Forest Hills To Give Clothing

All children in the Forest Hills School District will be given an opportunity to gather good used clothing for needy children in various parts of the United States such as the Kentucky Mountain area and other places where children are impoverished.

This clothing will be sent to the "Save the Children Federation", said to be the only non-sectarian agency collecting clothing on a nationwide basis.

Blankets, booties, cloth coats, cotton dresses, diapers, dungarees, hats, knit caps, pajamas, pants, overalls, overshoes, shoes, socks, sheets, sweaters, underwear, etc. are suggested. All items should be clean and in wearable condition.

Each building in the Forest Hills school system will be provided with sacks in which the clothing is to be collected and shipped. The final date for this program will be February 12.

Mr. Chambers, School Superintendent, in charge of this project for the schools, urges parents to cooperate with their children when the matter is mentioned in the home. By means of this humanitarian endeavor, children will learn how to be unselfish—a novel thing for modern living in America.

Faculty Team Defeats Wyoming Park

The Forest Hills faculty team scored a thrilling 53-51 victory over the Wyoming Park faculty Saturday night in the Forest Hills gym. The visitors jumped into an early 18-6 lead, but the locals kept pecking away at the lead until they trailed by only two points at half time.

The second half was nip and tuck throughout with the locals barely hanging on as Wyoming took the last shot at the basket with only three seconds remaining. A large crowd witnessed the struggle. Bob Dangl led the locals with 20 points.

Fear to Move Thornapple Hardware

The decision was made this week to tear down the Thornapple Hardware building owned by Mr. and Mrs. Ben Zoodsma to make room for the branch of the Old Kent Bank instead of moving it. Movers, after preparing the building for the short trip to a new foundation a few feet away on Thornapple River Drive, became fearful that the building would collapse. It was discovered that the floor joists were eaten away by termites and rot so there was no support for the wall. A new building is now under construction of masonry and red wood to house Thornapple Hardware and is expected to be ready in March. Living quarters will be added to the rear of the structure. There will be no delay in building the bank. The wrecking company was on the job Tuesday removing the old building.

Special Thornapple Valley Baseball League Meeting

Please don't forget the meeting of the Thornapple Valley Baseball League at the Forest Hills High School gymnasium on Thursday evening, January 21, at 7:30 p. m.

We have tried to contact all parents by letter, but we are sure some have been missed. We need the attendance of all parents; fathers, mothers, brothers and sisters.

We have been in operation for two years with a lot of success, but nothing like it should be. There have been a lot of complaints, but this is common, because people, when they are not doing anything to help can always find fault with others who are trying to do something.

The few people who have tried to operate the League have been very disappointed in the lack of cooperation of other adults. Now they are having to press the issue. Either you want a League for your boy, or you don't. This will depend on the turnout Thursday night. If we do not get help, we will be forced to drop the League entirely.

"Aboard The Heather" by Theresa Collins

After being at St. Petersburg for two months we were eager to be on our way again. We had made some friends we liked very much, and would be happy to see again. The last Sunday some friends picked up all of us and took us to their place at Clearwater for dinner and the afternoon. The place had a beautiful yard, with lovely blooming shrubs in front, around the sides, and a large informal garden in the rear, made very effective by a back drop of large trees festooned with Spanish moss. Glenn and Kevin finally realized a long time ambition, to "pick" oranges lemons and grapefruit from the

trees. Only they had already learned that they must be clipped, not picked. They also collected a sack of limes, and a papaya. All of which was presented to Heather. How nice people can be! The evening before we left the Cashdollars came to say goodbye. Also in the midst of getting ready Frank Svoboda came to call, and wanted to show us the beautiful new house trailer he had just bought. We were sorry not to have the time.

The Clarks joined Heather Wednesday morning. They had left Holland, Mich., at noon Sunday, arriving in St. Pete Tuesday afternoon, pretty tired. They first

School Magazine Drive March 17-30

At the P. T. A. Executive Board meeting last week it was brought to the attention of the board that many of the magazine subscriptions sold by the students of the High School were going to be renewable soon.

The Student Council will appreciate it if people will renew their subscriptions through the students when they have their big magazine drive March 17 through 30. If you do not want to wait until that time, you may send your renewal slip and money to the school and they will handle the subscription for you, as in that way the school will receive the credit.

If the person sends it in directly, the school will not get the credit. Also if you have a phone call telling you that your subscription is running out and that your school will receive credit, this is not so. The only way the school will get the credit is by the subscription going through the school.

If you're contemplating new subscriptions to magazines, save them for the drive in March. It would be greatly appreciated.

JULIE WOODALL TO SHOW COLORADO FILM

had a good rest, sorted out the things they wanted to take aboard, and made arrangements to leave the car.

