## BOYS SHOES

### ONCE MORE.

Our Boys shoes are warranted. Fasten them on your mind. We stand back of 'em and in front of 'em and 'longside of 'em after we sell 'em and we stand ready to make any of 'em right that go wrong through stock or workmanship. How's that for a guarantee? That's the way we ought to sell shoes at any price and at our prices it seems like no sensible woman could think of going elsewhere.

A Dollar for warranted shoes, ages 7 to 10.  
A Dollar and a Quarter for warranted shoes, ages 10 to 13.  
A Dollar and a Half for warranted shoes, ages 13 to 14 years.  
We ought to sell all the boys shoes sold in Lowell, but we don't much more than half.  
Yours for Boys,

GEO. M. WINGGAR.

Letter from Sergeant Long at Camp Alger.

Benj. Morse kindly permits us to publish the following letter.

Camp Alger, Va., May 31, 1898.

Mr. Morse:

I would have written to you long ago but for the fact that I have been kept very busy and it has been very hard to find time to write at all.

We had a very good time at Island Lake while there and most of the boys thought the army was a regular circus, but some of them are changing their minds now.

We arrived at Camp Alger Monday morning and expected to find a fine camp ground near the city and even expected that we would be allowed to go into the town, but imagine our surprise when we were taken from the train and marched out into a large tract of timber and brush to make our camp. It was about the roughest bit of land that I ever saw, but before night we made quite a respectable looking camp out of it and to-day have cleared about five acres for a parade ground and begin to feel at home.

The water is very poor but the doctors say it will not hurt us so we get along by boiling it. They are trying to sink wells and perhaps will have plenty of good water in few days.

There 22,000 men in camp around this vicinity, but we have not seen many of them for we are not allowed outside of our regimental guard lines. We are located about 15 miles from Washington and three miles from Falls Church, Va.

There was an attempt made to poison our water supply, but it was unsuccessful and they have the men in the guard house over in a New Jersey regiment, that is, what is left of them. There were three but the soldiers killed one and another hanged himself.

We were given a reception in nearly every town on the route; but just about this locality for some reason the people don't like us at all.

There are all sorts of rumors about camp as to where we will go, but it is

impossible to tell anything about how much truth there is to any of them.

I have got all the Lowell boys in my tent and they are all getting along well. Have not heard them complain any yet and most of the men are kicking a good deal about the rations. We have been living almost entirely on bacon and hard tack, it is good but gets rather monotonous at times.

Of course we are not settled down to the routine of camp duty yet, but I think we are making an excellent showing and don't have any doubt but that we are the best regiment on the grounds, at least, we are the best equipped and make the best showing at drill of any that I have seen or heard of.

If you have any difficulty in reading this letter just blame it to the fact that I have written it on a pine log in the shade of a brush pile and have found it rather difficult to write at all.

Please give my best regards to all my friends and tell them I would like to hear from them.

I remain very respectfully yours,  
Serg't. Clarence E. Long,

## OVER SALOONS.

### A Merry Fight Started at Grand Rapids.

Grand Rapids—The expected has happened and a fight is on between the new mayor and the police and fire commission. The issue of the last election was one of liberality, especially regarding saloons, and last Monday night the common council, urged by Mayor Perry, adopted a resolution asking the police and fire commissioners not to arrest saloon men who keep their places open until midnight, instead of 11 o'clock, as provided by law. The mayor said the resolution was requested by members of the police board who wanted the council to assume a share of the responsibility. The police board promptly repudiated the idea and to-day caused warrants to issue for the arrest of nine saloon men who acted upon the responsible of council and kept open until midnight. The matter has caused considerable of a sensation and a bitter fight is expected.

# DEWEY WON

His Battle on the Sea with the wily, weary Dons, they're paying for the Maine—Marks Rubens won the trade battle on Lowell's field and the old time, old foggy fellows are now paying for their former attacks on the purses of the public. Do we win? Well, read these Clothing clearance prices. Read the colossal cuts in Boy's Clothes. To miss a line mean to miss a dollar. Read of our values in beaming countenances of Marks Rubens patrons. Learn of our new way treatment, of our new methods from your friends and neighbors. Attend this volley of values. It will put the quietus on any attempts of some clothiers to take advantage of our war rumors and get bigger prices for their merchandise; our stock was bought sufficiently early to avoid any such drain on your pocket. Marks Ruben will be the last in our city to raise prices!

## Her Watch wouldn't go.

We peeped into her watch when she said "The old thing wouldn't go." After a hasty glance we didn't wonder, and our diagnosis was "Indigestion." Pasted against the inner side of the case were:  
1st. A portrait of her first love and a lock of his hair.  
2nd. Some dead forget-me-nots.  
3rd. A newspaper clipping announcing her recent engagement.  
4th. A four-leaf clover.  
Between the inner cover and the works were two pictures and a receipt for cold cream.  
And still the obstinate thing refused to go.  
How is your watch running? A little slow? Is it out of repair? If so bring it to us we will fix it for you and the charge will be reasonable.

A perfect town is that in which you see the farmers patronize the home merchants, the merchants advertise in the local newspapers, the laborers spend the money they earn with their own tradesmen, and all animated by the spirit that they will not purchase articles abroad if they can be purchased at home. The spirit of reciprocity between business men and laborers, farmers and manufacturers results every time in making the town a satisfactory one in which to do business.
