From Our Point of View

WHAT THE TIMES NEED.

God give us men! A time like this demands Strong minds, great hearts, true faith and ready hands; Men whom the lust of office does not kill: Men who possess opinions and a will;

Men who have honor; men who will not lie; Men who can stand before a demagogue And damn his treacherous flatteries without winking; Tall men, sun crowned, who live above the fog In public duty and in private thinking, For while the rabble with their thumb-worn creeds, Their large professions and their little deeds Mingle in selfish strife! Lo, Freedom weeps, Wrong rules the land and waiting Justice sleeps.

-[J. G. HOLLAND]

ALL voters should remember that unless they register on election day, April 2, they will be barred from primary elections for the next two years. In Lowell where there is practically but one ticket in the field, there will naturally be a light vote unless voters are warned to preserve their caucus rights by going to the election to enroll. A similar condition exists in other townships; and unless those who are awake to the importance of the new primary election, stir up their neighbors to turn out on election day to register, thousands of voters will be barred from the June election, when the people will nominate candidates for governor, lieutenant governor, members of congress, county officers and members of the legislature. You can vote at the general election whether you register at this time or not; but do not under-estimate the importance of preserving your caucus rights. Read the primary election law on page 3 of our issue of March 15.

"SHALL we raise \$10,000 for a detention hospital?" is a question that will be submitted to Kent County voters April 2. Probate Judge Jewell urges the neccessity for voting "Yes." In an extended article in the Grand Rapids Herald of March 11, he shows the great need of provision for care of county insane or for those who are mentally sick and in need of treatment. He cites the case of a worthy woman who was thrust into the county jail, because her overburdened mind had become deranged, and the hospitals would not receive her, and there was nothing else to be done, until the question of the final disposition of her case could be settled. The jail surroundings greatly aggravated her sad condition; and the Judge makes a strong case of the injustice of treating insane people as if they were criminals, warning voters that they should not fail to vote "Yes" on the proposition.

THE declining health of Governor Pattison, Ohio's executive, under the strain of his new duties, reminds us of the case of Judge Durand of Flint, whose mind gave way in the excitement of a gubernatorial campaign. Both of these men were Mont., and R. Dale of St. Louis, Mo. apparently in the best of health, when they began their campaigns; and in the case of the lamented Michigan weeks ago, and she passed quietly judge, it is believed by his closest friends that had he kept out of politics and pursued the even tenor of his way he might have lived many years longer. However o'clock, conducted by Rev. C. A WRITER in the Detroit Journal makes a strong point against the partisan, two-years registration required by the new primary election law. He asks how the Republican party, which was made up of Abolitionists, Whigs, Free Soil nins Democrats, Democrats, etc., could ever have been born, had such a law been in force in 1854? We leave our intelligent readers to condemn this un-American feature of an otherwise good law. We know of no better way to do this than to insist upon registering as an "Independent" next Monday.

THE Detroit News is a strong advocate for a convention to amend the State constitution; and calls for people, who believe that the constitution was made for Michigan, not Michigan for the constitution, to vote April 2 for the constitutional convention. Surely, conditions have changed vastly since the venerable document was adopted; and the advisability of considering the construction of a new one in accord with the present day situation can hardly be questioned.

How slow the world is to profit by its experience in the past. Why should it go on eternally making the same old blunders? The blood of a million martyrs cries out against the Women as Well as Men folly and shame of attempting to fetter the human mind. Shall we never, never learn? Value Betterment

What does it mean?

It means that we're doing four times as much business as we did ten years ago, while our expenses haven't increased over 25 per cent, thus cutting down our percentage of selling cost to a point where we're enabled to obtain a satisfactory profit on a much smaller margin.

This policy we are now carrying into effect straight through the store-it means better clothing, hats and furnishings (for man or boy) than any other store we know of will sell you at the same price.

Spring Troubles

If you live a confined life, get no outdoor work or exercise, experience symptoms of general weakness, forgetfulness, lassitude, irritability, loss of appetite, pain in the small of the back, there is no question about it you are suffering from spring fever and inflammation of the mucous membrane.

Alderman Peter A. Wendling, of the Chicago City Councils, has written this letter on the subject:

"Last spring, after I had completed my canvass for election to the City Council I felt worn out and out of sorts. I could not determine any particular seat of my ailment. I was able to attend to my duties, but any great effort distressed me, and I lost considerable in weight. As I had enjoyed uniformly good health I was not greatly alarmed, and felt that my trouble would soon wear itself out.

"Finally I consulted a physician, and his diagnosis was that I was suffering from incipient intestinal catarrh. He advised me to take a course of treatment at one of the celebrated medicinal springs. I was inclined to take his advice, but found it difficult to get away from my public and private business. While I was hesitating what to do, one of my political friends advised me to try Mucu-Tone. He told me that it had cured his wife, and he said, 'Alderman, it will cure you. Well, he was right. I think I took four or five bottles during the course of a month, with the result that I was entirely free from pain and had recovered my normal energy and buoyancy. I got back my old weight, and when any of my friends commented on my improved appearance I told them it was all due to Mucu-Tone.

His experience is no different from that of many others,

Rexall Mucu-Tone curs "Spring Fever" by working through the blood, thus reaching the affected membranes wherever they are located; drives out the poison and allays the inflammation, for as it is a powerful nutritive tonic, it revitalizes the blood, soothes the strained nerves, builds up the body, and relieves you entirely of that fired, wornout feeling which comes with the change of seasons.

Partly on account of her intense inliterature or drama she conceived the idea of writing an opera - in which there should be only Mexican scenes and characters.

Through the co-operation of men well versed in methods of producing operas, the whole story was put into shape. Miss Driscol had collected a number of Mexican songs and dances and folk lore music, all of the greatest value in the arrangement of a suitable musical setting. Inspired by these the musical setting.
