

FIRE'S FATAL WORK.

Sixteen Persons Perish in a Boat (Wash.) Hotel.

Aroused from Slumber by Flames They Rush into a Labyrinth of Halls and Perish—Some Horrifying Signs Are Disclosed.

SEATTLE, Wash., Oct. 29.—A fire, which resulted in the death of at least sixteen persons and the injury of three others, broke out in the West street hotel, at Columbia and West streets, about 1 o'clock Saturday morning.

John F. Anderson, aged 28; F. Ballman, C. Graham, laborer; Mrs. J. H. Hancock, of Rte. 1a, and her three children, two girls, aged 6 and 7 years, and a boy aged 4; Mrs. J. W. Huffman, wife of a well-known farmer of Fall City, Wash.; Angus McDonald, M. McSorley, Andrew Ottarman, aged 19; Mrs. Ottarman, of California, his mother; C. Wilson.

A. G. Butler, brother of the proprietor, is missing. Richard Havin was badly injured about the head and back by jumping; D. B. Glass had a leg broken and his back injured, and C. B. Anderson was burned and badly bruised.

Caused by a Lamp Explosion.

The fire was undoubtedly caused by the explosion of a lamp in the kitchen. The proprietor's son was aroused by the noise of the explosion about 1 o'clock, but before he could investigate the flames had spread all through the house. The corrugated iron sheeting kept the flames hid until nearly the whole interior was a furnace. The thin partitions were of resinous pine covered with cheesecloth and burned furiously. The sixty guests were aroused and the rush for life followed.

Firemen Find the Dead.

At 3 a. m. the fire was under control and the firemen were able to enter the shell of iron. At the head of the stairs they found the body of a man pinned to the floor by the ruins of a bed. The body was terribly burned. One poor fellow was caught in the rush of the conflagration near the top of the West street stairway and sank down overcome with the smoke and flames. The firemen sought to keep the fire away from his body but were driven back.

In one of the hallways a body, charred, blackened and without a vestige of clothing, was found. A little farther on in the same passageway was another body, evidently that of a woman, face upwards and hands stretched as if fighting for her life and appealing for assistance which never came. There was little left of the woman's form, for part of the body was charred and the burned bones lay around it.

Entire Family Destroyed.

The saddest sight of all was found in the inside room off the passageway which led to West street. There calmly lying in a charred and blackened bed was evidently an entire family. The father lay on one side, the wife next to him and a little burned and blackened arm, the flesh falling in shreds from it, the small fingers clutched, showed that a child was among the victims.

Bought Barnum's Circus.

NEW YORK, Oct. 30.—After several months of negotiation between the heirs and executors of the late P. T. Barnum and J. A. Bailey an arrangement has been effected by which the latter becomes the absolute owner of all the interests embraced in the Barnum circus. Mr. Bailey is now the exclusive owner of the largest two shows in the world, having bought the Adam Forepangh show upon the death of its former owner.

Admitted His Guilt.

SPRINGFIELD, Ill., Oct. 30.—Examination of the accounts, as secretary of the Normal Park loan association, of the late F. W. Porter, auditor of the Rock Island road, it is alleged, developed a shortage of \$23,000. Porter is said to have confessed to defalcation to the inspector the day before his sudden death at the Grand hotel in Cincinnati.

Chapin Mine Lease Sold.

IRON MOUNTAIN, Oct. 30.—A thirty-year lease of the Chapin mine, together with all buildings and machinery and 3,000 shares of stock in the Hydraulic Power company, were sold Monday by Court Commissioner Hammond to M. A. Hanna & Co., of Cleveland, for \$88,978. Only a few years ago the property was sold by the Vandeykes, of Milwaukee, to Ferd Schiesinger for \$2,000,000. The indebtedness represented by Trustee Flannagan aggregated \$648,783.

A Clown's Tragic Death.

Auguste, the great French clown, whose reputation was European, has come by his death in a circus at Dresden under circumstances peculiarly dramatic. He was making one of his usual "saute de carpe," amid the applause of the crowd, when, with an awkwardness that was irresistibly comic, he fell. He not only fell, but on the ground indulged in contortions that delighted his public, and, to crown all, simulated death, lying rigid and motionless in the middle of the arena. It was the supreme art of clownery and was recognized and rewarded by the applause of an intelligent audience. They had seen him do this kind of thing before, but never so well. However, as he remained motionless, a groom went up to him and found that again and for the last time he had deceived his public. The vertical column was broken, and the man was dead. He was known as a French clown, but his name was William Bridge. It is not easy to create an entirely new circus clown, and poor Auguste did that.—Paris Letter.

