

J. Q. LOOK,

Wishes to call the attention of the public to his stock of

Paints, Oils, Wall Paper, Window Shades, &c.

We are Agents for the Alston Mfg. Co's

LINSEED OIL,

Which we guarantee to be Strictly Pure. Buying direct from the Manufacturers we know we can furnish our customers with Pure Oil.

The Sherwin Williams Paints.

These Paints we can recommend to be Pure. They contain nothing but STRICTLY PURE LEAD, ZINC, AND PURE LINSEED OIL.

"What shall I do with the outside of my house?" is a question often asked by those who wish to paint.

In exterior decoration, the surroundings should be taken into consideration, and the building treated in such a way as to harmonize as nearly as possible with them; especially should this be the case in suburban residences, as there is nothing that so effectively destroys the beauty of a landscape as to see a house painted in colors that are in discord with objects about it.

This subject has become so important, we have naturally taken a great interest in it and have given it no little study. We shall be pleased to answer any specific questions that may be addressed to us.

ATTENTION is called to the fact that nearly all other manufacturers of mixed paints are obliged to give a rule for the covering capacity of their paints, requiring from 15 to 25 cent. more than this, simply because THE SHERWIN-WILLIAMS PAINT is properly made and of pure materials, and therefore admits of being rubbed out under the brush like any pure lead, zinc and oil paint, not requiring to be "flowed on," as the manufacturers of cheap paints direct their products to be used.

OUR STOCK OF WALL PAPER

has been selected with great care, and to meet the demands for first class interior decorations. OUR STOCK OF WINDOW SHADES IS COMPLETE, both in Plain and Decorated Shades.

CARRIAGE PAINTS.

Our Stock of these goods comprise all the leading colors. Call and examine them.

PAINTS IN SMALL CANS

for family use, we have them in all colors and sizes of cans.

PAINT BRUSHES.

In This Line of Goods we can Suit You Both in Quality and Price.

Drugs & Medicines.

Our stock of Drugs will be found complete and composed of Pure Goods. Our stock of Patent Medicines comprises nearly every article in the market. Our prices will be found as low as consistent for good goods. Thanking the Public for their Liberal Patronage and hoping to Merit a Continuance of the Same.

We are Respectfully Your Obedient Servant.

M'GARIGLE HAS SLOPED.

THE CONVICTED CHICAGO BOODLER EMBRACES AN OPPORTUNITY.

And Now is a Very Much Missing Man—He Seems to Have Pulled the Wool Over Cook County Official Eyes with Great Success—Some Crushing Testimony Against the Crooks.

CHICAGO, July 25.—A sensation was caused here early Sunday morning by the discovery that W. J. M'Garigle, ex-convict of the county hospital, who was recently convicted of being concerned in the wholesale robbery of the county, had escaped. M'Garigle, an Engineer and Mechanic, of the hospital, had been convicted and sentenced to three years in the penitentiary, judge Shippen having refused to admit them to bail, and they were in custody awaiting the result of a motion for a new trial. Between 8 and 9 o'clock Saturday night Sheriff Matson took M'Garigle to the house of the latter, where a conference was held with States Attorney Grinnell, between whom and the escaped boodler there appears to have been several conversations of late. While at his home the prisoner decided to take a bath and retired for that purpose. After waiting for some time the sheriff became uneasy, and on going to the bathroom found that his man had fled. The police were at once notified and search was begun, but for nothing has been learned of the fugitive's whereabouts. The facts of the escape were not learned by the newspapers until late Sunday morning. There are rumors that M'Garigle has been spirited away in accordance with a plan of the states attorney, but for what purpose has not been made clear.

Telegrams were sent in every direction, especially to points along the Canadian border, putting the police officials on their guard, and requesting the arrest of the fugitive if he should be identified in his flight to the refuge of American waters. The officials here had not the slightest idea what direction he took—unless the supposition mentioned is correct—and the escape was evidently well planned and assisted by friends outside.

