WASHINGTON'S BIRTHDAY

Next Monday, February 20 is Washington's Birthday, or at least it's the day that most federal, state and municipal employees get a day off. Washington's real birthday is February 22. Locally, about the only closing will be the Post Office and City Hall. There will be no residential or business mail delivery, but the Post Office lobby will be open for box customers. State Savings Bank, First Security Bank and Great Lakes Federal Savings and Loan will all be open

VALENTINE'S DAY TRAGEDY AVERTED

A report came to us about a Bushnell first grader who lost the valentines he was taking to school for his classmates. The valentines were safely tucked away inside a green folder, but unfortunately the folder was dropped along the way. Word of the missing valentines was passed through the school, and a student said that they had seen a high schooler pick up a green folder. A request for the missing Valentines was broadcast over the High School public address sytem, but to no avail. Finally, the green folder was spotted in a trash can in the high school, but still no Valentines. The high school art teacher heard the plea over the P.A. and came to the rescure. One of her morning classes hurriedly went to work and churned out replacement Valentines for the youngster. Thanks to their efforts a roken heart on Valentine's Day was averted.

This is an artist's conception of how Cumberland Manor will look in a few years. The view is the perspective of looking westward along M-21. When complete, the "retirement village" will offer efficiency housing for those in their early retirement years, and extended care facilities older, more dependant residents.

persons newly retired through property about nine months ago extended care in older age.

As explained by Maas, the project will be phased over the coming years, with the construction of a 20 room facility to begin this April. The first addition will be located just off the southeast corner of the existing building, being long and narrow with its length running north and south. The second addition will be nearly identical to the first, and will be located off the northeast corner of the existing building. Next to be constructed will be professional buildings, probably doctors' offices, that will be located directly east of the two new 20 room buildings. The last part of the complex will be the construction of two large buildings, each four stories high and containing 96 rooms. These structures will be located at the foot of the hill, north of the present building., Finally, a community building will be built more or less in the center of all the buildings. It will house a store, restaurant, recreation facilities, etc. All buildings will eventually be connected by covered walkways.

The site plan calls for a curb cut toward the eastern edge of the property, and a drive will run to the north between the two 20 room buildings and the professional buildings. The present drive will be extended to service the larger units.

Though not detailed in this proposal, Maas envisions duplex and quadplex housing nestled in the hills, rounding out the retirement village concept. Maas's architect, Dick Wiggins, even mentioned the idea of a few golf holes on the site.

Following the presentation by Maas and Wiggins, the planning commission voted to issue a letter of approval pending a review of the final construction draw-

rently hooked to Lowell's sewer system, but city water is not yet available there. Wiggin's said that the future additions will likely tap into the city sewer, and hopefully city water will someday be available. For now a new well is proposed to service the first 20 room facility.

Cumberland Manor is a retire-Cumberland Manor is cur- ment home aimed at providing the needs of retired persons not able to maintain a household, but not yet requiring an extended care nursing home. The new 20 bed facility will be immediately beneficial in that it will allow residents requiring a little more care than most to be consolidated into an easily supervised area.

That payers in the form of recalls. rollback would cost approximately \$525 million in tax revenues this fiscal year. With estimates that the 1984 surplus will be around \$260 million, this plan would mean a cut in spending of at least that much.

A less dramatic idea suggests matching the expected surplus of \$160 million to a tax cut -- which would mean dropping the rate from 6.1% to 5.35%. That would mean a slight cut in government spending of about \$2 million dollars, which could be accomplished with little pain and anguish in the state departments.

A more general plan simply states that once the budget surplus is established, the tax cut would be matched to that amount. Another places surplus revenues n the state's Budget Stabilization Fund.

Still another suggestion would roll the tax back by .01% per million dollars of surplus. This, however, would ultimately be the most dramatic of the rollback plans -- resulting in an actual cut in the state income tax rate from 6.1 to 3.9%, which would require an enormous cut in state

Getting away from the tax rate rollback angle completely another senator has proposed hiking the personal income tax turns, from \$1,500 to \$4,000. That would mean a \$600 million cut in the overall budget -- so after the surplus, a cut of at least \$340 million would be required during this fiscal year. That is the most far-reaching plan. The most limited proposal, in terms of dollar cuts, is one that would. 6.1% to 5.85%, costing about \$87 million this fiscal year.

