A BRIDGE FALLS.

Sudden and Fatal Disaster at Louisville, Ky.

Many Men Lose Their Lives and Others Are Injured—Eight Bodies Recovered and Seventeen Others Are Missing.

FOLLOWED BY FATE.

LOUISVILLE, Ky., Dec. 16.—The new Louisville and Jeffersonville bridge, notorious for a series of unusual misfortunes since its inception, was the scene of a double accident Friday in which a large number of lives were lost and many other persons injured, making it the worst disaster in this vicinity since the great cyclone of three years ago. During a high wind at 10:18 o'clock Friday morning the middle 550-foot span of the bridge over the middle of the Ohio river collapsed with the false work under it and threw more than fifty workmen into the river, twenty-five or more being caught under the mass and crushed to death or drowned, while at least a score were injured, some of whom cannot recover.

The Dead.

Following is a correct list of the dead as obtained up to midnight:

Frank D. Burns, Frankite, Pa., picked up dead in river; C. W. Cook, Mantua, O., leg mangled and head crushed, died in city hospital; James Courney, No. 226 Campbell street, Louisville, dead when found; Frank Miller, No. 902 Washington street, dead when found; Charles Murphy, No. 499 State street, Chicago, died at city hospital; J. G. Garlock, Louisville, dead when found.

Seventeen persons are missing. The injured so far as known number fourteen.

Cause of the Accident.

The accident was due to the insecure placing of the "traveler." The wind still further loosened it, and an order was given to draw it back into its place and the engines were started. The wind was high, and the swaying of the false work forced the traveler from the piles on which it was placed. When the end slipped off the men realized their danger. The engineer called to the men and ten of the fifty-one on the span escaped. Forty-one men fell 110 feet into the water.

Frequent Mishaps.

The bridge has been under construction for a number of years and several times work has been suspended for lack of funds. Two years ago the Masonic building was failed because of its connection with the bridge company. Recently financial assistance was obtained and work was resumed. Three years ago, in constructing the piers, a dreadful accident happened at the caisson, resulting in the death of twelve men. Accidents have been frequent and from first to last it is said that fifty men have been killed.

LOUISVILLE, Ky., Dec. 13.—The bodies of George Lilly and H. Plais were taken from the bridge wreck Monday. This makes nine dead bodies taken out and thirteen are still missing. There was a gold watch and \$500 found in Lilly's pocket. One hundred and fifty men are at work on the debris day and night searching for the dead.

"After the Ball" Barred.

MANKATO, Kan., Dec. 18.—This town will not be afflicted with "After the Ball" after next Monday. Late Friday night the city council, in order to increase the funds in the treasury, passed an ordinance under the nuisance law to fine each and every time he or she is proved guilty of whistling or singing "After the Ball" between the hours of 6 o'clock in the morning and 10 o'clock at night.

It was decided to instruct all local unions to sign petitions and forward them to congress in support of the good roads bill now pending before that body, and a resolution was adopted which declares that inasmuch as the public roads of the land are in poor condition a law be enacted to issue \$500,000,000 of treasury notes to be a full legal tender of all debts, public and private, such money to be set apart exclusively for public roads and to go to each state pro rata with the number of miles of roads in the state and to be apportioned and issued at the rate of \$20,000,000 a month.

TRADE STILL WAITING.

Dun & Co.'s Weekly Review Shows General Dullness—Big Failures.

NEW YORK, Dec. 18.—R. G. Dun & Co.'s weekly review of trade says: "It is proof of the enormous vitality of the country that while mills are stopping in every direction, and the army of unemployed is larger than it has been for many years, other mills are constantly starting up to answer the demand which a single year of unprecedented disaster has only diminished. Trade still waits as much as it can, and yet the volume of business on a mere hand-to-mouth basis is such as would have been called large a few years ago. The fierce struggle of the Pittsburgh region for business drives prices to the lowest point ever known—41 for Bessemer iron, \$17.75 for steel billets—and takes away nearly all new work from the east and west, where depression has been the rule.

"Prices of wheat declined one cent, and of corn one-half cent. Pork packing at the west exceeds last year's and prices droop in spite of reports that hogs are proving of poor quality. "Failures are numerous and large, 329 in the United States for the week, against 279 last year, and 49 in Canada, against 25 last year, but a worse feature is their importance. The list of the week includes seven banks, with one of the oldest private banks for \$600,000, an agricultural machinery establishment for \$1,000,000, an iron works for \$500,000, a heavy tobacco dealer for \$500,000, a lumber concern for \$100,000 and a dry goods concern for \$100,000, making \$2,000,000 for five failures. The reported liabilities of the firms failing in the first week in December were \$3,741,406, against \$3,285,578 the previous week, including \$4,000,000 of trading and \$1,700,000 of manufacturing concerns."

BUFFALO FLOODED.

Hundreds of Houses Surrounded by Water and Many Persons Homeless.

BUFFALO, N. Y., Dec. 18.—The flood disaster in South Buffalo proves to be of the greatest magnitude. The part of the city devastated is not thickly populated, but it is estimated that at least 500 houses are surrounded with water of a depth ranging from 3 to 5 feet, and that fully 2,500 people have been driven from their homes. Thirty miles of streets and all adjacent land except the embankments thrown up for railroads are under water. The submerged section, if squared, would extend 83 miles each way. Buffalo river and Cazenovia creek are lost in the flood. The whole section is a vast sea of water.

Mr and Mrs O. A. Robinson will spend Christmas with their daughter, Mrs C. M. Shaw, at Muskegon. Lena Rouse with Cora Hubbel, of Ionia, spent last week with Mr and Mrs Sam Condon near Smyrna. If you want to feel that there is some genuine pleasure in life and that life is really worth living, and if you want to see your friends greet you with a smile, go to the S. O. V. Christmas Party, Monday night. Mrs Sam Morgan had quite a fright, last Saturday night. Some one, who had been drinking, thought they had reached their own home and tried to enter the door and not until Mrs Morgan raised the window and cried for help did they die. Died, at his home in Smyrna, Nov. 18, of typhoid fever, Leland Clark, aged 44 years. He leaves a wife and five children. Adams, of the first Baptist church, officiating. A cemetery minister recently took a leave of his congregation in the following pathetic manner:—"Brothers and sisters—I come to say good-by. I don't think God loves this church very much because none of you ever die. I don't think you love each other, because I never married any of you. I don't think you love me as you have not paid me my salary, and your donations are mostly fruit and wormy apples and by the way, I am going away from you to a better place. I have been called to be chaplain of the Anamosa penitentiary. Where I go ye cannot come, but I go to prepare a place for you." Good-by."—Potosy Herald. After the election a banquet was held and everyone was thoroughly satisfied with their pleasant evening spent in reviewing the army days. An exchange says every town has a liar, a snarling A. C., some pretty girls, men who know it all, a woman that talks, a neighborhood feud, more loafers than are needed, a man who understands the silver question, some men who make remarks about women, hens that scratch up other people's gardens, a young man who laughs every time he says anything, and men who can tell you all about the finances, but have made a dismal failure of their own.

HOOD'S
Sarsaparilla
CURES

HOOD'S PILLS cure Constipation by restoring the peristaltic action of the alimentary canal. I think I would have been in my grave several years ago had it not been for Hood's Sarsaparilla. I was a United States soldier; served three years in the United Army and was with Sherman in his March to the Sea. While in the service I contracted asthma, bronchitis and neuritis, which have become chronic diseases. I find that Hood's Sarsaparilla and Hood's Pills are the best medicines I ever used. They have certainly prolonged my life. I earnestly recommend the medicines as just right for what they are advertised. I am satisfied they save many lives every year. Wm. S. & Co., Proprietors of the S. P. Church, Atlanta, Illinois. HOOD'S PILLS cure Constipation by restoring the peristaltic action of the alimentary canal.

LOWELL JOURNAL LOWELL, MICH.

EVER, Mich. U. P. Dec 9th, 1893. Editor of Lowell Journal. In your last issue that reached us, we saw that the citizens of Lowell have quickly responded to the call of Gov. Rich for aid to Geogebic range miners. It is a glorious act on the part of the citizens of Lowell and vicinity and will surely reap its reward, for never before in the history of this Peninsula have the laboring people and their families felt the hand of poverty so heavily laid upon them. Most of the miners were thrown out of employment last summer, others early in the fall; now taking into consideration the price of living in this Pen. and the long time that has elapsed since their last labor, it clearly demonstrates the fact that they are a saving people and have used the small surplus, which might have been on hand in some of the families, to good advantage or they would have been in need of help long before this. A few of the miners living in Bossen are cutting wood at the rate of five cents their labor is about fifty cents per day, as they have about an hour or hour and a half's walk to reach their place of work. Taking into consideration the short days at this time of the year, he who earns his fifty cents is lucky. As I have lived in close proximity to this range for nearly four years and know something of the cost of living let me give you a few figures, that you may see what the laboring man with fifty cents per day can do towards keeping starvation and cold from those he so dearly loves. From \$4.00 to \$5.00 per barrel, potatoes 90c, butter 30c to 35c and other articles in proportion. These are the prices as I learned them from some Swedish miners in conversation with them a few days ago. We have spoken of the man who is fortunate enough to find a new wood lot, but alas for those who are not fortunate enough to find any employment. Of the latter class there are hundreds who are actually suffering. Comparatively speaking the people of Lowell and vicinity live in a land flowing with milk and honey and know little or nothing of the wants of food and hunger, and I trust will cheerfully respond to the call of Mrs. McCarty and co-workers in aiding the unfortunate miners. Yours Respt. An old Lowellite. W. W. H.
