#### ONCE-IN-A-LIFETIME

A couple of once-in-a-lifetime events have taken place here in the past few days. Orville Jackson was playing cribbage with his sisterin-law, Emma Smith of Whitehall on Tuesday, July 16. Orville dealt her three fives and the Jack of Spades. Lo-and-behold, the turn card was the five of spades, giving Emma an extremely rare 29 hand, the perfect cribbage hand. The once-in-a-lifetime term is a bit of a misnommer in Emma's case though, she was dealt one several years ago. For Orville, it was the first one he had ever seen in 65 years of playing the game. Besides the 29 hand, Emma counted 16 in the crib, two hands in a row and skunked Orville. Orville said he didn't like that very much.

On Saturday, July 20, Steve Wittenbach dropped in a hole-in-one on number 14 at Deer Run Golf Club. The 14th is a 174 yd. shot, and Steve used his six iron to accomplish the feat. Steve was golfing in the Annual Wittenbach Olds, Pontiac, GMC scramble. His holein-one was witnessed by Mark Kimball, Tom Kempker, Dale Kropf and Paul Stroosnyder.

#### MEMORIAL CONTRIBUTIONS

For those who may still be interested in sending a contribution to the Kathie Quada memorial fund of the Lowell Area Arts Council, please make checks payable to the LAAC and mail them to P.O. Box 53, Lowell, MI 49331.

#### UPDATE ON RECYCLE CENTER

A new, better and more handsome recycle enclosure with a roof, is in the works and will be built early in August at the front of the Eberhard's parking lot. In the meantime, either save up the recyclables or take them to the center behind the Cascade D & W.

#### ROTARY BLOOD DRIVE IS SLATED

The Lowell Rotary Club is sponsoring a Lowell area blood drive and all interested donors are urged to donate a pint of blood August 28, 1985. It is stressed that blood centers don't need blood--people do! The blood drive will be held at the Lowell Middle School on August 28, 1985 between the hours of 3 until 8.

#### DANISH FESTIVAL WANTS YOUR TALENT

Musicians, singers, dancers or anyone with any kind of talent are invited to participate in the Danish Festival Talent Contest. The contest will be held in Greenville, Michigan on Saturday, August 17th at 6:00 p.m. in the Greenville High School lecture study auditorium. Acts may enter the Senior division for those sixteen years or older, or the Junior division for those fifteen years or younger. Cash prizes will be awarded to the top three acts in each division. Acts must be amateur in nature and a five dollar entry fee is required. For further information call 616-754-7089 or 616-754-3766.

#### ATTENTION CLASS OF 1980!

Just a reminder to all the graduates of the class of 1980 - July 29th is your last day to turn in your money for our class reunion. The cost is \$10.00 per person and may be paid to Cindy Weimer at 897-9916. The reunion will be held at Deer Run Golf Course on August 17th beginning at 7:00 p.m. Hope to see you there.

#### OFF THE BLOTTER

Involved in a property damage accident on West Main Street near the C & O Railroad crossing were Harold Hall, 34, of Lowell and Stephen Mahoney of St. Johns. The pickup truck Hall was driving was struck from behind by another pickup truck driven by Mahoney. Hall was stopped in traffic at the time. A car driven by Thomas Langdon, 21, of Ionia, then struck the rear of Mahoney's vehicle. The accident occurred Friday afternoon, July 19.

Kerry Borodychuk, 32, of Unionville, Michigan, was driving a car hauling transport Tuesday morning, July 16, when the rear truck he was hauling caught a low hanging Bell Telephone Cable and Lowell Cable T.V. lines were either disconnected or stretched in the accident on S. West Street near Main Street.

About five to six hundred people turned out on a warm summer evening to hear a wonderful concert at the Lowell Showboat Amphitheatre last Wednesday. The Grand Valley State College Summer Band, under the direction of William Root, put on a tremendous per-

formance of all-American music ranging from hymns to jazz to marching tunes. During a medley of military songs a four man U.S. Marine Corps color guard drilled back and forth in front of the stage. Lowell Postmaster Charlie Doyle narrated the program as it flowed from theme to theme. A community chorus organized by Marge Rehl of the Lowell Community Education Office joined the G.V.S.C. Band for the closing number, a stimulating rendition of the "Battle Hymn of the Republic".

The Lowell Rotary Club sold popcorn and lemonade, adding a bit of "good old summertime" nostalgia to the evening. Even the swans floated over to hear the music and add to the beauty of the setting.

The event was sponsored jointly by the Lowell Chamber of Commerce, Lowell Community Education and the Lowell Showboat Association. Chamber of Commerce President Jerry Patton was pleased with the turnout, and says he'd like to help promote more events of this type.

For those of you who missed the program, Ivan Blough videotaped the entire concert for telecast on Public Access Channel 2 on Lowell Cable Television. The concert will be aired on Wednesday, July 24 at 7 P.M., Thursday, July 25 at 10 A.M. and Friday, July 26 at 3 P.M.

Alzheimer's Disease

Much has been written of late about the syndrome known as Al. zheimer's disease. It is a progressive, debilitating, neurological disease that effects an estimated 2.5 million American adults. It can strike in early and mid-life; however, most victims are over the age of 65. It is the most common form of dementing illness and ranks as the fourth leading cause of death in adults after heart disease cancer, and stroke

HEALTH

Dr. Paul Gauthier

Dr. Jim Lang

Symptoms of Alzheimer's disease include progressive memory loss, decline in ability to perform routine tasks, impairment of judgement, confusion and disorientation, personality change, difficulty in learning and inappropriate or diminished response to outside stimulation. There tends to be a great variation in the process and in the rate of change from person to person. In the most severe cases, the disease will eventually render its victims incapable of car-

The cause of Alzheimer's disease is not known and currently is receiving intensive scientific investigation. We do know that it is not caused by hardening of the arteries, and there is no evidence that it is contagious. Emotional upsets and stress temporarily may affect the person's mood and behaviour, but they do not cause the disease

Before a diagnosis of Alzheimers disease is made, other illnesses that may cause memory loss must be excluded. In the elderly population these may include depression, adverse drug reactions, poor nutrition and minor head injuries.

Proper medical care and sound guidance can help the patient and his or her family. Appropriate medicine can lessen agitation, anxiety, and unpredictable behavior. Proper nourishment and fluid intake are important, as are physical exercise and social activity in accordance with the individual's capabilities.

The Alzheimer's Disease and Related Disorders Association was founded in 1980. It is a privately funded volunteer national health organization comprised of more than 100 chapters in 39 states. It is headquartered at 360 N. Michigan Avenue, Chicago, IL 60601. In addition, an information hotline has been established on a nationwide 24-hour basis to link families who need assistance with nearby chapters. The hotline number is 1-800-621-0379.

Well, I finally succumbed to the pressure. The Brown family has a new dog. A puppy, to be exact. A male, golden retriever puppy, to

We've had the little guy for about a week and a half, and he is doing pretty well. Being just eight weeks old, we are of course involved with accidents in the house, chewing, climbing on furniture, and all the other wonderful things that puppies must be trained not to do. Trouble is, this training task is even more difficult when all he has for a handle is "puppy", "pup-pup" or "pooch". That's right, we've had him for about ten days, and still no name

We have offered up a list of names for family approval that is now running into the thousands. We have gotten dozens of friends involved. We even received numerous suggestions from total strangers at a neighboring picnic table while eating dinner in a park last Saturday. They overheard our sometimes heated conversation, and jumped right in with several suggestions of their own.

The problem lies with Terese and I. The kids are not terribly opinionated, and are primarily serving as tie-breakers in this ongoing dispute. Terese has her heart set on naming him something that sounds a little "classy". She has come up with suggestions such as "Beckett", "Bailey", "Brassy" and "Cayman". All of which I respond to with a hearty, "Yuck!". So far the kids have supported me in voting down these types of names. But, on the other side of the coin, they have not supported any of my suggestions.

I have offered "Au". That's big "A", little "u". When pronounced it sounds like a person from the upper pennisula or a Canadian saying, "hey you". But, "Au" is the symbol for gold on the atomic chart of elements. Gold...golden retriever...get it? I thought "Au" was very clever, and unique. Terese and the kids think it's a garbage name. I also offered "Sherman", Mr. Peabody's buddy on the Bullwinkle Show and a handful of others. No takers.

I went through all our paper sample swatches for words describing tan, gold and buff colors. I submitted a list of about thirty words like: adobe, desert, sunburst, hawthorne, tawny, briar, sissal, etc.

just about everything short of calling the White House. Speaking of which, I even offered, "Gerald", remembering that President Ford had a couple of golden retrievers. Terese still likes "Bailey". I still favor "Au". The kids are still somewhere in never-never land, totally befuddled by the thousands

So, we're open for suggestions. Call me at 897-9261 during the day, or 897-5381 evenings if you think you can help us out of our dilema. In fact, I'll even offer a two-year subscription to a the person submitting a name that can successfully run the gantlet, and win our

burn waste rather than burying it in landfills is yet to be decided by this Board. Staff is not asking for that decision today. The presentation will deal with current the mass burn incinerator project, estimated cost of the plant, projected tipping fees, financing, flow control, and a report on the meeting with Consumers Power Company officials.

Robert Hurdle indicated that the proposed facility will burn as much as 625 tons per day, but that figure is reduced to 530 tons per day due to scheduled down time. Cost of the facility is estimated at \$61 million:

size will be \$84.4 million, based on a projected cost of \$64 million, with variable rate financing. This project would be classified as industrial development bond financing. The new tax law being proposed would eliminate tax exempt financing on industrial development bonds, making interest costs over the life of the facility significantly higher. Commissioner Lamoreaux asked if ownership of the steam loop had been considered. Ms. Winkler-Bryant State Finals go on to the National 9 holes with the pro. Anyone stated that was not considered in her analysis.

Mr. DeWitt indicated that flow control remains to be achieved whereby a method is established guaranteeing flow to the incinerator of at least 530 tons per day. This could be done through ordinances within a municipality, contracts providing waste to a designated site, or licenses for the local hauler. It has not been decided which method or combination thereof would be Contacts will be made immediately with key communities to determine their willingness to enter an agreement for supplying waste to the incinerator. Mr. DeWitt reported on the meetings with Consumers

Power Company officials. Separate meetings were held dealing with a contract to sell steam to Consumers Power and a contract to sell electricity. A key issue is the assignability of the contract due to the pending sale of the steam plant. Consumers Power Company raised the question of whether or not the County had an interest in acquiring the steam plant. He recommended that the Board go into Executive Session for the purpose of considering the possible purchase of the steam plant.

Mr. DeWitt stated that Consumers Power must buy electricity but they can negotiate the rate. They have a number of electricity purchase contracts in negotiation. Kent County is number seven on the list. A meeting will be held next week to discuss the electrical

Mr. DeWitt further indicated that Consumers Power has continuing negotiations for the sale of the steam plant.

Commissioner DeVriendt moved to go into Executive Session to discuss potential purchase of property. Seconded by Commissioner Lorch. Motion carried unanimously.

At 12:24 p.m. Commissioner Byington moved to return to Regular Session. Seconded by Commissioner Lorch. Motion carried unanimously.

Commissioner DeVriendt moved to authorize staff to investigate acquisition of the Consumers Power steam plant and to retain an appraiser to assist staff in that investigation. Seconded by Commissioner Doyle. Motion carried by the following vote:

# "OUTDOORS"

with Jack Fiesner

The Michigan DNR's recent decision to open the Mourning Dove Season has spurred quite a controversy throughout the state.

I can assure you that this was not a spur of the moment decision and has been under study and in the planning stages for several seasons. Our DNR has thoroughly studied harvest reports and management practices from several other states with open seasons and determined that hunting of the Mourning Dove has very little, if any, appreciable impact on number of birds, habits or propagation. The season is in fact experimental and if any appreciable decline in populations or change of habits result after a few seasons, you can rest assured that the season will be terminated.

Unlike our mammal game specie populations, most of the birds do not actually require harvesting to control their numbers, commiserate with available habitat. However, if they can be harvested and utilized with no decline in numbers or habit, why not do so? From the economic standpoint, the Mourning Dove is potentially a mult, million dollar gamebird to this state if properly managed and uti-

A letter to the editor in the Grand Rapids Press and Grand Valley Ledger last week, by a local resident, was very well written, but not very factual. I respect that persons opinion, however, the letter was written from the heart, rather than from the mind. It was stated that the passenger pigeons demise was due to over hunting. This is not true, since no one actually knows the reason. It is commonly accepted that bad storms over Lake Michigan during their fall migration flights were primarily responsible for their extinction. The letter also stated that the Mourning Dove is an easy target for the hunter. I don't believe the author has shot many, since with even very light hunting pressure, the dove becomes a very elusive target at best. The letter also stated that the decline in Pheasant and Quail numbers was also caused by hunting pressure. This is not true. Pesticides and Herbicides, particularly the now outlawed DDT, coupled with several severe winters, was the reason for their rapid

Let's not forget that if not for the hunter, trapper and fishermen, we would never have any pheasants and very few quail in the first place. We are now importing pheasants and fertile eggs from china in an attempt to re-establish our flocks. Myself and most other hunters agree that the pheasant and quail seasons statewide should be temporarily terminated in an attempt to re-propagate and re-estab-

I too, love the Mourning Dove, as I do all of Gods creatures, but I also believe in utilization of our resources. I love to see and hear them and I also love to eat them. This statement may sound cruel and inhumane but their is no place for emotionalism in wildlife management. If you are truly concerned with preserving wildlife species for posterity, I would recommend that you buy a hunting, fishing and trapping license since it is only these funds and the sale of sporting goods which provide for wildlife management. The Friends of Animals, Animal Rights Societies, Humane Society, etc., use all their funds to fight those of us who provide sound management practices while their intentions are admirable and their emotions commendable, they are sadly lacking in the common sense required to properly manage wildlife resources commiserate with sound management practices. In their attempts to outlaw hunting, trapping, and fishing they in fact unknowingly advocate cruel and inhumane treatment of the species which they profess to protect.

While we understand the urgency of restoring electric power to all of our consumers after a severe storm, we consider hazardous conditions created by the storm to be our first priority. That means the detection and repair of downed overhead power lines, and we need your help.

Power lines which have been snapped or pulled down as the result of a storm present a serious, even deadly danger. If you come across a downed wire, stay completely away from it. Don't touch the lines, the pole to which it is attached, or anything else in contact with the wire. Call us immediately - don't assume someone else will. We want to know about downed wires immediately so we can send our professionally trained linemen to make the needed repairs.

Take some time today to teach

your children about the dangers of downed electric wires. Instruct them to tell you or another adult as soon as possible about the problem, and to warn other children away.

Never, never assume a wire is harmless. Let us make the determinations and the repairs. Together we'll continue to keep our community safe from electric accidents
