The controversial request, pending since last spring, had been recommended for denial by the Planning Commission in July. Final action is the responsibility of the Township Board. Because the required public hearing was held last May, citizen opinion will be solicited by the Township Board for the meeting this coming Monday.

Accidents on M-21 consisted of 87; 21 of these were injuries and 55 of the 87 occurred within the central business district of Lowell (from the C&O tracks to Jackson Street).

Thieves Rip Open Fox Head Safe

The Fox Head Inn at 7587 East Fulton, Ada, was broken into sometime early Sunday morning. The breaking and entering was discovered by the owner Mr. Strang at about 10:45 a.m. Sunday morning.

The thieves entered by prying a side door open with crow bar. Once inside they entered the vending machines and proceeded to rip open the safe.

They obtained an undetermined amount of money according to Kent County Sheriff's Deputy William Weston.

Deputy Weston also reported in their haste to leave they left a couple of crow bars and a screw driver. The matter is under investigation by the Kent County Sheriff's Department.

Council Approves Rezoning

A public hearing was held prior to the regular Lowell City Council meeting of Monday, January 3, 1977. The hearing was concerned with a request by C. J. Christoff & Sons to rezone the parcel of land (old well site) on Gee Drive, to Industrial rather than its present zoning of Agricultural.

Charles Foreman of Manistique, Michigan, was present to voice his disapproval of the proposal. Foreman stated that he is a property owner to the west of the property to be rezoned and he is afraid that the industrial site is not sufficiently buffered from his property and would be a detriment to future residential building on his property.

After lengthy discussion between Foreman, Wendell Christoff (representing C. J. Christoff & Sons), and the councilmen, the public hearing was closed.

Following the public hearing the council voted to approve the rezoning of the property.

The council approved the purchase of an electronic data processing machine, that will be used for monthly water and power billings. The City is currently having this service done by the Kent County School Board on their data processing machine at a cost of \$600 per month. The \$600 per month savings will pay for the City's new system in a relatively short time, as was explained by City Manager Ray Quada.

Quada discussed at length to the council the technical differences between the three machines that bids were received on and why he recommended the machine that the council approved.

Quada also made it clear that the new machine will not require any new employees, since the City is already doing the initial work on the billings, which the data processing machine finalizes automatically.

The council renewed Town and Country Taxi's license for 1977.

THIEVES ENTER ADA AREA HOME

A petition to vacate 200 feet of Crahen Avenue SE between Heather Lane and M-21 as part of the effort to save the 108-year-old Old Collins School on Heather Lane at Crahen Avenue has been approved by the Kent County Road Commission, reports Donald R. Schofield, KCRC engineer-manager.

The land reverts to the Michigan Department of Highways and Transportation, which, in turn, is slated to deed over .68 of an acre, on which the school stands, to the committee seeking preservation of the school.

of property east and west of Crahen Avenue, to have enough land for the rebuilding of M-21 in the Forest Hill Avenue-Heather Lane-Crahen Avenue area and relocation of the north end of Forest Hill Avenue at Heather Lane.

The entire M-21 project from Int. 96 to Ada, a \$4,067,785, four-lane, divided improvement, was started last summer, and most of the work was completed from Int. 96 east to just beyond the school before work was stopped for the winter.

The north end of Forest Hill Avenue will be relocated next summer to run northwesterly to

the new M-21. Originally, the school was to have been razed, but efforts by citizens and educators in the Forest Hills School District and cooperation by the KCRC, MDHT, Forest Hills School Board and Gov. William G. Milliken saved it from being torn down. The highway department revamped its plans for the Forest Hill Avenue relocation to bypass the school.

Rehabilitation of the school is slated to transform it into a well kept landmark. The work would be financed by public donations.

Chief Lee Norton of the Cascade Fire Department set the damage at about twelve hundred dollars to the home and five hundred to the contents. They were assisted by the Alto and Kentwood fire departments.

Extensive damage to the home of Michael Ross at 2165 Buttrick Avenue was suffered as a result of the second alarm. Chief Norton reported the home was fully involved at the time of arrival.

Gillisse Awarded Resurfacing Bid

Gillisse Construction Co. of Grand Rapids, low bidder of four at \$469,403, has been awarded the contract for widening and resurfacing Cascade Road SE from Hall Street to Thornapple River Drive in the village of Cascade, reports Donald R. Schofield, Kent County Road Commission engineer-manager.

The 2.91-mile project is scheduled to be finished by next September 1. Federal funds will pay for about 70 percent of the cost, with the KCRC paying the remainder.

Details of the improvement include removal of the raised concrete median, lanes widened to 12 feet and blacktop bicycle paths on each side of the road as well as curbs and gutters.

The project will be an extension of improved Cascade Road from Int. 96 to Hall Street, done last summer at a cost of \$230,411. Originally, resurfacing was to take place in one season from Int. 96 to Thornapple River Drive, but lack of money determined the improvement would have to be done in two sections.

ORDER CATALOGS

Winter has a firm grip on the landscape right now, but it'll be spring again before you know it. Horticulturists at Michigan State University suggest that January isn't too early to order seed catalogs and begin planning the garden.
Use the records you made of last season's garden and flower beds to plan this year's plantings.

