\$20,000 and \$30,000 annually. which will be used as scholarship grants to graduating Lowell seniors. The trust will be administered

by the Old Kent Bank, and De-Boer thinks that the first grants will be available to 1986 graduates. The size and type of scholarships to be granted was left open in the will. A committee to administer the grants will be comprised of a trustee from Old Kent Bank, a representative from the school and a resident of Lowell outside of the school. All committee members will be appointed by the Old Kent Bank. DeBoer said the \$200,000 principle will not be used, and there are provisions to set aside some of the annual interest if the committee sees fit not to grant all of the earnings in a particular year.

Evelyn was the widow of Peter Speerstra who died on February 26, 1983 at their winter home in Dania, Florida. Speerstra was a life-long resident of Lowell and was a prominent businessman here. Speerstra owned the local Dodge dealership prior to selling it to Leonard and Orville Jackson. He also owned the Speerstra Insurance Agency and was a long-time president of the Lowell Savings and Loan. Besides his business dealings, Speerstra was a city. councilman for fifteen years, eight of which he served as mayor. His term in city government encompassed Lowell's transition from a village to a chartered city. Speerstra was also a charter member of the Lowell Rotary Club. The Speerstras were members of the Lowell First United Methodist Church. DeBoer said that the Speerstras wanted to leave a legacy that would continue to benefit the community that they had made their life-long home, and had loved so dearly. The endowment is one of several that have benefitted Lowell residents over the years. Others include major bequests from Florence King, Helen Look Daley, Solomon Lee and Philip & Jennie Winegar Schneider. These bequests make possible such benefits to the community as the swimming pool, YMCA, park improvements and Schneider Manor. Betty Coons, a Lowell resident and local history buff is researching these various bequests, and plans to submit a series of articles to the Ledger in the future. Lowell High School Counselor Gordon Gould said, "this is another fine example of hometown support for our school system". Gould said the new trust fund will join others that have been left to the school, but

TAX SALE IN THIS ISSUE

The Kent County Delinquent Property Tax sale paper is published in this issue of the Ledger. The 24 page listing of some 5,500 parcels of property in the county which have outstanding taxes due for three years or more is published each year by the County Treasurer's Office. The law requires that the listings be published three times in a newspaper of general circulation within the county, so it will also appear in your next two issues. The project is let for bids each year, and this is the second year in a row that the Ledger has been awarded the contract. The legalities of the tax sale are spelled out in the court order at the beginning of the listings.

Dry Skin: Prevention and Therapy

This week we begin a two part article on a rather timely subject, dry skin. During these cold winter months, dry skin becomes a very common dermatological problem, affecting both young and old alike. This week we'll lay some of the ground work as to what "dry skin" actually is, and next week we'll concentrate primarily on the treatment of this common problem.

Dry skin is one of the most frequent dermatologic problems a family physician encounters - especially among elderly patients. Dry skin, also known as Xerosis, can be described as dehydrated skin that shows redness, roughness, flaking, and chapping. The resultant cracks and fissures on the extremities occasionally resemble cracked porcelain.