The wind was against us, so we were in no hurry to leave. We left by eleven, motoring out across Tampa Bay toward the Gulf. In a few hours we were anchored in the lee of Anna Maria Island. Everyone went ashore, to swim, fish, sun, walk around. It was a lovely day, and we had a wonderful time, as one can when everything is perfect.

Thursday was another beautiful day, but the wind was still largely against us, so that we did more motoring than sailing. It was so very much like sailing along the shore of Lake Michigan, lovely clear deep water so we could sail along the shore, look at beaches, cottages, inlets. However we don't have playful porpoises there to amuse us. Nor do we try to figure out whether what we see way out there might be a whale or a shark. It most likely isn't but it's a possibility.

We found our channel markings, and went up the Inlet to the Venice Yacht Club. It was just a beautiful little clubhouse, with a dining room where Dr. Clark stood all of us to a very good dinner—sea food, of course. It was such a pretty place we would have enjoyed staying awhile. The members we met there were all so friendly and ready to be of assistance.

Friday was another beautiful day with a good wind. We sailed along, enjoying ourselves thoroughly. Every now and then someone would say, "It's hard to realize that this is January." In due time in the afternoon we found the channel markings for the entrance to Boca Grande. Again a good harbor, a good landing. We found supplies nearby, and enjoyed walking around, either daytime, or in the lovely balmy moonlit evening.

Saturday morning we were told we couldn't leave as the tide was too low. So Skipper said, "Is that so!" and went out in the dinghy. Shortly he came back and said "Let's go! Everybody up on the bow!" We bumped lightly and were over the bar and safely into deep water. We made a very good run into Fort Meyers Beach, where we are staying a few days.

Commercial Dept. Offers Greatest Opportunity for Jobs After School

Recently, the Office of Labor Statistics released the information that the number of Americans employed in the service and commercial fields exceeded the number employed in productive fields. With this change grew the tremendous need for competent secretarial and commercially trained young people. Business institutes and business departments in colleges and universities have experienced tremendous growth in attempting to fulfill the demand for trained personnel. Consequently, the emphasis on commercial training in high schools has been intensified. While commercial studies in high school are somewhat more vocationally oriented than other curriculum fields, they teach students certain concepts more aptly than any other.

In an arithmetic assignment, the student may work twenty problems in an hour. One or two mistakes still result in at least 90 percent accuracy. In an assignment in a commercial subject as bookkeeping, the one or two mistakes in computation result in the whole assignment being incorrect and out of balance. Thus, accuracy and the importance of detail work is clearly demonstrated. The particular technique of keeping records is not the most important thing being taught. What is stressed is accuracy and the identification of an account as "coming into or going out" of the business, or technically correct Accounts Receivable and Accounts Payable.

Knowledge of the fundamentals of accounting does not make a properly trained commercial applicant. The student must be proficient with the typewriter and the value of a clear, well organized typewritten paper. Also, the student must be proficient with a system of shorthand and office procedures. These we teach at our school. They are taught in the commercial departments of all high schools. Obviously, the teachers from the schools with the better equipment can train the students more effectively. Specifically, if you were hiring a potential secretary or office person, you would want a girl from a high school which had an adequate program and equipment. Our students need experiences with general office equipment if they are to compete for the better jobs in the commercial field.

The commercial curriculum offerings at Forest Hills are as follows:

- GRADE 8—One semester of personal typing.
- GRADE 10—One year of typing.
- GRADE 10—One year of bookkeeping.
- GRADE 11—One year of shorthand.
- GRADE 11—One year of advanced typing.
- GRADE 12—One year of advanced shorthand and all it involves.
- GRADE 12—One year of office practice (or office procedure).

In addition, commercial girls, if they wish, can work in one of the high school offices as assistants to the school secretary for a class period. Here they can gain some experience in practical office work.

To maintain our free society, we must have educated minds in all fields. College Prep courses find no opponents to their inclusion in the curriculum. Yet, our society depends equally on business and commercial trained personnel as it does on scientific trained personnel. Consequently, commercial courses in our schools are as essential.

Open House Jan. 26 at Orchard View School

The Forest Hills Board of Education will hold an Open House program in the new Orchard View Elementary school on Tuesday, January 26, at 8 p. m., according to John Adrianse, Board President.

The program will feature remarks by Board members, Architect James Haveman, Builder William Blouw and others. Patrons will be given ample opportunity to visit the entire building and to learn about its special characteristics.

The new building has 4 classrooms, a kitchen, heating plant, and storage facilities. The Kindergarten and First grade room have separate entry ways with wardrobes included. The classrooms measure 28 ft. x 28 ft. and feature colored chalk boards, tackboard and ample storage space as well as a work table with sink.

This building has been constructed so that future additions can be made easily. The heating plant will accommodate up to a total of 16 rooms.

Other features on the program will include an illustrated talk on a trip to Alaska by the building Principal, Mrs. Elizabeth Francis. The P. T. A. is cooperating in this evening's program and will serve refreshments.

This announcement supercedes an earlier one in which an earlier date was mentioned.

Gilluley-Strain Rites Performed

Thompson Chapel at Park Congregational church was the scene of the wedding of Miss Georgia Ann Strain, daughter of Mr. and Mrs. George Strain, 6650 Cascade Rd. S. E., to Donald Jackson Gilluley, son of Mr. and Mrs. Harold Gilluley, Lancaster, Ohio, at 4 p. m. on Friday, January 8.

Rev. Hubert Stem officiated at the ceremony.

The bride wore a street length white wool dress trimmed with white satin and carried a nosegay of white camillias, stephanotis and English ivy.

After the ceremony, a family dinner was held at the Pantlind Hotel.

The couple are on a Canadian honeymoon, after which they will reside in Birmingham, Michigan.

KEEP THE FIRE IN PLACE

A fire in the fireplace is a comfortable sight, but make sure it stays there. Use a screen across the front of the fireplace to check sparks. Those flying bits of flame usually snuff out as they travel through the air, but one might last long enough to ignite something in the room.

Applications Sent Out For Fluoride Program

Children of the ages 3, 7, 10 and 13 will have an opportunity to participate in the Forest Hills topical fluoride program this summer according to Dr. W. P. Prothro, of the City-County Health Department.

First survey letters have been sent or are about to be sent to all parents having children in the various schools. All parents interested in having their children receive a series of four applications of sodium fluoride to their teeth, should return the consent slips to their respective schools as soon as possible.

Any parents who have not received a survey letter and who are interested in participating in the program should contact Mrs. Mathew Verhil, OR 6-4071.

This fluoride program is among a total of 19 fluoride programs in Kent County. Students from the University of Michigan School of Dentistry and Dental Hygiene and the University of Detroit give the applications to the children. These students are trained and supervised by the Dental Division of the Michigan Department of Health.

The fee will be \$3 per child; \$5 for two children within the same family; and \$6 for three or more children in the family. The time and location of this program will be announced at a later date.

Them Booster Guys Need Scratch

These Boosters is a small group of guys what got together when a bunch of their offsprings got big enough to play big guy games. These here booster guys wanted these offsprings to have the good kind of game suits cause they could not run the chance these kids get hurt in these games—So they sign the tab for these game suits which not one of these old guys knew where the scratch was cummin from. But they got a few corney raffles, some dances with guys and dolls and some other nickel and dimes type gaffs, so they could pick up the tab on these game suits, not knowin' you got to have a place like a farm yard to play some of these games, and at nite yet, where ya need a flock of lites for these offsprings to run back and forth with an egg shape ball and guys with zebra shirts on hollerin and blowen wistels.

So one of these smart guys with one of his offsprings playin' on these farm fields says you Booster guys know how much these lites to lite this cow pasture costs? Well, none of these guys with or without offsprings wants to act dumm like so they all say, it must be quite a lot of scratch, and these smart guys says Ya! About 10,000 one dollar scratches, so wat you gys gonna do now ya got all these teacher guys running around getting these nite-type games, for these offsprings to run up and down under lites they don't even got, Huh!

Well i gess we gotta call on some good smart guys to give us the ole heave hoh, so all you good guys and dolls send in all the scratch you can talk out of each one and another and shoot it in to this bunch of dumb nut Booster guys, So you and us can go to these nite type games and have it lite enough so we can holler and yell

at these guys with the zebra shirts so they don't give our offsprings the bum call.

Make checks out to Forest Hills Booster Club and mail to Cliff Reed—4326 Kennelworth Dr. S. E., Grand Rapids 6, Michigan.

P. S.—No foolin hey us Boosters need this scratch.

Ada Oil Co. Men Earn Mystery Motorist Service Award

James Rooker and Roger Green of Ada Oil 66 Service Station, Ada, Michigan, received a \$50 award from Phillips Petroleum Company for giving perfect driveway service to a Phillips "Mystery Motorist." The award was made when the "Mystery Motorist" paid an unheralded visit to this Phillips 66 service station recently.

To win the award, they gave the "Mystery Motorist" the six steps of "Golden Approach" service, which included a friendly approach; checking under the hood of the car; cleaning all the car windows; whisk-brooming the floor mats; checking the tires; and thanking the customer for his purchases. At the conclusion of these services, the customer identified himself as a Phillips "Mystery Motorist" and left a \$50 certificate at the service station.

The program is part of a \$166,000 Service Jackpot which Phillips Petroleum Company has established to encourage its dealers and their driveway salesmen to give top driveway service to all customers. As further recognition of driveway performance efficiency, a Jackpot certificate was awarded Ada Oil 66 Service Station for display in the station window.

MILK WITH THE CHILL OFF

The child of one, two or three years of age may prefer to drink milk that's not icy cold. Home economists at Michigan State University suggest a child may drink more milk if it's served with the chill taken off.
