OTHER MATTERS OF INTEREST.

A BIG DAM.

The West Michigan Electric company have the immense stone breast work for the flume up and ready for the seven-foot in diameter pipes, which are expected here soon. Work on the dam will be pushed as soon as the water in the river reaches its usual low stage.

BOYS' CARELESSNESS.

On Tuesday, Leon, son of Chas. McCarty, and Herby, son of Watson Wingate, both small boys, were playing with a toy cannon. One of them placed a glass bottle before the muzzle, and when on touching a match to the fuse, the weapon was discharged, pieces of glass flew in all directions, cutting both boys badly, so that surgical attention was necessary. Two large pieces were taken from Leon's head just over the eye, and his legs were badly cut, while Herby was wounded in the foot. Leon had a narrow escape from perpetual blindness, and it is to be hoped that other boys will take a lesson from this accident, and that nothing more serious will have to be reported. ere this year's Fourth of July fervor is expended.

MURDER NEAR GREENVILLE.

Sunday, the Evans boys went to Harvard to play ball with the Harvards in the afternoon. It began to rain shortly after the game began and the boys all went into a barn near by for shelter. Two of the young men, it seems, had been bitter enemies for some time, and it is charged that Floyd Haynes had made threats against the life of James Ohern. He was probably somewhat provoked about the game yesterday, and the old hatred sprang up and he struck Ohern on the head with a club. The other boys at this time attempted to interfere, but not until Haynes had struck some very heavy blows. He then made for the woods. A crowd of citizens with pigs started after him and some took shot guns. Ohern is suffering great pain and it is thought he cannot live. His skull is probably fractured. Harvard is a small station on the Toledo, Saginaw & Mackinaw, seven miles north of Cedar Springs.

The following description of Floyd Haynes has been sent to sheriffs and police officials through the state:

Floyd Haynes, charged with assault with intent to kill—height, six feet one inch; weight about 160 pounds; light complexion; blue eyes, brown hair; smooth face; narrow forehead; very wide jaw; stooped shoulders; toes in when walking; one thumb off at first joint; wears black clothes and block derby hat.

SURPRISE PARTY.

Dr. E. D. McQueen reached the age of 30 years on Wednesday and was agreeably surprised by his friends who dropped in and spent the evening playing pedro. The following were present:

Ort Hill, C. A. Church, W. S. Winegar, Dr. McDannell, Dr. Green, R. Vandyke, C. A. Althen, D. G. Look, Geo. Parker, M. N. Hine, Chas. Hine, W. H. Clark, C. W. Wisner, Geo. Winegar, D. Stocking, Dr. Rickert, H. N. Stone, Will Price, Clyde Collar.

R. Vandyke won first prize and D. G. Look captured the booby. All report a very enjoyable evening, and left voting Mr. and Mrs. McQueen the jolliest couple in the village.

BIG TIE CONTRACT.

Muir & French, who have a contract to furnish one million ties for the D., G. H. & M. railway, are rapidly pushing their work to completion. Something like six hundred thousand ties from timber grown on lands of the Morgan Lyon estate, have already been delivered. It is conceded that no locality in Michigan will furnish better tie timber or more of it than can be found in the vicinity of Lowell.

DEATH OF CONRAD HANER.

Conrad Haner, who died at his residence, Saturday morning, June 24, was born in New York in 1814. In 1835 he married Phoebe Bennett, who died in 1860, leaving twelve children, of whom ten are living. Funeral services were held at the residence of his daughter, Mrs. G. B. Avery, on Sunday afternoon, Rev. Ernest H. Shanks officiating. The family appreciate the many kindnesses shown by friends and neighbors in their bereavement.

GREENVILLE'S BANK FAILURE.

Bank Commissioner Sherwood's report on the condition of the suspended National City bank at Greenville, shows that the assets of the concern were far in excess of liabilities, and the only cause for suspension of operations was the difficulty of securing outside accommodations. This in the main, has been the case the country over. What is needed is confidence and patience, and there is no reason to doubt that the present panicky feeling will soon pass away, and that just before us are the brightest business days the country has known for many years.

ACCIDENT.

Mrs. Sherman Kennedy, of Motisco township, was quite seriously injured on our streets, Saturday evening, by falling backward out of a double buggy, the seat of which was not fastened and fell with her. It is said the horse was frightened, by a bicycle, and jumped suddenly, causing the accident. The affair created quite a commotion.

MATRIMONIAL.

Frank Clark and Gertrude Fallas was married at the residence of John W. Fallas, last Wednesday evening by the bride's grandfather, Rev. W. W. Johnson, of Grand Rapids.

At the home of the bride's parents, Mr. and Mrs. C. C. Winegar, on Monday evening of this week, their daughter, Miss Ella, and Philip Graber were joined in the holy bonds of marriage. Pastor E. H. Shanks officiating. Mr. and Mrs. Graber left Thursday for their future home at Genoa, Ohio, where Mr. Graber is superin-

tendent of schools. Their many friends at Lowell join in wishing them unbounded happiness.

Dame Perry's "Old Folk's Concert" at Train's Opera House, last Friday evening was a success, and the music was fine.

EXCUSES AND ACKNOWLEDGEMENTS.

This issue of the LEDGER is gotten out under difficulties such as none but those who have gone through the experience of starting a new paper in a strange town can understand. We beg the public to be charitable. For kind assistance, we are under obligation to many; and in personal mention, we may be partial, but we cannot omit to mention the courtesies extended by Hon. A. S. White and H. C. White, of Grand Rapids, and of Messrs. Edmonds, McCarty, Nash, Train, Hine, King and McDannell, of Lowell. May their shadows never grow less, and may they never regret the day when they extended helping hands, and helped stand the LOWELL LEDGER on its feet.

TRAP SHOOT.

Scores of trap shoot at the fair grounds, Tuesday, June 27th, '93.

This industry was called so because many of the designs are taken of the old Celtic folk of "Kalla" and other early manuscripts. This cottage, like all the others, is an exact reproduction of the Donegal cottage where these home industries are daily carried on.

So the woman who is mated to the man who may be mated as prettily fair, should cherish him forever and a day. For the real angelic creature, perfect, quiet, and unassuming, he has never been discovered, and he won't be, so they say.

There are scores of men to-day all about us who are being slowly tortured by the demand for hush money to his some of the best work the morning paper without a chill of apprehension, and who never hear the ring of the better work the quiver of the nerves. Men who seek political laurels can testify to my words.

There are hundreds of men who suffer physical torture year after year, conscious that they are reaping what they have sown. God is not so merciful a respecter of sex as the world at large supposes, and men are punished more frequently and thoroughly for their sins than is imagined by those who see only the surface of life.

The Holding of Jeff Davis. Edwin A. Jones, Co. L, 3d Pa. R. A., Tamques, Pa., says on May 23, 1865, he was on guard duty at Fort Monroe when Battery M was sent down to the water's edge to escort Jeff Davis and his family.

Women do not buy the great quantities of underwear that they used to, for experience has proved that it is only gowns yellow, and in many instances grows absolutely useless.

LADIES

There are husbands who are wifely, there are husbands who are public as an evening as the money at home as often as you go out, writes Edward W. Bok. We want to alternate things little in this world. Variety is not only the spice, but the medicine and tonic of life.

What Our Women Need. A good rule to live by in these days when there is such a mental strain upon women, as well as upon men, is to go out in the evening as often as you stay at home, as often at home as often as you go out.

AN ACROBATIC AUTOMATON

Monkey Which Climbs a Wire Screen on Its Own Accord.

A toy of German origin has lately been patented. It consists of a grotesque figure caused to climb or crawl upward along a wire which is the highest portion of an inclined plane or straight edge by means of a thin wire which it clings. The result is accomplished by the invisible and unobtrusive nervous or muscular vibrations and twitches of the hand and arm of the operator holding the straight edge.

AN AMUSING TOY.

the result that the monkey travels up and down the wire, that is, toward the left in the drawing. Of course the rate of travel of the monkey depends upon the degree of trembling or twitching of the hand or arm of the manipulator, and by practice it is possible to acquire the requisite strength and skill for preventing such tremblings and twitches, whereby the monkey is permitted to remain at rest.

F. M. JOHNSON, Publisher.

LOWELL, MICH.

SALUTATORY.

An Introductory Chat with Our Readers.

Good people of Lowell and vicinity, the first issue of the **LOWELL LEDGER** is before you, seeking your approval and soliciting your support. It is well in the outset to outline our views and purposes.

We aim to publish a live local paper, devoted to the interests of Lowell and vicinity, in particular, and to the advancement of truth and intelligence in general.

The **LEDGER** is published as a business enterprise, for money—not for glory, nor out of love of party or country.

Politically, the publisher believes in the democracy of GROVER CLEVELAND, and political matters will be discussed from that standpoint, honestly and fairly, keeping constantly in mind that abuse is not argument.

Religiously, we believe in the right of every man to worship God according to the dictates of his own conscience, and in the largest liberty of thought and action, compatible with the social welfare.

In all things, however, we must remember that this is a world of change, and that much that to-day is called truth may to-morrow be known as error.

We have come to make our home in Lowell. We believe there is room here for another live, local paper, and room without crowding.

Our motto is to "keep your windows open toward Jerusalem," and follow each day the light that comes through them.

Fourth of July Excursion. The D. G. H. & M. R. R. will sell tickets July 3 and 4 to and from all points within a radius of 200 miles at one fare for the round trip, valid to return to July 6, inclusive.

Show Your Colors. Fellow citizens: At the solicitation of many among you, we are here, and here to stay, if you will have it so.

The Journey from Calcutta to Cawnpore—The Wonderful City of Lucknow with its Immense Population—Where Gen. Wheeler Fell.

OUR ENJOYABLE sojourn in Calcutta was but the introduction of our Indian travels by which, over a circuit of about two thousand miles, we proposed to visit a many historic and otherwise noted places.

At Bombay, our pilgrims for Lucknow, distant seven hours. Here is a city of nearly 300,000 people. It is the capital Province of Oudh and contains a fine mosque, many palaces and other buildings, once of importance.

THE MASSACRE GNAT AT CAWNPORE, WHERE GEN. WHEELER WAS KILLED. Civilians, women and children, less than one-third of whom remained alive when the deliverance of Lucknow was effected.

FARM AND HOUSEHOLD.

THE FARMER CAN DO FOR HIMSELF.—Sweet Corn for Cows.—Grain.—Agricultural Notes and Household Hints.

It has been settled and firm belief from the time of the first writers upon agriculture in the days when studious leisure of the most accomplished men was devoted to the care of their farms, and the brightest intellects of that or any other age, not including even the present.

THE MASHES OF SPRING. Loving husband, raise me up a secret by memory ever will I keep.

THE MAINE BARBETTE. In the armor plate finishing department of the Bethlehem Ordnance Works there stands a specimen of defensive construction in the art of barbettes of the steel-armored battleship.

SWEET CORN FOR COWS. A question of dollars and cents with dairymen is how to most cheaply and effectively keep the cows from drying up close to the end of their months.

THE GAIT STREAM. Three miles an hour is about the average speed of the Gait Stream. At Lowell, however, it attains a speed of fifty-one miles an hour.
