President Harrison Makes Several Appointments.—Hours for "Visitors" Changed.—The Pension Appropriation—Other News.

NOTES OF GENERAL INTEREST.

WASHINGTON, May 28.—Commencing today the hours of reception at the White House will be changed. Instead of remaining at 11 o'clock the President will receive visitors in executive session until 11, and on alternate days he will receive promptly at 12. On Wednesday, Thursday and Saturday the time for hearings will be extended to 12.30. On Monday there will be no reception at all except the regular public affairs, which will, as in the past, take place at 10 o'clock. The result of this change, which was announced yesterday by Secretary Hay, will be a saving to the President of at least six or seven working hours in a week and a corresponding decrease in the number of appointments made.

WASHINGTON, May 28.—The Comptroller of the Currency has authorized the First National Bank of Burlington, Kan., to do business with a capital of \$750,000, and the First National Bank of Pittsburg, Mo., and the First National Bank of Minnetonka, Minn., each with a capital of \$500,000.

WASHINGTON, May 27.—The statement regarding the pension appropriation has become exhausted, Commissioner Tanner expresses the hope that the pensioners will not be unduly alarmed thereby. The fact is that he has simply made the usual requisition which sends the money from the Treasury into the various officials' hands, and it is where it will be subject to the checks of the pension agents for the June payment.

WASHINGTON, May 27.—Charles Deady, the United States Minister under date of April 3 last, and the appointment of Tom Kwo Lin, as Envoy Extraordinary and Minister Plenipotentiary to the United States from the Chinese Empire.

WASHINGTON, May 27.—A statement prepared in the office of Solicitor General W. H. Hunt shows that there are no pending judgments on the books of that office, representing the sum of \$10,005,112.

They cover the period from July 1, 1888, to July 1, 1889, and include all classes of indebtedness to the government, principally from fines, forfeitures and arrears. There was collected during the same period the sum of \$48,000,000.

Solicitor General Hunt proposes to investigate these old cases, with a view to the collection of the whole or a part of the outstanding judgments.

WASHINGTON, May 27.—The Secretary of the Treasury has received a conscience contribution from a resident of this city in the form of fourteen two-cent stamps.

WASHINGTON, May 27.—The Treasury accounts have completed an estimate of the cash value of the currency, coin and securities turned over to Treasurer Huston by ex-Treasurer Hyatt, and find the total amount to be \$722,000,000.

WASHINGTON, May 26.—President Harrison yesterday appointed F. G. Dickinson, of Pennsylvania, to be Second Comptroller of the Treasury.

WASHINGTON, May 25.—The pension appropriation act for the current year has appropriated \$88,400,000, including \$500,000 to meet a threatened deficiency. Chief Clerk of the Senate division of the Pension Office says that it is true that this amount has all been drawn from the treasury, but that more than \$100,000 remains in the hands of the pension agents which will fall due on June 4. It is thought that this amount will suffice nearly until July 1, when the appropriation for the next fiscal year will become available. It is said that the appropriation for the next fiscal year, \$93,000,000, is too small, and that there will be a deficiency of about \$10,000,000.

WASHINGTON, May 25.—The government has advertised for proposals for the construction of three new cruisers, each to be built at a cost of not more than \$700,000.

WASHINGTON, May 27.—Two new post-offices have been established in Oklahoma Territory, one at Moore, A. M. Pettit postmaster, twenty-four miles south of Porell, and one at Norman, D. W. Marquet postmaster, thirteen miles south of Oklahoma City.

WASHINGTON, May 27.—The marriage of Secretary Bayard to Miss Mary Wiling Chamber is announced to take place on June 11 in St. John's Episcopal Church in this city.

Married the Other Fellow.
ATLANTA, Ga., May 24.—Miss Nina Kirby Smith, daughter of William Kirby Smith, Confederate chieftain, a present professor of mathematics at Sewanee University, Tennessee, eloped Thursday night with William A. Q. Child, a student at that university, with whom she was residing. Both couples were married by a justice of the peace in Winchester, Tenn. Miss Kirby was to have been married next Tuesday to Mr. Boynton, who was a member of the Confederate army of the resurrection of St. Phillip's Church, the fashionable congregation of this city.