When the sheriff went to the bathroom he had to pass through Mrs. M'Garigle's sleeping room. He found that lady lying on the bed, and when asked about her husband she said she supposed he was still in the bathroom. He was not, however, nor had he been in the bath at all. His clothes were lying around, showing that he had changed them for others to facilitate his escape, but from what direction he left the house there is not the slightest indication. There was apparently a great commotion among the officers when the escape was discovered, and they drove in hot haste in every direction, the detectives being immediately visited, although it is stated that the regular city police were not informed of the trouble until after 5 a. m. Sunday.

LATELY M'Garigle had not been recaptured up to an late hour Sunday night, nor had the slightest clue to his whereabouts been discovered. Many people believe he has not left the city. If the surmise that the job is a put up one by the officials is correct, the state should meet their parts, especially M'Garigle is still under bonds of \$50,000, his bondsmen being E. J. Lehman and James Fitzsimmons.

It seems probable now that M'Garigle held out to the state's attorney, hoping that he would squelch the express, and by arranging a plan for escape and securing an opportunity to carry it out.

A "SQUEALING" CHICAGO BOODLER.

Charles F. Lynn Tells of Crooked Operations—His Own Share of the Spoils.

CHICAGO, July 25.—Attorney Gibson, of counsel for the defense, made the opening address for the indicted county commissioners and others in the omnibus boodler trial Friday. He charged that there was a conspiracy against his clients. At the conclusion of the address the court took a short recess, and

then ex-County Commissioner Charles F. Lynn was called as the first witness of the case. He testified that he and several of his colleagues had accepted "commissions," bribes—from a number of contractors. He gave in detail the fraudulent transactions, and stated that there were secret meetings of the commissioners, at which plans were made for robbing the public in this way.

CHICAGO, July 25.—Charles F. Lynn, ex-commissioner and county boodler, has proven the best witness the state has so far brought forward in its efforts to send the county boodlers to the penitentiary. His testimony was in the nature of a confession, and implicated Klehm, M'Garigle, Varnell, Van Pelt, Leyden, Wren and others. He swore to receiving "commissions" on about every thing the county had to buy, the contractors for furnishing the supplies putting the "commissions" into their bills against the county by charging that much more for their goods. His testimony was explicit and straight, and leaves not a doubt of the guilt of the ring. On Saturday he stood his cross-examination without breaking the force of his direct testimony.

William Clow of the firm of James B. Clow & Sons, who had furnished plumbers' supplies to Cook county, testified that Ed McDonald came to his father's store one day in 1886 as agent of the county board, and asked him what commission a firm would pay on the goods furnished to the county. Clow said he would not pay a commission.

McDonald then said a commission must be paid for the firm would lose the county business. Clow went to Chairman Klehm of the county board, and told him what McDonald had said, and Klehm advised him to pay the

commission demanded. James B. Clow also testified to the same effect. John J. Lobstein, a sash and door contractor, testified that he paid Commissioner Wren \$500 at one time in the shape of a commission for obtaining a contract for work in the county clerk's office. He did this by making out a bill for \$1,300 when the amount should have been \$800, and when the bill was allowed he gave Wren his check for \$500. On another piece of work Wren demanded a commission, and he gave him a county warrant for \$500.

CHICAGO, July 25.—The twenty-second day of the big boodler case was devoted to testimony by J. G. Lobstein, contractor; Ed Phillips, janitor of the county building; Henry C. Clybourn, who sold gravel to the county in 1886 for the toll-road near the insane asylum, and others. Mr. Clybourn's testimony was the most important. He said he had been selling gravel to the county in 1885, when one day Mr. Kolze asked him why he didn't get the contract for the stone road, adding that he thought he could get it for him. The witness said he then made an estimate of \$14 a car-load for gravel, and gave it to Mr. Kolze, who shortly after came to him and said he could get the contract for \$10 a car-load. When asked what the extra \$4 was for Mr. Kolze said it was for "commissions." The witness obtained the contract and furnished 200 car-loads of gravel, paying Mr. Kolze \$2,500 for the contract. The witness also testified that he obtained \$100 for 300 car-loads he never delivered. Of the money thus obtained he paid out \$2,900 to various members of the boodler gang.

