Today, Tuesday, November 15, as I sit here at my typewriter thousands and thousands of hunters across the state are crawling out of the sack, and getting ready to head out into the woods in hopes of bagging a big of buck. Since I am no longer a member of that army. about all opening day means to me is that I'd better get myself in gear, finish this column, shower and get down to the Ledger early. In the six or seven years that we've been running our "First Buck Contest", we've never had anyone show up ridiculously early. By that I mean, so early that the hunter almost had to have had a flashlight taped to his gun barrel. But sure as the world, if I show up at my usual 8:00 A.M. there'll be a line of successful hunters two blocks long waiting for me. That's not a good group to have upset with you either cause I know how they killed those deer, and I know what they do to 'em after they shoot'em.

I had one bunter tell me that he had his deer all tied up, and was just waiting for opening morning to go shoot it and bring it into the Ledger for the prizes. Another local hunter, who has only one leg. tried to get me to allow him a one hour handicap. He claimed it would take him longer to drag the deer out of the woods. Another fellow in the same conversation has a cast on his arm all the way to his elbow, and he also asked for a handicap. I know of one hunter who is handicapped being five months pregnant, and there must be hundreds out there with some handicap or another. That doesn't include the thousands with that old self-inflicted handicap known as a

Now let's see, a blind, 80 year old, nine month pregnant hunter with only one arm and one leg could show up at the Ledger six hours and forty-five minutes after the first un-handicapped hunter, and still win the contest. If it's all the same to you folks, I think we'll continue to run our little contest without any handicapping at all.

I can see me trying to set up some sort of handicapping system for our "First Buck Contest". Senior citizens would be allowed five minutes per year over age 65. Pregnant hunters would get 10 minutes per month into pregnancy. Blindness (remind me to stay away from them in the woods) would be allowed a flat two hours, because it would take considerable time for a blind person to find their way out of the woods, and drive to the Ledger office.

Hey! How about them Lions? They may not be a lot of things, but there is one thing that you can count on them for year after year, and that's "predictability". The stage was set, the chips were down, and all they had to do was beat the lowly Houston Oilers, winless in their vision. But, just as I predicted, they blew it proving once again that they are the most predictable team in the NFL when it comes to win-

away from AT&T. Im almost afraid to pick it up. What if there's no dial tone? I'll never hear Edna's voice again Of course it works. Or Rudy in Laguna Beach! I told you all along... Or My Mom next door!

Don't besilly. What could happen?

Well, this is it. January 1, the day Michigan Bell breaks

Come January 1, you'll still get through to Edna in Engadine or your mom next door... as quickly and efficiently as ever.

You've probably heard about the sweeping changes taking place in the telephone industry, and maybe you've been wondering just how they'll affect the telephone service in your home or in your business.

As a matter of fact, when you pick up your phone on January 1, you may be very surprised to learn that your service has changed very little. For one thing, you will be able to dial 1. Upper Peninsula LATA 2. Grand Rapids LATA your local and long distance calls Saginaw LATA
 Lansing LATA
 Detroit LATA exactly as you did before. About the only immediate change will be how your calls are billed. That's where LATAs come in. LATA is a new word to all of us. It

stands for "Local Access Transport Area." In Michigan there will be five LATAs (which happen to closely approximate our Area Codes — see map). For now, the important thing about LATAs is this:

Starting January 1, 1984, whenever you place a local or long distance call within the LATA in which you live, you will be billed for that call by Michigan Bell, if Michigan Bell is your carrier. When you place a call from your LATA to another LATA in Michigan or elsewhere, you will be billed by another long distance carrier. Some carriers may elect to have Michigan Bell include their

charges in the bill Michigan Bell sends you. Others may not, and will bill you directly. We'll be telling you more about LATAs and other calling information as the details unfold. So, as the expression goes — "not to

worry." You'll still have your phone service as good as ever - because we're working to make the changes in your phone company better changes for you. After all...

IT'S AT&T WE'RE SEPARATING FROM... NOT YOU.

Facts down the line.

Because your telephone business office is busily engaged in normal. day-to-day telephone service matters, we are providing this toll-free number as a source for answers to the questions you may have about your changing telephone company. We also suggest that you watch for our informational messages in your newspapers and in your monthly telephone bills. 1 800 555-5000
