Lowell Board of Education Briefs

The Lowell Board of Education held its regular meeting on Monday, May 14, 1984 at 7:30 P.M. in the Board offices. After the approval for the payment of riculum Department reviewed their present program and future

Board action on personnel items included the acceptance of the resignation of Margaret McMahon at the end of the 1983tified staff. In other business, the Board approved the calendars for the 1984-85 and 1985-86 school years. The first day of school next fall for students is Tuesday, August 28, 1984 Authorization was given for the Superintendent to sign an agreement with the Gus Macker Society, Inc. for the use of the middle school parking lot during this year's basketball tournament.

Department, reviewed the textbook recommendations for the High School U.S. History Curriculum and the board gave their approval to adopt the texts. A report was then given on the condition of the middle school roof upon completion of the

Thermocore analysis which had been conducted earlier in the spring. The Board acknowledged receipt of the report but reserved formal action on the recommendations until a better picture of funding resources is available.

In the last item of business, the Board gave consideration of the district's copying needs for student materials and administrative purposes. Discussion then followed on the direction necessary to improve quality of copies at a reduced cost.

Known as the "Journey for Sight", the event is an annual project of DSAM, which this year is being conducted in cooperation with the Lions Clubs of Michigan and the Leader Dogs for the Blind in Rochester, Michigan. The school trains over 300 Leader Dogs each year and provides sightless individuals with a Leader Dog and four weeks of training without charge. The Leader Dogs organization depends entirely on individual contributions and fundraising activities undertaken annually by Lions Clubs to fund its operations.

The 1,000 Mile "Journey For Sight" Non-Stop Relay run is undertaken by The Deputy Sheriffs to help publicize the work being done by Leader Dogs for the Blind and to make known services the organization makes available for sightless individuals, as well as its continuing need for contributions from the general public and business organizations.

Three five-man teams will run continuously at a pace of one mile per nine minutes. The runners rotate by passing a white cane from one to another every five miles. A support crew of

M.S.U. Student Coordinator

Laura Yost of Rockford will serve as student coordinator for one of 45 volunteer programs offered through Michigan State University's Service Learning Center.

The MSU Service Learning Center serves as a liaison between the students and the university community, and coordinates the largest college volunteer program in the nation.

Yost, the daughter of Dr. and Mrs. William G. Yost Jr. of 10440 Six Mile Road, N.E., will be a student coordinator in the Woldumar Nature Center program in Lansing. The center consists of 188 acres of field, forest and aquatic habitats.

Student coordinators are re-

sponsible for providing information, orientation, transportation and schedules for program volunteers. In addition, coordinators meet with volunteers once a term to solve problems and assess each volunteer's progress.

As coordinator, Yost will supervise students who work with a naturalist in presenting programs to children in plant identification, bird and mammal habitat and Indian and pioneer lore. Volunteers will also serve as day camp counselors and field trip guides for groups of school children.

An English education junior, Yost is a 1980 graduate of Lowell Senior High School in Lowell.

and could not find it? You looked high and low and everywhere but without success. Then, all of a sudden it appeared as if from nowhere. Or, perhaps you came across it in the most unlikely

place in the house. If we live with creative faith, we find that good often comes from the most unexpected sources. We find blessings where we least expect to find them. The most unpresuming task brings the greatest reward; the uninvited guest, the most pleasurable and rewarding fellowship. Sometimes we discover new friendships with those we assumed to be the most unlikely propsects. Philip found Christ. He ran quickly to tell his friend, Nathanael. "Can there any good thing come out of Nazareth? Nathanael asked, doubting. But at Philip's insistence he followed and also found Chirst, the giver of peace and joy, and Nathanael became His disciple.

It pays to take advantage of opportunities as they come. They may lead to joy and satisfaction. Like Nathanael, we often receive blessings from the most unexpected sources and in "the most unlikely places."

