The Time To Think of Stoves

When you think of stoves, think of economy too, and look at the new line we are carrying this year. We have the

New Gold Coin Base Burner which we are recommending highly because it has more radiating surface than any other stove made.

Sometimes circumstances makes it advisable to get a **Second Hand Stove**—we have some choice bargains in these and we invite you to inspect them.

Yours,

R. B. BOYLAN.

HOMES IN MOURNING

DEATHS OF MRS WEYRICK AND MRS. HOFFMAN.

Allen C. Potter of Keene Passed Away Tuesday Morning.

Mrs. A. L. Weyrick died at her home in Lowell village last evening at 8:00 o'clock after an illness of about three weeks. Funeral services cannot be announced at hour of going to press. Obituary next week.

Mrs. F. G. Hoffman died after a lingering illness at her home in this village at 4:30 this morning, aged forty-nine years. Her husband and three children survive. Funeral services will be held at the Methodist church at 2:00 p. m., Sunday, conducted by Rev. A. H. Sturgis.

Allen Potter died Tuesday morning at his home in Boston township near the Keene line, after a long decline, aged forty-eight years.

About a year ago Mr. Potter went to Ann Arbor expecting to undergo an operation for removal of an internal tumor; but the surgeons decided against it.

Funeral services will be held at the home this afternoon, with Rev. J. H. Westbrook in attendance. Deceased was a son of Charles M. Potter, and and leaves a wife and six children.

Oregon Letter.

Freewater, Oregon, Oct. 11, 1904.
Dear Lowell Ledger,
Lowell, Mich.

Dear Sir:
Enclosed find one dollar for renewal to Lowell Ledger and please pardon my negligence in sending same.

We are having fine weather here now. This has been an exceedingly dry season, no rain having fallen since July 1st. The roads are very dusty and it is very disagreeable traveling but we become accustomed to the dust like the web-foot people become used to wet weather.

But even with no rain this has been a good year in this section. Wheat has been what is known as a bumper crop and with a good price. Fruit has been very fine both as to quantity and quality and also brought very good prices. Hay was good. Prunes are the big crop in the fruit line in this vicinity. Well this is all for this time.

I am yours truly,
Mrs. NETTA WELLMAN.

The Ledger a Success as an Advertising Medium.

Friend Johnson:
The Ledger, as an advertising medium, is certainly a success. We have had no less than eleven would-be purchasers for Mr. Nease's stove; and still they come. I don't know but that you will have to state to the public that it is sold.

Yours,
A. H. STURGIS.

NEW BANK AT ALTO

STOCK ALL TAKEN AND ACTUALLY SIGNED.

List of Subscribers Includes Many Well Known Men.

From the Grand Rapids Herald. The Farmers' State bank of Alto will be organized within a few days, subscriptions having been secured for the \$20,000 capital stock and the articles signed by the subscribers Tuesday.

A meeting will be held later in the week to elect a board of directors and the officers of the new institution. Frank E. Campau, through whose efforts the bank has been organized, will be its cashier. Mr. Campau has conducted a general store at Alaska for the last 28 years. He has been aided in subscribing the stock by John D. Morton of the Grand Rapids National bank.

The promoters of the enterprise have considered it advisable to spread the stock as far as possible to give greater confidence, although Mr. Campau could have carried the stock alone, hence there are 44 stockholders.

EDITOR LEDGER:
Will you pardon one of your interested readers for not reaching the same conclusions as yourself, in your editorial, "From Our Point of View" in your issue of Oct. 13? And for this reason. The man you thus describe, whom you call "B", and whom you make to represent the believer in christian doctrines, is not a believer, but an UNBELIEVER. If you answer that "B" professed to be a believer, I reply, that your own statement for it his word is not to be received. You would not accept his statement as truth on any other matter, why on this? "B" is a hypocrite, a wolf in sheep's clothing, and only adds to his many other falsehoods when he claims to believe in christian doctrines. John says: "He that saith, I know him and keepeth not his commandments is a liar, and the truth is not in him." 1 Jno 2: 4. My conclusion, therefore is, that "A" might have added to his already beautiful character by accepting christian faith; while "B", mean, wicked and despicable as he was might have become a "good man" by sincerely believing the truth.

ONCE A MINER, NOW A MAGNATE

Well-Known Lake Superior Man Heads \$21,000,000 Company.

Walter Fitch, one of the best-known magnates in the Lake Superior region, has accepted the general management of the mines and smelters of the United States Mining company, one of the largest corporations of its kind in America, and is about to remove to Salt Lake City to assume his new duties.

For more than thirty years Mr. Fitch has been a resident of Marquette county, and for twenty years he has been located at Champion, where, for an extended interval, he has been superintendent of the big Champion mine, secured by the steel corporations several months ago.

Mr. Fitch is president of the board of control of the Michigan College of Mines at Houghton and has been chairman of the Marquette county board of supervisors.

Mr. Fitch is a self-made man. He was employed as a common miner on the first coming to the Lake Superior region from England, and from that time he long ago attained high rank in the mining profession.

He has been successful in his practical affairs here in Michigan, and is capitalized at \$21,000,000, and has only recently acquired additional claims.

His principal production is copper, although no gold revenue is derived from the gold and silver contents of the ore.

Allows Weeds to Seed. Most people know that there is a state law against allowing weeds to seed, but it is just as generally considered a dead letter. That it is not entirely so, however, a farmer near Okemos is convinced.

He allowed a lot of Canada thistles and milkweed to go to seed on his farm, and was hauled into court and separated from \$10 and the amount of costs.

And the amusing feature of the whole performance was that all during the trial a small boy was peddling popcorn right in the court room, and the justice and the jurors were among his patrons.

The Ways of the Law. Because he was selling popcorn and popcorn on the streets in violation of a village ordinance, a vendor was yanked into court at Oxford, tried by a jury, convicted and fined \$10 and costs.

Now comes another bit of gossip from that enterprising town of Cadillac. Those interested in railroad records are agitating a line from the Q. R. & I. at Lake City across to Alpena.

There is also another being talked of from Alpena to Frankfort, besides the Cheboygan branch, from Petoskey to Cheboygan, and which is already graded.

Need Evaporating Plant. Thousands of apples are going to waste in the state this year, and now every town and village in the apple belt is howling because it hasn't an evaporator. The country papers are talking up the matter and suggest that the farmers' clubs get together and offer a bonus to locate one.

Contracts for Chichory. Bay City's two chichory factories have 1,000 acres under contract this season for pot for roots. The east side plant has been built during the idle months at a cost of \$20,000.

Life Sentence for Murder. G. B. Gentili, an Italian miner, has been sentenced to Iron Mountain to life imprisonment for the murder of his brother-in-law, Joseph Fondaccio, last June.

Memorial Fountain. A memorial fountain will be erected on the court house grounds at Adrian with a sum of money left to the county by the late Mrs. Sarah M. Hinkley of Ionia county.

Aged Woman Is Killed. Mrs. Margaret Casey, 86 years of age, a resident of the copper district, fell down the elevator shaft in St. Joseph's hospital at Houghton, and died ten minutes later.

Bogus Money at Lansing. Lansing folks are very particular about examining their change nowadays. Counterfeit silver coins are in circulation thereabouts in considerable numbers.

Leaves His Little Boy. There is a young farmer in Lapeer county who is so fond of carrying his little boy around with him that his friends have dubbed him a "rural mail carrier."

Good Yield of Pumpkins. A Michigan man, planter of three hills of pumpkins in his garden, and has enough to keep himself and neighbors supplied with pies the winter through.

Find Body on Tracks. The body of an unknown man was found on the tracks of the Houghton Street Railway company between Calumet and Lake Linden.

Whistles Are Off Time. The Marquette citizens complain that the mill whistles of the city do not keep correct time, and one laboring man advises the engineers to go back to the clock in the jewelry store, which they were morning, noon and night before blowing.

Average \$100 Per Acre. The selling station of Williams Bros. & Co., at Wayland, has closed after the receipt of 18,000 bushels of cucumbers. The average for the farmers on the product has been \$100 per acre.

Productive Field of Muck. A field of muck near Decatur, about three and a fourth acres, has grown in six years \$2,244 worth of celery and \$307 worth of milk, making a total of \$2,551 with an expenditure of \$50 for help and fertilizer.

FOR COAST DEFENSE

Disappearing Gun Rein in Position for Action. This is the King of Cannon "in Bar" at the World's Fair.

The visitor to the World's Fair is afforded an excellent opportunity of studying every feature of the art of war. Besides extensive exhibits of arms, ammunition and military equipment, there are also to be seen in various places, there are to be seen on Government Hill a series of model fortifications illustrating the most typical and up-to-date features of the coast defense of the United States.

The most important types of projectiles are shot, shell, torpedoes and shrapnel. A shot consists principally of a hollow cylinder, with a pointed nose, and a tail fin. It is fired from a gun, and is used for long range shooting.

Shell is a hollow cylinder, with a pointed nose, and a tail fin. It is fired from a gun, and is used for long range shooting.

Torpedoes are used for attacking ships. They are fired from a gun, and are used for long range shooting.

Shrapnel is used for attacking troops. It is fired from a gun, and is used for long range shooting.

ALCOHOLIC TOPICS

Dr. W. C. Sullivan, at the recent meeting of the medico-psychological association of Great Britain and Ireland, pointed out that the bulk of the social evil wrought by intemperance was due to chronic alcoholic poisoning, not to simple drunkenness.

Cloaks, Suits Skirts and Furs.

We have broken all previous records this year in our stock of Cloaks, Furs, and Ladies Tailor-Made Suits. We hit it right when we deferred buying Cloaks till the very last moment. Had we stocked up early as some stores did, we too, would have a lot of styles that were supposed to be good early in the season.

See our Tourist Coats

They are right, quite long, loose and not high-priced.

Our Stock of Furs is Complete

and large. We buy Furs early and in large quantities and can save you from 10 to 20 per cent on the price of them.

As to Flannelette Wrappers we sell them all for \$1.00. They are nearly all the \$1.25 and \$1.50 kind.

We sell \$4.50 Rugs for \$3.00.

We sell \$3.00 Rugs for \$2.00.

We sell the best Table Oil Cloths for 12¢ per yard.

The Lowell Cutter company has installed in its new engine room, one of the best steam power plants, boiler and engine with all modern appliances. By an ingenious system of blow-pipes, the dust and shavings from the machines throughout the factory are fed automatically into the furnace. This makes the factory a better fire risk, more healthful for the workmen and is a fuel economy. Among many other improvements is an electric lighting plant for night service. The Cutter company has been a heavy patron of fire insurance companies and on account of the great care taken the business has been very profitable to the underwriters. With their new improvements, the Cutter company expects and ought to get a substantial reduction in insurance rates.

Disinfect Seed for Black Rot. Recent investigation has proved that the germs of black rot may be carried over winter on the dry seed, a fact previously doubted by scientists, and that these germs may produce the disease when inoculated into healthy plants. It is, therefore, a wise precaution to disinfect the cabbage seed, as removing one possible source of infection. This can be done very cheaply, easily and safely by soaking the seed for fifteen minutes in corrosive sublimate solution, one to 1,000 strength.

African Geese.

African geese are as large as most Embden and Toulouse geese, and are better layers, setters and mothers than any other breed of geese. Goslings from old Africans are very strong and hardy and grow very fast. They are a very active breed of geese.

The ganders are very active and sure breeders and will mate promptly with any breed of geese. They can be mated with five times as many geese as can a Toulouse gander and twice as many as an Embden gander.

The female; are excellent setters and mothers—are second to none in these respects.

The African geese have been raised for many years in the eastern states, where they have a very good reputation as a first class market goose, and they are rapidly working their way westward, and in a few years will be as common as the Embden and Toulouse geese.

Africans have a steady, dignified and noble walk and carriage and show much grace in their movement. African geese originated from Africa and were known in Massachusetts back as far as 1859.

African geese have a large head with a large knob and generally have a dewlap under the throat. These and the Chinese geese are the only two breeds that have a knob on the head.