CRIME OF A WRETCH.

He Confesses the Murder of Mary A. Jones in Viroqua, Wis.

VIROQUA, Wis., Oct. 30.—The story of a cruel and cold-blooded murder was told Monday within the walls of the county jail, when S. S. Buxton confessed that he murdered Mary A. Jones in her lonely home near the Kickapoo river. A week ago the woman's body was found suspended by a stout rope to the rafters of her house, and it was reported that she had committed suicide. A brother of the victim refused to accept the theory of suicide and caused the arrest of Buxton. Monday the prisoner broke down and confessed that he had killed the woman by hanging. Buxton was taken to Sparta Monday, pleaded guilty, and was sentenced to life imprisonment.

The murderer is about 35 years old and has a wife and two children. He removed here from Ohio a few years since, where it is reported he bore a bad name.

PEWABIC MINERS SAVED.

Rescuing Party Reaches Them and Finds Them All Right.

IRON MOUNTAIN, Mich., Oct. 29.—The entombed miners at Pewabic were all rescued alive Saturday morning at 5:30 o'clock. At 4 o'clock it was known they were all alive, as the workers were near enough to talk with them. They said they were all alive, but were suffering from chills. Hunger had not bothered them very much. In an interview with W. Oliver he said it was the longest forty-eight hours he ever put in. It was terribly dismal, but they all felt better when they heard the distant knocking and noise, for they knew it was a rescuing party.

DEED OF VILLAINS.

They Blow Up a Hungarian Railway Camp Near Wilkesbarre, Pa.

WILKESBARRE, Pa., Oct. 29.—A dastardly outrage was perpetrated at 5 o'clock Sunday morning wherein it was premeditated by the scoundrels to sacrifice fifty or sixty lives by sending them into eternity with a force of dynamite. The motive was undoubtedly robbery, and it resulted in the death of three Hungarians, while a large number were injured, eight of whom are in a serious condition.

The dead are Frank Novako, Mike Callets and George Silatski. Callets leaves a wife and four children in Hungary, and Silatski a wife and two children in Bohemia. Novako was single.

BUSINESS OUTLOOK.

Indications Are More Favorable in the Commercial World.

Trade Retarded by Political Excitement in Some States—Condition of the Cotton and Grain Markets—Fewer Failures.

NEW YORK, Oct. 27.—R. G. Dun & Co.'s weekly review of trade says:

"Engrossing political excitement in many of the states causes a natural slackening in some kinds of business. But on the whole business indications are rather more favorable than they were a week ago. Gold exports have ceased, quite a number of mills have gone into operation, and the demand for products, if not equal to that of prosperous years, is better than it has been most of the time this year. The prices of farm products do not improve much, and there are still some strikes to retard reduction of wages, so that the purchasing power of the people cannot have materially increased, but there is a more hopeful spirit which prompts greater activity. On the other hand, the record of past transactions is somewhat less favorable than of late. Payments through the principal clearing houses throughout the country show a decrease of 1.2 per cent. compared with last year, and a decrease of 21.9 per cent. compared with the same week in 1892, the decrease for four weeks being 23.8 per cent.

"Cotton has sold at 5.81 cents for middling uplands, and the large receipts at such low prices indicate clearly that the crop will at least be close to the largest. If not the largest ever produced. The anticipated settlement of difficulties at Fall River has not been realized, and at present a good many spindles and looms are idle. It is interesting that, in spite of the low price of the principal southern crop, manufacturers and wholesale dealers report rather more improvement in trade with the south than with any other section.

"The wheat market is a quarter lower, and nothing appears to justify any important change. Corn is higher, without any very clear reason, and it is noteworthy that at the same time pork is 7c lower—lard, 20c per 100 pounds, and hogs 40c lower. The contrast indicates how little the provision market depends at present on natural relations of supply and demand.

"Industrial accounts are on the whole encouraging. The boot and shoe industry leads in improvement, actual shipments from the east being larger than in any previous year. The demand for wool is not as large as it has been. Prices were put down before the new tariff took effect, so that results of foreign competition are felt mainly in reduced sales of some domestic wools. Almost nothing is doing in spring wools for men's wear, but manufacturers are more encouraged to believe that, as to a large share of the cheaper goods, they can meet any prices that foreign mills may make.

