NEW CONTRACT DRAWN

West Bridge to be 72 Feet Long at \$560 Increase Cost.

The public meeting held at Train's hall Monday evening, called by the Village Council to consider the matter of bridges across Flat river, particularly regarding the remonstrance against the plans adopted by the Council, was well attended. President McCarty presided and the matter was discussed pro and con by Messrs. Loveland, Hicks, W. E. Marsh, Boylan, Nash, Booth, Stone, Hooker, Crump and others. A vote was taken declaring it to be the sentiment of the meeting that the west bridge be made 72 feet in length.

In accordance with this declared wish, a new contract has been drawn up and accepted by the Groton Bridge company's contracting agent. This provides for the west bridge 72 feet in length in three spans of 21 feet each, one roadway 53 feet wide and one sidewalk 8 feet wide. The plans of the middle and east bridges remain unchanged and the new contract price is \$14,420, an increase of but \$560 over that demanded for the 63-foot bridge first contracted for. However, the north side foot way, between the King and Lee's building, has been cut out. It was first proposed to build Mrs. Mofft's walk in return for fowage rights under her building, and to have driven piles for an ice breaker behind the building. We understand that this project has been abandoned. This leaves a sidewalk between the Mofft and Lee buildings to be provided for by the Village.

FOLLOWED HER HUSBAND

Mrs. John H. Dutcher Dead After 24 Hours Illness.

Mrs. Emma L. Dutcher, wife of the late John H. Dutcher, died at the home of her son, George, at Carlyon, N. Y., on Wednesday, August 2, at 10:30 a. m., after an illness of twenty-four hours, aged 64 years and 7 months. She leaves three daughters and one son, Mrs. Ailie L. Munn and Della of Kuckville, N. Y., Mrs. Anna M. Smith of Grand Rapids, Mich., and George of Carlyon, N. Y., also two sisters, Mrs. Jennie L. Day, of Chicago and Mrs. Della Douglass of Oak Orchard, N. Y., besides many friends to mourn her loss.

Mr. and Mrs. Dutcher and daughter Della went to New York but a few months ago on account of the former's failing health; and now both parents are at rest. The sympathy of a host of Lowell friends goes out to those thus doubly bereft.

SUNDAY CONVENTIONS

Rev. E. K. Mohr Has a Word Regarding Them.

Grand Rapids, Mich., Aug. 8, 1905.

Editor Lowell Ledger:

At the request of Rev. Travis, I send you the names of the officers elected for the Lowell Township Sunday School Association:—

Pres., Ed. Stinton; vice pres., Gibson Jones; secy.-treas., Earl Curtiss; primary supt., Mrs. J. A. Scott; home department supt., Miss Martha Perry; teacher training supt., Adam Behler.

I understand that our friend Davidson was very much exercised over this Sunday meeting. These good people of West Lowell asked for the meeting and thought it not possible to have it on a week day. People who go to church usually eat their dinner and to save their friends all work possible lunch was brought to the church. As to the character of the meeting—Rev. Shelby, who was present, suggested that any church which needed a spiritual uplift better arrange for a Sunday convention. "It is easier to criticize the best thing superbly than do the least thing indifferently."

Yours in the work,
E. K. MOHR.

It's an unusual week nowadays when a bomb isn't thrown somewhere at somebody in Russia.

The prediction of a shortage of 10,000,000 pounds in the California prune crop will be comforting to some.

Robertson's ascribes his defeat to bad shells, incompetent gunners, and mutinous crews. A combination like that was clearly no match for the virtues of the militia's ancestors.

There is much argument just now on the question of who was the father of the American navy. Why bother over the father when we have the child, and such a fine, healthy child, too!

Writing in an eastern paper, a crumby citizen says that patients who fall in love with their nurses usually do so merely because of "peripheral propinquity." Those dreadful germs again.

WOMAN'S WORLD

Where Nerves are Unknown.

The woman in charge of the household is the one who makes the difference between a comfortable and a disagreeable home. Her duties are many and varied, and she must be able to handle them with grace and efficiency. The Japanese housewife is a model in this respect. She is neat, tidy, and her home is always in perfect order. Her nerves are never known to be on edge, and she is able to handle any situation with a calm and collected manner. This is the result of her training and her natural disposition. She is a true woman's world.

Indian Unrest

John Crowfoot, a Cherokee from the Indian Territory, has unearched some valuable Indian relics in Iowa county within the past few weeks which are being shipped to the Smithsonian Institution at Washington. The Indian came to Mississippi about three months ago and commenced making a series of excavations in De Soto county, closely following the route along which the explorer De Soto and his hardy band passed. He was provided with several expert looking maps and charts, which he said gave the clues regarding the location of relics desired; and his excavations have proved quite efficacious. Pots, bowls, vases, pipes, tomahawks, arrowheads, etc., were dug up in large quantities, the finds being especially valuable in the vicinity of Lake Cormorant. Crowfoot's methods were decidedly unusual. He was a long probe with which the grave was penetrated, and then he would dig down to the head of the probe, finding the relics at the bottom of the shaft. He says that the earthware vessels were made by the mound builders and that it was from these people that the Indians learned how to make vessels.

"Made in France." "I don't print nearly so many 'Made in France' labels as I used to," said a printer, and this I regard as an encouraging sign. In the past there existed a foolish idea that a foolish hatred, of every thing American, a goodly number of us considered cheap, shoddy and ugly. Only foreign goods were considered desirable. And hence, on stockings, on suspenders, on toys, on knives, on handkerchiefs, on articles of every conceivable kind, "Made in France" labels would invariably be pasted. Of late a change has come. Americans have at last begun to take pride in American products. They now realize that America is the greatest of nations, and that many of the things that we use are made in America. This is a good sign, and it is one that we should all encourage.

For cattle not in good shape I pour into a saucer, one tablespoonful of turpentine and a tea spoonful of turpentine. Try this and see how soon the cow will improve. I have used it for years and it is a sure cure. For dry distemper nothing I have ever done as quick relief as a teaspoonful of oil of sweet almond, and repeated if it fails to produce an action on bowels in a reasonable time. Salt and ashes mixed (one part each) and three parts salt is hard to beat in a lick where all the other cures get it as they want or need. One part sulphur, with this, is also good.

Too many forget that only from the best milk can the best butter be made; and that only from the best cows can the best milk be obtained. Cattle like to eat green peaches and they are good for them. In many instances it is claimed they cure Texas fever. A Handy Fan-Holder. This can be made by the farmer himself, and at no expense. Controlling Our Health. Health is a peculiar condition known to primitive man and a few undomesticated animals. Health existed sporadically up to the time doctors came in. Since then it has not been dangerous. As an evidence that the theory of evolution is correct, some people are even now born healthy, and live only a sovereign of a past age. They recover rapidly from health, however, showing the great ability of the body. Fresh air has been known to make for health, and hence has been gradually tabooed by the authorities, being found only in remote country in the hands of able surgeons that is cured by a menace. We are almost dead sure now to be unhealthy, wealthy and abnormally wise.—Tom Mason in New York Herald.

Genius and Locality. Havelock Ellis recognizes three foci of intellectual ability in England: the East Anglian, the southwestern, and the focus of the Welsh border. East Anglia produces great statesmen, great clergies, scholars, musical composers and painters. The people of the southwestern focus are sailors and seamen, rather than scholars and statesmen; they are innovators and pioneers in the physical and intellectual world. The Welsh border is the focus of the greatest scientific and literary activity. There is a tendency to literary or oratorical eloquence, frequently devoted to religious propaganda. Germany has on an average 806 orchard trees to the square mile. The best remedy for colic in horses and mules is to take out the bowels and make into a ball the size of an egg. Place in a large spoon, pull the tongue out and drop this ball on root of tongue. Hold head up until the bowels are clear. If one does not give in 15 to 20 minutes, repeat the dose until it acts freely on bowels. If this fails nothing will cure it. I have used this for many years and it is a sure cure. Spanish Idea of Pleasure

The Spaniard, in Manila, under the Spanish flag, has been busy in making out of the queerest corners of the globe. It was the custom of the old government to execute Filipino manufacturers and to make a show of their work. A Living Monument

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city. What a remarkable record—a breathing, thinking, moving monument, composed of human lives—that for which every other earthly possession is sacrificed. The Miles Medical Co. receive thousands of letters from these people like the following: "I feel indebted to the Dr. Miles' Heart Cure for the recovery of my heart. I had been suffering from heart trouble for many years, and had tried every other remedy without success. I had been told that I was going to die, but I have now been cured, and I am able to do my work as usual. I feel that I owe my life to Dr. Miles' Heart Cure, and I am sure that it will be a blessing to many other people who are suffering from heart trouble.
