SUNDAY CLOSING WINS.

The World's Fair Will Not Be Open on the Lord's Day.

The Directors, Convinced from Sad Experience That the People Do Not Want the Gates Opened, Take Decisive Action.

SIX DAYS ONLY.

CHICAGO, July 15.—By a vote of 24 to 4 the local directors of the World's Columbian exposition has ordered the gates closed on Sundays.

Chairman Peck in a short speech introduced the Sunday-closing resolutions. He said that the resolutions had been drawn up and approved by Attorney Edwin Walker. The introduction of the resolutions brought several directors to their feet and many speeches were made on the various phases of the question.

THE VOTE.

The vote on the resolutions was as follows:

Yeas—Butler, Camp, Clowry, Chappell, Crawford, Dixon, Ellisworth, Gage, Hutchinson, Henrich, Keith, Kerfoot, Kitcham, Levens, Lawson, McManis, Peck, Revel, Rothschild, Scott, Walker, Waller, Winston, Young. Total, 24. Nays—Nathan, Odell, Porter, Schneider. Total, 4.

CHANGE OF OPINION.

The speeches indicated a great change in the opinion of many of the directors since the Sunday opening rule was passed. Edward B. Butler, who was formerly an enthusiast for a Sunday fair, took active part Friday in the discussion to close it Sunday.

SHOULD DO THEIR DUTY.

Arthur Dixon also took part in the discussion in favor of Sunday closing. He formerly was a zealous advocate of opening. He recounted the things which show the failure of a Sunday fair and then made an appeal to abandon their old opinions. He said: "When a body of men discover that they have done wrong, that they have violated the will of the people, it is their duty in so far as they can to place themselves in the right. We are now convinced that the American people revere their institutions, and that the Sabbath is one of them. Churches that have not been closed for ten years are now overflowing every Sunday. A feeling that you will be inconsistent should not influence you. We should do our duty."

LAST SUNDAY FAIR.

CHICAGO, July 17.—Yesterday was the last open Sunday at the World's Columbian exposition. It was also the day on which the entire gate receipts of the world's fair were to be devoted to the relief fund of the heroes who lost their lives in the cold-storage fire while obeying orders. Even the cause to which all visitors contributed their portion failed to bring out a large crowd. Forty-nine thousand four hundred and one persons paid to enter the exposition gates Sunday. There were 2,403 children's tickets sold. This gives the firemen's benefit fund \$24,099.75. The tickets reported do not represent the total amount sold, for there were thousands of persons who took the opportunity offered by purchasing admissions to contribute to the relief fund but who did not attend the fair. When all the returns are in it is probable that \$50,000 will be added to the fund from this source. The fund, exclusive of the sale of tickets for the fair on Sunday, has reached \$79,387.

To Aid the Living.

CHICAGO, July 15.—The fund for the relief of the families of the firemen killed in the fire on world's fair grounds on Monday has reached nearly \$80,000. It is thought it will eventually amount to about \$150,000. The funerals of eight of the victims took place yesterday.

Broke the Record.

GOSMERE, Ind., July 16.—The Columbia 100-yard sprinting event here yesterday for a purse of \$2,000 and the championship of America was won by Morris, of California, in 9 3-5 seconds, which is one-fifth of a second below the world's record.

Eighty-Two Men Were Killed.

PUNEROY, Ia., July 16.—In the recent cyclone fifty-seven persons were killed in this town, thirteen in Cherokee county, six in Buena Vista county, four in Pochosin county and two in Wright county.

Of for the Arctic.

ST. JOHN'S, N. F., July 15.—Lieut. Peary and party, on board the steamer Falcon, sailed from this port yesterday for Greenland, by way of Labrador.

TRADE REVIEW.

Better Tone in Business Noted Because of a Less Stringent Money Market.

NEW YORK, July 15.—R. G. Dun & Co.'s weekly review of trade says: "There is a somewhat better tone in business because money markets are a little less stringent. But it cannot be said as yet that there is any distinct improvement. In every direction unusual conservatism prevails, orders are relatively small, the volume of business is restricted and a waiting policy rules."

"At Cincinnati trade is quiet, money a shade easier and bank deposits increasing. At Cleveland trade is good in groceries, but otherwise dull; collections are slow and money close. In Indianapolis business is waiting and collections are not satisfactory except in groceries, and at Detroit trade is light, money close and out of twenty-three charcoal furnaces in Michigan only four are in operation."

"Speculative markets have not been active during the last week, though wheat is 1/4 cent higher, corn 1/2 of a cent higher and cotton 1/4 cent higher. With small transactions, prices have tended upward as the monetary stringency has relaxed. The treasury has not materially affected the financial situation during the last week, and has taken much less than the usual quantity of silver, because but little was offered at the market price."

GEN. JARDINE DEAD.

He Was a Hero in Many Hard Battles and Many Times Wounded.

NEW YORK, July 17.—Gen. Edward Jardine, who has been critically ill for some time, died at 1 o'clock Sunday afternoon. His death was not unexpected.

Gen. Jardine was 65 years old and was a military man since he was old enough to carry a musket. When the civil war broke out he raised a company at Fort Lee and put them into Hawkins' zone. He went to the front as a captain in May, 1861, and his first battle was Big Bethel. Afterward he was in command of the landing forces which attacked Fort Clark and Fort Hatteras. He fought at South Mountain, Antietam, Frederickburg, Camden, N. C., at Roanoke Island, Elizabeth City, Suffolk and other hard engagements and was several times wounded. He came back from the war a lieutenant colonel in 1863, and when the draft riots broke out here he gathered some of the Seventh regiment war veterans and some members of the Hawkins' zone and marched against a mob of 15,000 persons. He received, in a skirmish that followed, wounds which finally caused his death, a full charge entering his left knee and thigh. Since then Gen. Jardine has been forced to undergo nine operations on his thigh, the last one being made in October, 1892.

NOTED SIOUX CHIEF DEAD.

Young-Man-Afraid-of-His-Horses Goes to the Happy Hunting Ground.

PIKE RIDGE AGENCY, S. D., July 15.—Young-Man-Afraid-of-His-Horses, the head chief of the whole Sioux nation, died Thursday at Newcastle, Wyo. He and Little Wound left this agency a few weeks ago with a party of sixty Indians to visit their Indian friends, the Crows, at Crow agency. The remains will arrive Sunday by rail. Young-Man-Afraid-of-His-Horses was the most reliable Indian of all the Sioux and a great friend of the government, as was proved by his actions in the outbreak at this agency in 1890 and 1891 and the late murder of February 18 of the four white men on White river. It was through his assistance that the police arrested the murderers. By his death without any legal descendants the mantle of chiefship falls to Little Wound.

WAYLAIED THE SHERIFF.

An Arkansas Officer Shot and Robbed of \$12,000 Near Memphis.

MEMPHIS, Tenn., July 17.—Friday night Sheriff Werner, of Crittenden county, Ark., stepped off the Iron Mountain train at the junction across the river and an unknown man shot at him. The sheriff returned the fire, but on the next shot the sheriff was hit in the right arm. The sheriff's gun dropped from his grasp and the unknown, leaping upon the officer, robbed him of \$12,000 and escaped. The sheriff is at Gaston's hotel, but will be out in a few days.

Demand Payment in Gold.

NEW YORK, July 17.—It has been revealed on investigation that the demand for payment in gold for many specialties in the drug trade is by no means exceptional. Such action has been generally adopted by importers in other trades, and even domestic manufacturers have either stamped on their bills since July 1 a demand for gold payments or have been talking of doing so.

Army Worm Destroying Hay.

DEARBORN, Ia., July 17.—The army worm, as the farmers believe it to be, has taken the heads off timothy hay in Dubuque county, and attacked the oats. Rust has also appeared in the oats, and some in fall wheat.

Six Die from Heat.

CHICAGO, July 15.—The thermometer at 4 p. m. Friday registered 93 degrees. Six deaths from sunstroke and a large number of serious cases of prostration were reported in the city during the day.

World's Fair Finances.

CHICAGO, July 15.—The report of the world's fair auditor shows that the total receipts of the exposition up to June 30 were \$21,251,316 and the total expenses were \$20,610,164.

TRUE BILLS FOUND.

All the Officers of the Plankinton Bank Indicted.

Several Directors Are Also Indicted—The Finding of the Grand Jury Causes a Tremendous Sensation in the Cream City.

MANY INDICTED.

MILWAUKEE, July 13.—All of the officers and directors of the defunct Plankinton bank, with Frank A. Lappin, are included in the grand jury indictments. The report of the grand jury has caused a big sensation in Milwaukee, as among those indicted are such prominent citizens as Judge Jenkins, of the United States circuit court, and William Plankinton, the son of the late John Plankinton, the founder of the Plankinton bank. The indicted officers of the bank are President Frederick T. Day, Vice President William Plankinton, Cashier W. H. Monson, Directors Frederick T. Day, William Plankinton, James G. Jenkins, Eugene S. Elliott, F. W. Noyes and C. L. Clason. There are six indictments against the president and three each against the cashier and directors. Each indictment charges embezzlement in receiving deposits while the bank was insolvent.

UNDER ARREST.

Judge Jenkins was in the post office when a deputy sheriff served him with a capias for his arrest. He was not taken into custody. He was the first of those indicted to put in an appearance in court. The others soon followed. It is probable a change of venue from Judge Wallber's to Judge Johnson's court will be asked. When asked his sensations incident to his arrest Judge Jenkins refused to talk.

BONDS FURNISHED.

With the exception of President Day, of the Plankinton bank, who disappeared from the city when the grand jury began its investigation, the indicted officers furnished bonds for their appearance in court Wednesday next, when they will be arraigned. Bail was fixed at \$5,000 on each count of the indictment.

THE PENALTY.

The statute under which the indictments against the bank officers are drawn provides for imprisonment of not more than ten years or less than one year or a fine not exceeding \$10,000. The penalty for obtaining goods under false pretenses is imprisonment in the penitentiary of from one to five years, or imprisonment in the county jail not more than one year or a fine not exceeding \$500.

THE RUN BRINGS RUIN.

Heavy Withdrawals Cause the National Bank of Kansas City to Suspend.

KANSAS CITY, Mo., July 15.—The National bank of Kansas City, at the southeast corner of Fifth and Delaware streets, suspended payment at 2:55 o'clock Friday afternoon and is now in the hands of the controller of the currency. The assets, President J. S. Chick says, will be between \$2,000,000 and \$3,000,000 and the liabilities about \$1,000,000. He says he is confident that the depositors will be paid dollar for dollar. The bank was one of the oldest in the city.

President Chick said that the suspension was due to a steady withdrawal of deposits since the beginning of the financial stringency.

As a result of the failure of the National bank of Kansas City the Franklin savings bank made an assignment for the benefit of creditors. The latter bank cleared through the Kansas City national, and considerable of its money is tied up in the latter failure. The bank carried a line of deposits amounting now only to \$50,000. Its assets are considerably in excess of that sum.

DAY FOR THE VETERANS.

September 9 Set Aside as Grand Army Day at the Fair.

INDIANAPOLIS, Ind., July 17.—The official programme of the annual encampment of the G. A. R. to meet here in September has been completed here by Commander in Chief Weissert, Adjutant General Gray and H. S. Dietrich, of the council of administration, representing the national G. A. R. Chief Weissert says that this will probably be the most largely attended gathering in the history of the G. A. R. The chief announced that September 9 had been set aside as G. A. R. day at the world's fair. This will follow the encampment here, and it is expected that an army of 100,000 veterans will be in Chicago that day.

The Green-Eyed Monster.

LOS ANGELES, Cal., July 16.—Lucia Seeseich, a capitalist and miner, shot and killed his wife in this city yesterday and then killed himself. Jealousy was the cause. Seeseich was 66 years old and his wife was thirty years younger.

Every Glass Factory Closed.

PITTSBURGH, Pa., July 14.—For the first time in the history of the trade every plate-glass factory in the United States is closed, and that indefinitely, and fully 10,000 men are idle. Over-production is the cause.

An Old Bank Falls.

KANSAS CITY, Kan., July 16.—The Northern bank, the oldest financial institution in this place, closed its doors yesterday with assets placed at \$475,000 and liabilities amounting to \$315,000.

Killed at a Sunday Picnic.

CHICAGO, July 17.—By the explosion of a seven-inch mortar at an Italian picnic yesterday two men were instantly killed and two others were fatally injured.

BAPTIST YOUNG PEOPLE.

Annual Convention of the Union of America Opens at Indianapolis.

INDIANAPOLIS, Ind., July 14.—The international convention of the Baptist Young People's union of America opened here Thursday and will continue three days. Most of the states and Canada are well represented. This is the third annual gathering and the indications are that 3,000 delegates will be present.

President John H. Chapman, of Chicago, opened the convention and addresses of welcome were delivered by E. E. Stevenson, of the Baptist Young People's union of Indianapolis, and others, while responses were delivered by Rev. L. L. Henson, Baltimore; Rev. C. A. Barbour, of Rochester, N. Y., and others. A special feature is a musical programme rendered by a trained chorus of 300 voices.

The first annual convention of this organization was held at Detroit, Mich., in July, 1892. Over 500 delegates attended, representing young people's societies connected with Baptist churches in all the states and Canada. INDIANAPOLIS, Ind., July 15.—The Baptist Young People's convention at its session on Friday chose the following officers for the ensuing year, most of whom were reelected: President, John H. Chapman, of Illinois; first vice president, Frank H. Field, of New York; second vice president, Rev. G. B. Cager, of Alabama; third vice president, H. L. Stark, of Toronto; recording secretary, A. M. Brinckle, of Pennsylvania; treasurer, J. O. Staples, of Illinois.

FOUR DEAD; TWO DYING.

Dayton Authorities Investigating Mysterious Fatalities in the Trubbe Family.

DAYTON, O., July 15.—The wife of Emanuel Trubbe, a prosperous farmer on the Kenia pike, 4 miles from this city, was taken suddenly ill about two years ago and died. Her death was unexpected and the peculiar nature and suddenness of her illness caused some comment. The sad affair which left Mr. Trubbe a widower and the five children motherless was almost forgotten in the neighborhood, when two weeks ago one of the children died under the same circumstances as were developed in the sickness of the mother. Since then two others have passed away and the two surviving children are suffering with the same symptoms exhibited in the preceding deaths. The physicians in attendance say they discovered strong evidence of corrosive poisoning. The affair is being investigated by the authorities.

IN NEED OF AID.

Residents in Western Kansas Suffering from a Long-Continued Drought.

TOPEKA, Kan., July 15.—The situation in western Kansas owing to the long-continued drought has grown so grave that a convention has been called to meet at Leoti, Wichita county, July 30 to devise ways and means to prevent the depopulation of the country. In many counties no crop of any character will be harvested and destitution is staring the people in the face. The object of the convention is to devise a plan by which the settlers may be provided with seed grain for another crop. Forage crops alone are expected, and in the majority of the counties even these will be failures. Cattle on the ranges are being shipped out of the country to prevent them from perishing.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or impaired hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be restored forever; none which is nothing but an inflamed condition of the mucous lining of the Eustachian Tube. LOWELL JOURNAL LOWELL, MICH.

A Home Evening. The marriage of W. L. D. Perkins and Lizzie M. White took place on Wednesday, the 12th, at the home of the bride's parents, Mr. and Mrs. J. S. Ball.

It was a pleasant occasion and Mrs. Perkins was forgotten by those present.

About twenty invited guests were present. Among those from abroad were: Rev. H. D. F. Goffin and wife and Rev. F. A. Smith, of Coopersville; Rev. T. J. Spencer and wife; of Howse; Mrs. Julia Gilbert, of Saginaw; and Mrs. Josephina Dennis, of Gd. Rapids, sisters of the bride. Also Rev. A. P. Moore and daughter, Carrie, of this place.

The bride, Miss White, was dressed in a white gown and a white veil. She was accompanied to the altar by her father, Mr. J. S. Ball.

The groom, Mr. Perkins, was dressed in a dark suit and a white shirt. He was accompanied to the altar by his best man, Mr. J. S. Ball.

The wedding was performed by Rev. H. D. F. Goffin, of this place. The ceremony was simple and unostentatious.

The bride and groom were accompanied to the altar by their parents and the best man and maid of honor. The wedding was a success in every respect.

SUDDEN DEATH!

The Community Shocked.

Last evening, just after tea, while Mr. Thomas Harrison, a prominent and highly-respected citizen, apparently in the best of health and spirits, was reading a newspaper, the sheet suddenly fell to the floor; he placed one hand over his head, gasped, and sank back in his chair, evidently unconscious. The family were stricken with consternation, and immediately summoned a physician.

Physician called at once. The doctor was dead. Physicians gave heart disease as the cause. "Hobnob Herald." Every day the papers contain statements similar to the above. Even youth is no defense against heart disease, and the awful rapidity with which it is claiming victims forces upon all a conviction of its prevalence. Reader, if you have a symptom of this dread disease do not hesitate a moment in attending to it. It is always dangerous, and in heart disease too often fatal. Some symptoms of heart disease are shortness of breath, fluttering, or palpitation, pain or tenderness in left side, shoulder, or arm, irregular pulse, smothering, weak or irregular spells, fainting spells, dizziness, etc.

Charles Berven, York, Pa., writes: "I suffered from heart disease 22 years. Frequently my own lungs would choke me. My condition made me very melancholy. Physicians were called upon, but they did not help. I was not expected to live, but was induced as a last resort to use Dr. Williams' Pink Pills. The second day I felt greatly relieved, and at the end of ten days I felt like a new man. My gratitude to Dr. Williams is unfeigned." Joseph Rockwell, Uniontown, Pa., writes: "I am glad to announce that the use of Dr. Williams' Pink Pills has cured me of my heart disease. I had been ailing for several years, but with the use of these pills I have been restored to perfect health."

How the United States Threatens Europe.
The United States do not threaten us from a military point of view, but from an economic point of view they constitute for us an immediate and pressing danger. The debt contracted by the United States during the civil war will be completely extinguished before the end of the century, while the total debt of European countries is reckoned to amount to the formidable figure of 136 milliards of francs. The United States maintain an army of only 37,000 men—about the number included in a single one of our army corps. In Europe there are 3,500,000 men kept in military service in time of peace, and it is easy to recognize what a loss in their productive capacity is caused to European states annually.

It must be borne in mind that the men thus taken away from peaceful work are all at the maximum of their strength and at the age when a man's character is formed. The loss resulting from such a state of things is frightful, when considered as a factor in the industrial struggle against the United States. It would be sheer blindness not to see that in these conditions the progressive and rapid development of the United States menaces Europe with such a competition that the time will surely come when the axis of industrial power, of human activity and of political influence will be changed to the advantage of the new world.

This evolution movement threatens France more than any other European nation, because it is France which is bearing the heaviest burdens and which has the largest debt.—Paris Figaro.

How Electricity Makes Light.
A great number of people have but a very obscure idea of the principles of the arc and incandescent lamp respectively. It may be stated that in the arc lamp electric discharge takes place between two pieces of hard conducting carbon, separated from each other by an interval which is kept as nearly as possible constant by automatic devices. An arc of light of intense brilliancy, called the voltaic arc, is thus obtained. The carbons, being raised to an exceedingly high temperature and exposed to the air, suffer waste by combustion, and hence require renewal. There is also a transference of particles in the direction of the current, the negative carbon increasing at the expense of the positive one. With the view of obviating inconveniences arising from this cause, arrangements are often made for alternating the direction of the current. It is desirable, both for the diffusion of light and for the lessening of its otherwise painful and injurious intensity, that a globe of ground glass should be used.

In the glow or incandescent lamp, a filament of carbon enclosed in a globe exhausted of air by a mercury pump serves as a path along which the current passes. The resistance the electricity meets with in passing through this filament is sufficient to raise the latter to incandescence, and a light is thus obtained more suitable for domestic purposes and the illumination of interiors generally than that afforded by the arc lamp.—St. Louis Globe-Democrat.

Difficulties of Antelope Hunting.
The antelope first, last and all the time depends upon his legs for safety, and it is fair to say they are the fleetest as they are the most graceful of quadrupeds. There is no fan in store for the greenhorn who attempts to hunt this animal without understanding its ways and habits. Nobody can hunt and kill a bison—that is, if there were any left to kill. It is not difficult to bag a bear and many other large game animals, but the antelope demands the most skillful of huntsmen to compete with its keen sense of sight and smell, and also its extreme fleetness of foot. The power of scent is wonderfully acute in them, for it seems they can unfailingly smell a man at 600 yards and beyond with the most astonishing exactness. Their tenacity of life is beyond all conception.

I have frequently seen an antelope, with one leg shot away and hanging by the tendons alone, outrun and escape from the fleetest plain ponies. Their race is not a long one (seldom beyond six or seven miles) and it is possible that an American horse of good mettle might run them down, but as a rule nothing on the prairie can catch them, and the greyhound is about the only four footed beast in existence that can be depended upon to keep pace with and pos-

THE BAY VIEW SEASON.

Half Fare on the Detroit, Grand Haven and Milwaukee Ry.

The advent of hot weather sets everybody thinking about the cool breezes and the good times at Bay View. The Summer University opens on July 12th, the Assembly on July 19th, continuing to August 16th, and the Detroit, Grand Haven & Milwaukee Ry. will sell half fare round trip tickets there covering the full season.
Tickets will be sold daily from July 10th to 18th incl, with return limit August 17th. The Assembly programs are said to be the richest and the University advantages the best ever offered there.
The University Review gives all the programs and courses of instruction, tells all about Bay View expenses, etc. The June number is beautifully illustrated and will interest you. Send for it to J. M. Hall, Bay View, Mich.

Low Rates to Bay View.

The attractions at Bay View will be greater than ever this year. The Summer University will open July 12th and the Assembly on the 19th, continuing until August 16th. The usual half rates or one fare for the round trip, will be made by the C. & W. M. and D. L. & N. Lines (popular route to Bay View), tickets to be sold every day from July 10th to 19th, good to return until Aug. 17th. Rate from Lowell is \$5.90. Full information regarding Bay View, the expense of a sojourn there, University and Assembly programs, etc., are given in the University Review, which will be sent to any address upon application to Geo. M. Hall, Bay View, Mich.
If you have never been to Bay View you ought to go this year. If you have been there you will want to go again, and when you go, don't forget to get your tickets via the "Sojo Lane"—the Chicago & West Michigan Ry.