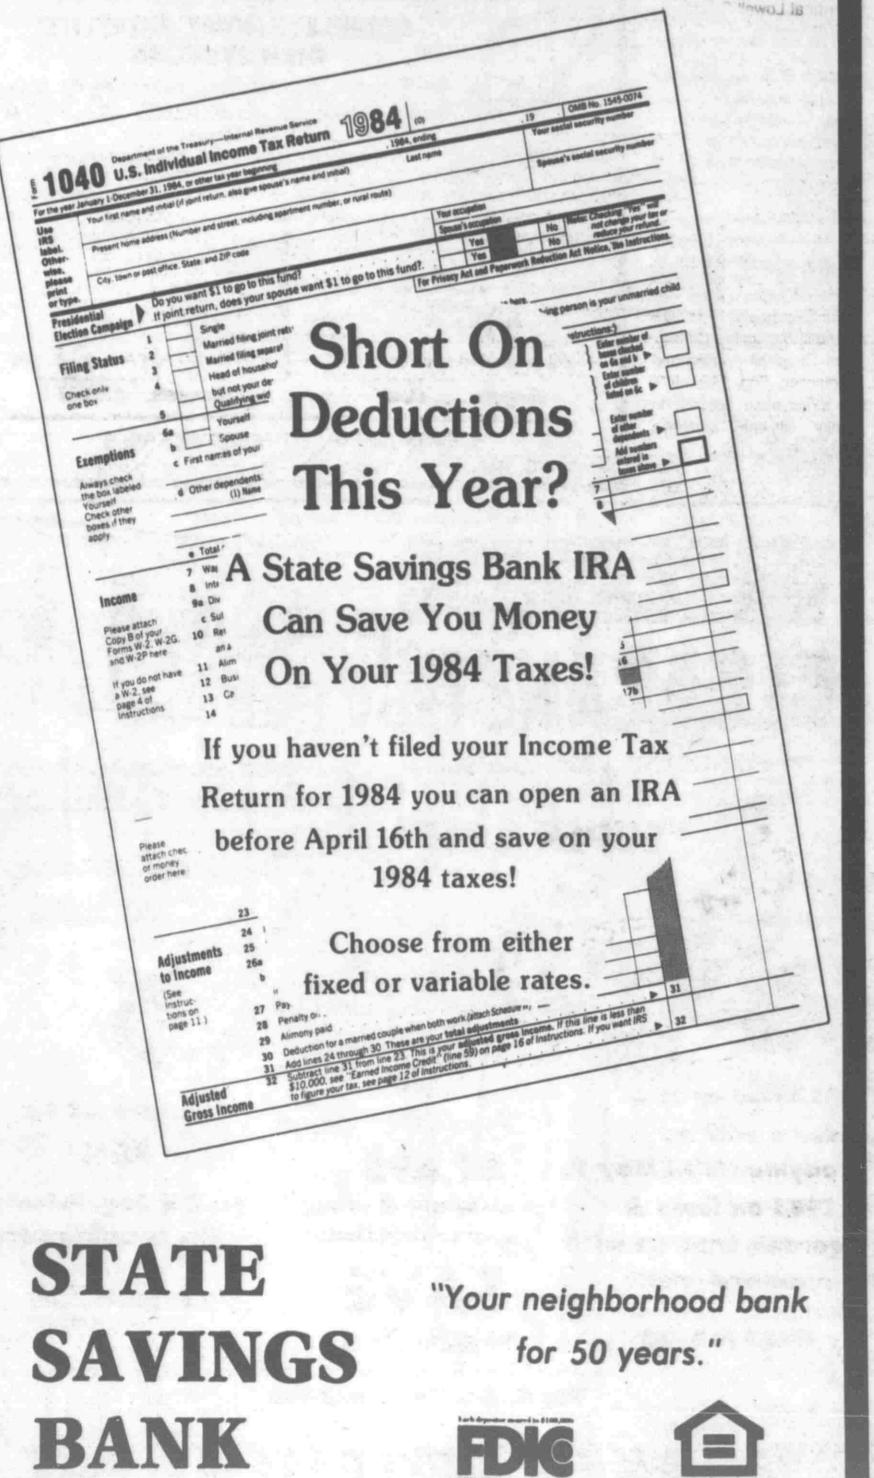

Dry skin usually appears in ill-defined patches over many different parts of the body, but the most frequently affected areas are the extremities -- especially the shins and hands. Probably the most common form of dry skin is that seen in the elderly. This is due in large part to an age-related reduction in the number and activity of sweat glands under the skin.

Environmental factors play a great role in the development of dry skin. During winter, many persons develop a seasonal drying of the skin, usually a consequence of both indoor and outdoor atmospheric conditions. Indoors, the heated air is extremely low in moisture; moreover, forced-air heating keeps currents moving past the skin, drying it even more severely. Outdoors, cold and blustery winds evaporate the skin's surface moisture, so that exposed areas more readily become chapped. The air is usually considered dry when the relative fumidity falls below 30%. When relative humidity is greater than 60%, it protects the moisture content of the skin from dropping to levels that would produce clinical dryness.

Over the last 30 years skin "moisturizers" have emerged as the gold standards of treatment for dry skin. Skin moisturizers act in two important ways: 1) they reduce evaporation of inherent skin moisture by forming occlusive and semi-occlusive films that coat the skin surface, 2) they also act as emollients. They mast the signs of dry skin by lubricating the skin surface, thereby making dry, rough skin appear smooth. The most common emmollients used in skin moisturizers are petrolatum, lanolin, and mineral oil. Because these three emollients are not cosmetically acceptable when used alone, water, thickeners, preservatieves, fragrances and colorings are also added to produce a relatively effective product. Next week we'll advise you on how to select a good moisturizer and, more importantly, offer you some good tips on some of the basic principles f dry skin care.

We welcome any questions and/or comments you may have rearding our weekly column. Please send them to our office at 147 V. Center Street, Lowell, Michigan 49331.

I reported in this space last year that Brown family had taken up downhill skiing. Well, we're still at it, and haven't suffered any serious injuries to date. The kids, of course, took to the sport like ants at a picnic. Terese and I have had to ease ourselves into it. I think a person's fervor for such activities begins to get a little brittle along with the bones at about age thirty. Terese is doing quite well. Her moves are becoming much more fluid, and she is tackling more and more difficult slopes all the while.

As for me... I'm at a loss for words, but there is a gesture that pretty well sums up my progress. The gesture is made by holding out your hand, fingers extended, palm down. Then you tip the sides of your hand up and down by twisting at the wrist. The nose and upper lip are scrunched up while you wiggle your hand. An "ehhhhh" sound can be made in conjunction with the gesture. I think this gesture was originated by the Italians, and Christopher Colombus probably used it frequently when his crew asked him how the rations were holding out. It means, "okay", "average", "mediocre" while at the same time insinuating that things are really on the negative side.

Last Sunday we skied Caberfae with some friends who are avid skiers. The parents are our age and have been skiing since high school. Their children almost learned to ski before they could walk. When we got on the slopes the kids scattered in search of moguls. jumps trails through the woods, etc. The wives teamed up, so Dick and I were soon off on our own with me valiantly trying to keep up with this very strong and experienced skier. Two days later my muscles and joints are telling me how stupid I was.

The first thing Dick wanted to try was a very steep drop off the side of one of the easier slopes. The area hadn't been groomed, so the snow was quite deep. I fell every time we tried it, but I kept on following him, never getting any smarter as the day wore on. With my clothing full of fresh powder, we took off for the biggest slope.

At the big hill Dick skied a pretty serious set of moguls while I worked my way down the less challenging side of the hill. We'd meet at the bottom and ride back up together. This was working out pretty well, but then he told me about a trail he had found that led down through some untouched powder. I'd never skied powder, but I was game. On the trail over to slope we were to ski, we encountered a couple of pretty good size jumps. Clipping along on a narrow trail, I had no choice but to take the jumps and hope for the best. I'm sure a any moviemaker looking for some comic footage would love to have my jumps on film. An airborn walrus like me with crossed skis and flailing poles has got to be a sight to behold. I know Dick was laughing

Dick gave me a few tips on skiing in powder, and I watched while he effortlessly glided through it. Then it was my turn. I did okay (remember the gesture) until near the bottom. I hit a big drift and dug in my ski tips. I was sent head over heels, and landed head first in a good three feet of loose snow. Dick could hardly stand up from laughing so hard.

This continued throughout an eight hour day during which we stopped only for a half hour lunch and a quick cup of hot chocolate. By the end of the day my knees were jello, my ribs hurt from a "headfirster" on ice and a hip was badly bruised. To say I slept soundly Sunday night is possibly the understatement of the year. You may wonder if I enjoy all this physical abuse. Well, we've already made plans to ski again next Sunday, so I guess I do. If my aching body could answer that question though, I'm sure that the aforementioned gesture would be putting things mildly.

LOOKING FOR Mr. Goodbook"

by Cathy Clair Robert Leighton, a nineteenth century writer, once wrote that he wished he had " . . . liberty and endless time to read." He should have lived in Michigan! If the winter weather continues to keep peole inside, many will have more time to read than they had planned. With that in mind, here are some new book suggestions with enough variety for everyone.

The Sicilian by Mario Puzo is the long-awaited new book by the author of The Godfather. The novel begins with Michael Corleone at the end of his two year exile in Sicily. The Godfather has given his a mission: not to return to America until he can bring with him a ing man named Salvatore Guiliano. Guiliano is a bandit, a latterday Robin Hood, who fights for the rights of his peasant countrymen against the corrupt government of Rome. He soon enters into his deadliest battle, not with Rome, but with Don Croce Malo, Capo Di Capi of the Mafia. In challenging Don Croce's iron grip over the island, Guiliano sets in motion a war of cross and double-cross in which the loser must die.

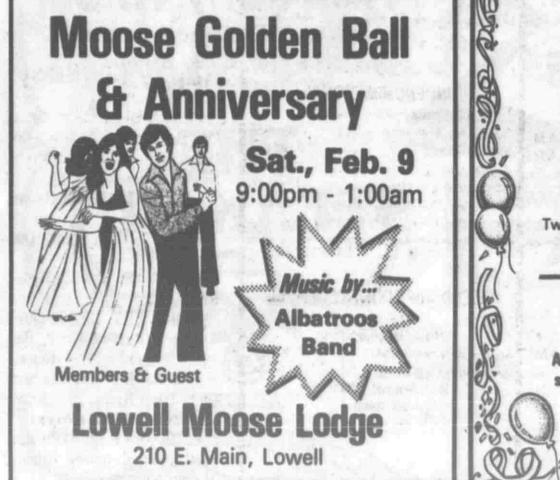

This is a story of explosive suspense, heroic action, and evil on an epic scale. Once again Mr. Puzo succeeds in giving his readers a good story as well as a terrifying look at the power of the Mafia.

The Talisman by Stephen King and Peter Straub is the product of the collaboration by these two prolific writers of horror fiction. This is an adventure, fantasy tale of twelve year old Jack Sawyer who is about to begin a frightening journey. He must find the Talisman in order to save his dying mother, and to defeat the enemy who is out to destroy them both. But to reach his goal, Jack must make his way not only across the breath of the United States, but through the menacing Territories as well. As he makes his way westward toward the Talisman, an array of heart-stopping encounters challenge him at every stop.

Illusions of Love by Cynthia Freeman is the latest love story by the author of Come Pour the Wine. The plot centers on a romantic triangle that spans a quarter of a century. In the Matter of the Complaint of the State Freasurer of the State of Michigan, and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

TO THE CIRCUIT COURT FOR THE COUNTY OF KENT

ROBERT A. BOWMAN, State Treasurer of the State of Michigan, respectfully shows unto the Court:

1. That he is the State Treasurer of the State of Michigan and makes and files this complaint under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 380 oFP.A. 1965, as amended.

That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year af-

ter they were returned as delinquent. 3. That extended separately in said schedule aganst each description of said lands therein contained are (a) the total of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensueing, (c) a County Property Tax Administration Fee of four per cent which shall be a minimum of \$1.00 as provided by Section 211.59, C.L. 1979, as amended, and (d) \$10.00 for expenses, all in accordance with the provisions of the act first above

mentioned. 4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinguent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, county property tax administration fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michiupon such lands by the sale thereof.

Wherefore your plaintiff prays:

a. That within the time provided by law this court may determine and adjudge that the aforesaid taxes, interest, county property tax administration fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein ex-

b. That within the time provided by law this court make a final judgement in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, county property tax administration fee and expenses as computed and extended in said schedule against the several parcels of land therein contained, and the amounts listed in the column headed "aggregate" shall constitue the amounts adjudged against the said several parcels, unless so amended by this court;

How to Avoid Most Common Errors On Form 1040

Each year there are some predictable 5. Balance Due/Refund. This importrouble spots with federal income tax forms, according to the Internal Revenue Service. These are areas where large numbers of taxpayers make incorrect entries and thereby slow the processing of tax forms.

These trouble spots fall into two broad categories: problems that recur each year, such as taxpayers selecting the incorrect figure from the tax tables; and problems that stem from changes in the tax laws and forms from one year to the next, such as the addition of a new line to a form or the shift of an existing line to a new position on the

Not surprisingly, the largest percentage of errors are made on Form 1040, the so-called long form. To assist filers of this form, IRS has compiled the following list of problem areas to double-check

- Medical Deductions. This item is not entered on Form 1040, but on a related schedule. Because Schedule A was redesigned last year, this item will probably lead the list of last year's most common errors. Due to rule changes on medical deductions, IRS expects problems again this year. Be sure to check the limitation on medical expenses.
- . Figure from Tax Table. Because of the number of pages and figures involved, this item is always high on the list of most common errors for all tax forms. Double check the figure from the tax table for your filing status and enter on line 38. Check the box for Tax Table.
- Unemployment Compensation. Due to changes in the tax law last year. this item moved into the list of most common errors. Doublecheck your figures on the worksheet in the tax instruction booklet (page 10), and make appropriate entries on lines 20a and 20b.
- 4. Child Care Credit. Read instructions carefully and double-check your computations on Form 2441, Credit for Child and Disabled Dependent Care Expenses. Enter the figure on line 41 and attach Form 2441 to your return.

Manager Quada headed a discussion on a request by Michigan Wire Processing to run water and sewer lines to their new property, (formerly DeMull's Junkyard), on W. Main Street. He suggested that the previous study be updated for costs, and that the other businesses in the area be contacted for interest. in such a project to make it worthwhile to install. It could be handled on a special assessment basis, if the other businesses are interested in hooking up at this time, or, if it is necessary to run it direct to the Michigan Wire Property, they would have to pay the costs, then, as other businesses hooked in, they would then pay a proportionate cost to Michigan Wire, which would then recoup their initial expense. Water and sewer are available as far as the proposed connector street at this time.

Mayor Maatman announced that a committee composed of Roger Brown, owner of the Grand Valley Ledger, Kathy Clair, Librarian and Betty Coons, a Lowell historian, funded by the riers are needed to keep vehicles off the playing areas and Helen Look-Daley Committee, will begin microfilming of all old Lowell Journals and Ledgers for preservation of Lowell's his-

A continuing series of articles for high school students on what Kent Skill Center has to offer you.

RESIDENTIAL CONSTRUCTION

A house is home, at least for 2-1/2 hours each day, for students in the Residential Construction program at the East Beltine Skills Center. Skills taught in this two year program stress woodworking craftsmanship on an actual house from foundation to roof. Students learn how to rough-in walls, apply siding, lay brick, install doors, windows and paneling, and pour cemet.

If you are a high school junior or senior who would like to use your hands working with many different kinds of building materials, and if you take pride in a fine finished product, then Residential Construction is for you! You should consider woodshop and drafting as additional beneficial courses.

Independent house building and commericial building contractors are primary sources of employment. Skills learned in this program will also enable students to find employment in the following related areas: rough-in carpenter, finishing carpenter, concrete worker, roofer, siding applicator, wallbyoard installer, painter, wall paper hanger, cabinet maker, insulator and building materials salesperson. This course would also benefit students preparing for college and a career as an architect, TEST building engineers and real estate salespersons.

This bone then is made the focus of fetch and play sessions at least twice a day. The owner's scent and the meat scent make it an appealing object for chewing. When the dog iss left alone, the bone is handled by the owner prior to leaving. Since the bone, rather than other articles, now has become the item of intense interaction between dog and owner, the vast majority of dogs will aim their chewing at it. Any oral attention toward forbidden objects is immediately distracted as the bone is introduced to the dog.

Another purely mechanical approach to solving a chewing problem has been successful in over 65% of cases tested by clients. The procedure is as follows: 1) Get a spray can of dry type unscented (to humans) underarm deodorant; one that does not contain hexachlorophene. 2) In the area where chewing takes place, kneel in the dog's presence, holding the spray can so it will squirt at a ninety degree angle to the dog's nose. 3) Act "coy" about the can and when the dog is about to sniff it, push the button briefly as you move the can smartly toward the dog's snout (but don't hit it). 4) If the dog's response is to withdraw quickly, simply put the can away somewhere. 5) Without the dog in the area, take the can and lightly spray those articles which the dog has chewed or might be likely to chew. 6) Continue this process daily until the problem clears up. If no success is achieved with this method, try following the advice given in the previous paragraph.

Love Your Children - Buckle Them Up

This is the message from Secretary of State Richard Austin for Naitonal Child Passenger Safety Week (Feb. 8-15), to encourage greater use of child safety restraints.

According to Austin, use of child restraints in Michigan has saved many young lives and spared many more from lifelong injuries.

Unfortunately, less than half of the motorists buckle their children and many do not use child restraints properly, Austin said. Michigan's infant restraint law, effective April 1, 1982, re-

quires all children under four in vehciles to be held in child safety seats. Children between one and fices," Austin said. four, when carried in the back seat however, may be secured

with a safety belt.

"National Child Safety Passenger Week is a good time to make a special effort to learn more about the law and how to use child restraints.

'Invest In Youth' campaign at 36%

Mark Powell, Chairperson of the Lowell YMCA's Sustaining Campaign, looks at the results of the first five days' effort. The tote-board indicates \$3,936 or about 36% of the \$11,000 goal for 1985. Jim Hodges, Y-Director, tells us that usually the second week of the February drive will bring in a substantial number of gifts resulting in well over the 60% level. Contributions help support the overall youth programs and provide funds for scholarships to the camps and programs offered by the YMCA.

Some include: Career counseling needs, Computer training for teachers, Gifted and Talented Program; including special education, Remedial Program, Curriculum Coordinator.

A "Citizens' Night" will be forthcoming in April, to which the committee invites all parents and citizens of the Lowell School District. Your thoughts, concerns and recommendations will be heard. In the meantime, please call one of the following to discuss any of the above issues, or a topic of concern to you:
