Basketball

You won't find anyone on a YMCA youth basketball team keeping the bench warm this winter. Beginning immediately, children from grades 3 to 8 can register to play basketball in leagues set up by the Lowell YMCA.

This unique basketball program allows every child on every team to play in every game. Rather than putting all the emphasis on winning, the YMCA emphasizes values -- like teamwork, good sportsmanship, self esteem, and how to respect and get along with others.

Players learn the skills and the rules. Each team consists of 9 players and one or more coaches who, with the help from instructional manuals, work with team members on the fundamentals of basketball. Above all, the goal of the youth basketball league is to develop a lifetime commitment to physical fitness through active sports participation.

Youth can register at the YMCA Office from now until a scheduled Basketball Clinic on Thursday, December 13 with High School Basketball Coach Ken Akers instructing. Games will begin on Thursday, January 17. Volunteeer coaches are needed, and those interested should contact Nancy Anderson at the YMCA office at 897-8445. Further information about the clinic and a scheduled "Kick-Off Night" on December 20 will be printed in future issues of the Ledger.

People) Lowell's local substance abuse awareness group, will welcome John Baleski to their November 19th meeting at the Lowell Middle School. Baleski will address the group on developing capable young people. The meeting is open to the general public, all DARE members and the LHS teen group.

Baleski is the Montcalm County Director of Community Development for Substance Abuse Consultation Services. For the past fifteen years he has worked with students, parents and community groups to promote alternatives to substance abuse.

The past several years he has spent developing drug awareness programs in all the schools throughout Montcalm County. He is also affiliated with Kent County's "Project Rehab" and does work throughout Kent County for that group. Baleski

The alternatives Baleski offers are important to concerned citi-"We're obviously not zens. going to stop people from drinking," said Matt Vredenburg, chairman of Lowell High School's teen group. "But what we want to do is give them alternative choices."

Baleski has already spoken to the high school group on three occasions. "The ideas he gives us are good ideas," said Jami Andrews, LHS teen group secretary. "We take them and work on them and in the end they may not be the same ideas, but they are still good for our group."

"We change them to fit our school," adds Vredenburg. "I can relate to him (Baleski) because he was a user and he knows how we (teens) feel."

Lowell guidance counselor Barbara Pierce added that parents can also relate to Baleski. "He knows what's really hap-

8th Annual Great American Smokeout

Thursday, November 15 marks the 8th Annual Great American Smokeout. It's the day when smokers across the country give up their cigarettes for the day and maybe forever.

Waste cans identified with a poster urging smokers to "Throw'em Away Today" have been sent ot over 300 area businesses, hospitals, colleges, and high schools. Smokers are to drop unlit loose cigarettes, parts of packs, entire packs, even cartons into the specially marked waste cans and the cigarettes will be destroyed at the end of the day.

Dr. Richard Rasmussen, Thoracic surgeon at Blodgett Hospital and Respiratory Disease expert, will be answering questions during Smokeout afternoon, regarding smoking and lung cancer. You can reach him at the American Cancer Society/ Kent Count Unit, at 458-1204. Grand Rapids Mayor Jerry Helmholdt, a 2 or 3 pack-a-day smoker, will try to quit for the day, and is urging other area smokers to join him.

Twenty Creston High School National Honor Society students will invade the downtown area over the noon hour on the 15th to distribute Great American Smokeout survivor kits that will include literature, buttons, stickers, and wrist snappers for the nervous types that need to do something with their hands.

The Kent County Unit, Honorary Chairperson, Gary Bazner of TV 8 urges everyone who tries to quit for the day to call the American Cancer if they made it through the day.

And we wish everyone who tries, "GOOD LUCK".

When people in Michigan speak of "The Holidays", I'm sure that many, if not most, include opening day of deer season with Thanksgiving, Christmas and New Year's Day. I'll bet that the northern hunting camps have been occupied since this past weekend with hunters building blinds, cleaning guns and making sure there is a good supply of spirits, cards and poker chips. For most hunters, I think the latter items are the most important. I know of several deer camps where I could stop in for a toddy and a hand of cards most any time between now and Sunday evening. I might even get up enough players for a poker game at first light on opening morning in some of

those camps. If I go deer hunting, my wife knows that sitting out in the woods with a rifle is not my idea of a good time, so I don't make any pretenses. My suitcases contains comfortable clothes to wear around the cabin, a jug of hooch and some cards. There is no gun, no ammunition, no knife, no boots and especially no blaze orange hunting clothes.

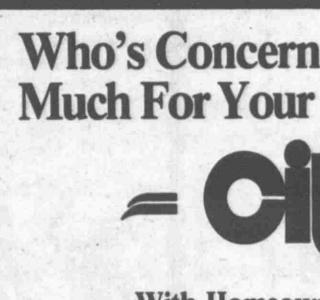

Oh boy, do I ever hate blaze orange. Whoever made it mandatory to wear blaze orange deer while hunting, ought to be asked to leave the planet. I've never owned any blaze orange, in fact I think I finally gave up deer hunting (not that I was ever very serious about it anyway) when they started making everybody wear that awful color. I think I hate blaze orange more than I ever hated olive drab while in the army. During deer season I feel like visiting an army camp just for some optic relief.

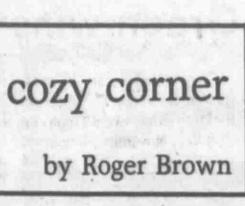

One of the guys in the back shop had two hats, a blaze orange stocking cap and a blaze orange hunting hat ... the real dorky kind with the fuzzy ear flaps and visor that can be worn up or down. He drove me nuts with those stupid hats by wearing one or the other all through the winter months. One day I finally got a belly full of his blaze orange, and told him to get a new hat. Have you ever seen a pressman's hat? It's a squared off affair that can be folded up from a paper. I tell ya, I don't get no respect.

Special campaign funds for Ethiopia by CARE

CARE, the international aid and development organization, signed and agreement today after a year of negotiations with the government of Ethiopia under which CARE will provide both food and financial assistance to the drought-affected people of Ethiopia.

The agreement was signed at the Ethiopian Mission to the U.N. by Dawit Walde Giorgis, representing the Government of Ethiopia and Dr. Philip Johnston, the Executive Director of CARE. "CARE estimates that it will provide 50,000 tons of food and \$10 million of other assistance to Ethiopia for this emergency," Dr. Johnston said. "Cash resources will be used to enhance the ability of Ethiopian ports to unload ships, to pay for the transportation and distribution of relief food to remote areas of the country, and to improve food storage capacity for the emergency commodities."

Dr. Johnston said the CARE staff will be arriving in Ethiopia in the first week of November "Our first priority will be to facilitate movement of foodstuffs in the country to areas where they are most needed. CARE has developed special expertise in working to alleviate the suffering caused by drought and famine which are extensive in Africa," he declared.

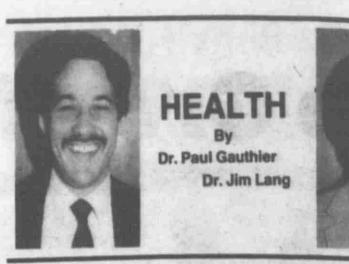

"For example," he explained "in 1981 CARE established a logistics operation for the distribution of food in neighboring Somalia, which has a severe refugee problem; earlier this year CARE also set up logistics operations for food distribution Mozambique and the Sudan. both of which are currently suffering from drought and widespread hunger.

"Also, in response to severe drought conditions and accompanying food shortages in West Africa, CARE will begin a logistics operation on November 1 for the distribution of emergency food in Mauritania," Dr. Johnston concluded.

CARE is launching a special campaign for funds for Ethiopia through its World Headquarters at 660 First Avenue, New York, N.Y. 10016.

Diaper Dermatits or "diaper rash" is a very common pediatric ailment, and one which is seen very frequently in the office of the family physician. In many instances, using a few simple common sense measures, this common malady may be treated very successfully at home. Today we will briefly review some of the more common causes of diaper dermatitis, and hopefully illuminate for you how it can be dealt with in the home setting.

Diaper dermatitis is a blanket term which can include several types of skin disorders which appear in the baby's diaper area. The three most commonly seen skin abnormalities in the diaper area are primarily irritant dermatitis, allergic dermatitis and a fungal or yeast infection caused by the fungus candida. The following illustrate how each of those is best dealt with:

PRIMARY IRRITANT DERMATITIS: Because of the infants mmature skin, scanty sweating and inactive skin glandular secretions, his diaper clad bottom is especially susceptible to drying and chapping. Ammonia as a urinary breakdown product along with bacteria, bacterial products and some fungi have all been implicated as skin irritants. Some stuides have shown that the ammonia may aggravate the irritation but is not the primary cause of the problem. Most authorities believe that irritant diaper dermatitis results from friction and chafing of constantly wet skin. It is best treated by changing the diapers frequently, applying zinc oxide ointment for protection, using 1/2% hydrocortisone cream (cortaid) if the skin is very inflammed, and leaving the diapers off for three or four hours each day if possible

ALLERGIC DIAPER DERMATITIS: If the baby does not respond to treatment for frictional irritant dermatitis, allergic dernatitis should be suspected. Allergic dermatitis is more common in infants over one year old and usually results from sensitivity to some chemical in the diaper. It is also possible that the infant is allergic to a nonprescription cream or ointment which the parents are applying to the baby's skin. In most cases, either changing the type of diaper the child is wearing or eliminating any home remedy nonprescription cream will usually alleviate the rash.

CANDIDIASIS (Fungal infection): Candida infection of the diaper area causes a beefy-red shiny rash, mainly confined to the body folds, and often is accompanied by red "satellite" lesions. which are small red sores surrounding the central dark red areas. As with irritant diaper rash, candidal rashes are thought to occur because of the immature skin development of the infant. The moist, warm environment of the body folds also is a prime growing area for this fungus. When this particular rash is suspected, most often the child should be seen by your family physician or pediatrician, as the therapy is usually a topical prescription anti-fungal cream.

In summary, here is a short list of measures you may take at home in an attempt to clear your baby's diaper dermatitis: 1) ALWAYS employ frequent diaper changes, as this will allow

for a less irritating and drier environment. 2) Allow the baby's bottom to "breathe" by leaving the diapers off for several hours each day.

3) Avoid the use of rubber or plastic pants as much as possible as these act as occlusive dressings and prevent good drying of the skin. 4) Avoid any cornstarch home remedies since it is a medium in which the candida fungus flourishes.

5) Several talcom powders are available over the counter which may be used in an attempt to keep the baby's skin dry. 6) Other over the counter preparations such as Desitin may be

tried in mild cases of diaper rash.

Finally, if the rash continues to worsen or is simply refusing to improve in spite of "home therapy", the baby should be seen by a physician for further evaluation and treatment. We welcome any questions and/or comments you may have re-

Makeup genius turns flesh into TV fantasy

Leo Lotito did not set out to become a makeup artist. "I wanted to be a career Marine," says Lotito, who heads the army of makeup artists and technicians working on NBC's Friday night scifi series "V."

Stage: The Critic

Described by its executive producer as "85 percent spe-cial effects," "V" requires Lotito's department to deliver everything from pancake and rouge to the mechanical head that took 13 weeks to build, for a scene requiring alien leader Diana (Jane Badler) to open her mouth an inhuman six inches and "swallow" a live guinea pig.

Chairperson Buth introduced new Commissioner

Kenneth Kuipers from the 21st District. Commissioner Pupel made the following statement:

"I feel compelled at this time to express to you, my fellow Commissioners, and to you, our County Administration, the great deal of respect and admiration and personal liking I have developed for you over the last few years. I think the people of Kent County are extremely fortunate to have such intelligent and dedicated public servants run our County. You have enhanced and dignified the word "Politics" and I have been very proud to be one of your number. You shall always occupy a warm spot in my heart. I shall keep you in my prayers so that the wisdom and love of the Holy Spirit will continue to direct you in what you have been doing. God Bless You, My Friends!"

FAMILY TIME WEEK IN LOWELL Our nation's freedom was born in the families that formed our thirteen colonies. During Family Time Week we pay tribute to the vital role the American Family has played and continues to play in the preservation of our free society.

The family is the birthpalce of order, justice and faith, and is essential to the healthy growth and development of children into responsible adults and good citizens.

Armed and buttressed by the knowledge that he or she is an individual backed by an affectionate family, the child becomes and an adult who willingly accepts community responsibilities and serves as a leader in the affairs of the nation.

Family Time Week is a positive response to those who have stated that the family is no longer of any value, that it is an outdated institution.

Therefore, I, James D. Maatman, Mayor of Lowell, do hereby proclaim November 19-25, 1984, as Family Time Week in Lowell, and urge all citizens to be mindful of the fact that the stability of a community, state or a country depends in great measure upon the influence of strong cohesive families.

Some people believe apes can talk but don't for fear of being put to work.

biggest cause of tooth decay and eventual loss. What is it - how do we acquire it - and how do we control it?

Plaque is the sticky, practically colorless film that builds continuously on the teeth. The main inhabitants of plaque are bacteria - one milligram of plague can contain a half-billion bacteria. Bacteria ferment sugars in the mouth (why not to eat sweets), changing them to acids which then eat away at tooth enamel, "Look, Ma cavities".

As the plaque creeps below the aum line, it mineralizes and becomes razor-sharp deposits of tartar which is the catalyst of periodontal (or gum) disease - by far, the major

cause of tooth loss in adults.

Plague must be removed daily by "proper" brusing and the use of dental floss. Have your dentist or hygienist show you how to do it properly.

The best way, if not the only way, to remove tartar long-established and plague is to have a professional cleaning. But, remember, it will start to reform the very next day. The only one who can remove plaque regularly is you.

ment and Design. Three groups were in attendance to make presentations to the Board of Education. The Lowell bus Drivers Association along with Dode Collins presented a bronze placque to be placed on the Bus Garage Building in memory of Donald E. Kelly. A dedication ceremony will be held on Wednesday, November 28, 1984 at 10:00 A.M. at the bus garage. The public is invited. On behalf of the

Bushnell Parent-Teacher Organization, President Gay Nauta presented playground equipment as a gift to Bushnell Elementary School, and Denise Dommer of the Booster's Club presented a check in the amount of \$2,000 as part of their promised donation in support of athletic programs.

Following the payment of bills, the Board took action on several personnel matters. The employment of Diane Hatt as the new elementary music teacher for Alto and Runciman was approved. Approval was also granted to hire Ellen Lee Jones under an extra duty contract as the new High School Debate Coach following the resignation of Laurie Ringling. The Board accepted the resignation of Cathy Bertelson who was the district's part time Speech Patholgist.

In other action, the Board awarded the lowest bid for propane fuel to Holton Gas Company as the district's supplier for propane fuel for the bus fleet. The amendment to the 1984-85 budget was adopted, and approval was given to approve the Debt Retirement, Athletic, and Food Service budgets for the 1984-85 school year.

The next items of business were related to the Transportation Department. Approval was given to award the lowest bid for a Collins Wheelchair Lift to Hoekstra Truck Equipment to be installed on an existing bus, and approval was granted to dispose of two buses for scrap metal.

In the last time of business the Board passed a resolution to change to Rate C with Consumers Power Company for the high school as it would constitute a cost savings to the district.
