

WILL STAY AWAY.

Hawaii Will Not Send Thurston Back to Washington.

Secretary Gresham's Note Demanding Thurston's Recall Received at Honolulu—Cause of the Delay—The Secretary's Reasons.

SAN FRANCISCO, May 11.—Hawaiian advice received Thursday morning from Honolulu dated May 8, per steamer Mariposa, are as follows: The letter demanding the recall of Minister Thurston is here, and was read to the executive session of the council yesterday afternoon. This letter had been to Hong Kong. It went past Honolulu in a bag with a couple of hundred others. The fault lies with the post office at San Francisco.

His Resignation. Gresham's letter is dated February 21 last, and in strong language stated that Thurston is no longer personally acceptable to the administration of Washington as Hawaiian minister. It is definitely settled that Thurston will not return to Washington. He has resigned the office, his resignation to take effect when his successor has been appointed.

Secretary Gresham's Letter. Secretary Gresham's letter to Minister Willis directing him to ask for the recall of Mr. Thurston opens with an expression of regret at being constrained to call the attention of Minister Willis and through him to the knowledge of the Hawaiian government "certain acts of its representative in the United States of which this government has a just ground to complain." The secretary then, as his letter shows, proceeds to recite occurrences at two interviews he had with Mr. Thurston at the state department on the 16th and 18th of February, and Mr. Gresham writes as follows:

Thurston Admits It. "The recent seizure of a ship at San Diego, Cal., for alleged violation of our neutrality laws in carrying arms to Hawaii was the occasion of his first call. After brief conversation on this subject I took occasion to remark that I had information that he was not pleased with your action in connection with recent events at Honolulu. Mr. Thurston desired to know what view was entertained here, whereupon I handed him a clipping from a New York paper of the 13th inst. After he had read this article, I asked him if he had furnished the matter to the paper for publication. He at once said he had furnished the paragraph."

This particular paragraph had reference substantially to a resolution among the more prominent loyalists in favor of the republic, while others felt that as long as there was a chance for help from the United States they felt bound to support restoration, etc. Several other paragraphs were given me having been referred to Mr. Thurston, one of which compared Mr. Willis unfavorably with Mr. Hawes, the British representative, and similar published statements, including a paragraph stating that an "analysis of the growth of the feeling and facts leading up to the insurrection showed that it is based almost wholly on the encouragement given to the royalists by President Cleveland and his announced and constantly reiterated opinion that the queen ought to be restored."

These, it is shown, were passed by the secretary upon Mr. Thurston as to his responsibility therefor, and which at length met from Mr. Thurston a denial of Mr. Gresham's right to interrogate him on the subject. But upon a request from the secretary to know from Mr. Thurston whether he had furnished the matter for publication, Mr. Thurston said he had not furnished it in his representative capacity or as expressing his personal views, but merely as information, and that in doing so it was not his purpose to injure the administration, the president or Mr. Willis.

Would Not Write an Apology. At the interview two days later Mr. Thurston acknowledged that he was guilty of official impropriety in furnishing the matter for publication previously alluded to, but declined to make a written apology therefor. Mr. Gresham's letter to Mr. Willis concludes with instructions to make the incident known to the minister of foreign affairs. "And you will add," writes the secretary, "that the president would be pleased were Mr. Thurston replaced by another minister from Hawaii in whom he may feel that confidence which is essential to frank and cordial intercourse."

American Dominants in Hawaii. WASHINGTON, May 10.—The Hawaiian legation has received the annual blue book of Hawaii and the reports of the various government branches. The population of the islands is 86,989, of which there are 2,000 Americans. While the American population is small its interests are great. There is \$18,500,000 of American capital invested in sugar corporations, out of a total of \$58,000,000. There is an investment of \$85,000,000 of American capital in various enterprises, in a total of \$96,000,000.

Four Men Drowned. PORTSMOUTH, O., May 13.—Saturday night four men, W. K. Elliott, Sam Weaver, and Richard and Henry Bainer, were crossing the Ohio river in a skiff, pulled by two young Portsmouth lads, and when nearly to the Kentucky side the boat was upset by the waves and the four were drowned. The two boys escaped.