POWELL IS THE MAN.

Ohio Democrats Nominates Him for Governor—Balance of the Ticket.

THE CONDITION OF TRADE.

A WEEK'S BUSINESS REVIEWED BY DUN & CO.

Feeling Suits Over the Baltimore & Ohio Deal Tend to Disturb Wall Street—Extraordinary Low Price of Wheat—Anxiety About the Supply of Money—Failures for a Week.

New York, July 25.—R. G. Dun & Co.'s weekly review of trade says: With business progressing well throughout the country, crop prospects excellent, iron production larger than at any previous period, and money in abundant supply, Wall Street is disturbed because a dream it has been chasing for months suddenly fades away, and Mr. Garrett announces the failure of Mr. Ives to buy the Baltimore & Ohio. The incident illustrates the weakness of Wall Street as a barometer. For four months the street has been discounting the beneficial results of this expected "settlement," and all sorts of purchases, loans, commitments, and calculations have been based thereon. But for these, the retention of the Baltimore & Ohio by its old owners would disturb nobody. But now litigation, involving the value of many properties, directly and indirectly, has been commenced and may overtake them with uncertainty for some time, and meanwhile no one wants to buy a share in a lawsuit.

Wheat, at 87½ cents for No. 2 red winter in July is lower than it has been before in that month for more than forty years, and close to the lowest price for that period in any month. This is the direct result of speculation which drew many million bushels from farmers' hands, where cost of carrying was nothing, into the hands of dealers who are anxious to unload before new wheat comes. The 20,000,000 bushels in a few elevators are heavier than 50,000,000 bushels would be in farmers' bins. Still purchases from farmers for some time to come are probable, and the consequent delay in demand for money to use in crop moving may possibly be helpful.

Prices generally are low, in spite of many speculations. As evidence of the absorption of floating capital in fiscal forms, and its effects, it may be stated that the same quantities of articles representing nine-tenths of the aggregate consumption of the country, which could have been bought a year ago for \$100 would now cost only about \$100.70, and they were not 4 per cent. higher in January last. So small a change in prices after an escalation of 85 per cent. during the year, in comparison, is surprising.

The official bulletin of the Iron and Steel association makes the production for the half year 3,051,000 tons, and reports a slight increase in stocks of unsold iron, making the consumption 12,000 tons less than production and imports.

Reports from all parts of the country are uniformly favorable as to state of trade for the season, and collections are reported good or fair at all points save two. The crop prospects are also pronounced more favorable, though the extent of damage done by drought and insects can not be exactly determined. One feature in current reports that should be noticed is that the south actually made less iron by 14,000 tons in the first half of 1887 than in the last half of 1886, notwithstanding all the expansion of facilities widely heralded, and there are signs of abatement of real estate enthusiasm at some western points.

Anxiety about the supply of money for the fall revives discussion of treasury operations, but indications are that no purchase of bonds will be made if it can be avoided. The treasury has taken in \$2,000,000 more than it has paid out during the past week, but large disbursements are expected about Aug. 1. Exports improve for three weeks having exceeded last year's by 6 per cent., against the increase of 15.6 per cent. in imports. Foreign exchange tends upward, however, and some sales of securities on foreign account are reported. The course of stocks has indicated hesitation and weakness and the narrow bank reserves for the season affects with timidity most speculative markets.

There were in the United States during the past seven days 147 failures, and in Canada, 45; total, 192. For the preceding week 179, and for the same week in 1886, 183.

AN AQUATIC FAILURE.

The Haulan-Gaudaur Race—The Canadian Wins in Rough Water.

PULLMAN, Ill., July 25.—The Haulan-Gaudaur boat-race Saturday was probably the greatest feat of a race ever rowed in this west. It was a week before the Philadelphia was anywhere near repaired. The sweeping away of the iron bridge below here further complicates matters. A large number of Boston passengers are delayed at Pullman's Falls, and may be unable to get through for several days.

A Petition for Mackin's Pardon.

