The work at the South Lowell church has been about "prosperous." The fine new church is free from debt. There is still some work to be done; painting the outside of the church and improving the grounds. A small amount due on the subscription list, which will be cheerfully met, will be sufficient to pay for this expense. We have large congregations and the interest is good.  
We have made some much needed improvements this year. A large and well arranged furnace has been put in on Friday, and we have also just completed a new tin roof, which is of late design and its beauty and utility is evident to all observers. It was put on and painted by a member of our society, Stephen Knapp, and it is remarkable that a man seventy years old should be able to do such a piece of work with only a boy to assist him.

The NEW YORKERS who ATTENDED the democratic convention at Chicago claim that money was used to influence the votes of New Mexico, Arizona, and other territories to come into line for Cleveland. They claim that the money was furnished by Wall St. speculators and the Standard Oil Co. Grover has had four years at the helm and those fellows know who will best subvert their interests.  
We are personally acquainted with W. B. Streeter, the manager of R. L. Folk & Co's New County Atlas and have examined carefully several of the township maps that have been made under his supervision. There is an old saying that there is "nothing new under the sun." We want to tell you that there is something new, and it's very new, too. It is the new way to the Summit Potosi and Bay View and Charlevoix, and one that will prove more and more popular as a means of reaching them as the places are popular in themselves. From all parts of the country come every year—the number increasing as the resorts become better known. The pleasure only, and going from one resort to another, enjoying to the utmost the pleasures afforded by each. One day at Otis, to some favored place, spending the months in quiet rest and regaining the health and strength impaired by too close attention to business and the cares of every day life.  
But everybody knows of the advantages to be derived from a vacation spent among the woods and lakes of Northern Michigan, and our object now is to tell you of the "New Way" to reach them.  
The extension of the popular CHICAGO & WEST MICHIGAN RAILWAY is now completed, the new line running from Traverse City, through Charlevoix, to Potosi and Bay View, a distance of seventy-five miles through magnificent forests and along the shores of beautiful lakes and rivers. Passing directly in front of two resorts of Charlevoix (one of the delightful places for a summer of many in that region), the route runs five miles further, on strikes the shore of little Traverse Bay, which, almost at the water's edge, follows into Potosi and Bay View.

Through train service will be commencing on the new route on June 28th and with the excellent service and fast time, which will be a special feature, "The New Way" cannot fail to prove a popular one with travelers.  
Through parlor and sleeping cars are run from Chicago via the WEST MICHIGAN, and from Detroit via the other line of this system, the DETROIT, LANSING & NORTHTON R. R. to Grand Rapids, then via the C. & W. M. R. to Potosi, Charlevoix, and Bay View.  
Try the "New Way" this year, and be convinced that it is a good one.

Casco, Allegan county, school children, gave an entertainment one night last week. When the program was finished the audience compelled the unfortunate youngsters to go over the literary bill of fare again and again until the morning. It was 2 o'clock in the storm before teacher and pupils made their escape.  
M. H. Hogmire, of Arlington township, Van Buren county, owned a piece of cedar swamp land which was considered so valuable that even the hard hearted tax assessor passed it by. Hogmire cleared the land, planted it to peppermint, and after distilling the oil, carried it to market in one load and realized with \$3500 round dollars and an abiding faith in the money-producing virtues of swamp land.  
Someone told a White Pigeon woman that a good way to roe her chicken coop of lice was to build a fire in it and smoke them out. She now knows a more effective way than that, and woe in its scope of usefulness. By her method the lice were all destroyed, the rats driven out of the barn, and if the wind had been in the right direction the bugs in the house would have been put to route too.

