## The Fence Question

Careful study as to the requirements  
of fence users in the way of a fence

That will stand ordinary as well as hard usage;  
That will not sag in Summer's heat nor break in the cold of Winter;  
That is made of the best material for fencing purposes;  
That has stays that will not slip, nor can they be moved out of place;  
That will conform to the most uneven ground, and can be erected over hills and through valleys as well as on level ground.  
That has no slack wires so spoil the appearance as well as the efficiency of the fence;  
That does not require an expert to erect;  
That is low in price.

Has resulted in our being able to bring to your notice the perfection of Field and Hog Fencing which we have appropriately named

From Our Point of View

IS A THIEF BETTER THAN A MORAL MAN?

Several times, recently, from one of our pulpits, we have heard "Morality" referred to in a way that gave us the impression that the term was one of reproach...

Now, in the face of these undeniable facts, we ask: Is there any connection between the long-continued elevation of belief over character and the bad conduct of some professed believers? Do not the wicked find encouragement in the preaching that good works do not count?...

ANOTHER LEGISLATIVE OUTRAGE PROPOSED.

Our attention has been called to a bill now before the Legislature which proposes that electrical corporations shall have "power to condemn property to the public use for dams, flange rights, building sites and rights of way..."

NERVOUS DYSPEPSIA, ITS CAUSE AND CURE.

Overwork any organ and it gives out—the stomach is no exception. Ask it to do anything, everything, at any time in half the time required, and like an over driven horse, it bulks. Nature intended the stomach to have regular hours.

It Saved His Leg. P. A. Danforth of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Buckle's Arnica Salve wholly cured it in five days.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
