Dear Editor and Friends:

My last letter was from St. Peters-I visited when going so I thought you would not be interested in hearing from me.

I did take a pleasant trip from

Stockholm through Gote canal which sion to Belding. is surely worthy of mention. I took this trip of three days on the steamer Juno, Capt.—, and anybody visiting Sweden would miss much if they did this village and the result is favorable. Juno. The locks are fine and there are many when entering the canal from Stockholm. There are eight toa mile, making 16 locks inside of a half mile. Then you get a change when going through the lakes and at Trollhattan, during the two hours that the boat is passing down through the Carty's genia many locks we had time to see the falls which are grand. I have a few snap shots of these folks as well as of the ship. We arrived on the third evening at Gotebourg, which I mentioned in my former letter as the second largest city in Sweden. I left Gotebourg for Keil, Germany by boat and was sea sick for 12 hours in fact I never was sick as long at one time before. From Keil I visited the other cities on the north coast of Germany and I found some very modern and fine cities, with electric cars and lighting, good accomodations and

everything up to date. I found many changes in Berlin made since 1895 when I made my long stay there. Berlin is the most modern city I have seen on this side of the Atlantic and the most progressive. The people (business men) of Berlin are or seem quite different from most one sees in England, France or any of the other continental countries. In fact, one thinks he is in America almost when he sees so many American modes and ways. It is a pleasure to visit Berlin and anyone visiting Europe, should give Berlin some time on their visiting list. It has been very warm in Germany during August but this morning it was within 4 degrees of treezing. I am going from Bavaria to Hungary, Austria and Poland. When I reach these new places I will be in shape to write | brook you something interesting I hope.

My papers for the last four weeks have gone astray, but I am looking for several in a few days as I have written for my mail to come to one central place.

I shall be pleased to be with you all again and then can give you a more interesting account of my on the place and went \$3,000 in debt Yours,

Some one has said "that courting a girl is like starting a newspaper. It starts out weekly, then become a triweekly, then merges into a daily and and if it has any enterprise comes out with an extra about once a year."

This prompts the editor of the Dalton (Ga.) Argus to remark that he has courted girls and run newspapers, and that if he had his choice he would sooner court a dozen girls than run one newspaper-and pay the printers.

Could Do it Again.

On Sunday we visited the handsome farm and home of B, F. Wilkinson in Keene. Mr. Wilkinson and wife settled there over twenty years ago when there were no buildings upto buy the same. This was discharged many years ago and their handsome handsome residence built and other lands purchased and paid for until over again he would take the farm every time.

Asked whether a young couple today equally energetic as our host and hostess were some twenty years ago, could, under present circumstances, do as well as they had, Mr. W., respond-

"Yes, sir they can go in debt \$3,000 or \$4,000 and by thrift, economy, hard work and steady pegging, can pay out. They can't go to all the dances and picnics and excursions, or go to town every day. They must stay on the farm and make every day day count."

The home forty is well covered with fruit in variety and quantity to suit the most exacting taste and altogether is "a thing of beauty and a joy

serious heart trouble and a whole train of woes. Here is the story of a woman who was helped by Mrs. Pinkham after other treatment failed: DEAR MRS. PINKHAM:--It affords me very great pleasure to be able to state that I believe my wife owes her health to your medicine and good advice. For three years her health failed rapidly; she had heart trouble, often falling down in dizzy and fainting spells, shortness of breath, choking and smothering spells, bloating of the stomach, a dry cough, dyspeptic symptoms, menses irregular, scanty, and of an unnatural color. She had been treated by physicians with but little benefit. She has taken your treatment according to your directions, and is better. in every way. "Stand by the home merchant. He is the man who helps pay for the streets upon which you walk; for the school in which your children or perhaps you were educated; he helps to keep up the church in which you worship. He is the man who built a home which enhances the value of your property. Every subscription paper that is passed has his name on it; he is the one who cannot afford to swindle you. Self interest, if nothing else, would prevent this; he bears his share of the burden of the city government; stays right with you in sunshine and darkness, in days of prosperity and adversity. These are but a new reasons why your patronage should be given to the home merchant,"-Pontiac Post.