Prayer: Heavenly Father. Thou hast prepared many blessings for Thy children. Remind me not to shun responsibilities nor opportunities for service. lest I forfeit unexpected blessings. Grant that I shall always live with creative faith. Amen. Oh, for the peace of a perfect

"The demand for electricity in the United States closely tracks our economic activity. If our economic output increases, the consumption of electricity goes up. If our economy is stagnant, the demand for electricity stays flat. It's been that way for more than fifty years.

POWER TO GROW Electric use grows at a rate approximately equal to the growth rate of the Gross National Product. The two track side-by-side. One cannot grow without the other. Careful studies of that relationship since the 1973 oil embargo have demonstrated conclusively that economic activity and electric consumption are linked more closely today than ever before. As our economy grows, so grows our electric use.

In a previous message on these pages we discussed the issue of electric energy supply in Michigan and how we must increase that supply by completing ongoing ENERGY construction projects. As you have almost certainly read or seen, not everyone agrees with us on that issue. There are those who say we need no new generating plants, that our forecasts of growth are too high, that we can get by for a number of years with just the generating plants we have operating today. But think a minute. If electric consumption in our state is not going to grow appreciably in the 1990s, as some sources suggest, and given the interrelationship of electric consumption and our economy, what they are really saying is that Michigan is going to stagnate economically, that our economy is going to grow barely, if at all, in the coming decade.

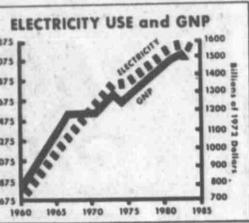

We simply cannot accept that predicting and building for a very modest growth rate. Our projection for growth parallels that of Detroit Edison, which forecasts increases of 2.6 percent per year,

INSURING **MICHIGAN'S FUTURE** 

Dr. Chauncey Starr, Vice Chairman **Electric Power Research Institute** 

and those of utilities in Ontario, Ohio and other nearby states whose forecasts range from 2.1 to 2.8 percent per year. Even the Michigan Public Service Commis sion staff forecast of Consumers Power's load growth is virtually identical to ours until about the vear 1993.

**ENOUGH TO GO AROUND**?

But there are also those who say it doesn't matter if our forecasts are more accurate than theirs, that it doesn't matter if we're right in our planning. Sure, they say, we may be short on our own electric capacity, but that's all right, we can just buy power from those utilities that are building for the future.

Perhaps. But will there be enough power available to us from others, and what will be the price of that power? Look again at the growth foreeasts for the utilities around us, those from whom we would be buying power. That growth is in their areas and states and provinces, not ours. We have no guarantee that those utilities will build enough new capacity to meet their own needs, let alone ours. If they do, they will sell power to others only after they have served their own people and industry, and the power they sell will be the most expensive power they produce. Right now we have the lowest electric rates in Michigan. If we depend upon other utilities to supply our customers with power, that will no longer be the case.

#### **DEPENDENCE**?

Is that the way we plan for the future in Michigan? Is that a rational course of action when one of the highest priorities of our state is to encourage industrial expansion and attract new business? In the wake of the 1973 oil embargo one concept was burned into the minds of most Americans: Energy independence. No longer would we entrust our energy future to others: we would control our own

At Consumers Power Company our goal for almost a century has been to provide power to our customers when they want it and need it. That's the basis of our planning, the blueprint for our construction. By carrying through proposition. We're not predicting with our plans we intend to ensure nor are we building for an econ- that our customers hold the key to omic boom in Michigan. We're the future-a reliable electric energy supply-in their own hands.

