

## A FIERY FURNACE.

### Resistless Sweep of Forest Fires in Northern Wisconsin.

#### A Boatload of Residents of Phillips Drowned While Trying to Escape from the Burning Town—Fifteen Lives Lost.

#### STORY OF THE DISASTER.

ASHLAND, Wis., July 30.—Loss of property approximating \$3,000,000 and heavy loss of life, the extent not yet known, though at least fifteen persons met death at Phillips Friday, is the record of the forest fires which have swept northern Wisconsin. It is almost a certainty that some of the lone homesteaders scattered throughout the burning timber have perished in the flames unless they have in some marvelous way escaped the suffocating flames and smoke.

#### The Dead.

Those known to be dead are: Mrs. David Bryden, two children of Mrs. Bryden, Frank Cliss, three Cliss children, James Locke, Mrs. James Locke, five Locke children, unknown woman, body found in the ruins of F. W. Sackett's residence.

#### Estimate of Property Losses.

The losses now seem to be: The city of Phillips entirely wiped out. The city of Mason practically destroyed, with White River Lumber company and 30,000,000 feet of lumber.

Headquarters of the Ashland Lumber company near shores Crossing entirely wiped out. Special train of the Chicago, St. Paul, Minneapolis & Omaha, consisting of sixteen cars and locomotive, all burned; broke through burning bridge near Ashland Junction.

Camps of Thompson Lumber company burned at White River. Two bridges on Wisconsin Central railroad, one near Chelsea, another near Phillips, both on main line south of Ashland.

These are the estimated losses, specifically, so far as known:

Lumber plants	\$1,000,000
Phillips residents	1,250,000
Mason	700,000
Thompson Lumber company of Washburne	2,000,000
Ashland Lumber company	4,000,000
Shores Crossing residents	4,000
Two bridges of St. P. M. & O. railroad	10,000
Two bridges Wisconsin Central	10,000
Homesteaders	350,000

#### The Disaster at Phillips.

PHILLIPS, Wis., July 31.—Not since the terrible forest fires destroyed Peshtigo has anything occurred which will compare with the scene of ruin here. Out of a town of 700 buildings only twenty-seven are left standing. It is not yet known how many of the 8,000 inhabitants of the town perished.

#### Aid Arrives.

A committee of citizens from Ashland arrived with a special train of provisions Saturday night at 9 o'clock. It was the first material relief to arrive and it arrived just in time to keep the people from actual suffering for want of food. The provisions were given out in small quantities, so as to make them last as long as possible and keep something available until other provisions arrive.

#### More Loss of Life Feared.

The entire northern part of the state is a sea of flame. The country is dotted with the homes of farmers and homesteaders and with lumber camps. There is no doubt that hundreds of these buildings have been burned, while the fate of the people is in doubt. It is probable that many of them have lost their lives.

#### Marshes Ablaze.

A special from Stevens' Point, Wis., says the continuous dry weather has resulted in a number of forest fires north and west of there. Fires are now in the marshes within 2 or 3 miles west of the city, but by good work done on the part of the settlers very little damage has been done. The hay crop is nearly all cut and stacked upon the marshes, and thousands of tons will be destroyed.

#### Desert Their Farms.

PRENTICE, Wis., July 31.—There is no sign of abatement in the forest fires which are raging around this city. The farmers from the country to the west bring in reports of fires in their part of the country and to the south. The wind was not strong, but the fires traveled fast and at 11 o'clock they were dangerously near the city, but they were kept off by gangs of fighters who worked persistently. Some of the farmers west of here have moved their families into this city.

#### To Meet Pension Claims.

WASHINGTON, July 30.—Acting Secretary of the Interior Sims has issued a requisition on the secretary of the treasury for \$12,525,000, to be used in the quarterly payment of pensions to agencies, as follows: New York city, \$1,775,000; Philadelphia, \$1,950,000; Indianapolis, \$2,800,000; Topeka, Kan., \$3,500,000; Knoxville, \$1,700,000; and Louisville, \$1,000,000.

#### Sunk the Schooner.

DETROIT, Mich., July 31.—The whale-back steamer, Pathfinder, ran down the schooner, Glad Tidings, on Detroit river between Mammy July and Grassy Island lights and Capt. Michael Westphal, his brother Anton, a brother-in-law of Mrs. Westphal and an unknown sailor were drowned.

#### Murder and Suicide.

PORTLAND, Ore., July 31.—The bodies of Cornelius Mees and his wife were discovered by the police Monday morning. The woman had been murdered with a hatchet and the husband, after committing the deed, hung himself. The deed was prompted by jealousy.

#### Farmers Lose by a Failure.

CLINTON, Ia., July 30.—Craft Bros., operating creameries at Union, Andover, Quigley, Charlotte, Delmar Center, Pleasant Valley and Princeton, have failed. Farmers in those vicinities lose about \$18,000, their only security being worthless milk checks.

## WISCONSIN REPUBLICANS.

### They Nominate Maj. Upham for Governor—The Platform.

MILWAUKEE, July 27.—The republicans met here Wednesday and after adopting a platform adjourned until yesterday, when the following ticket was nominated:

For governor, Maj. W. H. Upham, of Marshfield; lieutenant governor, Judge Emil Busch, of Manitowish; secretary of state, Henry Casson, Jr., of Vilanova; treasurer, Sewell A. Peterson, of Barron; attorney general, W. H. Myra, of Waasau; superintendent of public instruction, J. Q. Emery, of Albion; railroad commissioner, D. J. McKenzie, of Eau Claire; insurance commissioner, Dr. W. A. Fricke, of Milwaukee.

It was 4 o'clock when the committee on resolutions reported. The platform is as follows:

"We reaffirm the platform adopted at the national republican convention, and also the platform adopted by the state republican convention in 1892 and renew our pledges to the people as set forth therein.

"The present condition of the country resulting from the change in its industrial policy inaugurated by the democratic party, the hundreds of factories and workshops closed down, the thousands of men out of employment, are the best witnesses which can be brought to testify to the wisdom of the policy of protection to home industries which has always been sustained and fostered by the republican party.

"The republican party is the friend of both labor and capital. Each is indispensable to the other. The party had its origin in opposition to the enslavement and degradation of labor, and under its policies the workingmen of the United States received a higher rate of wages and attained a degree of comfort and influence such as they had never previously enjoyed. It will employ whatever authority it possesses to promote all just demands of the wage worker and support whatever practical measures can be devised for the amelioration of his condition.

"We recognize the right of laborers to organize, using all honorable measures for the purpose of dignifying their condition and placing them on an equal footing with capital, to the end that both fully understand that they are friends and are equal to each other and to the prosperity of the people.

"The republican party is in favor of honest money. We are unalterably opposed to any scheme that will give to this country a debased or depreciated currency. We favor the gold standard to the extent only that it can be circulated on a parity of gold.

"The republican party is the party of religious liberty, of absolute non-sectarianism, of entire separation of church and state, of free common schools and of the utmost independence of individual thought, speech and action within the law.

Chairman H. C. Thom was reelected chairman of the state central committee. The convention adjourned after passing a vote of thanks to Chairman Elliot.

## REVIEW OF TRADE.

### A Leading Commercial Agency Gives Its View of the Condition.

NEW YORK, July 28.—R. G. Dun & Co.'s weekly review of trade says:

"The heavy outgo of gold, the fall of the treasury reserve and of the price of wheat to the lowest point on record, and the increasing uncertainty about the tariff have entirely overshadowed other industries. Business depression for months by the great strikes now being the railroads and swells returns and gives the impression of revival in business. But it is not yet clear how far there is an increase in new trade distinguished from that which had been merely blocked or deferred.

In some branches there has been more activity but in others less, because events early this week led many to infer that no change of tariff would be made.

"Wheat has found the lowest price and has sold below 50 cents, making the monthly average at New York the lowest ever known. Corn is stronger, with accounts of injury to part of the crop, and the exports are trifling. Cotton declined a sixteenth of 7 cents, though receipts from plantations were small. Textile industries have been perceptibly stimulated, according to dealers, by disagreements which many suppose will prevent change of the tariff and there has been more buying of cotton goods, with slightly higher prices for a few, notwithstanding the closing of some important mills. The stock of such goods is on the whole quite large. In woollen goods the market is quiet, with dealers preparing themselves by deferring orders, in such that imperative necessities now keep most of the mills at work and purchases of wool for immediate use are large.

"For the week failures have been 249 in the United States, against 284 last year, and 29 in Canada, against 23 last year."

## SWEPT BY FLAMES.

### The City of Minneapolis Visited by a Costly Fire.

#### Loss Placed at Half a Million—Shevlin-Carpenter Lumber Plant and Omaha Railroad Shops the Main Sufferers.

#### CAUSED BY A SPARK.

MINNEAPOLIS, Minn., July 31.—A spark from a passing locomotive started a fire in the large lumber yard of the Shevlin-Carpenter company on the west river bank Monday afternoon. It proved to be the third big blaze in the history of the city. It destroyed 25,000,000 feet of lumber, the office of the Shevlin-Carpenter company and twenty-five freight cars, the round-house, and the gas works of the Chicago, St. Paul, Minneapolis & Omaha Railway company. The loss is \$500,000, and the insurance will amount to \$350,000. The Omaha company is protected by a blanket insurance.

The fire started shortly after 3 o'clock and owing to the long drought, rendering everything as dry as tinder, spread with alarming rapidity. A strong northwest wind was blowing which swept the fire down the river toward the sawmill. The entire fire department was soon on hand and seven engines came from St. Paul in response to a call for aid.

At 4:30 the Omaha roundhouse was on fire and only with the greatest difficulty were a dozen engines got out and run down the track. Meantime a line of freight cars caught fire and the efforts of the company were directed to saving them. All were hauled away but twenty-five, some of which were loaded with merchandise. The roundhouse was totally destroyed.

#### Gas Tanks Explode.

About 5 o'clock two gas tanks near the roundhouse exploded with a terrific roar, stampeding the crowd and spreading the fire. Soon after the boiler of a stationary engine exploded and several men had narrow escapes from instant death. At 5:30, just when it seemed that the fire would sweep down into the business district, the wind shifted, and the danger was practically over. Only by almost superhuman efforts were the Omaha offices, the big warehouses and the Star elevator saved.

Employees of the railroad company, at the risk of their lives, with faces and hands blistered by the fearful heat, rushed into the fercest of the flames to save the dead locomotives and the cars, many of them emerging from the sea of flame charred and damaged by the fire through which they were brought. Incoming and outgoing trains were delayed several hours, the fire being adjacent and within a short distance from the union depot and its network of tracks. There were no fatalities.

#### The Losses.

The total loss to the Shevlin-Carpenter company, as estimated by members of the company, is \$200,000. The insurance is \$100,000. The company is unable to-night to give detail insurance. The Omaha losses are estimated by that company at \$300,000, covered by blanket insurance. Other losses are estimated at \$100,000, partially covered by insurance.

## WANT CHICAGO TO PAY.

### Railway Companies Sue to Recover Losses by the Strike.

CHICAGO, July 31.—Notices were served Monday by Samuel B. Foster, attorney in fact for several railroads, of damages claimed against the city of Chicago and the county of Cook for loss of property during the late strike. The notices were served on the mayor, city clerk, the corporation council, the city attorney and on the president of the county board, the county clerk and the county attorney. The aggregate damages claimed are \$38,670. This presents only about one-tenth of the actual damage claimed, many roads having several days left in which to file their claims. The roads which filed claims, with the amount of damages, are as follows:

Lake Erie & Western, \$10,000; Detroit, Grand Haven & Milwaukee, \$229; Chicago & North-western, \$410; Chicago Refrigerating line, \$1,010; New York Central & Hudson River Railway company, \$346; Monon, \$330; Flint & Pierre Marquette, \$75; Chicago & Erie, \$100; Swift Refrigerator line, \$320; Armour Refrigerator line, \$100; Central Car Trust company of New York, \$200; Chicago & Grand Trunk, \$12,150; Grand Trunk railroad, \$7,785, and Grand Trunk company of Canada, \$5,225.