Cordially Welcomed.
PARIS, May 26.—President Carnot gave an audience yesterday to Whittaker Beard, American Minister, who presented his credentials. Mr. Beard assured President Carnot that he would endeavor to maintain and strengthen the esteem which President Carnot had for the whole American people held for France. President Carnot in reply said that he had expected to meet Beard and that he had been particularly pleased by the visit of the American Minister to the United States during his recent tour of that country.

Leslie Carter Wins.
OKLAHOMA, May 23.—The jury in the Carter case, which has been on trial in Judge Johnson's court in this city for over a week, returned a verdict that Leslie Carter is not guilty of the charges made against him by his wife, and that Mrs. Carter is guilty of the indictments against her in her husband's case. A motion for a new trial was entered.

A New Massacre Home.
GRAND RAPIDS, Mich., May 22.—The cornerstone of the Massacre Home was laid at 10 o'clock Tuesday amid most impressive ceremonies. Representatives were present from nearly all the commanderies and blue lodges in the State. The parade in this city was the finest ever witnessed here. It estimated that 10,000 people witnessed the ceremonies at Reed's lake.

Elected to Succeed Ryan.
TORPEA, Kan., May 24.—A special election was held Tuesday in the Fourth Congressional district to elect a Representative to succeed Thomas Ryan, who was recently appointed Minister to Mexico. General Harrison Kelley, the Republican nominee, was the only candidate in the field. A tight vote was polled.

Three-Score and Ten.
LEONORA, Wis., May 22.—Queen Victoria was 70 years old yesterday. In all lands under British rule the occasion was one of rejoicing. Her Majesty received many telegrams of congratulation.

R. A. GUNN, M. D., Dean, and Professor of Surgery of the United States Medical College; Editor of Medical Tribune; Author of "Gunn's New Improved Hand-book of Hygiene and Domestic Medicine," referring to Warner's Safe Cure, said: "I find that in Bright's disease it seems to act as a solvent of albumen, and soothe and heal the inflamed membrane, and wash out epithelial debris which block up the tubular uriferi (urine-bearing tubes); and to prevent the desultory membranous of tissue."

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by this peculiar medicine.

A NARROW ESCAPE.
Col. W. K. Nelson, of Brockville, came home one evening, feeling a peculiar tingling in his chest. Before retiring, he tried to draw a length but found it almost impossible. He suffered four days from pneumonia, and the doctors gave him up. Hood's English Remedy for Consumption saved him and he is well today.

SAILORS DROWNED.

Steamers Wrecked in a Collision and Others Disputed in Storm.
MORRISTON, Can. May 23.—At the Donaldson Glasgow wharf (Lybia) was proceeding to the Allan Royal mail steamer, Polyastrian. Eight of the crew of the Lybia were lost. The accident occurred opposite Point aux Trembles about twelve miles from here. At this point there is a dangerous turn in the ship channel. The Polyastrian left here about 4:30 a. m., and the accident occurred about 5 o'clock. The weather was foggy and clear. The survivors of the Lybia were rescued by the Polyastrian, which proceeded on her way. The Lybia was a Clyde-built steamer of 2,400 tons burden, and had been plying between Glasgow and this port for the last five years. The Polyastrian is one of the largest of the Allan fleet, and is commanded by Captain Hugh Wylie, one of the oldest officers in the service.

HALLIAX, N. S., May 23.—Advices from St. Pierre, Newfoundland, state that two fishing vessels, the Eliza and the Quartz, from Morris Head, were wrecked on the rocks of this port on Sunday night. The Eliza was a four-masted schooner of 300 tons, and the Quartz was a two-masted schooner of 200 tons. Both were laden with fish. The Eliza was wrecked on the rocks of St. Pierre, and the Quartz was wrecked on the rocks of Morris Head. Both vessels were abandoned by their crews, and the fish were saved.

TORN UP THE TRACK.

A Fearful Railway Accident Near Sullivan, Mo.

Thirty-Six Passengers Injured. Some Probably Fatally.—Trains Threw a Hayrack and a Car into the River, but No Lives Lost.

OVER A PRECIPICE.

St. Louis, May 27.—The bound train on the St. Louis & San Francisco railroad which left St. Louis Thursday night at 9:15 was wrecked a little before midnight at a point three miles west of Sullivan, Mo., which place is sixty-eight miles west of St. Louis. Not a passenger escaped unhurt, and thirty-six are known to have been seriously injured, though no deaths were reported. Following is a list of the injured: D. S. Wanket, Wentzville, Mo., both legs broken four inches above the ankle; George B. Simpson, Harrison, Conn., 33; Walter O'Day, aged 77-years, fracture of skull, with probably eye; Mrs. Kate O'Day, bruised about head, neck and arms; Mrs. Mary Ann Martin O'Day, cut and bruised on the face, also cut in right foot and bruised about the chest; William Deberry, left hand and arm broken; Mrs. Mary Smith, Fair Creek, Ill., injured on forehead and right eye; John D. Cutler, Joplin, Mo., severely injured and limb dislocated; John E. Hall, Cuba, Mo., lower part of right side bruised and cut on forehead; Mrs. John E. Blossington, Ind., bruised on left side and severely shocked; C. W. Phillips, Springfield, Mo., injured on head and neck; Mrs. E. J. Russell, Tuscarora, O., severely shocked, ear torn and a cut in the head, severe shock; D. W. Greaves, Marshall, Mo., John Redford, Fort Smith, Ark., John A. Cuba, Mo.; Walter Davidson, St. Louis, Mo.; J. R. Biley, Joplin, Mo.; H. B. Johnson, St. Louis, Mo.; J. O. Morrison, Richmond, Mo.; Frank Deator, Ill.; Mrs. W. J. Wright, Deator, Ill.; Mrs. L. L. Lewis, Mo.; Mrs. Mary O'Day, Fair Creek, Ill.; Mrs. Anton Marx, St. Louis, Mo.; J. J. Britton, Sparks, Mo.; J. C. Horva, Litholia, Ill.; Fred Cramer, Galveston, Tex.; Oona, Brest, Mo.; Hattie Shack, St. Louis, Mo.; C. J. Wright, baggage man, bruised on head and cut on forehead; Mrs. John Palski, Ill., cut on head, bruised on shoulder; Mrs. W. J. Wray, Deator, Ill., which was severely injured.

The train was running at a high rate of speed, when suddenly the track gave way and the locomotive, baggage car and five coaches went over the edge of the precipice, and those slightly injured at the onset set to work to prevent the additional loss of lives. In which they succeeded, and those severely injured were taken to the most seriously injured were taken there, while others were brought to St. Louis on the relief train which was hurried to the scene of the disaster. The wounded are under the care of Dr. Melville, chief surgeon of the road.

It was 11:30 p. m. when the accident occurred and most of the passengers had already gone to sleep. There is a curve in the road at that point and there is a steep embankment thirty feet high. Most of the passengers thought that the train was going through a bridge, and a feeling of horror chilled their blood. In an instant all the coaches except the hayrack and baggage car had been thrown from the rails. People were thrown about in the cars in all directions, and some of them were hurled from the coaches into the river, and embankment. One man, Walter Davidson, who travels for the Westinghouse air brake, was thrown high out of a window on the upper end of the coach from where he was sitting and fell rolling down the embankment to the edge of the creek. His feet were in the water. Another passenger, Mr. H. B. Johnson, was thrown from the rear end of the car to the forward end, and in fact, men, women and children were thrown about promiscuously. Fortunately there were no fires in any of the cars and the light extinguished the lights immediately. Otherwise a conflagration would have been caused, and there is no doubt that many lives might have been lost. As it was, most of the forward cars were smashed into smithereens.

The explanation given by the trainmen to the passengers was that the spikes and fish-plates had been removed from the rail at the curve, thus leaving the rail too loose on the ties. The reason why the locomotive passed the place all right, but the tender jumped the track and was thrown part of the way down the embankment. Who removed the spikes and plates is not known, but the suspicion is the work was done by train-robbers who wanted to help up the train. It is said that the trainmen were not until they were told by the conductor that the party or parties who removed the bolts from the fish-plates and thus caused the wreck.