CHICAGO, July 25.—Governor Oglesby will in a few weeks be asked to consider a petition of a most formidable character for the pardon of Joseph C. Mackin, who was sent to the Joliet penitentiary from the Cook county criminal court, on conviction of perjury, on a five years' sentence. He has served nearly twenty months, and if he saves all his "good time" and remains to the expiration of his sentence he will be released on the 19th day of August, 1888. But an effort is to be made to shorten his sentence by way of a pardon. It is stated that such names as Potter Palmer and other equally prominent citizens will appear on the petition.

British Vessel Lost in a Cyclone.

LONDON, July 25.—News is received here that the British ship Firth of Olin, has been lost in a cyclone off the coast of Java, and that twenty-five persons, all on board, perished.

THE CRIMINAL CALENDAR.

After a refreshing night's sleep and a hearty breakfast, Mr. David Hoffman, of Nebraska City, was hanged at that place Friday. Mr. Hoffman had been convicted of wrecking a railroad train near Dunbar, and thereby killing James Dewitt, the engineer, and injuring a number of passengers.

THE FLOOD AT MILLER'S FALLS.

Rushing Waters Play havoc With Railway and Other Property.

GREENSBORO, Mass., July 25.—Never before in its history has Miller's Falls experienced such damage by water as was occasioned by Sunday's freshet. Between that town and Erving, a distance of six miles, are twenty-three washouts and eleven landslides. During Sunday's rain a torrent of water rushing down the mountain road just east of the Fitchburg depot, gullying it badly. In a short time the depot flat was buried under three feet of water. The freight depot was totally undermined, and a chasm sixty feet wide and twelve feet deep was torn through the gravelly soil.

The torrent rushed down the steep incline to the river, 300 feet, tearing a gully twenty feet deep and fifty feet wide, undermining the coal sheds and shade trees in its passage. Sections of the Fitchburg railroad yard tracks are undermined in places quite badly. The highway bridges between Miller's Falls and Erving are gone, so that travel by team is impossible.

A prominent railroad said that if the railroad is put on its entire force of workmen it will not be fully two weeks before the Fitchburg is anywhere near repaired. The sweeping away of the iron bridge below here further complicates matters. A large number of Boston passengers are delayed at Miller's Falls, and may be unable to get through for several days.

THE CRIMINAL CALENDAR.

After a refreshing night's sleep and a hearty breakfast, Mr. David Hoffman, of Nebraska City, was hanged at that place Friday. Mr. Hoffman had been convicted of wrecking a railroad train near Dunbar, and thereby killing James Dewitt, the engineer, and injuring a number of passengers.

Four tough-looking men put off the Vandalia train near Long Point, a few miles west of Indianapolis, opened on it with revolvers and sent a score of bullets whizzing through the coaches. No one was hurt, but all were badly frightened.

Peter Burkhardt, a farmer 20 years old, living near Petersburg, Ind., insanely jealous of his own wife, shot her dead Thursday and then killed himself.

Griffiths Ender, a master mechanic of the Natchez, Jackson & Columbus railroad, and Joseph Owens, and another employe of that road, got to shooting at each other at New Orleans Saturday, and each killed the other.

At Festerville, Rutherford county, Tenn., a man named Phillips, who assisted Dan Hoover to outrage a colored girl named Palmer, was shot and killed by the pursuing sheriff and posse, who had come up with him Hoover was arrested, but escaped.

Perkins Testifies Against Sim Coy.

INDIANAPOLIS, Ind., July 25.—Samuel E. Perkins, one of the conspirators in the election case, has turned state's evidence as expected. His testimony incriminates directly Sim Coy, chairman of the Democratic county committee. Perkins testified to changing the tally-sheds in favor of the Democratic committee at the dictation of Coy. Other conspirators are indirectly implicated.

The Appetite

May be increased, the Digestive organs strengthened, and the Bowels regulated, by taking Ayer's Pills. These Pills are purely vegetable in their composition. They contain neither calomel nor any other dangerous drug, and may be taken with perfect safety by persons of all ages.

