The Kirk and Stark stock of boots and shoes, recently transferred to Will Chatterton, was boxed up and taken from the store Saturday night. We understand Mrs. Stark held a \$2,000 mortgage on the stock. Many questions have been asked concerning the affair which we are unable to answer. The JOURNAL is not a court of investigation. If, as some strongly insist, creditors have been intentionally defrauded by crooked transactions, the injured parties are the ones to investigate and seek redress. The JOURNAL has nothing to do with that. When Kirk & Stark transferred the stock to Mr. Chatterton we were told that it was a bona fide sale, and that sundry creditors of K. & S. were shut out by the transfer. The notes and inquiries received at this office regarding the matter we have not published because a possible injustice might have been done by doing so. And, again; anonymous communications received at this office go into the waste basket.

TO OUR AGENTS —AND— THE PUBLIC.

New York, July 1st, 1885.

In response to numerous inquiries from all sections of the country in regard to the Personal Memoirs of U. S. Grant, we would say: The work will be issued in two volumes to be published separately, about the first days of December and March next, respectively.

It will be sold exclusively by subscription and will not be found at the book-stores after the active canvass has ceased, as is the case with many subscription books. Extraordinary precaution is being taken to keep this book out of the book-trade. Private marks are placed in each copy, and any agent detected in supplying the first volume to the book stores will be at once discharged, and prosecuted under his contract; and the second volume will be delivered to the bona-fide subscribers by special deliverers appointed by us. Some unprincipled book-sellers, who cannot obtain the work, are advertising it for sale and at a reduced price, thus attempting to rob General Grant of a portion of his hard-earned profits, by reducing the price and discouraging our agents. This is simply mischievous and intended to embarrass our agents and the subscription trade. In the end it can result in no profit to them. Other scheming publishers are advertising works whose titles are so ingeniously arranged as to resemble General Grant's Memoirs, purposely withholding the author's name, and in various ways imitating that work with the evident intention of deceiving the public and inducing them to purchase a book that they do not want—a work with which General Grant has had nothing to do, and from which he derives no benefit whatever, and which works have little more value than the paper upon which they are printed. Such unprincipled publishers and dealers deserve the execration of their countrymen. They seek to snatch the budding fruit of hard-earned toil from the man, who, above all living men, has done so much for his countrymen, and who has worked so long and patiently, under trying circumstances, in a last effort to supply a competence in his declining days, for himself and family—the only legacy he has to leave them, except his name, which belongs to his country.

If, by any chance a few copies of the first volume appear in the trade, the agent selling them will at once be detected and prosecuted, and people buying that volume will not be able to get the second volume.

Our agents will not fill orders for the second volume except to those who subscribe for the first. We have decided to manufacture only sufficient copies to supply the orders of our subscribers, as our agents report them from time to time. In view of this, we hope every one who desires the work will subscribe early.

Justice to both General Grant and ourselves demands this course, as the profits must not be reduced by a large stock of unsold volumes.

No one is authorized to take orders except our regularly appointed agents, who are all supplied with sample books and certificates of appointment, and dealers who advertise this work will sadly disappoint their customers, especially in the delivery of the second volume.

We say to all who wish the complete work promptly on the issue of the respective volumes, that the only way to obtain it is to subscribe with one of our authorized agents.

And by so subscribing, we assure the public that General Grant himself receives the full return for his labor, as his remuneration is on a BASIS OF THE PROFITS on the book, and his share comprises THE GREAT BULK OF THE PROFITS.

We make this statement that the public may not be deceived, and with the feeling that the General's countrymen wish to place their subscriptions where they will know that he is receiving the full benefit of them.

Yours respectfully,
CHAS. L. WEBSTER & CO.

The above explains itself. Mr. C. C. Stickney, representing the H. G. Allen Publishing Co., Grand Rapids, is now taking subscriptions in Lowell and vicinity for the above named work—a work for which there is to-day a greater demand than any other volume or set of volumes published.
