Dear Friends, While we enjoy the Fourth, let us recall the significance of what we are celebrating. We are apt to forget about the Declara-tion of Independence and think only of picnics and fireworks.

Let us be more helpful toward others who struggle for the liber-ty and freedom which we tend to take for granted.

The National Association of Manufacturers notes that Congress is again being asked to pass legislation to increase the minimum wage for all covered workers, except farmers, to \$2 per hour, effective July 1. The minimum for farm workers would be raised to \$1.70. Another bill would increase the general minimum wage to \$2.25 per hour, with the same rate for farmers. In the latter bill virtually all exemptions for overtime would be eliminated. Adoption of such legislation would increase farm costs, push up the whole wage-price structure, increase unemployment, particularly of the least skilled, and reduce our competitive position in world trade. Changes Made In Scout Structure

Ionia's Boy Scout District structure appears to be in for a change along with the remainder of the Grand Valley Council following a meeting last week of a special district realignment committee in Grand Rapids. Under a plan to revamp the entire 11-district council structure, Ionia's District and Thornapple District of Barry County including Hastings will become one. The new council will consist of eight rather than 11

districts including one for exploring. Ionia-Barry Dis-trict would become District Six. It would include all of Ionia County, excluding Portland area, but including Belding which is now attached to the Wabasis District plus much of Barry County including Hastings and as far south as Delton and the Lowell area. One field executive is to serve the revamped District.

The committee approved the basic reorganization. The plan is to be presented to the council's executive committee in July The change in districts would become effective January 1, 1973, hivolved in the revamping will be all 11 present council districts.

City of Lowell Council Proceedings

Regular meeting, June 5, 1972 in the council room of the city hall.

The meeting was called to order by Mayor Carlen E. Anderson at 8 p.m. and the roll was called: Present: Mayor Anderson, Councilmen Hall, Jefferies, McCambridge, Mueller.

Absent: None. IT WAS MOVED by Councilman McCambridge, supported by Hall, that the minutes of the May 15, 1972 meeting be approved as presented.

COUN. Mueller MOVED, Jefferies supported, approval of the bills payable and issuance of warrants. (Copy of bills payable attached) Yeas: Mueiler, McCambridge, Hall, Jefferies, Ander-

Nays: None. Consideration of vacation of Elm Street westerly to the end. Manager Bacon explained that the request for the vacation was from Wolverine Industries, who own property on all sides and request the vacation to develop a parking lot in connection with their manufacturng business. The area would be paved, would alleviate street parking in the area. The Planning Commission nded such vacation.

IT WAS MOVED by Councilman Mueller, supported McCambridge, that Elm Street be and hereby is vaated westerly from the west line of Smith Street Yeas: Mueller, Hall, McCambridge, Anderson, Jeffer-

Consideration of Workable Program for urban renewal and neighborhood development. J. Paul Jones, Plan-ning Consultant, was present. He called attention to the resolution he had prepared in the front of the Workable Program booklet, copies of which had been distributed to Planning Commissioners and Councilmen. He recommended adoption of the resolution, stated it would initiate action aimed at procuring federal funds. The Planning Commission is pushing for adoption; the resolution commits the Council to nothing.

COUN. JEFFERIES MOVED, Hall supported adoption of the Resolution WHEREAS the City of Lowell, Michigan has evidence

of blight and deterioration; and WHEREAS, the City has developed a Workable Program for Community Improvement and for eliminating blight and deterioration and the causes of such blight and deterioration; and

Nays: None. Request of Jackson Motor Company for refund of water repair expense. Manager Bacon explained that the city ordinance requires property owners to assume all repair costs of water repair, up to the water main proper. In this instance the water main is across the et-on north side of Main Street-and repairs were tailed under the street ahead of the hook-on to the main. The Manager explained that many cities assume expense of services under the street but in Lowell there are blocks of 'private' services, many services running across private lots to hook to a main. The City's cost of such a take-over would be vast.

Councilman Jefferies expressed the opinion that if the City paid for services from property lines to mains it would probably be expected to assume such cost across lots to reach mains. Councilman Hall also expressed the feeling that the City could not possibly assume such responsibility on all existing services and

Discussion of insurance needs. Manager Bacon relayed the policy of annually taking bids on Fleet Insurance, General Commercial Liability Insurance and Workmen's Compensation Insurance. He stated some fire insurance policies will expire in July, when the aforesaid policies expire. He recommended that a study be made of all fire insurance policies to learn whether our properties are over or under insured and to determine whether all properties should be insured in one package. He stated that theoretically all rates should be the same on Workmen's Compensation Insurance; however, some companies discount the premium. Last year the City benefitted by such a discount by nearly \$600.00. Bids have never been taken on fire insurance policies that expire July 1; all such policies are from local agents. He suggested procuring binders on such policies to allow extensions while a disinterested outsider prepares a study. Then

IT WAS FURTHER MOVED that binders be procured on policies expiring in July and that an outside party, who is not an agent or one who is not bidding on insurance needs, be engaged to make a study of existing fire insurance policies and submit recommendations on correct coverages and possible "packaging" of policies. Yeas: All.

Nays: None. Appointment of Auditing Firm for 1972-73. Marti Wins Third In State-wide Contest

Three eighth-grade students earned top honors for their entries in the fifth annual "America and Me" Essay Contest sponsored by Farm Bureau Insurance

Tim Kelleher of Holy Family in Grand Blanc, Bon-nie Bernard of Escanaba Junior High, and Marti Griffith of Forest Hills Junior High placed first, second, and

third, respectively, in the statewide competition. Tim won a fully expense-paid, four-day, three-night trip to Washington, D. C., with his parents and teacher, Michael Kelly.

An all expense-paid weekend in Chicago awaits Bonnie, the second-place essayist. Also, she has earned a idential desk flag for herself and Escanaba Junior ligh. Both awards will be presented by Gene Mercier, Farm Bureau Insurance Group's agent in Delta County. As third-place winner, Marti earned a trip to Mackinac Island and an executive desk flag. Forest Hills Junior High, where Marti attends school, will receive an executive flag. Dale Johnson, representative of the Farm Bureau Insurance Group Agency located at 6525 Alpine Street in Comstock Park, presented the third place awards.

Beginning as a Lansing Community project in 1968 the contest, encouraging young people to seriously consider their role in shaping America's future, was expanded to a statewide competition in 1969. This year, over 250 schools and 5,000 students participated in the contest, conducted through 52 Farm Bureau Insurance Group offices around the State. In March, the young essayists wrote on the theme "How Can I Help America." In April, first, second, and third place awards were presented to top entries from each school. Finally, the top essayist in each school was placed in

HOW CAN I HELP AMERICA?

My country is my life. Its condition is my condition. What I do for my country Is the key to helping is understanding. If understanding could reign in the world. -Wars would not begin.

-Prejudice would end. I can begin to understand myself. To seek peace and reverence in my own thoughts Before I attempt to understand my fellow man, My understanding of myself should be clear. I must respect nature, For it is our building block. When it fades away, we fade with it. Polluting kills not only nature,

But a part of oneself.

War is not the answer.

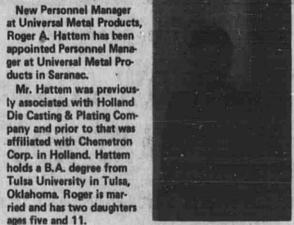

And if he trusts me.

I can do my part to stop pollution.

Holding onto second place by only ½ a point is George Miles and Hall.

Canoe Race

According to the co-chairmen, R. B. Somerville and George Herrity, "no racing paddles will be allowed," during the annual July 4th running of the Canoe Race

As part of Cascade's gigantic 4th activities, the canoe race will start at approximately 11 a.m. at the Cascade Bridge. The finish line will be the Camelback Bridge. A cup will go to the first place finisher and ribbons will be awarded to second and third places. Contestants

are required to furnish their own canoes. The event, sponsored by the Thornapple Association, is growing more popular each year . . . with the number of participants increasing, and the spectatorship more powerful, as they boost the canoers onward.

"We hope to see more ladies and girls participating this year," the co-chairmen added, "we welcome their participation."

"I had a blister on my hand after the first nine holes, but my first time ever to play golf was not only chal-lenging but an experience," reveals Ed Dykstra of Alto. Playing his first round ever, Father's Day at the 'deer run golf club,' Dykstra never lost a ball, on the

Dave Potter, course owner, presented Dykstra with his umbrella Monday on the ninth hole, while extending his congratulations. A good turnout of golfers toured the 'deer run' course in grand opening festivities over the weekend. All winning free golf balls.

Soap Box Derby

Grand Rapids is one of nearly 250 communities in the United States and several foreign countries staging important local races to determine representatives for the 35th Chevrolet All-American Soap Box Derby in Akron, Ohio August 26.

This year's Grand Rapids Derby, sponsored by the Grand Rapids Jaycees, is scheduled for June 24 on Ball Avenue, near Ball and Aberdeen N.E. The winner will compete for \$30,000 in college scholarships offered by Chevrolet at the All-American.

