## Governor Romney Reports

### Problems and Promises Face Graduates

Within the next few weeks, some \$5,000 Michigan young people will be joining the solemn processions that lead from their high school auditoriums to the broader stage of life.

I would like to be a witness to all of these ceremonies, to listen to the speakers, to hear once more the strains of the "Pomp and Circumstance March," to share in the high excitement of one of life's most important events.

Because I couldn't possibly attend all of the graduations that are taking place in our state this month, I would like to use this occasion to extend congratulations and best wishes for success to all of the Michigan young people who are receiving diplomas this June.

If I could be a speaker at all of those high school graduations, I know I would be expected to say something about the kind of world the graduates are entering, because that theme is practically mandatory for a commencement speaker.

You are destined to live in the greatest age in history, as citizens of the greatest nation the world has ever seen. Nevertheless, the future is full of both problems and promise.

But all periods of history have been full of promise and problems.

The problems and promises that faced high school students in past years need no exhaustive review here. The graduate of June, 1943 faced the problem of military service and the promise of a better life in the postwar era. The June, 1933 graduate faced the terrible problem of finding a job in the nation's worst depression, but he

### Candidate for Ministry

This past week Gerrit Scheeres of 6740 Cascade Road S. E. was declared a candidate for the ministry in the Christian Reformed Church.

### Receives Ph.D. Degree

C. Kendrick Powell, who is the brother of Mrs. Dean R. Kessler of Burger Drive (Cascade), received his Ph.D. in mechanical engineering at Purdue University on Sunday, June 2, Mrs. Kessler; her mother, Mrs. Charles Powell; and Mrs. Kessler's niece, Geraldine Powell attended the graduation exercises.

### Building Permits

The following building permits were issued during the past two months:

April, Robert Wilcox, Merlin Hulbert, Carl Dykstra, and A. R. Anible.

May, Martin VanderVeen, Claus Pahl, Lloyd Heneveld, Charles Ederle, Ossie Kersting, Gerald Hatherly, Sybrant Dykhouse, and Fay Johnson.

## Social Scene

No graduation observations would be complete without advice. For 1963 graduates, mine is to continue your education with all of the energy at your disposal, in college, in trade schools, on the job, in night school or in correspondence courses.

Learn as much as you can about your country, because you can't know yourself and your potentialities without knowing your country.

My favorite success formula is going to apply just as well to tomorrow's world as it has to today's and yesterday's.

Search diligently, pray always and be believing and remember that 90 percent of the time, luck is when preparation meets opportunity.

England honors poet Henry Wadsworth Longfellow by placing a bust of him in Westminster Abbey—an honor given to no other American... There's a pound of salt in every five pounds of water in Utah's Great Salt Lake...

## School Survey Completed

"The time has now come to identify and weigh carefully the needs of the entire school system and to assign priorities to them."

Dr. Raymond Kehoe and Donald Fox, representing the Bureau of School Services of the University of Michigan, which was asked to make a survey of the Forest Hills School area and present recommendations, have delivered their final report to the Board of Education. The information they compiled and the suggestions they have made are being studied by the Board and the administration. No final decision on future plans for the district have been made, as it is felt that the material should also be studied

by the new Forest Hills Superintendent.

Dr. Kehoe and Mr. Fox began with a thorough study of the Forest Hills area. They consulted research people and compiled data from census reports, new home construction, zoning regulations and other sources. They made the following observations:

Fact: Current (1962-63) total for school enrollment: 2627; 1967-68: 2752.

Projection: based on an estimate of 100 new homes in the Forest Hills area annually: 1962-63, 2627; 1967-68: 3345; 1972-73: 3920.

They observed that the Forest Hills district is fairly stable at present as a geographical unit, but it will continue to show population growth in certain areas.

General recommendations were made in the following areas:

Curriculum  
Administrative structure  
School sites  
School buildings  
Maintenance  
Class size and staff utilization  
Instructional equipment  
Transportation  
Administrative services

In the area of physical plant, general recommendations were made, incorporating a few minimum standards to provide a comprehensive educational program most economically (in operation and maintenance):

Larger elementary schools: 20 classrooms (plus "special rooms classrooms" (plus "special rooms") provide the best education and are most economical.

