An odd circumstance happened once at Winchester. As Dr. Wilson was one Sunday morning going through the streets toward the cathedral he heard a woman cry: "Mackerel! All alive, all alive, O!" And on his arrival at the church he began the service as follows: "When the wicked man turneth away from his wickedness and doeth that which is lawful and right, he shall save his soul alive, alive, O!" These last words the doctor proclaimed aloud, in the true tone of the fishwoman, to the great surprise of the congregation. But the good doctor was so studious and absent that he knew not what he had done.—Household Words.

A TIMELY REMINDER.

Each season forces upon our consideration its own peculiar perils to health. The advent of fall finds many reduced in strength and vigor, poorly prepared to continue the business of life. The stomach and bowels, the great highway of animal economy, is especially liable to disorder in the fall. The nervous system has also suffered in the struggle, Typhoid fever and malaria in particular find in the fall that combination of earth air and water that mark this season as especially dangerous. The falling leaves, the decaying vegetables contribute their share of contamination. Hood's Sarsaparilla furnishes a most valuable safeguard at these important points, and should be used in the fall before serious sickness has laid you low.

The Journal will commence a new serial next week. Don't miss the opening chapters.

### DO FISHES TALK?

Here is testimony from a Man Who  
Thinks They Do.

We have heard of the language of  
monks, and of the language of crows,  
and of the language of crabs, and even  
of ants, but it will be a new idea to  
most people, probably that fishes have  
a language of their own. An English  
fisherman, Mr. Basil Field, has been  
making some investigations that lead  
him to suppose that fishes have some  
way of communicating a notion of their  
intentions to each other. He caught  
a rook. Rooks were rolled down the steep  
hill immediately north of the Cleve-  
land Lake shaft mine Friday night.  
They came dangerously near a sentry  
who looked after the parties, receiving  
no reply. Soon after that another huge  
rook came down the steep hill.  
The soldier fired into the water.  
The fisher's attention was attracted,  
and he saw that the fish was no fur-  
ther rock rolling. The fisherman and  
pumpmen are threatened with trouble  
if they do not come out.

#### EVERYWHERE WE GO

We find someone who has been cured by Hood's Sarsaparilla, and people on all hands are praising this great medicine for what it has done for them and their friends. Taken in time Hood's Sarsaparilla prevents serious illness by keeping the blood pure and all the organs in a healthy condition. It is the great blood purifier.

Fiction and travel are the strong points of the September Cosmopolitan, which, by the way, illustrates better than any previous number the perfection of its plan for printing a magazine of the highest class. Conan Doyle, H. H. Boyesen, and Clark Russell are among the story-tellers. A well known New York lawyer relates the story of a "A Famous Crime"—the murder of Doctor Parkman by Professor Webster. A delightful sketch of "An-English Country House Party" is from the pen of Nina Larrs Smith—the house at which the Abbotford, still occupied by the direct descendants of Sir Walter Scott. "The Realm of the Wonderful" is descriptive of the strange forms of life discovered by science in the ocean's depths, and is superbly illustrated in a surprising and marvelous way by the author, who is a member of the Smithsonian staff. An article on Cuba is timely. Without bothering the reader with unnecessary description of the famous yachts now so much talked of, The Cosmopolitan presents four full-page illustrations showing these noted boats. Thomas Moran again contributes a series of the most exquisite landscapes of western scenery, twelve in number, illustrating an article by Col. John A. Cockerill, on "Modern Utah." And it may be said that no more beautifully illustrated number of the Cosmopolitan has ever been given to the public.

One application of Dr. Thomas' Eucletic Oil takes away the pain of the most severe burn. It is an ideal family liniment.