I was a great sufferer from Dyspepsia and Constipation. I had no appetite, became greatly debilitated, and was constantly afflicted with Headache and Dizziness. I consulted our family doctor, who prescribed for me, at various times, without affording more than temporary relief. I finally commenced taking Ayer's Pills. In a short time my digestion and appetite

IMPROVED

my bowels were regulated, and, by the time I finished two boxes of these Pills my tendency to headaches had disappeared, and I became strong and well. —Darius M. Logan, Wilmington, Del.

I was troubled, for over a year, with Loss of Appetite, and General Debility. I commenced taking Ayer's Pills, and, before finishing half a box of this medicine, my appetite and strength were restored. —C. O. Clark, Danbury, Conn.

Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered Stomach and Liver. I suffered for over three years with Headache, Indigestion, and Constipation. I had no appetite, and was weak and nervous most of the time.

BY USING

three boxes of Ayer's Pills, and, at the same time dieting myself, I am completely cured. My digestive organs are now in good order, and I am in perfect health. —Philip Lockwood, Topsham, Kans.

Ayer's Pills have benefited me wonderfully. For months I suffered from Indigestion and Headache, was restless at night, and had a bad taste in my mouth every morning. After taking one box of Ayer's Pills, all my troubles disappeared, my food digested well, and my sleep was refreshing. —Henry C. Hemmenway, Rockport, Mass.

I was cured of the Piles by the use of Ayer's Pills. They not only relieved me of that painful disorder, but gave me increased vigor, and restored my health. —John Lazarus, St. John, N. B.

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicine.

CATARH

ELY'S CREAM BALM

Cleanses the Head. Alleviates Inflammation. Heals the sores. Restores the sense of Taste, Smell, Hearing. A Quick Relief. A positive Cure.

A particle is applied to each nostril and is agreeable. Price 50 cents a Druggist; by mail, registered, 60 cents. ELY BROS., New York Office 225 Greenwich Street.

Hay Fever

is an inflamed condition of the lining membrane of the nostrils, throat and bronchial tubes, affecting the lungs. An acid mucus is secreted, the discharge is accompanied with burning sensation. There are severe spasms of sneezing, frequent attacks of headache, watery and inflamed eyes. Ely's Cream Balm is a sure remedy and one that can be depended upon to relieve at once and cure.

SIMMONS LIVER REGULATOR

MANUFACTURED BY J. H. ZELLI & CO., Philadelphia, Pa.

I was afflicted for several years with disordered liver, which resulted in a severe attack of jaundice. I had as good medical attention as any section affords, who failed utterly to restore me to the enjoyment of my former good health. I then tried the favorite prescription of one of the most renowned physicians of Louisville, Ky., but to no purpose; when I was induced to try Simmons' Liver Regulator, I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health.

A. H. SHIRLEY, Richmond, Ky.

HEADACHE

Proceeds from a Torpid Liver and Impurities of the Stomach. It can be invariably cured by taking

SIMMONS LIVER REGULATOR.

Let all who suffer remember this: SICK AND NERVOUS HEADACHES Can be prevented by taking a dose as soon as their symptoms indicate the coming of an attack.

Village Ordinance.

(Passed July 16, 1887.)

AN ORDINANCE granting permission to the Lowell Water Company, its successors and assigns, to construct and maintain water works in the village of Lowell, and to supply said village and its inhabitants with water.

WHEREAS, The Lowell Water Company, a corporation organized under the laws of the State of Michigan, and authorized to accumulate, store, conduct, sell, and furnish a supply of water for domestic, manufacturing, municipal, and other purposes, in the said village of Lowell, in the County of Kent and State of Michigan, and its inhabitants; for the purpose of constructing its works and enabling it to supply the said village and its inhabitants with wholesome and potable water, suitable for domestic and other uses, it is necessary that the said Lowell Water Company shall secure the right to lay mains, pipes, and conduits, in the streets of said village; to construct aqueducts and other structures; and to make excavations in the streets of said village;

Now, and in consideration of the premises and of the various conditions and agreements herein contained, it is hereby resolved and ordained by the Common Council of the village of Lowell, as follows, to-wit:

SECTION 1. It is hereby granted to the said Lowell Water Company, its successors and assigns, the exclusive right and privilege to construct, establish, maintain, and operate a system of water works, within and near the village of Lowell in the State of Michigan, for the service of thirty years from and after the adoption of this ordinance, and to supply the said village of Lowell and its inhabitants with water, obtained from springs, wells, or by any other means, provided the water so obtained shall be of a good and wholesome character, suitable for domestic and other uses, and for the public health; the right to use the streets, alleys, side walks, and public grounds, of the said village within the present and future corporate limits, to lay, take up and repair water mains, hydrants, and other structures and devices for the service of water within the present and future limits of said village, in all streets, alleys, avenues, bridges, or public grounds which are now or may hereafter be laid out, while laying or repairing said water works, but not otherwise; to receive, store, provide, conduct, and distribute water through said village; to erect and maintain reservoirs, water towers, pump houses, and all other necessary buildings, engines, machinery, and other appliances necessary to and expedient for the proper operation of such works; to cross any stream in said village for the purpose of laying or extending the said water pipes, conduits or aqueducts, as may be necessary for the proper distribution of water through said village so as to afford an adequate supply for domestic, public, manufacturing uses, and protection to said village against fire; for the above mentioned term of thirty years.

SECTION 2. The water to be furnished as aforesaid may be drawn from springs, running streams, galleries, wells, or elsewhere, as may be most expedient in the judgment of said grantee, its successors and assigns.

SECTION 3. Pipes for mains shall be of iron and tested to three hundred pounds pressure to the square inch, and shall be of suitable size to furnish an abundant supply of water for the present and future requirements of said village. Said Lowell Water Company, or its successors or assigns, shall without expense to said village, place in connection with the pipe system to be constructed, fire hydrants, as designated upon the map submitted herewith, and made a part hereof, which said hydrants shall be of double nozzle pattern, of good standard make.

SECTION 4. During the progress of the construction of said water works, and laying the necessary pipes and conduits, the said Lowell Water Company, or its agents or assigns, shall not unnecessarily obstruct any street, alley or public ground; shall complete each part of the work commenced without unnecessary delay; and restore all streets and sidewalks that may at any time be disturbed in the work of construction or in making of repairs, to as perfect a condition as they were in before such a disturbance; and when ever such streets or sidewalks shall be interfered with, or any excavations made therein or thereon, the said Lowell Water Company, its agents or assigns, shall suitably and properly guard and protect the same, so as to prevent injury to persons and property.

SECTION 5. Upon notice to the said village, the proper authorities thereof shall fix and determine the grades of streets, alleys, roads or avenues, through which it is proposed to lay said pipe line.

SECTION 6. In case the said village of Lowell, through her proper authorities, shall desire the said grantee or their assigns to extend their pipe lines beyond the limits, herein stipulated to be first laid by them, it shall give the said grantee, or its successors or assigns notice, in writing of such desired extension, which said notice shall specify the streets, alleys, and public places, through which such extensions are to be made, and shall definitely specify the number and locations of hydrants; PROVIDED HOWEVER, that there shall be at least one hydrant rented, for each and every four hundred feet of pipe ordered to be laid, and in no case shall said village demand an extension of less than four hundred feet on any one street. Upon the service of said notice it shall be the duty of said grantee, its successors or assigns, as soon thereafter as may be, to construct such extension, pursuant to the terms of said notice.

SECTION 7. Said village shall pay to the said grantee, or its successors or assigns, an annual rental of thirty dollars per hydrant for fifty hydrants during the entire time that said water works shall be owned and operated by said Company, and for each additional hydrant set on the pipe extensions as hereinbefore provided, the sum of thirty dollars per hydrant per year, which sum shall be paid to the said grantee, or its successors or assigns, in semi-annual payments; which said rental shall commence upon the completion of said works as herein provided.

