apples, prospects 77; pears, 80; grapes, 60. The wheat figures are the result of two independent estimates, having been made on the known crop for five years, the other by estimated bushels per acre on the known acreage. Both are gotten up with great care and agreeing almost exactly in total bushels for the State.

A band of Apaches has been seen near Masco Springs, and the bodies of several murdered Americans and Mexicans have been found near Carlizillo Springs, badly mutilated.

The Defuncting Manhattan Bank Teller.

New York, June 6.—No news as to the whereabouts of defaulting Teller Scott has been received either at the bank or at the Pinkerton agency. The latest reports are that Mrs. Scott left New York Wednesday night for Canada, where her husband is supposed to have taken refuge. It is said the detectives have followed the fugitive to Canada and now have him under surveillance. The bank officials say if they fail in having Scott extradited in case of an arrest in Canada, they will enter into negotiations with a view to obtaining a part of the stolen funds.

FOUR ACTS PLAYED!

Sad Report About Ex-President Arthur WILL THE FIFTH AND FINAL ACT BE A TRAGEDY.

Rochester Democrat and Chronicle.  
"Dr. Lincoln who was at the funeral of Ex-Secretary Frelinghuysen, says Ex-President Arthur looked very unwell. He is suffering from Bright's disease. During the past year, he has assumed a very aggravated form, and is now in a very dangerous condition."  
That telegram is act IV of a drama written by Ex-President Arthur's physicians. In act I he was made to appear in "Malaria," of which all the country was told when he went to Florida.

In act II he represented a liver man, worn down, walking the sands at Old Point Comfort and looking eastward over the Atlantic toward Europe for a longer rest.  
The curtain rolls up on act III upon the distinguished actor affected with melancholy from Bright's disease, while act IV discovers him with the disease in an aggravated form, suffering intensely, (which is unusual) and about to take a sea voyage.

Just such as this is the plot of many dramas by play-writers of the medical profession. They write the first two or three acts with no conception of what their character will develop in the final one. They have not the discernment for tracing in the early, what the latter impersonations will be. Not one physician in a hundred has the adequate microscopic and chemical appliances for discovering bright's disease in its early stages, and when many do finally comprehend that their patients are dying with it, when death occurs, they will, to cover up their ignorance of it, pronounce the fatality to have been caused by ordinary ailments, whereas these ailments are really results of bright's disease of which they are unconscious victims.

Beyond any doubt, 80 per cent of all deaths except from epidemics and accidents, result from diseases of the kidneys or livers. If the dying be distinguished and his friends too intelligent to be easily deceived, his physicians perhaps pronounce the complaint to be pericarditis, pyemia, septicaemia, bronchitis, pleuritis, valvular lesions of the heart, pneumonia, etc. If the deceased be less noted, "malaria" is now the fashionable assignment of the cause of death.

But all the same, named right or named wrong, this fearful scourge gathers them in! While it prevails among persons of sedentary habits—lawyers, clergymen, congressmen—it also plays great havoc among farmers, day laborers and mechanics, though they do not suspect it, because their physicians keep it from them, if indeed they are able to detect it.

It sweeps thousands of women and children into untimely graves every year. The health gives way gradually, the strength is variable, the appetite fickle, the vigor gets less and less. This isn't malaria—it is the beginning of kidney disease and will end—who does not know how?  
No, nature has not been remiss. Independent research has given an infallible remedy for this common disorder; but of course the bigoted physicians will not use Warner's safe cure, because it is a private affair and cuts up their practice by restoring the health of those who have been invalids for years.

The new saying of "how common bright's disease is becoming among prominent men!" is getting old, and as the Englishman would say, sounds "stupid"—especially "stupid" inasmuch as this disease is readily detected by the more learned men and specialists of this disease. But the "common run" of physicians, not detecting it, give the patient Eoson salts or other drugs prescribed by the old code of treatment under which their grandfathers and great-grandfathers practiced!  
Anon, we hear that the patient is "comfortable." But ere long, maybe, they "tap" him and take some water from him and again the "comfortable" story is told. Torture him rather than allow him to use Warner's safe cure! With such variations the doctor play upon the unfortunate until his shroud is made, when we learn that he died from heart disease, pyemia, septicaemia or some other deceptive though "dignified" cause.

Ex-President Arthur's case is not singular—it is typical of every such case. "He is suffering intensely." This is not usual. Generally there is almost no suffering. He may recover, if he will act independently of his physicians. The agency named in this advertisement is of persons even in the extreme stages—is to-day the mainstay of the health of hundreds of thousands. It is an unfortunate fact that physicians will not admit there is any virtue outside their own sphere, but as each school denies virtue to all others, the people act on their own judgment and accept things by the record of merit they make. The facts are cause for alarm, but there is abundant hope in prompt and independent action.

EXZEMA OF SALT RHEUM.

Another Clear and Positive Recovery—An Elderly Lady's Letter.

Among the numerous letters received by Dr. Kennedy testifying to notable Salt Rheum cures the following will be found of interest to our readers, who may accept our assurance of its perfect authenticity and truthfulness.  
New York, March 23, 1884.  
Dr. Kennedy, Boston, Mass.:  
Dear Sir:—Until recently I have been for three years a sufferer from Salt Rheum, which I contracted upon an attack of Erysipelas, for which I was for a long time under medical treatment. I placed myself again in the hands of the physician who did, I have no doubt, all that could be done. One thing is sure, however, I was none the better for all the medicine they gave me. My condition and unsightly disease made continual progress, until I began to fear I should never get rid of it.  
By means of one of those accidents that often result in so much blessing I had my attention called to your Favorite Remedy, which I was told would surely do me good. I used it and within a much shorter time than I would have believed possible, I received a permanent cure. I am now perfectly free from Salt Rheum. What a comfort this is, and how it places your wonderful medicine in my opinion, you are more than ever never known. I keep it now constantly in the house as a family medicine. Yours truly,  
Dr. Kennedy, Boston, Mass.

Mrs. Phair sometime since, when on a visit to Kansas, found a case of Salt Rheum, could not get FAVORITE REMEDY, sent to New York City for it, and cured the case.