Capacity: 550-700 students  
Junior High: Built to accommodate 750-900 students and provide guidance space.

Senior High: Built to accommodate 900-1500 students (our high school has a capacity of 1200).

Specific recommendations were provided both in the short run and in the long run as guides for future school planning. Some of them were as follows:

Site: Immediate needs:  
Site expansion, elementary schools: 10-12 acres for each school.

Site for Junior High: 30-40 acres.  
Short range needs:  
Future site acquisition in the heavy residential areas—elementary.

Long range needs:  
More site acquisition.  
Elementary School building needs:

1. Some expansion at some current sites.

2. Much improvement to existing buildings.

3. Abandonment of some elementary buildings—after first need is accomplished.

4. More expansion—for growth.

Secondary School needs:  
Junior High

Added facilities at the Senior high (i.e. more comprehensive industrial arts program, language laboratories, music rooms) and modification of present facilities.

## Application Blanks Due For Girl Scout Camp

All Girl Scouts are reminded to be sure that their Summer Day Camp application blank and camp fee of \$2.50 are turned in to their Troop Leader no later than June 7, 1963.

Mrs. J. Raymond Jarvi, Director for the Girl Scout Day Camp, has announced that the 1963 Scout Camp will be open August 19-23, from 9:30 to 3 p. m. The camp will be at St. John's Church Camp Grounds, located between Ada and Cascade off Thornapple River Road on Bridgewater Avenue. Each Troop will furnish transportation to and from camp by car pools.

A report on the progress of day camp plans will be made at the next Neighborhood Meeting for Troop Leaders at 7:30, June 10 at the Ada Congregational Church on Bronson Street in Ada. All leaders are asked to attend this meeting and bring with them the Day Camp blanks and camp fees from their Troop.

A Council Financial Report will be given each leader at this time. This report must be filed with the Council Office in Grand Rapids by each Troop.

## Michigan Fires Claim 209 Lives

Michigan's 76,394 fires in 1962 claimed 209 lives and did an estimated \$56,561,456 in property damage, according to the annual report of the fire marshal division of the State Police.

Compared with 1961, there was an increase of 11,203, or 17 per cent, in fires and \$11,012,019, or 24 per cent, in damage but a reduction of 26, or 11 per cent, in lives lost.

The number of fires was the greatest in the years of record-keeping since 1941 and the loss was the highest since 1953 when it totaled \$78,126,591. The per capita loss was \$7.25 compared with \$5.82 in 1961.

The loss of life was the lowest since 198 in 1958. The deaths included 149 adults and 60 minors but no firemen.

For all fires the loss on buildings was \$36,348,154 and on contents \$18,485,900, increases of \$9,486,398 and \$2,042,816 respectively compared with 1961. Incendiary fires numbered 1,681 with 968 caused by minors and 713 by adults.

Carelessness again caused the greatest number of fires, 20,916, or more than a fourth of the year's total. Careless smoking and clothing catching fire were again listed as leading causes of fire fatalities while playing with matches and fire is still the major cause of child fire deaths.

The breakdown of fires follows: Grass 22,585; dwellings 20,225; automobile 11,686; house trailers 518; school 308; bulk storage plant 131; dry cleaning plant 103; theater 62; aircraft 41; all other fires 20,735. There were 6,206 false alarms.

## Dolores Bashara, Donald Cheyne, Exchange Vows

Mr. and Mrs. Donald Cheyne of 3180 Thorncrest Drive S. E. have just recently returned from their honeymoon, which was spent at Charlevoix and Traverse City.

Mrs. Cheyne was formerly Dolores Bashara of 654 Broadway N. W. She became the bride of Donald Cheyne on May 24 at 8 p. m. in the Cascade Christian Church, with Rev. Raymond Gaylord performing the marriage service.

The bride chose for her wedding a ballerina-length white-lace gown with three-quarter length sleeves. The neckline, hem and sleeves were scalloped. Her short veil was held in place with a crystal tiara, and she wore pearl and crystal beads. She carried a corsage made of a white orchid and lilies of the valley on a white Bible.

