# Little League registrations scheduled for April 10 and 17

The Thornapple Valley Little League opened the 1965 season with its first meeting on Monday night, March 29. The league officers began to lay the plans for the forthcoming season.

The following officers will conduct the business of the league in the 1965 season. Lloyd Heneveld will act as president; Geo. Manus will be vice-president; and Walter Seastrom will be treasurer and equipment manager.

James Shuster again will be in charge of minor league, and Charles Burlingham will be in charge of the major league.

The above men were very instrumental in the fact that the Little League had a very successful season in 1964, and we give them our thanks for the same. The Board of Directors would like to thank all those people who had a hand in making the 1964 season a success.

We would also like to thank all those people who had a hand in making the 1964 season a success. We would also like to thank our sponsors who furnish us the majority of our financial support. Our thanks also to the coaches, umpires, refreshment stand workers and parents who helped in the program.

**Major Changes**

Some of the decisions made at the first meeting will bring some major changes in the Little League during the 1965 season.

The Board of Directors voted to cut the season from 21 to 14 games for each team. This means that the Little League season will end shortly after July 4th.

We feel that this season will give the boys their baseball experience and yet will not interfere with their families' summer plans.

**Add Senior Division**

The second major change for the Little League will be the addition of a Senior Division for the next year. The Senior Division will consist of boys in the 13 to 15 year group.

The boys in this age group formerly played in the Forest Hills Pony League, but this year they will come under the control of the Little League and the Board of Directors from now on.

Dick Rodenberg has volunteered to be director for the senior division for the 1965 season.

The Little League Board of Directors has set the registration dates for 1965, which will be on Saturdays, April 10 and 17, from 10 a. m. to 12 noon at the Cascade Township Hall.

For participation in the Little League, a boy has two basic requirements which have to be fulfilled.

**Eligibility Requirements**

First, he has to be a resident of the Forest Hills School District; and second, he has to be between the ages of 9 and 15 years of age.

In order to determine a boy's age for eligibility, the following birthday chart can be used.

From August 1, 1949, to July 31, 1950—**15 years.**
From August 1, 1950 to July 31, 1951—**14 years.**
From August 1, 1951, to July 31, 1952—**13 years.**
From August 1, 1952, to July 31, 1953—**12 years.**
From August 1, 1953, to July 31, 1954—**11 years.**
From August 1, 1954, to July 31, 1955—**10 years.**
From August 1, 1955, to July 31, 1956—**9 years.**

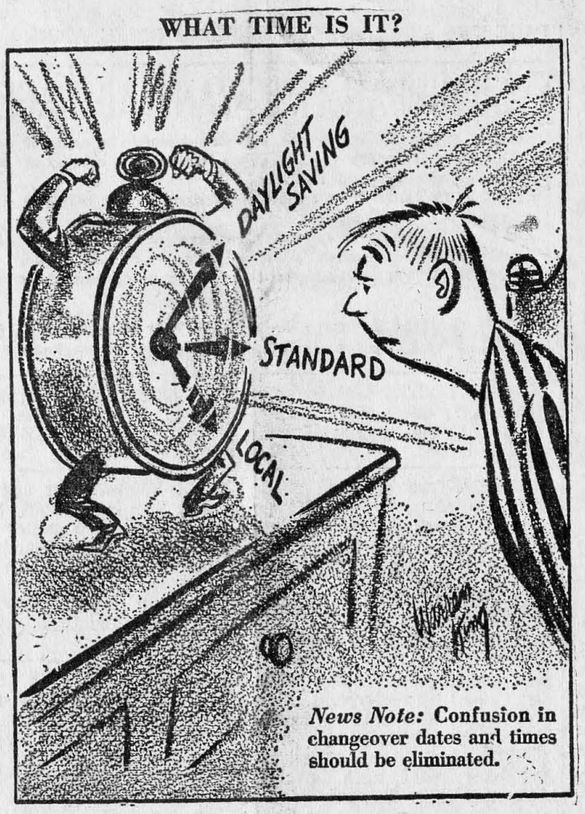
There has been another change to this chart. Any boy who is 9 years old before December 1, 1965, will be accepted.

The Board of Directors is asking each registering boy to also bring his parents and his birth certificate. The fee for the year will be $1.25 for each boy; payable at the time of Registration.

Remember the dates, Saturdays, April 10 and 17 at Cascade Township Hall between 10 a. m. and 12 noon.

All boys who are in the Majors and in the Pony League last year will have to re-register this year.

WHAT TIME IS IT?