Whether any of these proposals will see the light of day remains to be seen, however, Even if they do manage to pass both houses of the Legislature, Governor Blanchard has said he will veto any proposal that cuts the budget more than he is willing to. Blanchard prefers his own plan, a cut in the income tax rate from 6.1% to 5.35% -- but not until October 1. All that plan

rag has been long and rocky. I've had the benefit of good people on the staff to follow behind me and at least round off the edges of my stuff. But, as I'm sure you've all noticed, with the deadlines we have to meet, and the small staff that we carry, our editing and proofreading has a lot of room for improvement. So that's why I jumped for joy when I ran across this simple list of rules for news

Don't use no double negative.

2. Make each pronoun agree with their antecedent.

3. Join clauses good, like a conjunction should.

4. About them sentence fragments. 5. When dangling, watch your participles.

6. Verbs has to agree with their subjects.

7. Just between you and I, case is important, too.

9. Don't use commas, when they aren't necessary.

How can a multiple car family minimize insurance costs?

No problem.

Auto-Owners gives families with two or more cars a reduced insurance rate. That makes their exceptional auto coverage and claims service even more attractive.

So if you're a multiple car family trying to minimize insurance costs—call your "no problem" Auto-Owners agent and find out how this discount can be "no problem" for you.

Regular February, 1984 Meeting

February 1, 1984

The Kent County Board of Commissioners met pursuant to adjournment. Called to order by Vice Chairperson Margaret E. Byington.

Roll called: Present: Bandstra, Blakeslee, Boerema, Martin Buth, DeKraker, DeVriendt, Gainey, Kempker, Kuhn, Lamoreaux, Laninga, Lorch, Marsh, Oppewal, Pupel, Sietsema, Somerville, Vaughn, Wahlfield, Vice Chairperson Byington -

Absent: Chairperson Buth - 1 (explained) Quorum present.

Commissioner Vaughn introduced Reverend Dante Venegas, Pastor of Madison Square Christian Reformed 20. Church, who gave the invocation. Those present united in the Pledge of Allegiance

to the Flag. Vice Chairperson Byington read a card from Sue Platte, thanking the Commission for the plant she received

during her houpital stay. Commissioner Martin Buth reported Chairperson Richard Buth is doing well and expects to go home from

the hospital on Thursday or Friday. Commissioner Kuhn moved the approval of the minutes of the previous meeting, January 3, 1984 with two corrections. The comments regarding Resolution No. 1-84-08 regarding General Fund Year End Transfers should have read "1983" instead of 1984, and on the appointments to Boards and Commissions by the County Board, in addition to Commissioner Oppewal dissenting were Commissioners Kuhn and Kempker. Seconded by Commissioner Bandstra. Motion carried.

A report of the Finance Committee of their meetings of December 27, 1983 through January 24, 1984 was presented: (All have received copies and copies are on file in the Office of the County Clerk.)

Commissioner DeKraker moved the report be received, concurred in, and filed. Seconded by Commissioner Lorch. Motion carried by the following vote:

Yeas: Bandstra, Blakeslee, Boerema, Martin Buth, DeKraker, DeVriendt, Gainey, Kempker, Kuhn, Lamoreaux, Laninga, Lorch, Marsh, Oppewal, Pupel, Sietsema, Somerville, Vaughn, Wahlfield, Vice Chairperson Byington -

Under Public Comment, Robert McKown, ombudsman for Citizens for Better Care, expressed concern about the lack of Air Conditioning for patients at Kent Community Hospital.

Vice Chairperson Byington suggested he contact Commissioner Wahlfield and attend a Buildings, Parks and Transportation Committee meeting.

Mr. Herb Start, Chief Executive Officer of Pine Rest, gave an update on their management of Recycle Unlimited and urged the Commissioners to support educating the public so they can prove that recycling can be financially self-supporting.

Jack Bridges, an Insulation Manufacturer in Comstock Park, Michigan, objected to Recycle Unlimited selling paper to a firm in Illinois and stated he cannot compete if Kent County subsidizes Recycle Unlimited. He stated he had to lay off 23 workers about three weeks ago. Fred Henderson of Nu Wool Insulation echoed Mr. Bridges' comments and felt the paper should be kept

locally. Mr. Richa stated he is a Volunteer for the Recycling Program. He feels the program is just getting started and results will not be seen for a couple of years. Resolution No. 2-84-18 regarding an 18 month Labor Contract with the Registered Nurses, was presented: (All have received copies.)

Comment from very worthy organizations. Many members of this County Board are supporters of those organizations and have been through the years. Three of us sit on the Finance Committee. In recent days I have received letters, comments and calls that "this appropriation is very necessary" and "please don't let this go down the tube." The political elements begin to manifest themselves in this, an election year. Last Friday I urged everyone to begin looking at their Budget Book and they would know immediately that Recycle Unlimited, which comes under the Department of Public Works, was included in the Budget. In July, we had Budget Hearings and this question did not come up. It was never discussed. It was unheard of. We approved the budget in October of 1983 and nothing was stated at that time. There were no problems as far as anyone was concerned.

"If you look at the revenue estimates and the tonnage, you will see the dollars and cents listed under revenues. The Department of Public Works can meet the Budget on the tipping fees, especially at \$9.35. Some felt the Department could get by with \$9.00, and I could agree. No member of this Board will allow this contract to go down the tube. For unknown reasons, last December someone decided to request an additional amount of \$200,000 plus to be taken from the General Fund to pay for recycling and tipping under Act 641. The question before us is, are we going into the General Fund for this purpose? Each year since 1980 the County Board has voted for Recycling. If we vote "no" on this proposal, someone will brand us as being against Recycling which is not true. In 1981 we had an urgent meeting of the Board at the Airport on the subject of Landfills. We were told the matter was urgent and that the Plainfield Landfill would be filled by October, 1982. We were told that we had to act immediately and that if we had to go through a bond issue, it would be too late. We were asked for money from the General Fund so the land could be purchased. Approval was given.

"The Plainfield Landfill is still open. Minutes

of the Public Works Board dated December 12, 1983 show that Supervisors Donald Lamoreaux and Beverly Rekeny appeared to ask when the County was going to close the Plainfield Landfill. They reminded the Board that in the contract with the Township it was to be closed in 1985. They were informed that plans were to operate the facility to June, 1987. In the past few weeks I have made an intensive study of some of the various assets of the Department of Public Works. I went into the manpower situation, location of dumps and mileage to dumping sites. I also talked with an official of the State of Michigan. The News Media was castigated for being alarmists although there is a problem at the Plainfield site caused by pollution. I have been informed by the State that the Plainfield dump will be closed by une 1 of this year possibly, and at the latest in September. That means we will have one site down if they insist that it be closed. It bothers me when I have to find out from the Grand Rapids Press that we have a pollution problem, and I feel we should hold a Skull Session to discuss the proposals before us. We can vote on the matter today if you wish or table it or Landfill and from the Sparta Landfill. You would think BE IT FURTHER RESOLVED that this program be that the Department of Public Works would have had enough knowledge at the time when the Plainfield Landfill was developed and that it would have been done properly. It is my information that even the linings were put in incorrectly. Bulldozers ripped up some of the liners. This messed-up landfill could cost us millions if we get into any type of litigation.

"Before we dip into the General Fund for Recycling, feel it is my duty as a County Commissioner, since I am responsible to the taxpayers and to the residents of this County, to keep the environment clean and by so doing, I am beginning to accomplish my purpose here. I feel that before we move any further on these two resolutions before us, we should have a Skull Session. I don't want the Department of Public Works to tell me what is going on because they have prevaricated to us before. I feel we should call in the people from the Department of Natural Resources to appear before the Board so that we can question them and get the full impact of the problems before the County. Are we faced with hundreds of thousands of dollars, or perhaps millions? Then we can begin to solve our problems through common sense. This is not going down the tube if we don't act this morning. I hope we can come to a meeting of the minds with the people here who need the paper also. If we have to vote this morning, I will be forced to vote "no" because the full range of problems have not been divulged to this County Board."

Commissioner Kuhn agreed that a Skull Session would be a good idea, but the Board is not discussing management of the Department of Public Works or Landfills this morning. The item being discussed is whether or not the Board chooses to take money from the General Fund to support this program. She called for the question. Seconded by Commissioner Somerville.

THE MOTHER EARTHNEWS

THE ART OF MASSAGE

Thanks to today's rebirth of interest in wholistic health and natural healing techniques, the ancient art of massage has once again taken its place as a legitimate and very effective means of providing relaxation, body tone, and even 'drugless therapy" in the treatment of a number of minor ailments.

The appeal of this therapy stems, of course, from the soothing effects it produces. But a thorough massage can promote well-being by positively influencing the body's physiological

functions, as well. As the therapist's hands move over a patient's skin, they excite sensory receptors in the epidermis, which then send reflex stimuli through the neryous system to exert a profoundly healthful effect on the deeper tissues, muscles, and

The kneading and manipulation of massage can also increase the circulation of blood and lymph. As a matter of fact, a one-hour session can stimulate the body's circulation as well as a seven-mile run! Of course, massage doesn't provide the same aerobic benefits that active exercise offers, but it does help disperse the cramp-producing waste deposits of lactic acids that accumulate in the muscles after physical exertion.