Maid of honor was Mrs. Lester (Ann) Mulder. She wore a street-length gown of pale pink lace over nylon chiffon. Mrs. Cecelia Emery was the bridesmaid, and she also wore a street-length gown of aqua-blue lace over nylon chiffon. Both attendants carried colonial bouquets made of carnations and tinted leaves.

Dick Heyser served as best man with John Hovingh and Lester Mulder serving as ushers.

Mrs. Alice Chapman of Wallin Congregational Church was the organist, and she accompanied Robert Lee as he sang "I'll Walk Beside You", "Bless This House", and "The Lord's Prayer".

The church was decorated with candelabra, bouquets of flowers, and attached to the ends of the pews were little bouquets of lily of the valley. Mrs. Robert Smith was in charge of the church decorations and also the decorations at the reception, which was held in the Fellowship Hall of the church.

## Mrs. H. Meines Drowns In Gravel Pit Last Friday

The sympathy of the community is extended to the family of Mrs. Harold (Rena Walma) Meines of 6012 Burton Street S. E. Mrs. Meines (73 years of age) fell into a gravel pit near her home and drowned last Friday. She has been a resident of the Grand Rapids area most of her life, and many members of her family are residents of the Cascade area.

Mrs. Meines came to Grand Rapids from the Netherlands with her family as a child. She was a member of the East Paris Christian Reformed Church.

Survivors include her husband; two sons, Thomas and Clarence Meines; five daughters, Mrs. Harold (Marguerite) Mulder, Mrs. John (Gertrude) Mulder, Mrs. William (Alice) Mulder, Mrs. Andrew (Jessie) Vandenberg, and Mrs. Ruth Keegstra; two brothers, Andrew and Peter Walma; a daughter-in-law, Mrs. Sanford (Henrietta) Meines; a sister-in-law, Mrs. Minnie Walma; 34 grandchildren, and 22 great-grandchildren.

Funeral services were held on Monday afternoon at the DeVries Funeral Home with Rev. William Van Rees officiating. Interment was made in Cascade Cemetery.

Secretary of the Board of Education

## Vote June 18 For County Building Need Clear For New County Courthouse

The need for a new county building is self evident to every citizen of this area who has been in the county courthouse in the last several years. This building constructed 74 years ago has outlived its usefulness, some of the county offices are scattered in other downtown buildings. A further bother to citizens in getting to the county building is in the lack of parking in the vicinity. Offices are scattered and crowded into every balcony and corner of the building. SO WE KNOW WE NEED A NEW BUILDING!

Why vote for extra millage now for a new building? Because the county has saved millions of dol-

lars by financing on a pay-as-you-go basis. In the case of a new county building it is estimated that financing under a 30 revenue bond plan would cost \$30 million compared to \$15 million under the plan proposed by the board of supervisors.

Three structures are planned in the new city-county complex; a Justice Building to house City and County courts and include offices for the county prosecutor. The City-County building for all city and county offices now spread in various buildings. Parking facilities for over 1000 cars on two levels of a underground ramp and 100-150 spaces on the surface.

The design consultants of the new building point out the following benefits:

1. Permit economies of construction by the joint sharing of public area and vertical transportation while at the same time retaining the official identity of each governmental unit.

2. Permit the most desirable utilization of the site, maintaining adequate areas for offstreet parking and community open spaces.

3. Express the Kent County and Grand Rapids character in that they are dignified without being extravagant, functional without being austere.

4. Maintain quality for many decades while still resulting in a conservative construction cost per square foot compared with recent public construction in other comparable communities.

5. Will enhance the prestige and community spirit of the entire County.

The tax levy to be voted upon June 18 would be for 1 mill for 5 years on all property within the county. In the City of Grand Rapids there would be an additional levy of 1/4 mills for 10 years.

The average tax payer in the City of Lowell would pay \$4.26 a year or a total cost over the five years of \$21.30. The townships share of the cost would be in proportion.

If approval is given by voting yes on all the proposals on the ballot in the special election on Tuesday, June 18, construction would be started this year.

## Fire Fighters To Meet

The Cooperative Volunteer Fire Fighters Association are sponsoring a fire school at Comstock Park this week from June 3 through June 8. An estimated 400 volunteer firemen from the area covered by the Association are expected to attend.

Grover Buttrick of Cascade Fire Department and Donald VanDyke of the Grand Rapids Fire Department are co-chairmen.