*News Note:* **Confusion in changeover dates and times should be eliminated.**

IT'S TIME TO UNSCRAMBLE TIME

**The uniform time legislation introduced in both houses of Congress to end clock confusion is long overdue.**

**On Sunday, April 25, America will again live on "scrambled time." More than 100 million Americans will advance their clocks to daylight saving time, while 90 million people will not change.**

**"This annual time scramble complicates the operations and scheduling of the transportation industry. It confounds the television viewer, bewilders the vacationing traveler and aggravates the businessman," Senator Norris Cotton (R.-N. H.) said. "A flood of missed appointments, and late arrivals will plague many Americans," he continued.**

**Let's see what happens:**

**—15 states start daylight saving time the last Sunday in April and end the last Sunday in October.**
**—16 other states either start or end daylight saving time—or both on different dates.**
**—Of the 31 states, 15 observe it on a statewide basis, while the others have local option.**
**—And across the country isolated areas observe "wildcat" DST without official sanction.**
**—Some states do not observe it at all.**

**This legislation to have time and date uniformity, wherever daylight saving time is adopted should be encouraged.**

## *Signs bill on social security disability claims*

Late last year, President Johnson signed a bill which eliminated the 18 months restriction on filing disability claims for social security benefits. This restriction stated that a person filing for disability had to meet the insured requirements within 18 months before filing, regardless of when he became disabled. Thus, a person who waited too long to file a claim might have lost monthly benefits, or in some cases, would no longer be eligible for payment.

The bill opened the way to helping more than 50,000 people who waited too long to file a claim, and also gave those persons who never filed an opportunity to do so.

Most people in the United States are aware of the social security retirment and survivors benefits, but statistics indicate that only 20 percent of the people are fully aware of the disability provisions of the social security law.

A survey shows that more than half of those who did file claims, were advised to do so by their doctors, union officials, welfare agencies, friends and acquaintances.

In order for a person to be considered "disabled" under the social security law, he must:

Have an impairment which keeps him from doing any type of gainful work;

Have worked under social security for at least 5 of the 10 years before he became disabled; and

Be disabled for at least six full months—he cannot be paid until the 7th month after he becomes disabled.

You can obtain information on the disability provision of the social security law by phoning, writing, or visiting the Grand Rapids district office at 50 Ransom Ave., NE. The telephone number is 456-2241.

## Paddy's Extension group discuss window ware

When Spring finally arrives a homemaker's thoughts turn to redecorating. Along with painting and other items comes the selection of new curtains and draperies. Mrs. Blaine Venneman and Miss Lila Venneman gave the members of the Paddy's College Extension Group some tips on this subject when they met March 30 at the home of Mrs. Jack Buys.

Windows may become the focal point of a room or recede into the background, depending upon the treatment given to them. Draperies or curtains should fit into the general architectural design of the home. If the room's other furnishings have prints or stripes, the window coverings should be plain or vice-versa.

If at all possible, a swatch of the selected fabric should be tried at the window before the final selection is made. The length of the window covering will depend on the kind of material being used and the type of room.

At their next meeting the group will hear Mrs. Allan Smith and Mrs. Jack Buys speak on "Evaluating Advertising" at Mrs. Smith's home on April 20.

**Cept**

What is a cept? "A cept is the smallest convenient unit of knowledge. The term springs from the widespread use of the cept as Princeton University, which boasts of the small, conversational classes that it calls 'precepts.' The cept is jokingly defined as 'half a conCEPT'—meaning that it is more than a fact but less than a philosophy." (TIME, March 26, 1965). It means that a student spots a valuable sentence in rapid reading, such as "Revolutions are caused by rising expectations," and that he uses this sentence in class discussions and in exams in a clever manner.

The advantage of a cept is that if a student has been doing intensive reading and is able to remember what he read by means of cepts he will retain this condensed knowledge. But the danger is that "the ceptman too often thinks he knows more than he does because of his superficial felicity. (He may) think of ideas as symbols to be manipulated rather than as important issues to be serious about."

There are texts of the Bible which contain the gospel of salvation in summary form, such as John 3:16. But just because we know some important texts of the Bible does not mean that we know the Bible. We need to be more than

All bills for the carnival have not yet been received, but it can be estimated that our profit within a small margin was $500. We would like to give a special expression of thanks to our teachers, all of whom spent a good part of the evening in their rooms on the evening of the carnival after spending the day teaching their excited children.

Last week all callers and drivers for the parents' emergency plan were called. Callers averaged about seven minutes to get hold of drivers. The callers asked each driver if she had her list of riders near by the phone or in the car, also if the paper plate with the car number was in the glove compartment. Callers were advised to inform Mrs. Smith, Safety chairman, if no driver could be reached for a carload. There are a few extra drivers, but a large number could be used in case of a real emergency. If you would like to volunteer, please call Mrs. Smith at 949-3125. Mrs. Smith reports that everyone was most helpful. She asks that all drivers and callers be alert for a warning on bad days. Any parents who has not reminded his child of the number of the car in which he should ride should do so immediately.