Leathem With Snow Club Rings in New Year

The members of the Flat River Snowmobile Club gave the old year a good sendoff and rang in the new with a party at their clubhouse on Burroughs Road. There was a nice amount of snow for snowmobiling and a safari and poker run were enjoyed by those who accompanied the club to snowmobiling.
Others enjoyed playing cards, dancing and the companionship of good friends by the roaring fireplace. George had his trusty guitar and a sing-a-long was also enjoyed by all.
Chairman Mary TeVeldt supplied lots of snacks and a hearty lunch before leaving for our homes. We want to wish all our members and friends a Happy and Prosperous New Year at this time.
The next regular meeting will be on Sunday, January 16, with snowmobiling every weekend at the clubhouse.
His ship is scheduled to visit Naples, Italy; Tunis, Tunisia; and Gibraltar during the current deployment.
He attended Berry College, Rome, Georgia, and joined the Navy in October 1974.

OPEN LETTER from DAVID GERST

Dear friends,

In selecting a funeral service, the desire to show loving respect for the departed, yet avoid later financial hardship to the survivors, these considerations will dictate a sensible choice of casket, vault, and clothing. A frank discussion with the funeral director, being mindful of the position of the deceased in the community and the financial situation of those who remain, should result in a satisfactory arrangement.
Respectfully,
David Gerst

Jaycettes Launch 'Buckle Up Babe'

The Lowell Area Jaycee's Auxiliary, a non-profit organization, has launched a Buckle Up Babe (BUB) campaign in this area. G.M. Loveseats for babies weighing up to 20 pounds, about 9 months old, are being obtained for rental to the public with the main objective being infant auto safety.

"Due to the limited time the infant seat can be used, many people won't or cannot afford to buy their own," said Chairman Karen Zylstra. "As a result the

infant may be left dangerously lying on the seat until he can sit in a larger car restraint."

BUB is a national Jaycee Auxiliary project and has done very well elsewhere. Grand Rapids has as many as 150-200 seats in use with a good size waiting list, showing an obvious need.

The Jaycee Auxiliary is a group of young women between the ages of 18-36, or wives of the Lowell Area Jaycees, with their primary purpose being to assist

the Jaycees. They also enjoy community involvement, socials and programs which strive to promote the development of young women.

Although they are an auxiliary to the Jaycees, they do not, however, share the Jaycee budget. Therefore, the largest problem facing the Auxiliary is obtaining enough seats to get the project off the ground. They are pleased to announce that Wittenbach Sales & Service and Thomet's have each donated

one seat, and offered to sell additional seats at dealer's cost.

A local concerned mother has also donated a seat that was no longer in use, and the Lowell Area Jaycees have donated the funds for the purchase of ten more seats. It is obvious that without community involvement such worthwhile projects would not be possible.

A \$12 deposit is charged, \$6 of which is refunded if the seat is returned in good condition within nine months. If renter wants to keep the seat past the nine month period, \$1 is charged monthly. All profits will be used in turn to purchase more seats until the need has been fulfilled.

Anyone wishing more information on BUB see classified ad in this issue.

ROTARY NOTES

In the debate presentation to the Rotary Club, the team showed their excellent skills in argumentation and thinking on their feet that earned them second place in the Grand Rapids Class A Debate League.

Coached by Mrs. Priscilla Rogers, Lowell's Varsity Debate Team is composed of Phyllis Courser, Laurie McMahon, Glen Bailey and Brian Raymor.

Mr. and Mrs. Richard Lee of Jackson are the proud parents of a baby girl born on Christmas Day, December 25, 1976.

Jennifer Ann weighed eight pounds, six ounces, and measured 21 inches long.

The proud grandparents are Mrs. Shirley Bhenke of Grand Rapids and Mr. and Mrs. Robert Lee of Lowell.

Four Semi-Finalists in Testing Program

Three of the four semi-finalists in the American College Testing program from Saranac, from left, James Griener, Martin Hill, and Lorraine Willison, receive their certificates from Dorothy Kimball, right, counselor.

Saranac High School has four semi-finalists participating in the American College Testing Program. This test is taken by approximately 1 million college bound students each year. This test is given 5 various times a year.

The Saranac students took the test in April of their Junior year. Out of 17 students who took the test, Saranac has four semi-finalists. Their test scores will make them eligible for a scholarship. Saranac's semi-finalists are:

Lorraine Willison, she is the daughter of Mr. and Mrs. Don Willison of 9340 Grand River Ave. After graduating in the spring Lorraine plans to attend Western College and study Mathematics. Possibly someday she wants to study Computer Science.

Martin Hill, son of Mr. and Mrs. Andrew Hill of 5375 Riverside Drive, is also a semi-finalist. Martin plans to attend the University of Michigan, under the pre-medical program.

James Greiner, son of Mr. and Mrs. Percy Greiner of 3968 Jackson Road is another semi-finalist from Saranac. He plans on attending Aquinas College in the fall of '77. At this time James has not decided on a major subject to study.

Cheryl Buckner is also one of our finalists. She took her ACT test in Newaygo and then transferred to Saranac.

The ACT Assessment instrument consists of a battery of four academic tests written during a timed test session, a Student Profile Section and an Interest Inventory, which students complete at the time they register for the ACT Assessment.

The academic tests cover four subject matter areas: English usage, mathematics usage, social studies, and natural sciences. These tests are constructed to assess each student's general educational development and ability to complete college level work. The test items require that the student demonstrate

both problem solving and reasoning ability.

The Student Profile Section collects admissions enrollment data, academic and out-of-class information about the student's high school achievements and aspirations, information about the student's high school coursework, biographical data, and self-reported high school grades in four general areas.

The ACT Interest Inventory is designed to measure six major interest dimensions. Results are used to relate an individual's profile of interest to the profile of interests of successful and satisfied college seniors in a variety of educational majors. Inventory results are also used to help students compare their work activity preferences with work activities which characterize specific families of jobs.

More than 2,400 institutions of higher education, scholarship agencies, and state educational systems presently participate with ACT by either requiring or recommending that their student applicants use the ACT Assessment Program.
