CAPT. GEO. E. JUDD was born March
39, 1888. Enlisted in Grand Rapids in
the 3d Michigan Infantry April 19th,
1811. Entered service June 10 of the
sima year as expressit, Company A, and
served in that capacity in the battles of
Blackburn's Ford, July 18th, and Bull
Run, July 21, 1861. Was promoted to
3d Lieutenant of his company Aug. 1,
and to let Lieut. Oct. 28, 1861. Was
wounded at the battle of Fair Oaks,
May 31, 1862, loosing his left arm. Promoted to Captain June 23, 1862. Was
impector in the provost marshal's department for about one year and was
hen sent west to take charge of 800 then sent west to take charge of 800 with the rank of Captain, May 28, 1870. As a civillan his record is clean and

and when he gets to Lansing he will b

refer in this congressional district to support Belkmap because of his military record, which naturally occasions a great many G. A. R. fellows to wink at each other and remark: "What's the matter with Ford."—[Ionja Standard.

Let us see about that "military record" of Mr. Fords. Is it found in "Michigan in the War?" No. Is it found among the military records at Washington? Not to any great ex-tent. It must then necessarily be-taken from "profane history." Here it is. At the time Fort Sumpter was fired upon by southern democrats Mr. Ford was wearing his second or third pair of panties, and when the demo-cients were whipped and the war ended, Mr. Ford was 16. Near the ciose of credit to Mr. Ford, nor anything which he could help, that he was an infant during the war. However, it shows to at insignificant ends the democrats art to in the district to keep the re-

A DEUGGIST SAYS. Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines. I never sold a bottle to anyone who said it did not help them. They cured me of those terrible sick headaches when every other remedie failed.

STORMS AND FLOODS.

Great Damage Reported in Varic is Sections of the Land.

FACTS and figures will show, as taken from the government records, that Cleveland's civil-service-reform-Jeffersonian simplicity-administration has so far cost the people \$95,000,000 more than for a like period under the Garfield and Arthur administration. Just remember that, you who talk about democratic economical government.

The Senate tariff bill will be reported Monday. It is estimated to make a reduction in the tariff and revenue' duties of \$475,000,000. Wool and lumber are left on the tariff list and sugar cut one-half. Will the democrate vote for it? No; it will not suit the big end of that party, which is in the Southern states, and run by ex-confederate leaders.

How size and consistent it looks for democracy to call the Republicans a party of trusts, when Jay Gould, the lung bee of all the trusts; Havemeyer, the head of the sugar trust; Scott, the leader of the coal ring; Whitney and the Standard Oil Ring; and nearly every one of the other trusts, rings and monopolies are donating to the democratic campaign tund and working early and late for Cleveland's success. Democracy, consistency is not one of thy jewels.

THE New York Tribune has detected Congressman S. S. Cox in sending out tartoons from Puck, grosely villifying Jen. Harrison, with other cheap campaign matter issued by the Democrat National committee, under his congressional frank and marked "Pub. Docs." The Tribune also charges that Democrat Campaign literature has been inserted into craise of the paper sent to its subscribers while in transmission through the malls. Cleveland's men seem to have reached the desperate stage of their campaign.

GEN. BLACK has been sent to Michigan to make democratic voters out of their campaign.

GEN. BLACK has been sent to Michigan to make democratic voters out of the grover Cleveland, the enemy of every man who wore the blue, is the candidate, and not Mr. Black. While Mr. Black is a gentleman and an old-soldier, he is only an appointee of the government—and about the only loyal one to the soldier interest under the present administration. He was appointed of the government—and about the only loyal one to the soldier interest under the present administration. He was appointed of the government—and about the only loyal one to the soldier for his entire record of pension vetoes demonstrates his detectation of the old soldier. Our reterans will not be fooled into voting for their arch enemy, Cleveland, just because

CROOKED WORK

the Scene of Action.

Washixotox, Bept. 28.— Several dictives and expert book-keepers are making a thorough investigation of the books in the redemption division of the Breasury with a view of determining the extent of the robbery in that division. While only a discrepancy of 1944 has been discovered, it is thought that the robbery, which has been systematic and extended back for some time, amounts to starger sum, which the investigation now in progress will disclose. Treasurer flyatt has been reimbursed by Mrs. Becker, a recently discharged clerk, with the 504 which she is charged with having stolen. The count, however, could only go back two weeks, as the money redeemed before that time was destroyed by being macerated. The woman, it is thought, has been guilty of taking money for some time. The case has been placed in the hands of the District Attorney but it is not thought that sufficient evidence can be produced to convict her, all of it being, unjees she confessed, of a circumstantial character. It has developed that she took \$20 out of every \$100 package. Several employee are now under surveilance. Treasury office als will not talk in the matter, and this gives rise to many rumors of an exaggerated character. Facts are almost unobtainable.

CORN IS KING.

More Than That of Last Year,
New York, Sept. 20.—R & Dun & Co.'s
weekly review of trade says: Doubt about
the corn crop has vanished. Estimates
vary either way from 2015,001,000 husbels,
but it is doubtless the largest crop ever
raised. The increase of more than 550,000,
000 bushels in this crop far outweighs in value any loss in the
yield of wheat, and also any possible loss in the yield of cotton, but
the yield of outs is also the largest on record, and the yield of hay and potatoes ex-

Queen Victoria has a remarkably fine head of bair, for a lady of her age; but ber son, the Prince of Wales, is quite bald. Had he used Ayer's Hair Vgor earlier in life, his head might, to-day, have been as well covered as that of his royal mother. It's not too late yet.

Many young children become positively repulsive with some eyes, sore care, scald head. Such affictions may be speedily resvoyed by the use of Ayer's Sarasparilla. Young and old alike experience the wonderful benefits of this medicine.

Pire Visita the Viliage of Romeo, Wis. and Leaves but Four Buildings Standing lo the Piace.

Spracan, Wis, Sept. 30.—The small hamlet of Romeo, three miles north of here, has suffered a repetition of the disastrous fire of 1886. The large saw-mill, 10,00,000 feet of lumber, boardang houses, stores, barns, blacksmith-shop and dwelling bouses were totally consumed. Only four Ildings are left standing and the loss to Mr. Vanhoosear, who owned the property, is in the neighborhood of \$135,000, with some insurance. The fire was undoubtedly the work of incendiaries, and the feeling among the men who are thrown out of employment is very bitter against them. The mill will not be rebuilt.

Greenville Fair with Shorthorn cattle.

In company with Mrs. L. K. Alger we visited our long-time friends, Mr. and Mrs. Nelson Holmes, finding them well and prosperous, and wearing a broad smile of enjoyment which we may attribute in part to these facts: About the first of September a gobler drew their attention by taking possession of a nest of hens eggs on the ground near the barn. He soon began to set, carrying out the program as well as the most faithful mother, and when we saw him, Sept. 25, he was the proud father of two chickens—not turkeys—with several eggs to hear from. We think this is the first case of the kind in our town and is certainly an amusing sight.

while sowing wheat a few days ago Mr. C. M. Slayton found a copper ax, a fine specimen of ancient workmanship. It is a little over four inches long, and two inches on the bit, by one-fourth of an inch thick in the middle. He considers it a rare relic, and an interesting addition to his archaeolgical collection. He has also in his possession a copper spear head, probably manufactured by the same people, which was taken from a well in Cannon thirty feet below the surface of the ground. It is similar in shape to the common flint arrow points, but nearly seven inches long. Mr. Slayton's collections of ancient relics is worth looking at.