Besides these claims shippers filed through Mr. Foster claims amounting to at least \$200,000. This was done by the shippers on the express declaration of the railroads that they will pay no claims whatever made against them by shippers for damages to freight handled during the strike.

## HOTTEST EVER KNOWN.

### The Thermometer Ranges from 100 to 110 Degrees in the Northwest.

ST. PAUL, Minn., July 27.—As indicated from various points in Minnesota, North and South Dakota and northern Iowa Thursday was one of the hottest ever recorded in the north-west. From 100 to 110 in the shade is reported. The long continued heat is proving disastrous to crops. Wheat in South Dakota is reported nearly all out of the way, but corn must have rain immediately to save it. The same conditions exist in northern Minnesota. Reports from northern Iowa say corn is injured beyond the power of rain to restore. The situation is some better in North Dakota. Following are some of the records reported.

Mankato, 103; Faribault, 108; St. James, 106; Caledonia, 104; Bird Island, 103; Yankton, S. D., 110; Vermillion, 112; Sioux Falls, 110; Pierre, 104; Huron, 100; Bismarck, 110. Although the heat was almost unprecedented in the Twin Cities no cases of sunstroke are reported.

DES MOINES, Ia., July 27.—The heat here Thursday was the greatest in ten years according to official records. The wind blew all day almost a gale from the southwest. It was so hot that it dried up what was left of green grass. Agricultural Iowa is in a deplorable condition.

OMAHA, Neb., July 27.—An unprecedentedly hot wind is blowing over Nebraska from the south and is doing irreparable damage to corn. The wind feels as if it came from a furnace, and it is blasting corn as effectually as a prairie fire.

FAIRBURY, Ill., July 27.—The thermometer reached 105 degrees in the shade, the hottest this year.

YANKTON, S. D., July 27.—For six days the temperature has been at 100 degrees. Thursday it registered 110 degrees. The hot winds have scorched the growing crops beyond recovery. All of the wheat has been out and is out of the way, but corn must have rain soon.

## IDLE CONVICTS.

### The State Soon to Have Many on Its Hands.

JACKSON, July 31.—Austin Tomlinson & Webster, who have the wagon contract that was established at the prison fifty-two years ago, have given notice of severing their connection with the state after January 19. They claim that adverse legislation in several states, business depression and discrimination against convict labor are the causes. By this 150 convicts at 55 cents per day and 125 free men will be thrown out of employment. There is now only one important contract left in the prison, that of the Cooley Agricultural Implement company, which has 200 men. January 19 there will be over 400 convicts idle and locked in their cells unless other contracts can be secured.

#### No Fear of Cholera.

NEW YORK, July 30.—The existence of Asiatic cholera in European seaport cities and the ravages of the plague in China do not cause the least uneasiness to the officials of the health department here. The rules regarding the inspection of immigrants before they sail are now enforced, and it is next to impossible for cases of cholera to find their way aboard ships.

## WHEN TROOPS MAY BE USED.

### Significant Orders Are Issued by the War Department.

WASHINGTON, July 27.—One result of the extensive use of troops during the recent strike has been the promulgation of a general order from the war department intended to fully inform commanding officers how and when they may use troops. The order is an amendment of an existing order and its significant features are found in the designation of the interstate commerce act and the acts in aid of the Pacific railroads in addition to the statute prohibiting obstructions of the mails as acts warranting army officers in using troops.

Eliza Maria Loop-Marshall. Was born in the village of Oakville, Canada, Aug. 18, 1831. When nineteen years of age she came west with her parents, and oldest subject was Aunt Amy Lull, who was 93 years old July 31st, 1894, having been born in the State of New York, July 21st, 1801; the second was her son and our well known citizen, Sheldon B. Parker; the third was Amy (Parker) Bailey, a grand daughter; the fourth was Nellie Amy (Bailey) Gould, a great grand daughter; and the fifth was Mary Amy Gould, a great, great grand daughter.

The deceased, Mrs. Marshall, has been a great sufferer for many months. It seemed to her friends many times that it would be impossible for any human being to suffer so much. But she bore it very patiently and with fortitude until the last.

Mrs. Marshall has always been a very happy, buoyant disposition; cheering those around her and scattering sunshine about her pathway. All who knew her could but love her for her gladness ways. Even when under the severest trials she forgot not to look on the bright side of life.

It was during her last affliction that she felt she had neglected a very important part of her duty and asked that her faith in Christ as her personal Savior might be announced in the public services of the church. Her faith and trust in Christ has been a beautiful example to those who were near her during her last months. There seemed but one thing hard for her to understand, it was why the blessed Saviour should permit her to go so long, yet she was never weary of suffering, but she can now see the hand of a loving Father in the things that are mysteries to this clouded life.

She ceased her suffering on the 28th inst., when she quitted the earthly home and entered the home prepared for her by her Savior in the Eternal City. Her husband and a host of friends survive her to mourn their loss, which is her eternal gain.

She leaves behind her many fond remembrances. She was a member of the Hooker Pine Society since its organization, and at the time of her death was 1st Vice President of said society. She was foremost in every good cause of her community. In sickness she was ready to help, in charity she was ready to give, in sympathy her great heart readily responded to the afflictions of others. Funeral services at the home Tuesday, July 31st, Pastor Ernest H. Shanks officiating.

Our Mother. (This brief memoir was written by S. B. Knapp, the oldest son of the deceased.) Betsy Archer Knapp was born March 29th, 1803. She was married to Abner Knapp Dec. 30th, 1819, both of Hopedale, Ontario Co., N. Y. They moved to the Ionia Territory of Michigan in April, 1829, and settled in Oakland Co., near Grand Rapids.

She was converted when but 16 years old and united with the M. E. church and has been a member since, always living a Christian life, by her work, example and counsel, until age compelled her to cease from active work.

They came to Lowell in 1854, where they have lived since. She lived and battled with pioneer life without a murmur, thinking not of self, but of the comfort of others. She raised a family of ten children, nine of whom are living and four of whom were at her bedside when she died. The others, three sons, are living in and near St. Paul, Minn., and two daughters in Aberdeen, Wash.

She was ever mindful of her husband's welfare and the state around her, and the years bore her down and she could do no more and so then she has been patiently waiting for the summons and concerning which she has often said she was ready, and when it came, as it did on July 24th, at 1:15 p. m., it was in peace and without a struggle, but as one going to sleep. Blessed sleep in Jesus, and thus she lived and thus she died. So rest our mother, for she has received the crown that is promised to the faithful.

"Asleep in Jesus, blessed sleep. From which none ever wakes to weep. A calm and undisturbed repose, Unbroken by the least of foes."

On the 1st day of August, an interesting group representing five generations in a direct line were photographed at the Lowell Art Gallery. The principal and oldest subject was Aunt Amy Lull, who was 93 years old July 31st, 1894, having been born in the State of New York, July 21st, 1801; the second was her son and our well known citizen, Sheldon B. Parker; the third was Amy (Parker) Bailey, a grand daughter; the fourth was Nellie Amy (Bailey) Gould, a great grand daughter; and the fifth was Mary Amy Gould, a great, great grand daughter.

The deceased, Mrs. Marshall, has been a great sufferer for many months. It seemed to her friends many times that it would be impossible for any human being to suffer so much. But she bore it very patiently and with fortitude until the last.

Mrs. Marshall has always been a very happy, buoyant disposition; cheering those around her and scattering sunshine about her pathway. All who knew her could but love her for her gladness ways. Even when under the severest trials she forgot not to look on the bright side of life.

It was during her last affliction that she felt she had neglected a very important part of her duty and asked that her faith in Christ as her personal Savior might be announced in the public services of the church. Her faith and trust in Christ has been a beautiful example to those who were near her during her last months. There seemed but one thing hard for her to understand, it was why the blessed Saviour should permit her to go so long, yet she was never weary of suffering, but she can now see the hand of a loving Father in the things that are mysteries to this clouded life.

She ceased her suffering on the 28th inst., when she quitted the earthly home and entered the home prepared for her by her Savior in the Eternal City. Her husband and a host of friends survive her to mourn their loss, which is her eternal gain.

