THE RAILWAY WAR.

BUFFALO, N. Y., Aug. 22.—The second week of the railroad strike has opened. Three features are most prominent: An army of 5,000 soldiers is quartered in the city and county; an attempt, only partly successful so far, is being made to lift the freight blockade, and the danger of a strike of kindred organizations is no less imminent than heretofore.

The strikers made another attempt to wreck a train on the Erie Saturday night. The day express, leaving New York at 8 o'clock with four coaches and a parlor car, was the train they selected. The train left Linden on time and was running at a high rate of speed when the locomotive jumped the track and went plowing into the sand.

The cause of the wreck was found to be a fish plate, which had been wedged between the main track and the switch in such a manner that the wheels of the locomotive were raised off the tracks. Five suspicious characters were seen loitering at the scene when the train stopped and quickly started away when the trainmen approached.

NASHVILLE, Tenn., Aug. 22.—Now that affairs at Coal Creek have quieted down and the troops are in control the state officers are discussing the disposition to be made of the 300 or more miners made prisoners. Gen. Norman says the state authorities if necessary will carry the prisoners to some place where they can be secured beyond doubt until legal action shall be taken against them. Or if necessary they will be lodged in jail at Clinton and a military force placed there to protect the authorities in the execution of the law. He says that so far as it is in the power of the executive department everything will be done to prosecute the rioters as criminals, and they are not to be treated as prisoners of war.

KNOXVILLE, Tenn., Aug. 22.—Gen. Carnes at Coal Creek has some 100 or 200 prisoners at his camp, and among them the notorious Lindsay, who had tried to hang Gen. Anderson. Carnes' force stormed Briceville and captured more than 100 miners. A number of state guns were captured. A negro resisted arrest and attempted to run. He was riddled with bullets. WIPED OUT BY FIRE.

The Business Part of the Town of Geneva, O., Destroyed by Fire—Loss, \$175,000. CLEVELAND, O., Aug. 20.—Fire broke out at 2:45 o'clock a. m. in Geneva, 45 miles east of here, in the rear of a drug store on West Broadway, and quickly spread to adjacent buildings on either side. The local fire engine, manned by a volunteer company, was run out and a fractious team attached to it, which became frightened and ran away, disabling the engine and leaving the town to the mercy of the flames. Dispatches were sent to Cleveland, Painesville and Ashtabula for aid. It was daylight when the Cleveland engine arrived, and by that time the destruction was widespread. The engines called from Ashtabula and Painesville were at work and the flames were prevented from spreading further. The three hotels and almost all the business places between the Lake Shore railroad track and Main street were completely destroyed. Altogether twenty-four buildings burned, comprising business houses mainly, part of them occupied as dwellings in the upper stories, and four residences. The estimated loss is \$175,000, on which there is \$75,000 insurance. It was reported that the fire was started by an incendiary.

DEMOCRATIC CONVENTION.

MET AT GRAND RAPIDS LAST WEEK. A STATE TICKET NOMINATED.

Benjamin Morse for Governor. Were they afraid of their Record?

The democratic state convention was held at Grand Rapids last Wednesday and an entire new state ticket was put in nomination.

Tuesday evening a letter was received by the chairman of the state central committee, Daniel J. Campau, from Gov. Williams, withdrawing his name and refusing a renomination.

He didn't write the letter because he didn't want the office, but because he was afraid he could not get the nomination and knew that even should he be renominated he couldn't be elected.

So he withdrew and his withdrawal was followed by that of Lieut. Gov. Strong and the lesser lights. Chief Justice Benjamin Morse was the unfortunate upon whom the governor's mantle fell and he was nominated by acclamation, as was the balance of the ticket.

The convention knew that on its record the representatives of democracy who had been in office two years could never there again, so they completed their ticket with men who were and are as well known as any nominee for the new Presidency. Adlai Stevenson, the ticket as completed stands as follows:

For Governor—Allen B. Morse, Ionia.

For Lieutenant Governor—James P. Van Meter, Marquette.

For Secretary of State—Charles F. Mackey, Saginaw.

For Treasurer—Frederick Marvin, Wayne.

For Auditor General—Joseph A. Van Meter, Marquette.

For Commissioner of State Land Office—George T. Shaffer, Cass.

For Superintendent of Public Instruction—The Village of Oakland.

Member State Board of Education—James K. Burr, Genesee.

Electoral College—Western District—Peter W. Williams, Marquette.

Commissioner of State Land Office—George T. Shaffer, Supt. of Public Instruction.

Ferris Fitch and Attorney General A. A. Ellis are the only names on the ticket which were in 1890.

The will run of the ticket are new and unknown.

There was a box social at M. Boyce's last Wednesday evening. There was a good attendance and satisfactory receipts. One of the boxes was found to contain a live cat, and a good brother offered to contribute a shepherd pup. We are hard up and have not been able to pay the preacher as much as we wanted to and it has bothered us; we have lain awake Saturday nights and slept through the sermon Sunday studying the question of ways and means, and now this cat and dog donation gives us a pointer. We know a man who has out a standing offer of a grade Jersey yearling for two English pug pups. Now if two English pugs will fetch a grade Jersey, a good, honest, everyday sort of cat and a shepherd pup will readily bring a scrub yearling that will just as readily sell for \$5. Cats and

dogs are abundant in this country and it looks as though if this line were followed out there is no reason why the preacher should not revel in an abundance of filthy lucre, as well as the rest of us, who are not engaged in the business of saving souls to the extent we should be. Just as soon as the preacher "catches on" to the dog racket we intend to contribute our quota of dog. If the child of the church (we found him on the church steps) who hangs around our back door makes too great objections to associating with a preacher, we shall proceed to raid William Henry's hound kennel. We have a double barreled shot gun, made, we think, some time during the dark ages, before the Jewish exodus, guaranteed to weigh not less than twenty-five pounds and warranted to kill in front, buck in the middle and kick behind. When we have contributed this ancient weapon and a hound pup we shall be able to realize that the preacher is not without visible means of support and we shall expect to feel the sweet consciousness of duty nobly done.