Assigned. NELLEVILLE, Wis., May 14.—J. W. Olsel & Sons, manufacturers of staves and headings at Thorp and Boyd, Wis., made an assignment Monday to B. H. Tolford, of Boyd. Liabilities, \$50,000; assets, said to be \$40,000.

EX-GOV. CHASE DEAD.

Former Executive of Indiana Succumbs to Erysipelas.

INDIANAPOLIS, Ind., May 13.—The family of Ira J. Chase, ex-governor of Indiana, on Saturday received a telegram from Lubec, Me., announcing his death from erysipelas. Several months ago he went to that place to conduct a geological work and was attacked by the illness which caused his death.

He was born in Rockport, Monroe county N. Y., December 7, 1834, and was educated in the schools of Milan. He afterward removed with his parents to Cook county, Ill. In 1854 there he worked on his father's farm and taught school. He was in the Nineteenth Illinois regiment during the war, being a sergeant in a company.

IRA J. CHASE.

He studied for the ministry after the war and was a minister of the Christian church until he entered politics. He has served as department commander of the Grand Army of the Republic. In 1888 he was elected lieutenant governor with Gov. Hovey, and upon the death of the latter, succeeded him as governor. In 1892 he was renominated for governor by the republicans, but was defeated by Gov. Matthews in the upsurge of that year. Since retiring from the governor's office he has been engaged in evangelical work for the Christian church. His unfortunate association with the Zanti Druggist banking scheme in Indiana resulted in his indictment in the Green town bank failure. After the 1892 panic Mr. Chase was also to be an innocent victim imposed on by the promoters, and tardy justice was recently done him by the dismissal of the case at Frankfort, Ind., without ever bringing him to trial.

New Declaration of Principles Adopted at Milwaukee.

MILWAUKEE, May 13.—The supreme council of the American Protective association which held the last session of its seventh annual meeting Saturday night, has taken action to control the elections in all parts of the country, not only state and local, but national. On the recommendation of the committee on political action the council established what shall be known as an advisory board. It shall consist of the state president and one delegate elected from every state council in the union. It is instructed to investigate the character and the standing of every aspirant for a political office from the president down and to select those who are most favorable or who will endorse the principles of the order. The members of the order are expected to cast their votes in accordance with the wishes of the advisory board.

The declaration of principles for the International Protective association was adopted Saturday. It is as follows:

- 1. The voice of the people, intelligently and justly expressed, is the supreme law.
2. The perfection of all law is the recognition of the right of local self-government.
3. The right of freedom of conscience, of intellectual, free speech, free press and the prerogative of unrestricted private judgment is beyond all question.
4. In defining and enforcing the laws and in the definition of its jurisdiction and powers the state is supreme.
5. All institutions of an ecclesiastical character claiming temporal dominion or the right to define the extent of their own jurisdiction are inimical to all forms of constitutional government and are a menace to the perpetuity thereof.
6. The intellectual and moral advancement of the world is best expedited by a sound and fraternal union between all peoples and races whose civilization is the highest and whose liberty of conscience is the most perfect, and the welfare of mankind is best enhanced and preserved by the continuance of a lasting peace between all races and peoples opposed to the efforts of selfish and soulless international and universal, socialistic and financial corporations to disturb the harmony of universal brotherhood by the ruin of barbarous, debauching and enslaving war.

The Junior A. P. A. was organized, which will be under the jurisdiction of the supreme council of the United States, and will reach into Canada and England. Boys and girls aged from 14 to 18 will be eligible to membership.

Tragedy in St. Louis.

ST. LOUIS, May 14.—State Senator Peter R. Morrissey was shot and instantly killed at 1:45 o'clock Monday morning by Maud Lewis, his mistress, in her house of ill-fame at 3715 Wash street. The motive for the murder is supposed to be jealousy. The woman was drunk. When arrested she was hysterical and was removed to the city hospital.

Burned to Death.

TOLEDO, O., May 13.—The residence of Thaddeus Brown, a farmer residing half a mile from the village of Bryan, O., was destroyed by fire at an early hour Sunday morning. His wife perished in the flames and his 5-year-old son is fatally burned.

Whipped by Rebels.

TAMPA, Fla., May 13.—Advices from Cuba say that in a battle at Boryey between Gomez, the insurgent leader, and Salcedo, the Spanish commander, Gomez was victorious, killing and capturing more than 1,000 Spanish troops.

Steamers Collide.

BREVEY, May 14.—The British steamers Emerald and Martina collided Monday off Armour Lighthouse and the Martina sank. Eleven of her crew are missing.

JACK FROST AGAIN.

Many States Feel the Effects of His Spring Visit.

Incidental Damage Done to Fruits and Grain by Rain, Hail and Wind—New York Vineyards Suffer Heavily.

GRAND RAPIDS, Mich., May 14.—Reports from northern Michigan tell of 30 inches of snow at Manacelon, 7 to 10 inches at Traverse City and Petoskey and 6 inches at Cadillac. Here the snow began falling at 3 o'clock and melted as it fell.

Heavy Loss in Wisconsin.

OSHKOSH, Wis., May 14.—An inch of snow fell here early Monday morning and the thermometer stood at freezing. Great damage was done to early fruit, berries and gardens, while winter wheat and early corn also suffered to a considerable extent. It is probable a large acreage will have to be replanted.

Great Damage in Iowa.

DES MOINES, Ia., May 14.—Telegraphic reports from thirty towns in Iowa show that the frost Sunday did untimely damage to early vegetation and small fruit. Estimates made by State Observer Sage show that in several places among them Newton, Atlantic, Osceola, Marshalltown, Fort Dodge and other towns in the central and eastern part of the state, ice was formed in exposed vessels. In the northern and western part of the state the damage was not so severe because of higher temperature, but in many eastern places early vegetables, such as potatoes, cucumbers, beans, etc., which are far advanced this year were killed. Corn in the lowlands was cut down to the ground. Grapes, which are in blossom, were completely killed in many localities. Wheat was not materially injured but oats was damaged to a very great extent. Ohio fruit destroyed.

CLEVELAND, O., May 14.—A heavy and killing frost visited the northern and eastern portions of the state Sunday night. In some places ice was frozen a quarter of an inch in thickness. Fruit of all kinds was destroyed. Along the lake shore grape growers kept fires burning all night in their vineyards, but the damage done to the vines is very great, and the loss will amount to many thousands of dollars. Wheat which had commenced heading is badly injured. Garden truck is ruined and young corn frozen in the ground.

GRAPE CROP RAISED.

DUFFERIN, N. Y., May 14.—Frost has ruined the entire grape crop of the Chautauque grape belt. The loss is at least \$1,500,000. That figure is the value of last year's crop, and by reason of new acreage coming into bearing, the crop this year would have been much larger.

A WILD SCENE.

It Follows the Discharge of Fulton Gordon on Trial for Murder.

LOUISVILLE, Ky., May 13.—Judge Thompson, after listening to arguments for four hours in the Gordon murder case Thursday afternoon, decided that Fulton Gordon should not be held for trial, and at 3:10 o'clock discharged him. Judge Thompson, after the closing argument, said: "I have listened to the case carefully and have consulted the authorities. It is my deliberate judgment that this man is not guilty in law, but his action will teach children that when they ply their notorious calling they are standing upon a precipice from which they are in danger of being dashed at any moment. The prisoner is discharged."

Then followed a wild scene. People jumped upon chairs, the bar and even on the steps of the judges' bench and broke into cheers. Hundreds waved their hats in the air and the attorneys for the defense almost had their hands wrung off by the enthusiastic multitude. Judge Thompson was unable to restrain the commotion and court was declared adjourned.

IOWA PROHIBITIONISTS.

State Convention to Be Held in Des Moines June 19.

DES MOINES, Ia., May 14.—The prohibition state committee has issued the call for the state convention to be held in Des Moines June 19. There will be 400 delegates, and candidates for governor, lieutenant governor, supreme judge, superintendent of public instruction and railroad commissioner will be nominated. The scheme to fuse with the populists has been condemned by the party leaders, and the republican party will be called upon to resubmit the liquor question to the people at once.

Delaware's Senator.

WELMINGTON, Del., May 13.—Col. Henry A. Dupont (rep.) was declared elected United States senator yesterday on the fifth ballot in the legislature. The matter will probably be taken to the United States senate for a decision.

A Fierce Fire.

FRAIT CITY, Ala., May 14.—A fire here destroyed forty-one dwellings, the hotel, city hall and Northern Methodist church. Mrs. C. J. Bonner died from fright.

ENDED IN MURDER.

A Romantic Love Affair in Georgia Culminated in a Tragedy.

CONVICTS, Ga., May 14.—A tragedy occurred near Newborn, in this county, Sunday afternoon, that has woven into its startling plot, love, romance, vengeance, murder and marriage. In Morgan county, just over the line from Newton, there lives the family of the rich and well-known planter, J. T. Estes. He had a daughter and she a lover, named Green. The family of the young lady objected to the marriage of the young people and they determined to take matters in their own hands. Sunday afternoon, Will Green met Miss Estes by appointment and the two proceeded in a buggy to the residence of Rev. Mr. Harwell who was to perform the ceremony.

Just as the couple were getting from the buggy they saw Mr. Estes and his son coming rapidly towards them. Green quickly pulled a revolver and fired at Mr. Estes, the ball entering the heart killing him instantly. Green then fired two shots at young Estes, but without effect. Leaving her father dead in the road, and shot to death by her lover, and her brother bending over the inanimate form, Miss Estes went on with her lover to Broughtonville, where they were married. The sheriff of Newton county has received a telegram stating that a reward of \$250 has been offered for the capture of Green.

The first race was a quarter mile dash in which Holmes, Morse and Williams contested, Williams winning in 33 1/2 sec. Williams also won the half mile in 1:29 1/2. The ten mile was declared off on account of the lateness, but a five mile race was substituted which was won by Holmes although it was as near a dead heat as the contestants could make it.

The concert last Wednesday evening at the River school house, given by Miss Edith MacConnell, was very much of a success. The numbers were all well received, and the whistling of Miss MacConnell was enthusiastically endorsed. Miss MacConnell's abilities as a whistler have been recognized for some time, and she has given much pleasure to special and private parties by exercising her talent. She will give a concert at Alaska Saturday evening, May 25th, and should be greeted by a full house.

THE ADVANTAGES OF HAVING A TEACHER IN THE STUDY OF SHORTHAND.

Although a textbook prepared by the author of any system of shorthand may contain all the instruction that is necessary to impart a thorough knowledge of shorthand, much time can be saved in acquiring the system by the aid of a competent teacher. A recitation of the system is in the light of a guide post to a person traveling in a strange section of country. When he comes to a point where there are divergent roads and no guide-post is to be seen, he is obliged to guess as to which road to take, and he is liable to get lost. In the same manner, a student of shorthand, if he is left to himself, will be liable to get lost in the maze of symbols which he is to learn. A teacher, however, will guide him through the maze, and he will be able to proceed with confidence and ease. The advantages of having a teacher in the study of shorthand are many. He will be able to explain the symbols as they are used, and he will be able to correct the student's mistakes as they are made. He will be able to give the student the benefit of his own experience, and he will be able to give the student the benefit of his own knowledge. He will be able to give the student the benefit of his own experience, and he will be able to give the student the benefit of his own knowledge.

THE ADVANTAGES OF HAVING A TEACHER IN THE STUDY OF SHORTHAND.

Another point, a very important one, gained by having a teacher in the study of shorthand is that the student will be able to learn the system in a shorter time. The length of time required for the study of shorthand varies with the natural ability and the amount of hard work there is in a student. Sometimes a proficient in six months while there are those who would not in six years. The student who has a teacher will be able to learn the system in a shorter time.