She leaves behind her many fond remembrances. She was a member of the Hooker Pine Society since its organization, and at the time of her death was 1st Vice President of said society. She was foremost in every good cause of her community. In sickness she was ready to help, in charity she was ready to give, in sympathy her great heart readily responded to the afflictions of others. Funeral services at the home Tuesday, July 31st, Pastor Ernest H. Shanks officiating.

Our Mother. (This brief memoir was written by S. B. Knapp, the oldest son of the deceased.) Betsy Archer Knapp was born March 29th, 1803. She was married to Abner Knapp Dec. 30th, 1819, both of Hopedale, Ontario Co., N. Y. They moved to the Ionia Territory of Michigan in April, 1829, and settled in Oakland Co., near Grand Rapids.

She was converted when but 16 years old and united with the M. E. church and has been a member since, always living a Christian life, by her work, example and counsel, until age compelled her to cease from active work.

They came to Lowell in 1854, where they have lived since. She lived and battled with pioneer life without a murmur, thinking not of self, but of the comfort of others. She raised a family of ten children, nine of whom are living and four of whom were at her bedside when she died. The others, three sons, are living in and near St. Paul, Minn., and two daughters in Aberdeen, Wash.

She was ever mindful of her husband's welfare and the state around her, and the years bore her down and she could do no more and so then she has been patiently waiting for the summons and concerning which she has often said she was ready, and when it came, as it did on July 24th, at 1:15 p. m., it was in peace and without a struggle, but as one going to sleep. BASE BALL. We Take a Pleasantly Played Game From Freepoint. Last Friday the Freepoint base ball club came over and played a return game, in which they were defeated by the home team. There was plenty of interest in the game, the L. & H. running a special train to accommodate the Freepointers who wished to see the game.

The features of the game were the fly catch of Coon after the home team, the excellent work of both pitchers at critical times and the dashing base running of Giles. The umpiring of Frank Nagler was as fair as is possible and was good as is ever seen at an amateur game.

SENT TO THE BOTTOM. The Schooner Glad Tidings Sunk in the Detroit River. Run Down by a Big Steamer and the Her Crew of Four Men Lost.—The Sinker Craft Was Formerly a Gospel Ship.

A SCHOONER RUN DOWN. DETROIT, July 1.—The whale-bone steamer Glad Tidings, a small schooner, which proved to be the Glad Tidings, on Detroit river between Miami July and Grassy Island lights about 6 o'clock today morning, it is believed that the crew of four on the sunken boat were drowned, as not a vestige of the wreck can be seen. When the Pathfinder struck the schooner, a quantity of rigging and canvas fell across the steamer's bow, but nothing was seen whatever of the schooner after the disaster and it is supposed that she went down instantly.

Monday evening Mrs. Westphal, wife of Capt. Westphal, owner of the schooner Glad Tidings of this port, identified the rigging as that of the Glad Tidings. The crew consisted of Capt. Michael Westphal, his brother Anton, a brother-in-law of Mrs. Westphal, and an unknown sailor who shipped on the last trip. There is no doubt that all were drowned.

The point in the river where the Pathfinder met the unfortunate schooner is a mystery which may never be cleared up, as the Glad Tidings was sailing up under a brisk southwest wind. How the collision occurred is a mystery which may never be cleared up, as the Glad Tidings was sailing up under a brisk southwest wind. How the collision occurred is a mystery which may never be cleared up, as the Glad Tidings was sailing up under a brisk southwest wind.

The vessel had sunk from under them, and they were left to drift with nothing to do anything to bear themselves up, and must have sunk long before aid came from the steamer. The Pathfinder is owned by the Glad Tidings company, one of the corporate names of Pickands, Mather & Co., the big iron firm of Cleveland.

It was built at Massillon in 1885 and was owned by M. Westphal, of Detroit. She only measured eighty-one tons. Originally the boat was a gospel-ship.

Detroit 2d, time 10:47. Senior single sculls—E. A. Thompson, Argonaut of Toronto, won, time 11:25. Charles Van Damme, Nanticoke, Detroit, second.

The association re-elected President Charles Catlin, of Chicago; vice president, W. A. Littlejohn, of Toronto, and secretary and treasurer, William C. Jupp, of Detroit. The executive board was re-elected.
