ALTHOUGH THE WINTER storm which drifted through the area Sunday dropped only a little over two inches of new snow, blowing and drifting caused many motorists to encounter hazardous driving and in some instances, traffic tie-ups. Only a few minor accidents were reported by the Lowell Police Department. The National Weather Service says this, the first major storm of the 1977-78 winter will be followed by gradually warming temperatures with a chance of rain by Thursday. Let's hope they're right! . .

JUDIE CAMPBELL OF Saranac and Mildred Bellows of Lowell were the lucky winners of gift certificate door prizes at the grand opening festivities of the Ball Floral Shop on East Main Street, recently. That's the date when penalty provisions of the new Campaign Finance Reporting Law goes into effect, ending a six-month grace period. At that time, all filings required since June 1, 1977, including Statements of Organization must be in compliance with the law. After the December 1 deadline, however, persons who have failed to comply may be subject to penalties ranging all the way from late filing fees to felony charges, depending on the nature of the violations .

Winter doesn't officially arrive until December 21, but, as far as tions the individual members I'm concerned, it arrived last Thursday when we received that first snowfall. In fact, I'm usually sick to death of winter by that December 21 official opener.

Ever notice how winter stimulates some businesses: I was in Bob Kilpatrick. Advisory Coun-cil president. "Their projects awards or placing received at various fairs or shows were also a factor, but what they did to and I saw more than one customer leave Hahn's Hardware with a new snow shovel over his shoulder.

For other businesses, the coming of winter merely means an assortment of new headaches, the auto dealers were busy shuttling cars so that their lots could be plowed and others were busy shoveling their walks. The real headache of headaches doesn't usually arrive until somewhere around that December 21 officia starting date and that of course is the first cold weather heat bill. I remember looking at that December bill for the Ledger last year and was expensive to heat.

nearly fainting dead away, until then. I had thought that my house This kind of weather always means that we haul out all our cold weather gear that was gleefully put away on the first warm day last spring. I got out my winter dress coat a couple of weeks ago so that some repairs could be made on it and among other things that I found in the pockets was a roll of 35mm film. When I got the mysterious roll of film back from the processor I found that it had pictures of my son's second birthday party in April and some that I had taken of the kids on a nice spring day while hiking along the Grand River.

I thought this was a rather pleasant surprise considering some of the surprises that I have experienced in the past when dragging out the cold weather gear. I once found a little plastic box of well dried cornboers in the pocket of my insulated coveralls that were left from an ice fishing trip during the previous winter. When I hauled out my snowmobile boots last winter. I discovered that a mouse had set up nousekeeping in one of them. I'm sure the mouse thought he had found the ideal home in those snug felt packs. About the only good thing that I can say for this impending winter

is that it will undoubtedly be the source of new material for the "cozy corner." I can see it all now, stuck cars, tempermental snowmobiles, frozen pipes, ice skating bumps and bruises, crabby kids with colds, crabby parents with colds, and the list goes on.