Open to youngsters, 11 through 15 years, who design, build and race their own gravity-propelled cars, the Soap Box Derby is the only competition of its kind. Some 1.5 million youngsters have participated in local eliminations since the program was inaugurated under the sponsorship of Chevrolet in 1934. Races have been held annually since, except for the war-suspended period of 1942 through 1945.

Originated for American youth, the Soap Box Der-by has gained in international interest through the years. Nine guest champs competed last August in the record field of 272 contestants. Included were two Canadian entries, plus representatives from Germany, the Philippines, Venezuela, the Canal Zone, Guam and Okinawa. In West Germany alone, approximately 10,-000 boys vie each year for the trip to Akron.

A Letter for the Editor and Dr. Yost:

I'm writing this letter for the part of the Senior Class of '72 that didn't even know what the motto of the class was to give it any thought! We found out what it was after a certain part of the class picked it out. But this wasn't the only time a certain group of kids made up the minds of the whole class. We didn't even have a choice.

I know this is not the motto of the whole class because some of us are Christians, and if you have God on your side why should you be afraid in a world he made

Tjust wanted everybody to know that the whole class didn't pick it out.

Thank you!!

I would like to take this time to publicly thank all the people who gave so generously to the YMCA Sponsor a Member, also the Lions Club for the boys they let play ball this year. This summer 35 Lowell kids will go to Camp O'Malley. In all, 100 kids from Lowell will participate in these three activities alone for them I gratefully Thank You.

I would also like to make it known at this time that people who are working at low income jobs or earn good wages but have large families are invited to look into the Food Stamp program at The Lowell Community Center on Tuesday. This is not a Welfare Program of such. It is not Social Service's Program but The Department of Agriculture . . . and working families do qualify . . . Many in this area working, earning \$2.50 per hour with a family of four should look into this to help stretch your food dollar.

Call BETTY at the center 897-9159, 9 to 11:30 a.m. Tuesday. Home calls can be made by calling Mr. Michael, 456-4272 for Shut in's.

Thank you.

Dear William G. Yost, Jr.,

In last week's edition you addressed a letter to the Class of 1972 and asked us to explain our class motto: We, strangers and afraid in a world we never made. This was adapted from the 1922 publications of "The Laws of God, the Laws of Man" by A. E. Housman. As a member of the Class of 1972 I feel obligated to accept your challenge.

I cannot understand why you find our motto provo-cative. In a very short condensed sentence it explains the feelings of a generation facing adulthood. It could hold true for any generation from the beginning of man.

Think back when you were about to enter the world on your own. You were a stranger to life's happenings with which you had to cope. The depression, unemployment and World War II were probably part of your youth. Weren't you afraid of what the future held? But

was your generation responsible for these happenings?

The Class of 1972 also has many situations facing us as a stranger in this world. Now is the time in our life to face realities that have always been irrelevant. We had no choice in coming into this world that offers us the Vietnam War, nations on the verge of nuclear warfare, poverty, starvation, pollution, unemployment, and an unstable economy. Naturally we are afraid. There is nothing wrong in fear. We feel everyone is fearful, at times, if truthful with himself. As the first generation of eighteen-year-old adults, apprehension is mixed with our desire to meet the challenge of adulthood.

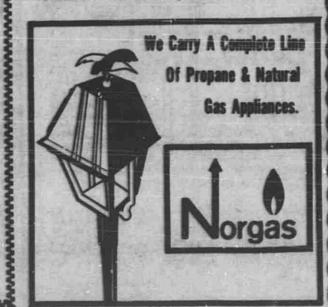

Sincerely, Richard L. Siegle "Class of 1972"

Garden Center Guests Visit Student's Gardens

Students at Collins School added a new dimension to their studies this year by preparing and planting their own garden plots at school this spring under the direction of Eugene Greer, a sixth grade teacher at the

The Chadwick Garden Center of the Grand Rapids Public Museum will visit the garden Tuesday, June 27 at 7 p.m. It is open to the public and guests are urged to attend without charge, to talk with and see what

these youngsters are doing.

One hundred twenty-five students were each given 100 square feet of land to develop after a couple of the parents had plowed the land for them. Each selected and planted the seeds of his choice, tended his garden and will continue to care for it during the summer and fall. The garden project was used to tie together much of their classroom studies such as math, written reports, and science.

Garden demonstrations in composting, a tour of the pardens and visits with the children will be some of the highlights of the evening. Greer will show color slides of the project at the school.
