Letter To Editor

## Citizens Committee Feels That 6½ Mills Insufficient to Run Schools

May 2, 1962

The Editor
Suburban Life
Lowell, Michigan

Dear Sir:

I am in hopes you will publish this letter so that all Forest Hills School District residents will understand the action taken by a Citizen's Committee meeting at Martin School Tuesday night, May 1, 1962. By a vote of twenty-two in favor to sixteen opposed, this Committee voted in favor of a resolution which I made at that meeting. The resolution was as follows:

"Resolved that the interested citizens of the Forest Hills School District assembled here to consider the welfare of our school district, oppose the decision of our School Board to put on the June ballot another request for a 6½ mills levy to support our School District on the grounds that this millage is insufficient to properly run our schools according to the standards we believe are necessary for a proper education."

The background of support for this resolution and the lack of support of our School Board's decision can be easily explained. By the admission of spokesmen for the School Board, they have chosen the figure of 6½ mills on the basis of political expediency as the minimum amount our district can get by with and the maximum amount they **believe** our district residents will vote for. This, of course, was the same basis for their decision when they originally proposed a levy of 6½ mills and it was defeated at the polls. This policy of compromising "for peace in our time" rather than making a decision based on a desired standard of education for our children has resulted in the present bankrupt state of our Forest Hills District now in its very important formative stage. It is bankrupt because:

1. The taxpayers of our School District have refused repeatedly to vote in requested millage as supported by this Board of Education.

2. They have now lost the support of our High School and Junior High School teachers, the single most important element in our school system. (All of these teachers have refused to sign their contracts for 1963. Furthermore, many are leaving regardless of what action is now going to be taken by the district.)

3. When the academic freedom of our school system was challenged on the "Brave New World" issue, our citizens became further confused and divided.

The basis, therefore, of the resolution offered at this citizen's meeting by myself was the fundamental objection to our School Board for basing decisions which should be decided on the merits of the educational standards we want for our children, on the basis of political expediency. The fear of having no schools should not be more threatening than having a school system with standards of pay for teachers and sport and cultural opportunities inferior to surrounding districts such as Grand Rapids or East Grand Rapids. Our children will have to compete with the graduates of these school districts, and if we as parents are not willing to give them equal educational opportunities because we are afraid to invest an additional $35.00 per year ($.67 per week) in their future, we have undermined their confidence. It is pointed out that money is not the entire answer, however, it is still one of our best yardsticks for measuring the support given a business or an institution by its community. A policy of inadequacy is worse than a policy of discontinuation because the slow erosion of our property values and the handicaps of our children become apparent long after it is possible to correct the situation.

Speaking positively, I believe that if our School Board gives our citizens a chance to vote money to support a standard no less than the one enjoyed by Grand Rapids City residents and no more than the one enjoyed by East Grand Rapids measurements, our citizens will back them up in their stand. We trust implicitly the honesty and conservatism of their administration in regard to watching our funds. We abhor their willingness to give us a second-rate school system because of their fear that we will not support a first-rate one. It may be politically expedient to ask for political support because they are saving us tax dollars, but is it honest when these savings are based on not supporting our children and their teachers?

## The Superintendent's Corner

Dr. John Furbay of Transworld Airlines told 1400 citizens of Michigan recently that he had visited foreign countries in which there had been as much change in one generation as their ancestors had known in 5000 years.

You and I have seen vast changes in every aspect of life. Education must change with it. Teachers must be prepared for the new demands which these changes make. Buildings, equipment, and supplies for education have to be numerous and always different.

We could ignore these changes but in doing so our society would die on the vine.

# *Pauline Merriman, John R. Van Elst Repeat Vows*

Miss Pauline Jean Merriman and John Roger VanElst repeated their wedding vows in a Friday evening ceremony in Newhall Reformed church. Rev. Ray DeVries officiated.

The bride's parents are Mr. and Mrs. Marinus Merriman of Wyoming City. Mr. VanElst is the son of Mr. and Mrs. George VanElst, Lake Dr.

The bride chose a floor-length gown of embroidered nylon, styled with a fitted bodice, short sleeves and scoop neckline. Her veil was held by a sequin and pearl crown. She carried a white Bible topped with an orchid, lilies of the valley and pink sweetheart roses.

The maid of honor was Miss Gloria Rynbrandt and the bridesmaids were Miss Helen Wing and Miss Mary Ellen Bos. They wore ballinera-length gowns of pink frosted nylon. Matching headpieces held their brief veils and they carried cascade bouquets of pink and white carnations and white hyacinths.

Karen Postema and Jimmy VanBeek were flower girl and ringbearer.

Assisting his brother as best man was Gordon VanElst. Ushers were Melvin Merriman and Robert VanElst, brothers of the couple.

At a reception held in the church parlors, Mr. and Mrs. Clarence Ritsema of Hastings presided as master and mistress of ceremonies.

The couple will reside at 1950 Fruitwood Dr. Jenison, following a Southern wedding trip.

Have you noticed the modern girl's hair is cut so it looks like a mop? Maybe that's because she doesn't know what a mop looks like.

# Congratulates Mr. Stiff for Analysis

May 4, 1962

Editor
Suburban Life
Lowell, Michigan
Dear Sir:

Congratulations to Mr. Stiff for his financial analysis of the Forest Hills school system. However, in true American tradition and conscience I must agree, disagree and implement his statements.

Squeezing out the fat as listed in Suburban Life two weeks ago certainly is always in order. However, some of the items sounded more like a school administrator's "I'll show you" attitude rather than cool logic.

Whether instructional cost is 67 percent, 73 percent or 80 percent other than we should be getting our money's worth in instruction (my son is). As a business man, Mr. Stiff must be familiar with the old law of "supply and demand" plus the added cost of professional competence—the suggestion being that the teacher-labor market be checked before inferences are made that competent instruction can be had for peanuts.

Thank goodness we can now agree again, Mr. Stiff. The tax base will now have to proceed at a normal growth because of reasons enumerated by you last week; unless the people and elected representatives of this area suddenly get off their "cake and eat it too" attitude and be a little more compatible in a large segment of this school district towards business and industry.

One has to look no farther than Godwin for a case in point of a tax base buoyed up by business. With present understandings of aesthetic designs of such establishments we need not have the blighted areas associated with such buildings as in years past.

One question, Mr. Editor, before closing. What portion in dollars and percent of the 60-61 and 61-62 local school tax income came from millages presently terminated because of time levying nature?

Very truly yours,
O. S. Myers

Mother's Day
Sunday is Mother's Day. It's not really. Sunday is the Lord's Day. Yet it is good for us to take time once in a while to think of how much we owe to our mothers. After giving thought, we surely ought to show our appreciation in word and deed. But if such appreciation is to be really effective, it must be a year round expression.
Mother's Day is also a good time for mothers to do a little thinking about what their task really is. They are not housewives; that sounds too much like a maid. They are homemakers. They make a house into a home. A place of love, of security, of fellowship, of joy. What an important and wonderful and difficult task. And don't forget, mothers, to prepare your children for their heavenly home as by word and example you show them Jesus, the only Savior.
