## Letter to Editor Recalls Cascade Murder That Led To Township Prohibition At Turn of Century

Cascade, Michigan  
September 30, 1962

### Indian Tribes Meet In Ada

Drums, signal fires, a Council Fire and Dance were echoes of the past heard in a valley near the Hopkins farm on Conservation Road, Ada, Saturday, September 29.

It was a scene of the third annual Council meeting celebration with Potawatomi, Seneca, Blackfoot, Ottawa, Kiowa, and Chippewa attending from many communities in Western Michigan. Two hundred members of the Grand Valley Indian Lodge held a full fledged Council Dance after tribal leaders walked from four signal fires to the traditional Council Fire with the beat of Indian TomToms and songs as their accompaniment.

Pawnees from Illinois and Winnebagoes from Wisconsin were special guests at this revived traditional celebration.

## Doyle Continues Investigation Of State Institutions

Charles R. Doyle, Democratic candidate for State Representative from the 2nd District of Kent County toured the Medium Training Unit, the Michigan Reformatory and the Ionia State Hospital with a group of Democratic Candidates for the State Legislature. Doyle charged that the taxpayers have been deceived in Michigan. He stated "We have some wonderful institutions in Michigan, but they are not allowed to make full use of the facilities because the Republican controlled legislature refuses to appropriate the money or staff to adequately operate them."

"When a patient or inmate steals a car or hurts someone it can almost always be directly attributed to a shortage of help."

"There are nine towers around the fence enclosing the Medium Training Unit in Ionia. Only two of these are manned. Seeing this, an inmate has a great temptation to go over the fence and run for home. Another crime is added to his record and he is sentenced additional time, all of which costs the taxpayers."

"The object of the two correctional institutions is to train the young people who get in trouble so that when their short sentences are up they can get a job, become constructive citizens and thus greatly reduce chances of their committing another crime," said Doyle.

"I think the medium Training Unit and the Reformatory at Ionia do a very good job of it. It is apparent that the employees are doing the best they can, but with a shortage of help to maintain discipline and a shortage of instructors, surely it is not an easy job, nor as successful as it might be."

"What Republicans have done to mental health is sinful, if not criminal, simply because they refuse to enact legislation to make the most of mental health facilities."

"When the waiting lists of those needing help is so long it is both expensive and inhuman to not help people get well as quickly as possible and help others stay well. There are many patients here at the Ionia State Hospital who would not have to be kept here if the legislature would act. This is very costly."

"The Democratic program is one which will meet their responsibilities toward our fellowman and yet, in the long run, will cost the taxpayers the least amount of money."

"I urge every citizen to register before October 8 and solicit their vote for election to the legislature."

A large number of Egypt Valley School parents were present Wednesday evening to welcome our two new teachers, Mrs. Donald Denison, 4th, 5th, and 6th grades, and Mrs. Vanderwal, grades 1, 2, and 3. Also much credit was given to Miss Glaser, our new Art Teacher, and the students for the decorative hand-craft displayed around the rooms.

Mr. and Mrs. Verne Berry were elected as president; Mr. and Mrs. Richard Thomet were re-elected for a 2nd term as vice-president; Beverly DeGood is the club secretary and Donna Havenga will serve a second term as treasurer. Dr. Robert Vanderploeg will again be our Citizen's Advisory Committee representative.

For the third consecutive year Margaret Dewey was chosen to head the hot lunch program, this year assisted by Gladys Koert and the other mothers of the school district. Mrs. Dewey's lunch program is greatly appreciated by the children.

Bill Havenga, Lewis Dewey, and Homer Provonche were thanked for the work their committee did in assembling and erecting a new flag pole on our school grounds. The purchase of the flag pole, new flag, and also a large quantity of library books were just a few of the many projects undertaken last year by the club. We also thank Jerry Platz for the beautiful fish he gave our school for the aquarium.

"But the real achievements of the contest," he said, "cannot be measured in dollars or man-hours—they must be thought of in terms of healthier, more beautiful, cleaner communities. The Contest amounts to a practical education in good citizenship."

The record high 5,425 Granges entered in the Contest this year represent an increase of more than 4,000 Granges over the 1,359 Granges which entered the Contest during its first year, 1948, he noted.

Community projects undertaken by Granges entered in the Contest include such things as the building of community centers, development of park and recreation facilities, construction of rural roads and signs, and support for a wide variety of youth and charitable activities.

## Obeys Safety Fire Rules

Every year fire takes a toll of 11,500 lives. Fires are caused by failures—failures of parents to teach their children not to play with matches, failure to install proper and adequate electrical and heating equipment, and failure to adhere to proper safety rules in burning rubbish, using and storing combustible materials and smoking.

Each one of us is responsible for helping diminish this appalling figure in the number of lives lost by practicing fire safety rules and carefully planning your family's escape in the event your home should burn.

Now, in the autumn, is when there are more frequent fires because of leaf burning. Let us not fail in obeying fire safety rules.

**NROTC Aptitude Test To Be Given**

VADM W. R. Smedberg, III Chief of Naval Personnel, announced today that the 17th annual national competitive examination for the Regular Naval Reserve Officers Training Corps will be given to eligible high school seniors and graduates on December 8. Application forms are now available and must be mailed by November 16.  
Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a regular commission while studying at the civilian college of his choice which has an NROTC Unit. All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of \$600 for not more than four years. During the summers the student goes on interesting training cruises as a Midshipman. After successfully completing the usual four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a prospective career officer with the Navy's modern fleets. Immediate challenging assignments to flight training or submarine training will offer varied career potential to those who apply and qualify.  
High school seniors and graduates who have reached the 17th anniversary of birth and have not reached the 21st anniversary of birth on 30 June 1963 may apply for the NROTC aptitude test. Those who make a qualifying score will be given a rigid medical exam early in 1963. From the number of qualified young men remaining in competition, more than 2000 will be selected to begin their naval careers in college next September.  
Application forms are available at high schools, Navy Recruiting Stations, or from the Chief of Naval Personnel, Department of the Navy, Washington 25, D.C.

**Credit Cards**

It is getting easier and easier to live beyond your means nowadays. Not only are big and essential things bought on time, but charge accounts are used for almost everything. Credit cards have added to the temptation to live beyond our means. The vacation in August that didn't cost much, suddenly cost a lot, when the bills begin coming in, in September or October. How many make the mistake of living for the pleasure of the moment, forgetting that someday they must pay for it. Eat, drink and be merry, for tomorrow we die. But what then? Anyone living without Christ, is living beyond his means. Someday the bill will come: Rejected by Christ. How thankful we are that the Christian's charge account for sin has been paid in full by Jesus Christ, Trust in Him, today.

### Rangers Travel To Wyoming Park Friday; Downed By Kelloggsville Rockets 33-14

The Forest Hills Rangers, smarting from a 33-14 reversal at the hands of Kelloggsville, will resume O-K league competition Friday night at Wyoming Park.

The Vikings have won two consecutive games since losing their opener 20-19 to Allegan. The Vikings latest conquest was over Byron Center, 18-0.

Coach Edward Shy, disappointed with his teams showing against Kelloggsville, said his team will go back to live contact practices this week in preparing for Wyoming Park. Shy said because we have a thin squad in numbers, we have been working mostly on dummies to protect ourselves against injuries, but as a consequence our boys have lost the tenacity characteristic of Ranger teams in the past.

Shy is also working some line-up changes in an attempt to get more speed in his offensive line. Allan Lutkus is being moved from guard to tackle, and Teddy Ray

will be inserted in a guard spot. Jim Jackson will be inserted at offensive end and on a full time basis.

Shy was very disturbed with the tackling in the Kelloggsville game. He termed it "the worst in the history of Forest Hills Hi School."

**Loss to Kelloggsville**  
The Forest Hills Rangers lost their first football game of the 1962 season Friday night when a sizzling Kelloggsville Rocket team won 33-14 on the local gridiron.

The Rockets started fast by scoring two touchdowns in the first period to jump into a 14-0 lead. The Rangers made a good comeback in the second quarter by holding the Rockets scoreless while they scored 8 points on a safety and a touchdown pass from Wilcox to Stiles.

The score at halftime was 13-8 in favor of Kelloggsville. The Rockets were not to be denied however, as they completely outplayed a faltering Ranger team. The Rockets ran at will and scored 3 touchdowns while the Rangers could have only one on a pass from Spencer Wilcox to Doug Beckett.

Forest Hills 0 8 0 6 — 14  
Kelloggsville 14 0 6 13 — 33

**Reserves Tie**  
The Ranger Reserves outplayed the Rocket reserves in every department of play last Thursday night, but had to be content with a 7-7 tie when several scoring opportunities were stymied by penalties deep in Kelloggsville territory.

A touchdown pass play late in the fourth period was called back because of a backfield in motion penalty.

**Reserves Meet Wyoming**  
The Ranger Reserve team, sporting a one win, one tie, and one loss record will meet the Wyoming Vikings Reserves on the local gridiron Thursday night at 7 p. m.

A witchweed hunt is on in the Carolinas. The parasite, discovered in 1956, attacks corn, sugar cane, sorghum, grasses, sedges and some broadleaved plants, advised the U.S. Department of Agriculture. Herbicides are being sprayed on 450,000 acres in North and South Carolina under the state-supported USDA program.

### Teachers Put On Pep Assembly

The teachers of Forest Hills Junior and Senior High school put on the pep assembly Friday afternoon, September 28.

Mr. Wardrop and his K-ville Rickets were the stars. The Rickets were the faculty played by Mr. Crouse, Mr. Norman, Mr. Syrba, Mrs. Ullery, Mr. Fletcher, Mr. Hendrickson, Mr. VandeWeil, Mr. Mohr, Mr. Miller, Mr. Bacom, Mr. Blanchard, and Mr. Klawiter.

After introductions, the players ran a few "plays". It was apparent that they didn't "know much" about the game. Also, the "cheerleaders" did a few cheers. They were Mr. Northuis, Bob Dangel, Mr. Elenbaas, Mr. VanOveren, Mrs. Baldwin, Miss McEvory, Miss Oberlee, and Miss Carroll.

Along with all the laughter, there was a moment of seriousness when Mr. Wardrop explained that the teachers put on the assembly to show that they were behind the team all the way.

Clarence Stiles and Spencer Wilcox, team co-captains made short speeches.

After the school song, the students were dismissed.

### Skiing Down The Crusty Slopes

Last Monday after school, the FHHS Ski Club held an unofficial meeting to inform students about the club. President Sallye Werner, did the speaking aided by Mr. Lyons, the Club sponsor.

The object of the club is to interest students in skiing, promote competition among skiers, and develop a letter winning sport. Paul Williams, a former Olympic skier, is the instructor again this year.

Out of the ski club, a team consisting of five girls and five boys will be chosen for official competition based on skill. Last year between meets with Grand Rapids teams and a weekend trip to Caberfae, which was the high light of the year, the team brought home several medals.

The club has about 25 pairs of skies that it rents out to its members. Seidmans Hill, off Buttrick, is used as the practice area. Dues are 50 cents a year, payable by the third meeting. Meetings are held every 2nd Tuesday 'till the end of school.

The officers are: President Sallye Werner chosen from 11th and 12th grades, Vice-President Bill Zoellmer, Secretary Nancy Zoellmer, Kathy Werner and two combination Historian and Parliamentarian Candy Littlefair and Bill Kamp.

Officers are elected from students of good standing every spring. The Junior High also participates by electing two representatives to the board. Two thirds of the meetings must be attended by every member to retain membership.

The next meeting will include planning the acquisition of money, making campaigns and nominating the design of a ski patch for members.

### Food Tips For School Children

From the desk of Marie Fecht, local Health Department nutritionist, comes the following food tips to the parents of growing school children.

Normal growth and development of the whole child are dependent on many factors, such as inherited physical characteristics, home and family conditions, rest and sleep, activity, wholesome food, and freedom from disease and infection.

Each child follows an individual growth pattern and it becomes the responsibility of parents or others who serve as parents to provide an atmosphere conducive to growth and the ingredients necessary for growth plus loving care and sympathetic supervision.

The importance of wholesome food as a basic ingredient for normal growth has been recognized for many years. Every effort should be made to establish taste for all good food. In general, meals should be simple, carefully prepared, and attractively served. Parents will find that if they eat a variety of foods daily, the children are less likely to develop poor food habits. Start their school year right.

### Thornapple Parents Club Discuss "What's This Non-graded School?"

At the Thornapple Parents Club meeting, Tuesday, September 25, Ted Buehler, teacher of 5th and 6th grades, and principal of the school, explained the whys and hows of "What's this non-graded school?"

A non-graded school operates on the theory that in every classroom there is a wide range of ability—some excel in nearly all subjects, others are good readers, others may excel in mathematics—some are curious—which makes us realize that there is also a wide range in each individual child.

As an example, the school is attempting to bridge the gap for the child who reads at a sixth grade level but understands his arithmetic at the third grade level. The child in a non-graded school is

not pushed into materials beyond his ability but is allowed to learn according to his own particular growth in ability, much as he grows physically—not just as "the book says". This does not mean he is not presented challenge, it means he is presented challenges at the time he is ready to accept them.

We have heard a lot about non-graded schools and perhaps read articles in papers and magazines, but the more we learn about them the more sense they make to us in trying to "fit" our child into learning, not learning into the child. This might be compared to sizes of clothing—some eight-year-old might wear a size 12 article of clothing, but we do not try to fit him to size 8 simply because he is 8 years old.

In other words, his mental growth varies just as his physical growth does. Just because a child has been in school six years does not mean that he has learned everything he should have learned in all subjects.

The Thornapple School is a non-graded school, not an experiment in teaching, rather a proven process of learning for each individual time his ability has grown to accept more.

### It's FUN to buy from Forslund's

All of us who are whittlers marvel at the skill of the old-time master carver as he fashions our game birds from a solid maple block. Three of the birds, the Jacksnipe, the Bob White and the wily Woodcock, are all life-size while the Partridge is about 3/4 size (they look so much different not flying thru the brush). No two are exactly alike as there are slight differences both in carving and in the careful hand-painting. Each bird is patiently painted by hand, not feather by feather to look stuffed, but from memory in the same folksy, whimsical way as the primitive paintings of Grandma Moses. Be sure to stop in and see our hand carved birds on display. You can park right in back of the store.