Larkin's Saloon and The Combination, are co-sponsoring a Walleye, Smallmouth tournament on the Grand River in Lowell. It is a 100% pay back contest and all entry monies will be paid back in prizes, every week. To the best of my knowledge, this is the only such tournament to be conducted within the area and promises to provide many enjoyable hours of fishing pleasure for area residents. The tournament will be held every Thursday evening from now, May 17, until Labor Day. It will begin at 6 P.M. sharp and end at 9 P.M. The Grand River launch site, above the Hudson Street bridge, in Lowell, will be the starting point. Entry is by team (2 persons) only and sign up will be at Larkins Saloon or The Combination, anytime or at the Launch site from 5 P.M. on tournament days. The entry fee will be \$5, per species desired, per person. Contest rules will be posted at the launch site on tournament days. It is anticipated that from twenty to forty teams will participate weekly, and this should provide some attractive prizes. Undoubtedly through the eason some pro-fishermen will enter and this will add to the pleas-

The Grand River is once again becoming an outstanding Walleye fishery and will produce some excellent fishing. The Smallmouth will provide a surprise to many. Very few fishermen realize the potential of this river as a Smallmouth Fishery. Many limit catches of fish of up to five pounds will be realized. A recent article in the Grand Rapids Press depicted the Grand River, from Ionia to Grand Rapids, as being full of huge Walleyes and it sounded as though everyone was catching fish in the eight to twelve pound class. The writer of that article certainly had his head where the sun never shines. A few fish of this size are available, but most, who have

### **4-H offers** wonderland of foods

Kent County 4-H has developed a new and exciting pro ject titled, "Wonderland of Foods." The project consists of 10 different modules -- dairy foods, breads and grains, fruits, vegetables, meats, ethnic foods, food preservation, food art, herbs and spices, and cooking methods. Each is full of fun activities, demonstration ideas, field trip suggestions, recipes, and resources. The modules can be used as a series or by themselves.