**WRECK OF THE LIMITED.**  
A Defective Rail Causes an Accident on the Fort Wayne Road—One Life Lost.  
VALPARAISO, Ind., June 27.—A defective rail caused the wreck of the Keystone Limited on the Pittsburgh, Fort Wayne & Chicago railroad 2 miles west of this city Sunday afternoon. The engine, baggage car, and passenger cars were derailed and three coaches left the track and went over the embankment, while three coaches of the train remained on the track. The engine and fireman both leaped from the locomotive. The body of the fireman was afterward found protruding from the forward end of the baggage car, frightfully mangled. Life was extinct. The engine was more fortunate, escaping with several cuts on the head and internal injuries, the exact nature of which it is impossible to determine. The list of injured is as follows:  
George W. Ryle, Mansfield, O., leg broken; Andrew Allen, Baltimore, Md., injured internally; Charles Stoll, postal clerk, Fort Wayne, injured about the head, back and shoulders; Miss Belle Johnson, Fort Wayne, injured about the head; Peter Holly, engineer, Fort Wayne, external injury and scalds on head and shoulders; "Boss" conductor, Fort Wayne, slight bruises.

Work of the Lawmakers at the National Capitol.  
A Daily Summary of the Proceedings in the Senate and House—Bills Passed and New Measures Introduced.  
**CARKSON IS OUT.**  
Not for Chairman of the Republican National Committee.  
Mr. Carkson, in deference to the president's wishes, declines to accept the office.  
MR. CASSETT'S TRIUMPH.  
VICTORY, June 27.—It was 11:30 o'clock when the meeting of the national republican committee was called to order by Chairman J. S. Carkson. After the roll was called, which showed the presence of 100 members, by proxy, of the members of the committee, except those from Nevada, Wyoming and Oklahoma, J. S. Carkson, of New York, took the most unflattering nomination Gen. Clark's permanent chairman of the committee. He said that when the doors of the Minneapolis convention had opened on a united party. The friends of Mr. Blaine were defeated every one knew, but he would never give up the support of a republican with a day's excursion. The democrats had nominated their strongest man while the situation is desirable to every republican with a day's excursion. The democrats had nominated their strongest man while the situation is desirable to every republican with a day's excursion. **CONGRESSIONAL NOMINEES.**  
Candidates who will strive to secure seats in the new congress.  
WATERLOO, Ia., June 24.—At the Third congressional district convention held in this city yesterday D. B. Henderson was re-nominated for congress by the republicans.  
CANTON, N. H., June 24.—The republican convention of the Tenth congressional district held here yesterday nominated Philip S. Post for congress.  
WASHINGTON COURT HOUSE, O., June 24.—The Seventh Ohio district republican congressional convention held here yesterday nominated George W. Wilson for congress.  
MONTGOMERY, W. Va., June 24.—Edwin P. Becker (rep.) was nominated by acclamation for congress from the Third congressional district.

**ONE MORE VICTIM.**  
Horrible Death of Another Resident of Titusville, Fla.  
TITUSVILLE, Fla., June 25.—Bert Childs, aged 17, died suddenly Friday at his home in this city. He had been suffering severe pain in his stomach since June 7, at which time he was carried nearly mile by the food and taken unconscious from the water. A post mortem was held, the result of which demonstrated that his stomach had been entirely eaten away by acid supposed to have been floating on the water and coming from some of the reefs. He died in horrible agony. This makes the sixty-third victim of the food and fire in this city.

**Disaster at Sea.**  
New York, June 27.—It is believed that the Portuguese steamship Vega, from Lisbon, having on board nearly 500 people, has been in collision with a sailing vessel and is lost. The Vega is supposed to have been wrecked seven days overdue. There is a strong suspicion that the piece of a wrecked sailing ship passed at sea by the Dutch steamer Cleve may be the Vega. This makes the sixty-third victim of the food and fire in this city.

**Water Still Rising at Rock Island.**  
ROCK ISLAND, Ill., June 27.—The entire lower part of the city is under water and the great dike in the west end is still in danger of breaking at any moment. The water is rising at the rate of half an inch an hour. This dike would be the worst of all nations, the center of light and power and authority for the world.