SECTION 8. Fire hydrants rented by said village shall be used solely for the purpose of extinguishing fire and for practice of the fire department of said village, and the works so constructed shall at all times be capable of delivering through any three hydrants upon lines in pipe which are located in the elevated portions of said village, at the same time, three fire streams, seventy feet high in still air, through fifty feet of two and one-half inch hose, with one-inch ring nozzles; and six fire streams delivered as aforesaid whenever the number of hydrants rented by said village shall equal or exceed sixty. The use of said fire hydrants shall be under the control of the chief engineer of the fire department of the said village or of the officer in charge thereof, who shall notify the said grantee or its successors or assigns if any hydrants shall be found out of working order, and said said grantee or their assigns shall cause the same to be repaired. And in case they shall fail to make such repairs upon being notified as aforesaid, then the said grantee, and its successors or assigns, shall be liable to the said village for each and every day thereafter until the same is repaired. In case the works

are not operated so as to provide the fire service as above indicated, said company hereafter to be organized will be liable to said village for damages actually incurred.

SECTION 9. The said village of Lowell shall from time to time enact and enforce proper ordinances, protecting the water works property, and the said grantee, or its successors or assigns, the safe and unmolested exercise of this franchise against fraud and imposition, and against injury to the property and waste of water by the consumers. And the said grantee, or its successors or assigns may make and enforce as part of the conditions upon which they supply water to all consumers, requisite and needful regulations, not inconsistent with law.

SECTION 10. The maximum rates to be charged by said Company to private consumers in the said village of Lowell, shall not be in excess of the following schedule, viz.:

SCALE OF WATER RATES.

For family use not included under extra and miscellaneous use: Families of three persons, per annum.....\$6 00 Families of four persons, per annum..... 7 00 Families of five or six persons, per annum..... 8 00 Families of seven or eight persons, per annum..... 9 00 Families of nine or ten persons, per annum..... 10 00 Each additional person, per annum 1 00

SECTION 11. The said grantee, or its successors or assigns, shall accept the terms and provisions of this ordinance in writing, and file such acceptance with the Clerk of the village of Lowell within 30 days after the adoption hereof, and upon the filing of such acceptance, and not until then, this ordinance shall have full force and effect.

SECTION 12. Said grantee, or its successors or assigns, shall begin the construction of said water works within three months from the acceptance of this ordinance, and shall complete the same within twelve months thereafter.

SECTION 13. From and after the expiration of five years from the adoption of this ordinance the said village of Lowell shall have the right and privilege of purchasing the property of said grantee, with all its corporate rights and privileges, at such price as may be agreed upon between the parties, and in case of disagreement, the price shall be ascertained, pursuant to the provisions of Section 16 of Chapter 84, title XVI of Howell's Annotated Statutes of Michigan.

SECTION 14. The said grantee, and its successors and assigns, shall at all times during the existence of the rights and privileges hereby granted, be exempt from the payment of any and all taxes and assessments, at any time hereafter to be levied and collected by the said village of Lowell, for any purpose whatsoever.

SECTION 15. Upon the passage of this ordinance and the acceptance of the same by the said grantee, the same shall be and is hereby declared to be the contract between the said village of Lowell and the said Lowell Water Company, and its assigns, at such price as may be agreed upon between the parties; this binding force thereof: This ordinance shall take effect and be enforced from and after its passage, and all interfering ordinances are hereby repealed.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the mixture of low test, short weight alum or phosphate powders. Sold in cans. Royal Baking Powder Co. 106 Wall St. N. Y.

At Night always have

Soother at hand. It is the only safe medicine yet made that will remove all infantile disorders. It contains no Opium or Morphine, but gives the child natural ease from pain. Price 25 cents. Sold by

A Boom in the Tobacco Market.

LOUISVILLE, Ky., July 22.—There is a boom in the tobacco market here. Prices have advanced \$2.50 per 100 pounds in three days. The rise is due to a short crop on account of reduced acreage and unfavorable weather. Buyers for eastern factories are scrambling to fill large orders, and it looks as if figures would go still higher.

Manhattan Jockey Club.

New York, July 23.—The charter of the Manhattan Jockey club has been filed in the county clerk's office. The object of the association is to raise, improve and breed horses, and its capital is \$100,000. The directors are Leonard Jerome, John Hunter, Lawrence Kip, Louis T. Lorrillard, Frank Work and Eugene J. Corson.