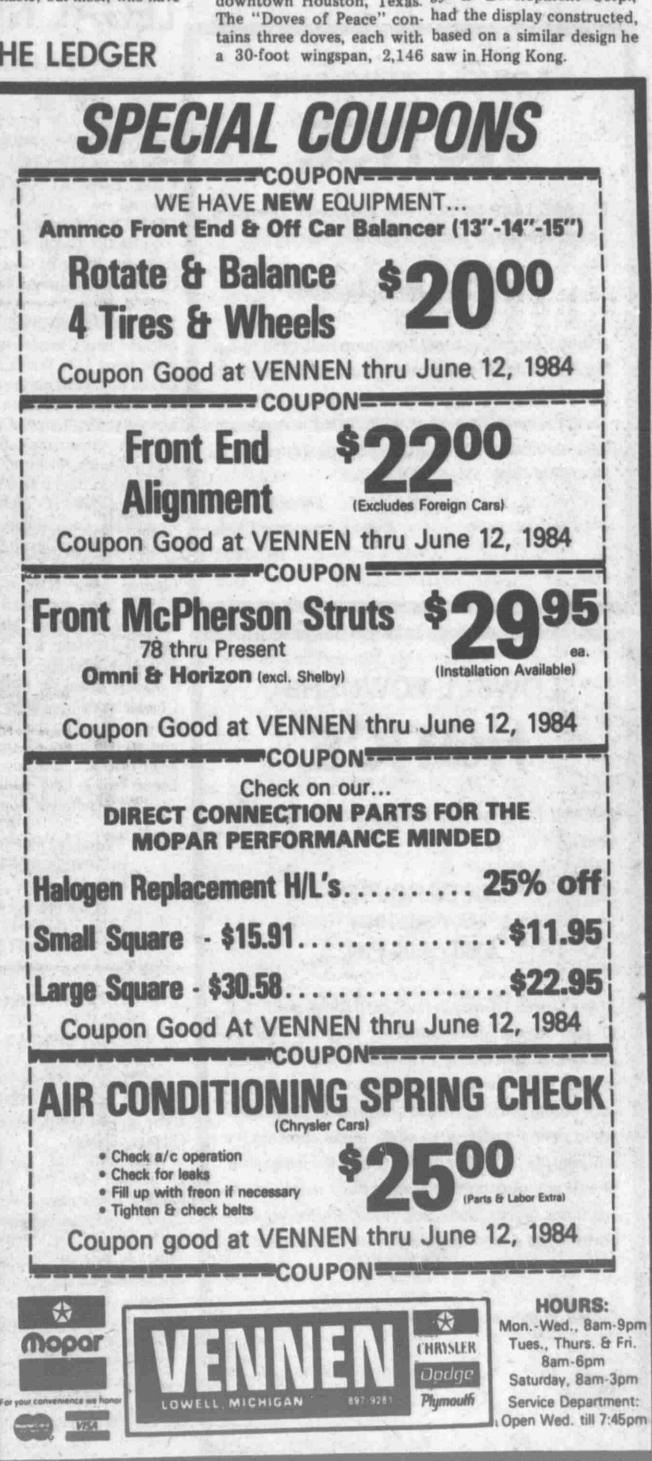

"Wonderland of Foods" is a fun and interesting way for young people to learn about food and nutrition. In the Bread and Grain module, youth can learn measuring and mixing of ingredients, how to make various breads, uses of leftover breads, types and uses of grains and nuts. The Vegetable module teaches about the taste, texture and uses of vegetables, how to make special soups and blender drinks, how different cultures use different vegetables, and more. The Ethnic Foods module helps youth explore different cultures through foods. Learning about herbs and spices, where they originated, how they grow, and how they're used, is included in another module.

Each module contains special learning experiences and fun activities for the younger set . . ages 4-8. Older youth may be

especially interested in the modules on food preservation, ethnic foods, and food art. Also available is information on catering and careers in the foods industry. If you would like to know

more about this exciting project, please call the 4-H office (774-3265). We'd be glad to send you a special packet that explains all the areas available to you in the 4-H "Wonderland of Foods."

Chairman Thompson then adjourned the Zoning Board of Appeals at 8:16 P.M. and turned the meeting back over to Mayor Maatman.

Manager Quada then anounced that he had received a reguest from Mr. Don Fizer of Michigan Wire Processing Co. to withdraw the previous request for an election on May 22 on the ball diamond property. He explained that Mr. Fizer is looking into several other options for his company at the present time, but will continue to support the City's parks and recreation programs.

IT WAS MOVED by Councilman Collins that the May 22, 1984 election to place the removal of the five-acre ball diamond parcel located at Recreation Park from the City Master Plan be cancelled, supported by Councilman Schneider.

#### Carried.

Manager Quada then distributed copies of the 1984-85 Proposed Budget to Council, stating that copies were available for public review at City Offices and the Lowell Library.

He stated that in past years Council has elected to hold two public hearings on the Budget, the first and third Mondays in May. Only one is required, but two hearings give all citizens the opportunity to review the facts and figures before adoption.

He explained that the millage rate for the City in 1983-84 was 11.83 mills per thousand dollars of assessed valuation, in 1984-85 it will be reduced to 11.23 mills, due to the County's raise in assessed valuation in the City of approximatley 3% roll back the tax levy so as not to collect more tax dollars than approximate line with what they paid last year.

He then briefly explained the categories for the various revenues and expenditures expected by the City, citing not many changes. There will be no change in the water or sewer rates, but stated that the City will have to look at those figures soon in James D. Maatman, ation costs.

Mayor Maatman then turned the meeting over to Councilman Thompson, Chairman of the Zoning Board of Appeals, who opened the Public Hearing on the request of Mr. Ned Swift for a variance from square footage requirements for living space in an R-1 Single Family Residential Zone, to allow the reduction from 1500 square feet to 1100 square feet, in order to build a new home on N. Washington Street.

Mr. Swift was present and stated that the additional 400 square feet would be an enclosed basement area which would be finished off as a family room at a later date.

There was a discussion by Council on the Planning Commission's decision to review all of the square footage requirements for each of the residentially zoned areas for possible recommendation for reduction, and Manager Quada stated that a similar request had been granted a year ago on the same piece of property by the request of a different property owner.

Chairman Thompson closed the Hearing at 8:09 P.M.

IT WAS MOVED by Councilman Schneider that the square footage requirements in the R-1 Single Family Residential Zone located on N. Washington Street on a parcel of property owned by Mr. Ned Swift, be reduced from 1500 to 1100 square feet, supported by Councilman Fonger.

By the same token, the Landfill category has been reduced, the only activity being done now since its forced closing by the State, is the covering of material, and general maintenance of what is already there.

IT WAS THEN MOVED by Councilman Thompson, supported by Councilman Collins that a Budget work-study session be held on Monday, May 14 at 7:30 P.M. in the Council room of City Hall, as requested by the City Manager.

Under Council Comments, Councilman Schneider asked about the installation of the City's new phone system. Manager Quada replied that the system had been started on Wednesday, wire strung throughout the buildings, and phones were being hooked up and would be finished on Friday. He showed Council one of the desk units being installed and explained its operation.

Councilman Collins asked about the Helen Look-Daley Fund not being part of the City's budget process, how would it be handled. Manager Quada replied that it has all been entered on computer and Council will get a printed report on a monthly basis. It is controlled by the Look Committee and will be handled on a separate basis.

Councilman Thompson commented on the annual Spring Cleanup of the Michigan Wire property in time for the softball season being done, a vast improvement.

Mrs. Burke from the aduience asked about tank trucks getting water from the City at the Monroe-Avery Street hydrant.

Manager Quada replied that it is an arrangment between the city and Aero Liquid Transit. When they moved their operation on Grand River Drive, they drilled four wells, planning to use the water supply for flushing out their tank trucks used to haul liquids. The water from those wells pitted and ruined the interior of the tanks, so they purchase the processed water from the City for that purpose. They pay a readiness to serve charge the same as the City residents, plus double the consumption rate of residents. pect a strong summer camping Joseph. season this year, up as much as five percent over last year, reports the Automobile Club of Michigan.

"State parks are keeping campsite fees at last year's level and private campgrounds have raised their average price per campsite only 44 cents," stated James Drury, Auto Club Travel Operations manager.

"Michigan Department of Natural Resource officials report that confirmed state park reservations already are up 16 percent over a year ago," he added.

The average cost for a campsite with electricity at the 371 private parks listed on the Auto Club's 1984 Private Campground Guide is \$7.89. with prices ranging from \$17.50 to \$1.50.

State park campers will pay \$7 nightly for a site with electricity. Other state park fees -- \$4 for a rustic site, \$3 for an advanced reservation and the \$2 daily or \$10 annual park entry permit -- also are unchanged from last year.

Rustic site fees at Michigan's state forest campgrounds remain \$1 to \$4, with fees at the National Forest Campgrounds generally ranging from \$3 to \$5.

An Auto Club survey of private campground operators shows 58 percent said they had an increase in business last year. 18 percent had a decrease and 13 percent had the same buiness as the previous year.

State park officials said the 1983 camping season gnerally was equal to the 1982 season.

Campgrounds listed on the Auto Club guide range in size from 25 to 600 sites, and 72 percent offer swimming in a lake or a pool.

There are more than 63,000 campsites in Michigan, including 32,235 private, 13,971 state park, 3,100 state forest, 2,405 federal and 11,174 county. township and city sites.

Phone reservations can be made at most private parks. ### **KCRC** Publishes **Golf Course** Guide

The Kent County Parks Department has redistributed their golf course brochure for county residents. The brochure, entitled "Public Golf Courses In Kent County", is being distributed throughout the area.

As it is with several of the other brochures that are published by the parks department, "Golf Courses In Kent County", was not a burden on taxpayers. Costs were incurred by Pro-Golf a local business dealing in golf supplies.

Brochures may be picked up at all Kent County Libraries, all Grand Rapids Libraries, the West Michigan Tourist Association, the Convention Bureau. Chamber of Commerce, the Kent County Road and Park Commission General Offices, the County Clerks and Treasurers Office and Pro-Golf Distributors, 644 - 28th Street.

For additional information on this brochure, call 242-6968.