**The Strength To Live**  
Last Sunday was Pentecost. This should be a significant day in our power conscious age. Everyone is aware of the many great powers at work in our world today. The power of communism and democracy; the power of science and knowledge; nuclear power and political power; the power of money and the power of love. Sometimes we feel like helpless victims amidst all the powers of the world. Life is such a struggle and is so complicated. It is so hard to know what to do and how to do it. Into such a world comes the fact of Pentecost. God gives his Holy Spirit to those who trust in Him. What strength he gives to our life. Not uncontrolled power that can destroy, but the strength to live for Christ. When He comes into our heart, we are not victims of the world, we are victors who use the world in the service of God.  
PASTOR — REV. ROY BOESKOOOL

**Patricia Van't Hof Feted At Shower**

Miss Patricia Van't Hof of Kraft Avenue, who will become the bride of Mr. Gerrit Koetsier this Friday evening, June 7, has been honored by her friends and relatives at several bridal showers during the past several weeks.

The groom's aunts from the Bos family, honored the bride-elect with a miscellaneous shower at the East Paris Christian School.

Games were played, dainty refreshments were served, and the guest of honor received many lovely gifts.

Mrs. Gerald Terpstra and her daughter, Mrs. Barbara Bishop, were hostesses at a miscellaneous shower at the Terpstra home.

A personal shower for the bride-to-be was given by Miss Sandy Ensing and Miss Nancy Koetsier, and the groom's sister honored the bride-elect at a miscellaneous shower at the home of Mrs. Marlene Koetsier.

**ADA OIL CO. ANNOUNCES**

Phillips 66 Home Heating Oils

**COMPLETE AND "TROUBLE-FREE"**

**BLUE RIBBON SERVICE**

**BLUE RIBBON SERVICE**

means .....

your oil burner will operate at maximum efficiency and lowest cost

... savings from 3/4 cent to 2 cents a gallon are possible by having your oil burner checked each season by people who know how. Even a 5% greater loss of efficiency will cost you an extra three-quarters of a cent for every gallon of oil you use.

The instrument checks shown at the right are performed on every oil burner every year as part of our BLUE RIBBON SERVICE AGREEMENT, and any necessary adjustments are made.

**STACK TEMPERATURE TEST**

tells how much heat your furnace or boiler is absorbing from the fuel oil.

**DRAFT TEST OVER FIRE compared with DRAFT TEST AT SMOKE PIPE,**

shows up any boiler or furnace leaks which cause odor and higher fuel costs. Tells whether draft regulator is adjusted properly.

**CARBON DIOXIDE FLUE GAS TEST**

shows how efficiently your oil burner is mixing air and oil for combustion. Tells our mechanic whether he has selected the proper type oil nozzle for your burner, and if air adjustment is correct.

**SMOKE TEST**

sample of flue gases, pulled through special filter paper, tells our mechanic whether the fire is burning clean. Helps prevent formation of wasteful soot.

**PLAN A the most complete heating plant check-up available**

**HERE IS WHAT WE DO FOR YOU:**

**OIL TANK AND LINES**

- check tank for moisture and impurities
- check all oil lines for leaks
- see that the oil gauge is working properly
- replace oil filter cartridge

**HEATING PLANT**

- check heat exchanger and smoke pipe for soot and scale
- check VACUUM CLEAN if necessary
- check combustion chamber for cracks or separation
- check draft regulator. Adjust to correct draft using draft gauge
- check blower, blower motor, and fan belt. Lubricate, if necessary
- check humidifier
- check circulator (hot water heat), lubricate if necessary
- seal all air leaks

**OIL BURNER**

- remove nozzle assembly; replace nozzle if necessary
- adjust electrodes; inspect ignition wiring
- clean oil burner fan
- check ignition transformer
- check oil pump pressure with gauge; adjust, if necessary
- check oil rate—rotary burner

**CONTROLS AND BURNER ADJUSTMENTS**

- check oil distributor—rotary burner
- check master control for proper safety shut-down
- see that "high limits controls" shut off burner properly
- check settings of operating controls
- check and flush low-water-cutoff (steam boiler)
- check room thermostat
- test efficiency using combustion testing instruments
- adjust for maximum efficiency
