TRAIN ROBBERS.

They Reap Rich Harvests in Virginia and California.

Fifty Thousand Dollars Secured Near Quantico, Va.-A Like Sum Stolen From the Express Near Davis-ville, Cal.

RICHMOND, Va., Oct. 18 .- The northbound passenger train on the Richmond, Fredericksburg & Potomac railway which left here at 7 o'clock Friday night was held up near Quantico. The engineer and fireman were forced from their engine and the engine was cut loose and sent ahead. The express car was then entered, the messenger covered with pistols and forced to open the safe. The runaway locomotive was stopped at Quantico by obstructing the track. It is stated here that there was an unusually large amount of money on the train, probably \$50,000. The robbers, seven in number, were masked. The railway company has offered \$1,000 reward for the arrest of any of the robbers.

The express messenger, B. F. Crutch-field, and his helper, H. Murray, barred the doors of the express car, but these were blown open with dynamite.

After the robbery the thieves made off with their booty in the direction of the Potomac river, where it is supposed they had a beat in waiting to take them to the Maryland side. None of the robbers entered the passenger coaches.

Daring Robbery in California.

San Francisco, Oct. 18 .- The bandits who held up a Southern Pacific overland train a few miles west of Sacramento late Thursday night and looted the Wells-Fargo company express car secured over \$50,000. They seem to have eluded the officers and escaped with their plunder, which was nearly all in gold coin, and consequently a heavy burden. The astounding success of the hold up was not known until Friday afternoon. Earlier reports Central en route to his home in Ohio, of the robbery gave the amount of where he had been called by the illmoney taken at \$1,500.

Reward of \$10,000 Offered. The truth came out, however, when the Southern Pacific issued a circular He was caught by a beam in the tunoffering a reward of \$10,000 for the arrest of the two robbers and the recov-ery of the plunder. In this circular, it is said, the bandits plundered the express car of over \$50,000 in gold. The circular announces the Southern Pacific company and the Wells-Fargo company will pay \$2,500 for the cap-ture of each robber and \$5,000 for the recovery of the money, or a proportion-eat amount of any part of the whole. Stole Four Sacks of Coin.

The robbery was a daring one. Four sacks of coin were secured from the express car, and Messenger Paige barely escaped with his life. Three hundred pounds of coin were taken. Engineer Bill Scott, of the Oregon Overland, and his fireman were forced at the muzzle of a revolver to carry coin sacks from the express car to the engine. There the robbers uncoupled the engine and rode off with their

A TERRIBLE DEED.

An Insane Mother in New Jersey Cremates Her Children.

She Takes Her Three Little Ones to the Barn, Locks Them in and Fires the Building - Ail of Them Perish.

ELIZABETH, N. J., Oct. 16 .- Mrs. Jennie Harrigan and her three children perished by fire in the barn upon their farm in the outskirts of the city. The residence also was burned. The husband and father was absent. The general belief is that Mrs. Harrigan became suddenly insane and set the house on fire; that she then took her children and went into the barn, and locking the door, set the hay on fire. As the flames began to close around them the mother gathered the children about her and held them until they were all overcome. The eldest of the children was 6 years of age and the youngest 14 months.

Mr. Harrigan is quite poor and peddles for a livelihood. He went to Newark this morning to sell his wares. When neighbors, attracted by the smoke, reached the home of the Harrigans they found a box of wood on fire in the house and quickly extinguished it. The flames in the barn, however, had gained such headway that nothing could be done until the flimsy structure had been burned to the ground. It was then that the fate of Mrs. Harrigan and her three children became known. Mrs. Harrigan, who was 30 years of age, had shown no signs of insanity, though she had been despondent over the circumstances of herself and fam-

THAT BLUE PENCIL MARK!

Has Caused Many Inquiries. Is It On Your Paper.

At the top of the right hand column of the first page you will find a coupon which reads "Good for two cents" and some of our subscribers will find a blue pencil mark on that coupon. If you will read carefully you will see that it is "not good if cancelled with blue." The reason for this is that we have made arrangements so that all subscribers who are paid in advance will receive back all the money they pay, besides getting the ton, Providence and New York, who Journal, which means that the Journal costs those who pay in advance nothing, for if they cut their coupons out and use them at the places printed on their face, they get their money back with which they can re-subscribe for the JOURNAL thus making one subscription virtually

perpetual.

But the "blue mark" you will find that only on the papers of those who are in arrears for their subscription, for while we are feeling very liberal and magnanimous we are not able to make arrangements whereby we can give money to those who are in our debt, although, should we receive all that is our due from subscribers, we could make and would gladly make arrangements to care for the 1400 two cent coupons each week, The object of these coopons is to make the local paper so cheap that all can afford to take it, and another object is to make a subscription to the JOURNAL of actual money value as well as intrilectual value. Take the JOURNAL and thereby get all the news, pay for it and get the benefit of the "Cach Coupon."

How Labor Lost Money. A Democratic tariff for revenue encourages the importation of foreign made goods. Imported goods, being the products of foreign labor, rob American labor of that amount of work. About every \$2,000 worth of imported goods that can be made at home throws one American out of employment. Of the \$866,000,000 of merchandise imported in 1893, \$445, 000, 000 could have been made at home by Americans. Allow ing \$2,000 for each wage earner, then 222,500 would have thus found employment and received in wages \$108,-000,000 had it not been for the fear of free trade.

HE official reports show that no baking powder received an award over the Royal at the Chicago World's Fair.

The judge of awards on baking powder writes that the claim by another company to have received the highest award is false; that no such award was given to it.

The Royal Baking Powder is the purest and strongest baking powder made, and has received the highest award at every fair, wherever exhibited in competition with others.
