HAPPY BOOMERS.

Them Wild with Joy.

WASHINGTON, March 28.—The President yesterday issued a proclamation opening to settlement under the recent acts of Congress the lands in the Indian Territory, ceded to the United States by the Creek and Seminole Indians. By the terms of the proclamation the lands are only open to homestead entry, and sections 16 and 26 in each township are reserved for public-school purposes. The proclamation goes into effect on April 22 at moon, and all persons are warned not to enter upon or occupy any of said lands before that time under penalty of being forever debarred from sequiring any lands or

of Southern Kansas will almost be depopulated.

The boomers who have been encamped along the line are making ready to move. The cattlemen are hurrying on to Oklahoma to get their cattle, as they fear violence to stock and property from their deadly enemies, the boomers. The solders have left Oklahoma City. The boomers made bold to come out of their concealment in the woods to hear the news. The crowd k pi on swelling in size, and it we estimated that there were 30 persons that rejoiced over the news. Wednesday morning Colonel Summers received from Colonel Wade at Fort Reno the new orders from Washington and posted them up in the Oklahoma depot. They were that every person must famediately leave the country and that the names of those found would be taken and kept to defeat future filing. Soldiers had left Fort Reno the night before and are advancing to Oklahoma As soon as the order was posted many commenced leaving, but by the time the train reached Guthris the sews of the issuing of the proclamation was received and they slighted to join the boomers here in their celebration and to be near to their claims.

Men have already sold their rights to claims for \$400 and \$500. A boomer sarriving from Oklahoma say that the country is full of people, that the number is constantly imcreasing, and that the question of entry upon Territorial lands is not so complicated as is usually the case in regard to public lands. It is a plain case, and there is but one course to pursue in regard to public lands. It is a plain case, and there is but one course to pursue in regard to public lands. there is but one course to pursue in regard to the matter. The seeker of a homestead must simply go onto his claim under the Homestead act and stick to it in order to gain a title. The former customs will have but little to do in this case, as the law is plain and will be enforced on its merits as to the question of priority.

The civilian on making a homestead entry must pay the sum of \$14\$, take possession of his claim within six months and stick to it the required time. A soldier may file his declaratory papers, which he may do by proxy, through an agont, and which will cost him \$2\$. At the end of six menths he must make his homestead entry and pay \$14\$ more, so that it rosts the, soldier \$2\$ more than the civilian to make entry, the former only having advantages of six months' time to take possession. The soldier has one advantage over the civilian, and that is that he can deduct from the five years necessary to complete his claim the time he carred in

Parties who have arrived from the Torritory say that while large numbers of the boomers are evineing a disposition to obey the Presi-dent's proclamation there are still enough stubborn settlers to keep the army busy. The tactics of the more determined in-truders is to conceal themselves from the soldiers.

Killed a Dive-Keeper.

Charles Smith, who keep a low dive at Cheborgan, was killed the other night by Sheriff Hayes, who went to the house to que i a disturbance. Hayes remonstrated with Smith, who became enraged, and drawing a revolver commenced firing. He seriously wounded Marshal Bouchard, who had entered the house soon after Hayes. His second shot passed through the hat of Constable Ming. A herce encounter them took place between Hayes and Smith, Hayes shooting Smith in the throat and side. The last wound inflicted injuries from which Smith died in a few momenta.

A Base-Ball League Organized.

A Michigan Base-Ball League was organized at Lansing a few days ago by representatives of Grand Rapids, Kalamazoo sentatives of Grand Rapids, Kalamazoo, Jackson, Saginaw, Lansing and Greenville, Bay City and Muskegon asked for ten days to complete their organization and would then be admitted. Ex-Congressman Ford, of Grand Rapids, was elected president of the league. Each club will play eighty-four games in series of two games, and each deposits a guarantee of \$330 to finish the season. The salary limit was placed at \$500 per month for each club.

Shot His Brother-in-Law.