Furthermore, although it can't actually increase a person's strength, massage is very effective in loosening contracted, tight muscles and toning weak, flaccid ones. It can also improve muscle flexibility by stretching the hardened connective tissue that hampers free movement and by relieving pain or swelling. Thanks to its stimulatory action, massage even increases gland secretions and excretions, and they in turn enhance skin condition and speed up the body cells' metabolic rate. And because it can disperse tension anywhere in the body, this practice is one of the most effective and inexpensive antistress therapies available

The following strokes, all components of the system of Swedish massage, can be used to perform the "do-it-yourself" treatments at home.

Effleurage, the "gliding" stroke, requires that the hands slip lightly over the skin to begin stimulating the tactile nerves. This movement is typically used to apply oil to the body in long, smooth strokes. Petrissage consists of a kneading motion of the fingers that's said to "milk" the

muscles of any accumlated toxins that may be causing pain or cramps. Vibration, another method of removing tension, consists of pulling a small area of flesh up firmly between the fingers and then shaking, or vibrating, it to loosen it up. Tapotement is the percussive movement most people envision when they think of

Swedish massage. It involves striking the body a series of rapid-fire blows with either the straight sides of the hands, the fingertips, or the cupped palms. This stimulating stroke improves circulation and relieves fatigue Friction is a general name for any one of several deep pressure maneuvers. Most commonly, they're applied in concentric circles . . . around and over a tender spotwith the thumbs, the fingertips, the heels of the hands, or the elbows. This kind of

treatment for swellings, painful or grating joints, and aching muscles. There are no hard-and-fast rules as to how, when, and where to give a massage. Remember primarily that fancy equipment, gadgets, and a large repertoire of strokes aren't necessary. You really need only the desire to use your hands to make someone

The number of really good books on massage is limited, but one that's definitely worthwhile is The Massage Book by George Downing (Random House/Bookworks). Look for it at your bookstore or library.

"Highlights teacher. Since the Lowell Board of Education is the administrative district for the Community

The Lowell Board of Education held its regular meeting on Monday, February 13 at 7:30 P.M. in the Board offices. During the recognition of the audience, Mitch McNeal addressed the Board with his request to use the middle school parking lot for the Gus Macker Basketball Tournament this July. After reviewing the request, the Board gave tentative approval with the understanding that a written agreement containing certain criteria be established. Following the approval for the payment of bills for the month of January, the Board accepted the resignations of Jessie Barry, Warehouse Operator, and Julie Colvin, Girls Tennis Coach. The Board also accepted the resignation of Lowell High School English teacher, Mrs. Marjorie Richards effective at the end of the school year.

In other items relating to personnel, the Board approved employment contracts with Mrs. Linda Knapp as the high school Arts and Crafts teacher and Miss Lisa Wielenga as the middle school LD Special Education

Education Consortium which includes Lowell, Caledonia, and Thornapple-Kellogg, any expenditure over \$500 requires Board approval regardless of the school district in which it is incurred. In three personnel items relating to the LCTK Community Education, the Board approved the addition of a 4th step to the certified teacher salary, approved the 1983-84 contract of Caledonia Community Education Director, Bob Evans, and approved a 4.3% increase in salary for the Lowell Community Education Liaison Person's hourly rate.

In other business, the Board heard a presentation from the Curriculum Council subcommittee involved in the development of a district-wide program utilizing the micro computer. Student Council President, Randy Baker, then addressed the Board with a proposal to renovate the existing flag pole area in front of the high school with the understanding that the project be

funded by various organizations. The Board approved the plan. A report on the circumstances for disciplinary action at the high school during the first semester of the 1983-84 school year was given by Assistant High School Principal, Jim DeWeerd.

The Board then took action to approve payment of the new Bushnell water heater, related parts, and installation to Dave Clark Plumbing, and Heating in the amount of \$4,704.25.

In other action the Board approved the middle school's "Philosophy and Objectives" section of the North Central Association 1984 Evaluation as presented. Then in the last item of business, the Board heard a presentation by Progressive Engineering on the specifics involved in conducting an energy audit.

(R-Rockford), one of two House Republican members on a Special Committee to study Health Care Cost Containment says that a Republican plan to reduce the cost of health care for Michigan citizens and employers by \$800 million can avert an acute crisis that threatens the state's long term economic recovery. Last week, the House Republican plan, the result of months of effort and research by legislators, staff and health care experts, was presented as a blueprint for action.

The comprehensive 17-point plan is designed to reform the insurance reimbursement system; limit capital investment in health facilities; and overhaul the regulation of health professions. The program also calls for reform of our medical malpractice laws to reduce the practice of defensive medicine and to promote health maintenance organizations in the

As you may not be aware, one out of every four state tax dollars is spent on health care. In 1982, that accounted for 23.3 percent of the tax revenues. From 1978 to 1982, the cost to the state for health care rose 54.4 percent, compared to an overall growth of 16.6 percent. In the 1985 budget the cost of health insurance for state employees is estimated to increase by some 20 percent over this year.

You can see from these figures that the cost of health care is a clear threat to our economic recovery. Not only is it burdensome for people who pay for it directly or through insurance, it's the most costly component for many businesses in Michigan. In fact, for most employers in the state the cost of employerpaid health benefits exceeds the costs of workers' compensation, unemployment insurance and single business taxes combined.

If we could curtail the growth

State Rep. Victor C. Krause of health care costs to the rate of inflation, we could save more than \$800 million a year-money that would go a long way towards reducing the overall costs of doing business in Michigan. But it will take bold and decisive action now.

> The highlights of the Repulican plan included:

--Permitting Blue Cross/Blue Shield and other commerical insurers to negotiate "prudent purchaser" arrangements with individual hospitals and physicians based on price, utilization and quality of standards.

-- Requiring the Department of Social Services to enter into competitive bid contracts with hospitals for Medicaid services.

-- The development of capital

investment limits to permit only high priority projects to be ap-

-- A comprehensive review of regulation of health professions; consolidation of regulatory boards; passage of legislation to strengthen board sanctions and extend liablility immunity to board members.

-- Encouragement of aalternate health care delivery systems.

The goal of this program is to stem the rising tide of health care costs without jeopardizing the high quality of health care enjoyed by Michigan citizens. I think it can be done if everyone in the Legislature and the governor join together to address Michigan's health care cost crisis.

IRS Explains Collection **Process**

When a taxpayer, for one reason or another, fails to pay the full amount of federal tax owed, the Internal Revenue Service will collect the delinquent tax in one of several ways. To answer questions about its collection process, the IRS has prepared the following:

Q. I thought I had paid my taxes, and now I've received a notice from the IRS saying I owe more. How can that be?

There may be several reasons. You may not have had enough tax withheld from each paycheck, or perhaps an error was made in the preparation of your tax return. If you are self-employed or had other income not subject to withholding you may have missed making the tequired quarterly estimated

payments. Q. The IRS says I owe more tax, but I don't agree. What can I do?

A. If you think that the bill is wrong, notify the IRS immediately by writing to the office that sent the bill. Be sure to have available any records which support your claim, such as cancelled checks

or tax returns. Do I have to pay the entire amount of delinquent tax imme-

diately? A. If possible. The employee has dling your collection case will review financial information which you provide to the IRS and determine whether the full amount can be paid at once, or if you qualify for an installment payment plan.

What if I don't pay the IRS after they notify me that I owe delinquent taxes?

When an individual owes more tax, a bill is sent with payment due within 10 days. Sev more bills and a telephone call may also follow. If a taxpayer neglects or refuses to pay taxes or to make satisfactory arrangements for payment, a levy may be issued against the taxpayer's salary, wages, bank accounts, or commissions. During the levy process, if the tax bill is paid in full or an acceptable installment agreement is reached, ordinarily the levy will be released.

What rights do I have during the collection proceedings? You, as a taxpayer, have several basic rights during all collection-related activities. They include representation, the transfer of a tax case to another

office when your residence changes, receipts from the IRS for any payment, copies of all contractual arrangements, confidentiality of tax matters, and the elimination of a penalty with reasonable cause.

Where can I get more detailed information about the col tion process?

More information is available in IRS Publication 586A, The Collection Process (Income Tax Accounts) available free by using the mail-order form in your tax package.

I received a bill from IRS for some additional tax and paid the amount in full. However, after going over my records 1 found some documents to verify that I owe less fax. What can I

do? If your records now show that you overpaid your tax you should file an amended return, Form 1040X. Amended U.S. Individual Income Tax Return.
