CHAS. ALTHEN BURLARIZED AGAIN.
About one o'clock Sunday morning the clothing store of Charles Althen was visited by burglars, making the fourth time Mr. Althen has been so honored. The thieves gained entrance by means of a rear window, and selected about \$150 worth of clothing, neckties, jewelry, etc., and made for the mouth of Flat River with their plunder, where they took a boat belonging to Frank Derry and struck out down the Grand. It seems as if they must have left a little sooner than they calculated upon for a portion of the goods removed were left at the rear of the building. The boat and its occupants were noticed near Ada about eight o'clock in the morning, but no attention was paid to them. The fellows went ashore near Ada and spent the day, and as late as three o'clock in the afternoon the queer character of the boat's cargo was noticed and still no suspicions were aroused. Sunday morning Derry's boat was missed and the two events were connected. The boat was recovered at Ada but its occupants and their booty were missing. Deputy Sheriff Hart is after the thieves.

ALUMNI ASSOCIATION.
On Friday, June 1, the senior classes of Ionia, Lowell, Belding and Greenville held their first reunion at the Bailey House, Ionia. In the af-

ternoon a pleasant program, rendered at the Y. M. A. hall, was enjoyed by all. The principal features of the exercises were the solo by Earl B. Slawson, of Greenville, the music of the Ionia high school orchestra, the humorous essay by Miss Kate McMahon, of Lowell and the impersonating by Elvert M. Davis, of Ionia.

In the evening a banquet was spread at the Bailey house to which about eighty pupils and teachers did justice. After the feast was over Toast-master H. Harris, of Greenville, proposed several toasts which were answered by the following persons:
Our Host; Mae Strong, Belding.
Our Teacher; Florence Henry, Greenville.
The Juniors; M. Glen Waterbury, Ionia.
Classes of '94; Ellis Faulkner, Lowell.
Old Memories; Frank Whipple, Belding.
When We Are Through; Ella Green, Greenville.
Great Expectations; W. G. Murphy, Lowell.
Farewell; Grove A. Wright, Ionia.

The affair was a grand success and will long be remembered by those present.

FARMERS' PICNIC COMING.
A delegation of the citizens of Lowell went to Clarksville last Saturday and secured a unanimous vote from the Farmer's Picnic executive committee to hold their next annual picnic at Lowell. The annual meetings were formerly held at Morrison Lake, but for two years past have been held at Saranac, and now this year will be held on Lowell's favorite Island park, August 22. These annual meetings are always largely attended, and it is safe to say that Lowell will have its largest crowd for years on that day.

MUSICAL TREAT IN STORE.
The Dewey Heywood Concert company will be at Train's opera house June 23, and with them comes Alba Heywood who has been secured by the company for thirty nights only, previous to taking up his New York engagement. This is probably the only chance Lowell people will have to hear this company. Reserved seats on sale at the usual place.

BAD MISHAP.
Miss Sarah Jennings, a well known and very estimable lady, met with a serious accident at the residence of Wayne Pardee, on Tuesday afternoon, where she had been attending a missionary meeting. She stepped into the cellar way by mistake, lost her balance and fell the entire length of the stairway. She had strength enough left to make her way up stairs but has since been quite sick and is still unable to go to her own home. The doctor reported that he thought her collar bone cracked but not broken, and that she will get along nicely. She also received some injuries about the head. Her many friends hope she may soon recover.

SHE THOUGHT SO, TOO.
As I drink my morning coffee,
As I drink my evening tea,
The milk that we buy of the milkman
Seems fearfully thin to me.
There rises no cream upon it,
It is dreadfully thin and blue.
I spoke to my wife about it,
And she said she thought so, too.
So I studied over the question,
And I studied long and deep.
I figured at noon, in waking,
And at night when I went to sleep,
And to purchase a Jersey heifer
Seemed exactly the thing to do,
And I spoke to my wife about it,
And she said she thought so, too.
So we drove out into the country,
And were just in luck to find
A cow which the trusty farmer
Said never was else than kind;
I had faith in the honest granger,
That the words he said were true,
And I spoke to my wife about it,
And she said she thought so, too.
I attached the rope to the heifer,
And said: "So, Bossy, Sol!"
My wife started up the wagon
While I held the cow in tow;
But I noticed the cow was unhappy,
She rolled her eyes, and said, "Woo-oo!"
And I spoke to my wife about it,
And she said she thought so, too.
A small dog frightened the heifer,
New light on the scene was shed,
I landed 'way out in the gutter,
My wife got a broken head;
I seldom get very excited,
But I naturally cursed things blue,
And I spoke to my wife about it,
And she said she thought so, too.

PEACH HILL GROVE.
Mrs. Wisner entertained her mother of East Ada last Friday; also Mrs. Rolf and Mrs. Kellogg.
A parent was explaining to his child about the angel of death passing over the houses of Egypt and smiting the first born. The child was silent in thought for a moment then exclaimed: "What did the angel do when there were twins?"
D. H. Gilbert and C. Conklin with their families visited at Ed. Dixon's in Vergennes recently.

Society Jealousy.
"You needn't put on no airs, you yaller-faced piece. We keep a cow, and has got a pew in de Blue Light Tabernacle, besides," were the words of Miss Matilda Snowball, who, as black as night, to a saddle-colored friend.
"I don't keer ef we hadn't got a cow. We keep a goat, and my mudder is gwine to hab a carbuncle on de back ob her neck," was the crushing reply.—Texas Siftings.

A Queer Organ.
A curious organ is to be seen at the Jesuits' church at Shanghai, China. It was manufactured by a native, a "brother coadjutor" of the Jesuit order. The pipes of the instrument are in bamboo wood instead of metal, and the sonority is of incomparable sweetness, "angelic and superhuman," says a correspondent, and such as has never been heard in Europe.

Suggested.
He—Miss Budd isn't as pretty as she was.
She—That wins my bet.
He—Did you bet that her beauty would fade?
She—Nope; that you would propose to her and get left.—Truth.

Unconscious Animals.
To make animals unconscious, before slaughtering, is considered humane in Berne, Switzerland. A test was recently made there by legal enactment and it took six quarts of alcohol to render an ox unfeelingly drunk.

Cremation.
Such has been the growth of popular opinion in favor of the sudden disposition of the dead by heat that there are now in the country eighteen incorporated cremation societies, and during the past ten years about 3,000 cremations have taken place.

SATURDAY, JUNE 9, 1894

The June Review of Reviews has excellent portraits of the late Senator Stockbridge and his successor, Mr. Patton.

The Grand Rapids Eagle copies paragraphs from the LEDGER and credits them to the Journal. What's the matter with this "old bird"?

CONGRESSMAN RICHARDSON has our thanks for a copy of the memorial address on the life and character of Melbourne H. Ford. It is noticeable that two of the Michigan members of Congress whose addresses are included in this volume, Representative Chipman and Senator Stockbridge, have since followed Mr. Ford to that bourne from whence no traveler returns.

In a few short weeks Mr. Gladstone has outlived hatred, malice and all uncharitableness. His fame stands as high today as it had been purified by half a century of the tomb. Most great men have to wait for such a vindication for the passing away of an entire generation.

Wheat growers in Minnesota turn their cattle into growing wheat fields, while people starve; corn growers in Kansas burn their product as fuel, while coal miners are compelled to work at starvation wages; cotton growers in the south refuse to pick the crop, while millions go half-clothed.

The discovery of a long forgotten story written by Napoleon Bonaparte in his youth and published recently in the Cosmopolitan, brings to mind the thought of the general's neglected opportunity in the last years of his life. What thoughts filled the mind of the exile as his life passed in review before him?

REGARDING the election of United States senators by direct vote of the people, the Chicago Times says: "Judging from the interviews obtained, there is reason to believe that ninety-nine out of every 100 voters in Illinois, irrespective of party, would, if given the opportunity, vote to abolish the present system and in favor of choosing senators by direct vote."

In commenting upon this, the New York Times very justly observes: "If there is any such strong sentiment as this implies on the question of electing senators it is due to the disappointment and disgust which the unrepresentative conduct and obstructive methods of the senate have produced in the last year."

A JERSEY CITY preacher defends the bicycle against the charge that it is an un-Godly machine; and while he does not defend Sunday riding, he says: "The bicycle is here and we might as well accept the situation and make the best of it. If folks will ride on Sunday, let us invite them to ride to church."

wheels during services, the pastor claiming that the person who rides to church does not work so hard as the man who walks, and that it can certainly be no worse to ride a bicycle to church than to go upon the street car an institution that compel men to work all day Sundays.

AN INDEPENDENT NEWSPAPER. Almost a year ago we commenced the publication of a Democratic newspaper in Lowell—Democratic, because the principles we believe in were professed by that party. During all this time we have waited for the fulfillment of the promises made to the people, and have been treated to the dauntless spectacle of the hired servants of the people fooling away their time while industries die and women and children starve, week after week and month after month, with nothing but wind—a senseless, idiotic, murderous delay. The country is going down hill to destruction and a Democratic congress is behind it a shoving.

Dear readers, the LEDGER has got through defending this sort of thing. We wash our hands of the whole shooting match and this paper will be edited from an independent standpoint until there are a score or more of first-class funerals in the Democratic party and the balance loan to pay some attention to the wishes of the dear people.

BE SURE OF THESE WORDS. "Reeking," "destitute," and "lurid" may not mean what you think. The old dictionary tells about "transpire" and "perspire" is still worked with so much assiduity as to lead one to suppose that there is some other to be had. But there are others quite as good. Take three words: "Reeking," "destitute," and "lurid," and ask your friends what they understand by them.

"Reeking?" one will say. "Why, reeking means dripping with moisture, soaked with wet." Another will say that it means "slippery, slimy, or with filth."

"Lurid" is a word a little better known. Ask a man what color lurid is and he may answer correctly, but the chances are he will say "red, flaming, orange, or bright yellow."

The habit of taking "headache powders" is increasing to an alarming extent among a great number of women throughout the country. These powders, as their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache.

A JERSEY CITY preacher defends the bicycle against the charge that it is an un-Godly machine; and while he does not defend Sunday riding, he says: "The bicycle is here and we might as well accept the situation and make the best of it. If folks will ride on Sunday, let us invite them to ride to church."

GRATITUDE.

"Savage beasts, even in their native haunts, sometimes recognize an act of kindness, and show their gratitude by the most unmistakable signs," remarked Thomas Maynard, an old sea captain. "A number of years ago the ship which I then commanded was becalmed off the coast of India, and, taking a boat load of men, went ashore in search of fresh water. In some way I became separated from the crew, and in wandering around was a good deal startled at coming directly upon a full grown tigress. Much to my surprise, the beast did not make any hostile demonstrations toward me, but crouching on the ground looked steadfastly, first at my face and then at a tree a short distance away.

For a time I could not understand the conduct, and not daring to run for fear she would at once overtake me, I stood rooted to the spot. Presently the tigress arose and walked to the tree, looking backward as she went. On turning my gaze aloft, I saw among the branches of the tree what had caused the evident solicitation of the tigress. There, perched in one of the limbs, sat a big baboon with two little tigers cubs in its arms. Having an axe with me, I started to cut the tree down, the tigress watching me intently all the while. When the tree fell and the three animals with it, the tigress pounced upon the baboon and with great fury dispatched it. After gently caressing her offspring, she turned to me with a look which plainly expressed her thanks for the service I had rendered her. She then disappeared in the forest, her two cubs trotting behind her."

George Russell, of Raywick, Ky., has an Irish shilling which is probably one of the first issues of that coin. It is a family heirloom that has been bequeathed to the oldest son in his family through successive generations. It is silver and about the size of our twenty-five-cent currency. Mr. Russell has bequeathed it to his son Kelly Russell, with its tradition.

During the thirteenth century the Chinese emperor made money from the inner bark of the mulberry tree, cutting it into round pieces and stamping it. To counterfeit or refuse to accept it as a legal tender was punishable by death.

In England the successful lawyer makes from \$75,000 to \$100,000 a year and successful physician \$50,000 to \$100,000; the average barrister and medical man, however, does not make more than \$1,200 a year.

"How many ladies have you invited?" "Twenty-four." "But I thought you were going to invite fifty." "But consider the fashion in sleeves."

That is the surest catchword of the three. "Destitute" is pretty good, though. Nine out of ten will instantly say that the word means "Chopped up in little bits. Smaashed up in small pieces." In this word as in "reeking," the process of change from the real meaning can be traced. Anything very wet would reek in a cask and pleat. It is chopped up that it may be thoroughly dried and "thoroughly dried" is the only proper meaning.

"Lurid" is a word a little better known. Ask a man what color lurid is and he may answer correctly, but the chances are he will say "red, flaming, orange, or bright yellow."

DOUGLAS CHURCH and wife and J. Frost and wife entertained their uncle Mr. Church from Canada, a few days this week. Thieves are purloining clothes from the lines in the western part of Vergennes.

Some of the farmers here had to plant their corn over. Phil Dixon was riding Sunday with his best girl and driving his thoroughbred colts. Phil has a dandy team.

Mr. and Mrs. J. W. Walker visited their daughter, Mrs. Lute Bailey and family, last week Friday. Mr. and Mrs. Wm. Krum have been entertaining their daughter and husband, Mr. and Mrs. Arthur Morgan, of Lowell.

Mrs. W. L. Morrison entertained her cousin, Will Miller, of Cannon, Friday. Guests at Mr. and Mrs. Ed. Dixon's recently were: Mrs. Dixon's sister, Mrs. D. Gilbert and husband, and Mrs. C. C. Conklin and husband, of South Boston.

Mr. and Mrs. D. S. Blanding and daughter, Miss Grace, Mr. and Mrs. Quint Hudson and daughter, Miss Ruth, Clair and Ida Findley and Orlando Odell attended the Swiggery-Hobson wedding at Lowell last week.

There was a very pleasant time at Miss Bonnie White's picnic last Friday. The exercises were in the woods and were very interesting. It was a Cantata—"A Day in the Woods." After the exercises Carl James, in behalf of the school, presented Miss White with two volumes of Hawthorne's works and two bottles of perfume.

Mrs. Emma Miller of Cannon, Stella Goss and Mrs. Arthur Morgan of Lowell, and a number of ladies (fourteen in all) visited Miss White's school the last day and attended the picnic.

One day last week Arthur Morgan of Lowell drove up to Wm. Krum's, he hitched his horse and left it for a short time, the horse got frightened at a calf, broke loose and ran a short distance when he tried to jump a picket fence but was caught on the jumps and died inside of ten minutes.

Died in Grand Rapids, May 29, 1894, infant daughter of Mr. and Mrs. Frank McKelroy, aged one month and five days. The interment was at the cemetery at Fox's Corners, Friday, June 1. Frank and his mother were former residents of Lowell.

"So the bird of their bosom fluttered up to the dawn, A window was opened—their darling was gone! A truant from time, from tears and from sin, For the angel on watch took their little one in."

"Is this hot enough for you?" is a silly question, but if you meet a man who complains of suffering from the heat, tell to one you will find, on inquiry, that he does not use Ayer's Sarsaparilla to tone up his system and free his blood from irritating humors.

THE STATE NEWS.

DOINGS AND HAPPENINGS IN MICHIGAN.

Saginaw Lad Killed in a Street Car in Front of His Own Home—Murderer Tortured to Jackson for 90 Years—Daily Assault Upon Aged Lady.

Bay City Bank Employee Has Skipped. Charles B. McClay, bookkeeper for the old Second National bank at Bay City, is missing, and an expert who has been looking over his accounts finds a shortage of \$8,150, which may be increased. McClay has been with the bank for fifteen years, and the amount of confidence was high. He frequently occupied the teller's desk during the latter's absence, and had charge of bills and the collection of deposit. In the latter account the shortage has been found.

McClay has been living a pretty fast life for some time past, and was often in the company of fast women. He was very popular in the city, and last spring was nominated for city recorder, but withdrew after the election.

McClay is about 33 years old, medium height and of light complexion. He has been traced as far as Detroit, where he was seen to take an east-bound train, but his destination is unknown.

Sad Fatality at Saginaw. Edward Barry, aged 16 years, in company with two companions, had been playing billiards in a street, Saginaw, through which the double track of the Saginaw street railway runs. A car came along just as Barry was walking backward, and through the fog was sounded and Motorman Cannon yelled to the lad, it was too late, as the coupling bar struck him in the back, pitching him forward on his face. Before the car could be stopped the boy had rolled over and under the car, killing him instantly. The accident occurred almost directly in front of his home, and in plain view of his mother, brother and sisters, who were standing in the yard.

An Aged Woman Assaulted. Mrs. Anna Dickson, 63 years of age, of Nashville, was criminally assaulted by an unknown man in Detroit, Michigan, who had retired at her usual hour, but was shortly afterward awakened by the movements of someone in her room. Her assailant at once approached the bed and placed his hand over her mouth. A fierce struggle ensued, but the fond fondle tried to escape by accomplishing his purpose, and she was left. Nothing was disturbed in the house. Mrs. Dickson hurried to her nearest neighbor, Mrs. Judd, who says she could not identify the villain. She is now delirious and fears are entertained for her reason.

Sad Suicide at Brighton. Miss Mame Judd, aged 28, of Adrian, committed suicide at the Eastern hotel at Brighton, by hanging herself to the bedroom door knob and a boy, Mrs. Judd was engaged in the millinery business at Adrian, and it is supposed her mind was affected by it. She had been taken to Brighton on a visit by friends, who have carefully watched her movements. She eluded them for not over 15 minutes when she committed the act.

Tom Gets 30 Years. Asa Tefft, who was found guilty of murder in the second degree for killing his cousin, Leroy Rogers, was sentenced to state's prison for 30 years by Judge Smith of Hastings. Tefft is as unconcerned as ever, not even a muscle moved when the sentence was pronounced. The same gives excellent satisfaction to the people.

Small-pox Fatality at Bay City. The six-weeks' reign of Mrs. Clark, Bay City's first small-pox patient, died from the disease. The body was buried by the authorities, every precaution being taken to prevent propagation.

He says that if a board could make a rule that certain pupils could not attend school unless they commenced at a certain part of the year, they could as well make a rule by which classes should commence only once in two years.

A LOVE STORY.
An Oft-Repeated Scene in an Old World Garden.
An old world garden, so peaceful, quiet and still, where the roses nod their heads in the summer breeze, whispering round them the secrets of the high, overhanging trees, bringing them, too, the music of the tiny fountain blithely dancing in the sunlight while reflecting back their brightness in a thousand pearly tints, and singing sweetly all the live-long day to the rippling brook wending far away through the meadows beyond, to lose itself amid waving fields of corn, gleaming like yellow gold in the valley below.
On the close-cropped grass plot, ringed over and over, where the fairies hold their court on its green carpet night after night, stands an old moss-covered sun-dial, marking off the hours, keeping steady pace with the march of time. How many love tales could that old dial tell; the same sweet story had been poured out so often by its stones that it must know it all—the sighs and tears, the sweet love whispers, the hot, swift words that sprang so quickly from the parted lips, the faltering answer so low as to hardly break the stillness as the seconds pass under the shadows of the dial's face.
A young man, strong and straight as an Apollo, kneeling by its weather-beaten stones, is pouring out his love story to a dainty maiden so small and fragile that almost the fairies might claim her for their own. There is a delicate rose flush under the tender skin of the maiden's face, while her eyes are shaded from sight under long drooping lashes, and the sweet lips are poutingly curved as her little hands push back the roses he offers her so tenderly. Her blue eyes cloud a moment as she turns away her dainty head.
"Then you don't love me any more, Mignon? And I plucked these pretty roses all for you, and these wild flowers to twine in your hair and crown you a queen, my queen, my little queen, Mignon." A tender thrill runs through the young man's voice.
"Mignon, am I to go away? Don't you want my love any more? Is your love like the roses and wild flowers, as quickly dying, Mignon?" His face comes closer to hers, and one arm steals gently around the tiny waist. "Mignon," his pleading voice goes on, "you love me; you're only making believe not to."
Does a dimple steal into the maiden's cheek and the eyes shyly glance at the brave fellow kneeling at her feet in all the glorious strength of his young manhood? The tiny arms are clasped tightly around his neck, her dainty cheek close presses his, and in a whisper sweet and low, while the seconds pass under the shadow on the old dial's face, comes the answer he awaits—"I does 'ove oo, papa."
Birds Can Sew.
Sewing seems so ingenious an art that it must be reserved for the human species alone. Yet the tailor bird, the Orthotomus longicauda, and other species possess the elements of it. They place their nests in a large leaf which they prepare to this end. With their beaks they pierce two rows of holes along the two edges of the leaf; they then pass a stout thread from one side to the other alternately. With this leaf, at first flat, they form a horn in which they weave their nest with cotton or hair. These labors of weaving and sewing are preceded by the spinning of the thread. The bird makes it itself by twisting in its beak spiders' webs, bits of cotton, and little ends of wool. Sykes found that the threads used for sewing were knotted at the ends.—Popular Science Monthly.
Rheumatism Has Bacteria.
M. Max Schuler is said to have discovered, in the joints of persons attacked with chronic articular rheumatism, bacteria, which are always identical in like cases. These bacilli are short and thick, having at each end bright grains which aniline colors make still more evident. The discoverer has been able to cultivate these bacteria in bouillon, on gelatin, or on a piece of potato. Their culture requires a temperature of at least twenty-five degrees, and darkness is indispensable.
What Senators Smoke.
The average senator smokes an expensive cigar. There is a 35-cent brand which sells more rapidly than any other in the senate restaurant, and which is in great demand for committee-room lunches. It is rather curious that the Southerners, who, as a rule, have to live on meager incomes, are the most expensive of all in their taste for tobacco.

HE PULLED HIS WORDS.
How Mark Twain "Learned the River" Under Captain Bixby.
When the last of the old Mississippi racing boats, the City of Natchez, burned to the water's edge in Memphis two or three years ago, it took out of commission one of the best known characters on the river: Captain Horace Bixby, the "Mr. B." of Mark Twain's "Life on the Mississippi."
Captain Bixby, if you happened to strike his rugged fancy, was only too ready to tell stories of "old days on the river," and he told them with a freshness and simplicity—and a swift tapering to the point, that were as good as anything his famous friend has accomplished, says Munsey's Magazine.
He tells of the first appearance of young Clemens. He says that one day there appeared on the deck of the boat he was running a very tall, stoop-shouldered young man, with bushy hair crowded down upon his neck by a big slouch hat. His "roundabout" left about four inches of his shirt visible above the band of his buttoned trousers, and there was an equal place of bare skin between his shoe top and his trousers' legs. His face was cadaverous, and his hands were rammed to the bottom of his pockets.
"I'm a pri-n-t-or by tr-a-a-d-e," he drawled out, "and it ain't very h-sal-l-ty. I thought I'd l-i-i-ke to l-e-a-r-n the river."
"What makes you pull your words like that," said the impatient captain.
"You ought to hear my m-a-r-m," said the imperturbable Mark. She pulls her-r-n wor-n I-pull m-i-l-n-e!"
Captain Bixby kept him, and "larn't him the river," how to be a pilot, and how to find the shifting depths of the great stream. He taught him many of the stories "by Mark Twain," and the friendship still continues. Until the old Natchez burned, Mr. Clemens, with a chosen friend, went every year to take the round trip from St. Louis to New Orleans, with "Mr. B." Sometimes the friend was Mr. Osgood or some other Boston man, sometimes a Western acquaintance.
The captain's room, that glass domain on the roof, held on its table photographs of all the Clemens children at different ages. In the drawer were letters—gay and affectionate, from "Sam." There was one striking peculiarity about these. They were as near written talk as letters could be, and when it became necessary, in the course of human events, to use strong language, it went down in good spelling, in honest black and white. There were no subterfuges of blanks and dashes.