Charles Gunst, who had been in New Mexico for the past three years, returned to his home at Mount Clemens the other evening. The first warning of his appearance was upon his entering the back door of Frank Seifert's, his brother-in-law's, house with a pistol in each hand, exclaining: "Twe come to kill you both." Hu began firing at once and two bullets passed through Seifert's body below the kidneys. He could not recover. Four shots were fired in all, but Mrs. Seifert was not hit. Gunst escaped. Experts sent to Hancock recently by the Standard Oil Company discovered a short-age of \$10,000 or more in the books of Martin age of \$10,000 or more in no socks of martin R. Goldsworthy, manager of the company for the Lake Superior region. Goldsworthy became frightened and took a train for Toronto. Goldsworthy was an old resident and had been held in high esteem. For the last two years he had been dabbling in mining stocks and the recent heavy decline carried him under. His bondsmen were lable to the extent of many thousands. liable to the extent of many thousands.

Another Motive Found.

W. L. Seaton, administrator of the Latimer estate in Jackson, recently found it Irving Latimer's note for \$4,500, in favor of his mother, Mary H. Latimer, dated February, 1883, about the time he purchased the drug store, the interest of which for the first year fell due about the time of the murder. The note runs ten years, at ten per cent. This supplies another motive for the murder against the accused.

Reports to the State Board of Health by forty-four observers in different parts of the State for the week ending March 25 indicated that inflammation of the bowels influenza erysipelas, neuralgia and pneu-monia increased, and tensilitis decreased in area of prevalence. Diphtheria was re-ported at fifteen places, scarlet fever at lifteen, typhold fever at five, measles at seven and small-pox at two places. Butter Keeps Thirty-Eight Years Thirty-eight years ago Mrs. Frank Bur-nett, of Mindon, lost a pail of butter in her well, and sixteen years ago in cleaning the well portions of the butter were found in a good state of preservation. The other day it was determined to div the well deeper.

RT needle-work and valuable embroideries are frequently ruined, A or their beauty much impaired by washing them with ordinary soap, which is too rank for such delicate articles. A simple, and the proper method is to make suds of hot water and Ivory Soap, and allow to cool till lukewarm. This solution, while very effective, is perfectly harmless.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'lvory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it. Copyright 1886, by Procter & Gamble.

in one family.

But the sensation from a medical point of viev connocted with the case, took place in Boston at a recent meeting of the Massachusetts Medico-Legal Society, when is was stated by Dr. Holt that there was general ignorence of the symptoms of arsenical poisoning and because of such ignorance the Robinson poisoning cases has gone on without arousing the suspicion of medical men. The Robinson cases were all treated by regular physicians, with correct diplomas, men supposed to know what they were doctoring for, and to know the effects of certain drugs on certain diseases. Yet in the five deaths from arsenical poisoning of which we speak, certificates of death were given for pneumonia, typhoid fever, meningitis, bowel disease, and Bright's Disease.

Such a commentary on the general ignorance of the medical profession, made by one of its own number, we believe to be without a parallel.

Is it any wonder that patients are losing faith in their doctors! Here were five able-bodied people slowly poisoned with arsenic before their very eyes, and yet those very wise medical men were doctoring them for pneumonia, typhoid fever, b. wel disease and Bright's Disease.

In the very same manner thousands of patients are being treated this day for pneumonia, heart trouble, dropsy, incipient consumption, etc., when these are but symptoms of advanced kidney disease, which is but another name for Bright's disease. The doctors do not strike at the seat of the disease—the kidneys, and if they did nine times out ten they would fail—as they are on record as saying they can not cure Bright's disease of the kidneys. Rather than use Warner's Safe Cure, a well known specific for this and all other forms of kidney disease they would let their patients die, and then give a death certificate that death was caused by pericarditis, apoplexy, phthisis or cardiac affection.

Is this not the honest truth? Do you not know in your own personal history very many instances where physicians doctored the wrong disease, and caused untold suffe