"It is still, as it has been for some months, a very encouraging fact that the volume of commercial failures is small. Reports for the three weeks of October cover liabilities of only \$5,597,471, of which \$2,259,471 were of manufacturing and \$2,997,547 of trading concerns. The failures for the week were 231 in the United States, against 332 last year and 22 in Canada, against 44 last year."

Bradstreet's says: "Merchants interviewed in various portions of the country report that, inasmuch as the condition of business is not having realized anticipations and at other points that the recent bright outlook for trade is modified. Such advice is based in part on the practical conclusion of the fall trade and delays in demand for holiday goods. General trade continues cheerfully throughout some portions of the regions supplied by Kansas City, St. Louis, Omaha, Minneapolis and St. Paul, due to unseasonably warm weather."

BANKRUPTCY

of the physical being is the result of drawing incessantly upon the reserve capital of nerve force. The wear, tear and strain of modern life are concentrated upon the nervous system. The young men of our day become sufferers from nervous debility or exhaustion, nervous prostration or weakness. This may be the result of too much mental worry and excitement, or the result of bad practices and excesses, or pernicious habits, contracted in youth, through ignorance. They feel irritable, weak and nervous with such distressing symptoms as backache, dizziness, shooting pains in head or chest, sometimes indigestion. The middle-aged men, as well, suffer from exhaustion, loss of manly power, low spirits, impaired memory, and many derangements of mind and body. The ill-used brain is morbidly wide awake when the overworked business man attempts to find rest in bed.

The physicians and specialists of the Invalids' Hotel and Surgical Institute devote their best energies to reclaiming and restoring such unfortunate to health and happiness. They have written a book of 668 pages, treating of these maladies and setting forth a rational means of home-treatment for their cure. It is sent securely sealed, in plain envelope, on receipt of 10 cents for postage.

Not good if canceled with blue Lowell Journal Coupon. Oct. 31, '94.

THAT BLUE PENCIL MARK!

Has Caused Many Inquiries. Is It On Your Paper.

At the top of the right hand column of the first page you will find a coupon which reads "Good for two cents" and some of our subscribers will find a blue pencil mark on that coupon. If you will read carefully you will see that it is "not good if canceled with blue." The reason for this is that we have made arrangements so that all subscribers who are paid in advance will receive back all the money they pay, besides getting the JOURNAL, which means that the JOURNAL costs those who pay in advance nothing, for if they cut their coupons out and use them at the places printed on their face, they get their money back with which they can re-subscribe for the JOURNAL thus making one subscription virtually perpetual.

But the "blue mark" you will find that only on the papers of those who are in arrears for their subscription, for while we are feeling very liberal and magnanimous we are not able to make arrangements whereby we can give money to those who are in our debt, although, should we receive all that is our due from subscribers, we could make and would gladly make arrangements to care for the 1400 two cent coupons each week. The object of these coupons is to make the local paper so cheap that all can afford to take it, and another object is to make a subscription to the JOURNAL of actual money value as well as intellectual value. Take the JOURNAL and thereby get all the news, pay for it and get the benefit of the "Cash Coupon."

As the result of my tests, I find the ROYAL BAKING POWDER superior to all the others in every respect. It is entirely free from all adulteration and unwholesome impurity, and in baking it gives off a greater volume of leavening gas than any other powder. *It is therefore not only the purest, but also the strongest powder with which I am acquainted.*

Planting the Standard

All hail Columbus! Behold the great navigator as he lands. The perils of the deep are past. The clouds of fear have vanished. The night of gloom has ended. In the heavens the sun of success shines resplendent. Morning has dawned.

Imperiously the banner of haughty Spain flutters the daylight. Upon its fluttering folds are inscribed the destinies of a new world. Its gleaming surface marks a long advance in the evolution of the human race. It tells a story of prophecy unfulfilled, of development unapproached in the fullness of recorded time. It crowns with triumph the efforts of genius.

The World's Fair contained no finer statue of the great discoverer than this colossal figure. It commanded from its pedestal the eastern entrance to the Administration building. The majesty of its dimensions, the vigor and aggressiveness of its expression and the artistic finish of its composition made it admired as a genuine sculptural triumph.

Another Standard Proudly Displayed

at the Fair was that of

Dr. Price's Cream Baking Powder

A Standard of Excellence for Forty Years.

It was the standard of unequalled strength, perfect purity and wholesome results. The award to Dr. Price's of highest honors at the Fair furnishes conclusive evidence of its superiority over all other baking powders.
