AN AUTO-BIOGRAPHY

Two People Badly Hurt in an Automobile Accident.

Mrs. O. C. McDannell and her brother-in-law, F. E. Brown, of Grand Rapids were quite severely injured in an automobile accident Sunday morning, the latter having one leg badly bruised, making several stitches necessary, and both knees wrenched, and Mrs. McDannell suffering a cut lip and a severe shock. Little Roger Winegar, who was with them, escaped unhurt. The machine, an 18-horse power runabout which the doctor had recently bought, was badly smashed. The automobile struck a graveled stretch of road south of the Pere Marquette tracks, and although Mr. Brown was an experienced driver, the high rate of speed at which it was running and its great power threw it instantly into the ditch. The doctor has decided that the machine is not suited for his purposes on the uncertain roads in this vicinity, and hereafter will use his reliable horse and buggy.

OUR LOWELL DOCTORS.

Something About the Local Men of Pills and Splints.

Dr. R. Roy Eaton, another of our Lowell doctors, graduated in April, 1896, from the Medical Department of the University of Illinois. He practiced at Ithaca, Mich., for a few months, locating in Lowell in October of the same year, and remaining here during the past ten years. He took a special course at the Masonic hospital in Chicago; and is a member of the Kent County Medical society, and of the State Medical society.

Dr. Eaton enjoys a good practice but finds time for social events, intellectual improvement and for the enjoyment of Masonic privileges. This story would have been longer; but the doctor told us to "cut out" some of the very things we intended to say, and they were good points, too.

'THE WAY OF THE TRANSGRESSOR IS HARD.'

Mrs. Dell Katesky, living about four miles south of the village, raised a check paid her by Edwin Fallas for a load of tomatoes from \$2.90 to \$15.90, and, falling to deceive Klump & White with it, passed the check to Edelman & Nerreter for a debt of less than a dollar, receiving the change. Deputy Jacobi found her near the Grand Trunk depot Tuesday, and she confessed that she had changed the check, using a fountain pen. Warrant was issued yesterday and she has been taken to Grand Rapids today, the officers having waited until she could repay Edelman & Nerreter.

Ralph Watkins pled guilty before Judge Holcomb of the charge of forgery, and has been bound over to the circuit court, to receive his sentence from Judge Perkins.

SPIRITS VENGEFUL.

Weird Story About Louise Gardner's Reason For Suicide.

The inquest over Louise Gardner, who committed suicide in Jackson by taking carbolic acid, brought out the fact that haunting spirits had made a tramp out of her.

Boonville, Ind., where the galaxy of spirits first asserted themselves and drove her away.

First in a row and then another she worked, fleeing some by night and some by day in a vain hope to escape them. From Ohio she fled to near Boonville, Ind., where the galaxy of spirits first asserted themselves and drove her away.

"Are the gent's things dry?" inquired Mr. Goffey meekly, as he slowly and carefully moved the eyes from a potato.

"Yes, they are," answered Mrs. Goffey. "The eighth of March."

"You seem very clear about it." He still looked at her.

"Yes," she certainly was plucky enough. "It was to have been our wedding day on the ninth, I believe."

"How are you going to spend it?" Here?

"I think not. I shall go on and meet the Casey's, no matter what the weather is."

"Are you sure they will be there?" "Almost. Pass the tobacco, please."

"I shall get Goffey's horse, or whatever she calls him, and we will go to the quarry outside, and go straight on after tea and tell Fred Casey to come for me." He felt that a row with Fred Casey would do him all the good in the world, and was so certain that Pen should be stranded in this way.

PENN'S MISTAKE

By F. FITZGERALD.

Mrs. Goffey stood in the kitchen of the "Bush Hotel" and fried eggs, and Mr. Goffey, sitting at a table near the window, peeled potatoes.

Then Mrs. Goffey pulled a cloth over her head and went to the wash tub, where she put on a new tweed skirt, a jacket of the same material, garters, a sailor hat, and a pair of walking shoes, a small size and well back to Detroit.

Wheat in Western Canada

A Good Crop of Excellent Quality Has Been Raised This Year.

The grain crop estimates from the Canadian West make a range of from 87,000,000 to 115,000,000 bushels, and an accurate statement will be some time before the figures are available, but not far from 90,000,000 bushels.

This year a larger acreage was sown, estimated at an increase of from 18 to 20 per cent, and had the average yield of last year been maintained, the aggregate would assuredly have gone considerably beyond the 100,000,000 bushel mark.

The exceptionally large influx of settlers was responsible to a considerable extent for much of the increased area, and, there can be no doubt, is also responsible for a part of the decreased average yield.

The first crop raised by the new settlers—often unacquainted with the conditions of western agriculture—is not usually prolific, and 1905-06 placed a very large number of amateur farmers behind the stilt of the plow; but they will learn, and learn fast, and with another season or two will help to raise the average instead of depressing it.

Of the estimates to hand, that of the Northwest Grain Dealers' association is the lowest: Wheat, 87,300,000 bushels; oats, 75,725,000 bushels; and barley, 15,850,000 bushels.

The barley and oats exported are good for an additional \$25,000,000.

Wheat, 87,300,000 bushels; oats, 75,725,000 bushels; and barley, 15,850,000 bushels.

Winnipeg Free Press sent out special correspondents, who returned

after 20 days with a somewhat better report and gave reasons for the faith that was in them. They had traveled all through the spring wheat district; had driven 1,400 miles through the grain country, besides traveling thousands of miles by rail; and they had visited 93 localities and knew whereof they spoke. They reported: Wheat, 89,200,000 bushels; oats, 77,000,000 bushels; and barley, 16,000,000 bushels.

The combined amounts, together with that received from dairying and other sources, are bound to make financial conditions very easy in the Canadian West until the next harvest market.

In the last week of August a tour of inspection was made along the line of railway in the wheat area by the Northwest Grain Dealers' association, and a number of American grain experts. While speaking on this point, Mr. J. F. Whalley, of the well-known wheat man of Minneapolis, said:

"The quality of the crop is excellent, and I think the average will be about that of the medium to grain men two years ago, and a very much struck with the improvement that has taken place in these two years. The growth is certainly not in a very few years, but in a great extent, have brought the production of wheat to a point where 60,000,000 bushels may be safely counted upon. This is less than was looked for by some enthusiastic western people, who maintained that increased acreage necessarily meant an increased aggregate. Still, 60,000,000 bushels of wheat is 6,000,000,000 bushels of grain, and it is a good crop, and, as a result, the Western Canada has much cause to feel down in the mouth because the same of its anticipations on the wheat crop may not have been realized. Taking one year with another, that country has demonstrated that it can be depended upon as a great wheat growing territory, and has to be reckoned with in the markets of the world."

The yield in oats has been increased this year by nearly 1,500,000 bushels, the aggregate estimate being 75,725,000, with the average at 41.2 bushels to the acre. The estimated crop of barley is placed at 15,850,000 bushels, which is a slight increase over the total of last year. Of fax the estimate for the present year is 15,850,000 bushels, which is a material increase upon last year's figures.

Following are the figures in detail for wheat, oats and barley in Western Canada for the three years last past:
