Crushing Blow for Balmaecia's Army in Chili. The City of Valparaiso Captured by the Insurgents—Santiago Surrenders Unconditionally—Balmaceda a Fugitive.

THE WAR ENDED. VALPARAISO, Aug. 29.—Balmaceda's power in Chili is broken. His army has been crushed after five hours' hard fighting, and is scattered beyond all hope of reorganization.

Gen. Cantu and his army won Friday's battle by superior generalship, good fighting, assisted by good fortune in the killing of Balmaceda's generals, and the consequent demoralization of the army and the desertion of entire regiments.

VALPARAISO, Aug. 31.—Santiago has been formally surrendered, the triumph of the congressional party is complete, and peace and quiet may be looked for in Chili before many days have passed.

As soon as the news reached Santiago Saturday of the overwhelming defeat of the government troops on the heights of Placilla and the fall of Valparaiso, the people knew that Balmaceda's power was gone, and they had nothing to fear from his army.

CAPE MAY, N. J., Aug. 31.—President Harrison returned Saturday, arriving at 4 p. m. by special train from Jersey City. Secretary Halford was closeted with the president for several hours examining a big bundle of official mail.

HOUSTON, Tex., Aug. 29.—The records of the internal revenue office here show that Texas has but thirteen sugar planters, and their sworn estimate is 15,000,000 pounds, on which, if the sugar stands the highest of the market, they will receive \$300,000 bounty.

NEW HAVEN, Conn., Aug. 28.—Mrs. H. M. Hotchkiss has presented \$75,000 to the Yale preparatory school, which she founded. In addition to this gift Mrs. Hotchkiss has given the school seventy-five acres of land.

DEQUON, Ill., Aug. 29.—The five months' strike is practically ended. The coal miners' executive board and the Colliery company came to an agreement on Friday and a contract was signed for a year.

MASS. FAILURE IN WISCONSIN. HONOLULU, Wis., Aug. 31.—Saturday morning, Draper & Co., bankers, of Mazomanie, made an assignment. The assets are \$47,000 and the nominal liabilities about \$89,000.

A Fast Train in North Carolina Jumps from a Bridge. Forty Lives Said to Have Been Lost—Twenty Bodies Taken from the Ruins—A Great Many Passengers Are Injured.

AN AWFUL PLUNGE. NEW ORLEANS, Aug. 28.—The Times-Democrat's Charlotte (N. C.) special says: The most disastrous disaster in the history of the state is to be recorded; the story of the total destruction of the entire passenger train on the Western North Carolina road, an accident in which engineer, fireman, all the brakemen and probably forty passengers were dashed to instant death—a wreck from the debris of which only one man, the conductor, emerged only to walk back to the nearest station and give news of the disaster.

It met its fearful doom at the high bridge over Third creek, 2 miles west of Statesville. The bridge was built years ago of solid masonry. It is 90 feet high and is arched for the passage of wagons on the roadway beneath as well as for the waters of the creek. It is as safe as a bridge could be—in fact, a track on solid ground could be made no safer.

From the debris of the passenger cars people were brought out, mangled in all sorts of ways, only two or three bodies being brought out intact. Three ladies in the first-class car were killed and every passenger in the sleeping car met death—not a living soul escaping. The deaths may reach forty, as it is not believed that all the bodies have yet been taken out.

PHILADELPHIA, Aug. 28.—A mile in 29.45 seconds, at the rate of 92 miles an hour, is the fastest run ever made by a railroad train. This unparalleled feat was accomplished Thursday on the Bound Brook road between Newnamy and Paterson, N. J., by engine No. 206, drawing two ordinary coaches and President McLeod's private car Reading, which is equal to two cars in weight.