**THE SUNDAY SCHOOL.**  
The Assession of Christ—Acts 1:1-18—July 3, 1892.  
GOLDEN TEXT.—When he had spoken these things, while they beheld, he was taken up; and a cloud received him out of their sight.—Acts 1:9.  
TITLE.—The Assession was Thursday, May 18, A. D. 33.  
PLAQUE.—Mount Olivet (Acts 1:12), within the history of the Holy Spirit (John 14:26).  
PARABLES.—ACTS.—Matt. 26:10-13; Mark 14:3-9; Luke 8:3-8; John 11:2-17.  
The author was Luke, who wrote the third Gospel. The date of writing is about A. D. 60. The subject is the Assession of Christ. The book is the Acts of the Apostles, and is the second volume of the Acts of the Apostles, and is the second volume of the Acts of the Apostles, and is the second volume of the Acts of the Apostles.

**LESSON HELPS.**  
1. "The former treatise." The Gospel of Luke. "O Theophilus!" The same person to whom the Gospel of Luke is addressed. "Of (concerning) all that Jesus began both to do and teach." The former treatise related what Jesus began to do and to teach; and this relates what He, the same Jesus, continued to do and to teach.  
2. "Until the day in which He was taken up." With which the Gospel of Luke ends. "Had given commandments unto the apostles." At various times during these forty days Jesus appeared to His disciples, and instructed them in their work of founding the church (ver. 3), as recorded in the Gospels, and in this chapter. He instructed them to "show themselves" to the apostles. "Not merely appeared," but showed Himself, made Himself appear.  
3. "Alone." The same Jesus who was crucified, but now risen from the dead, and seated at the right hand of the Father. "After His passion." His sufferings and death on the cross. "By many (emphatic) infallible proofs, which he shewed them forty days." Not continuously, but at intervals, on ten or eleven different occasions, at various times and places. "Speaking of the things pertaining to the kingdom of God."  
4. "And being assembled together with them." Either the conference appointed by Christ to be held in Galilee, or an assembly in Jerusalem on the day of Assession, when Jesus led them out as far as Bethany. "But wait for the promise of the Father." The Holy Spirit promised by Joel (2:28, 29), by Isaiah (44:3) and through Jesus Himself. "Which . . . ye have heard of me." The situation is to the promise made by our Lord in His last discourse before He suffered.  
5. "For John." The Baptist, the forerunner of Christ. "Truly baptized with water." The symbol and the type. "Ye shall be baptized with (or in) the Holy Ghost." As the element in which the baptism is performed. "Not many days hence." Only about ten days.  
6. "When they therefore were come together." A subsequent occasion. "They asked of him, saying, Lord, wilt thou (Rev. Ver. dost thou) at this time restore again the kingdom to Israel?" The Holy Spirit and the power of the Father.

**MCGRAFF, 13,443.**  
A standard and registered horse, whose sire stands for a larger service fee and who has more 2:30 performers and more producing sons and daughters than all other horse sires combined that ever stood or was owned in Lowell, besides being a prize winner himself, having won first at the West Michigan Fair, last September, over a field of eight horses, as being the best standard bred horse shown.  
**NUTRIA, 18,619.**  
Got by NUTMEG, 2:16, a son of the great NUTWOOD, 2:18 1/2. Dam Mand Adair, with a record of 2:29 1/4. No other horse ever owned in this town or state has a sire and dam with record so low.  
**EMBASSADE, 11,547.**  
A son of Ambassador, he by Geo. Wilkes. The Wilkes family are too well known for comment.  
All three of our horses have the qualifications that go to make great horses, size, color and breeding, which are the three best points for a horse to possess. As for speed they have never been worked, but show their ability to go fast when given a chance.  
The season for Nutria and Embassade will positively close June 1st and that of McGraff July 1st, when they will go in training.  
Service fee for each horse \$25. All accidents to mares at owner's risk.  
We do not publish anything in regard to our horses but facts.

"So you see, Howard," the prisoner began, with a manner less troubled than that of his visitor...

"I have no reason to like Ed Campbell," said Captain Forbes in response...

"Oh, he stoutly denies that he was a spy," he had been wounded in the shoulder and he was lying on his back...

"Yes, but I have had no response," "Do you expect any?"
