SHALL THE OLD RESIDENTS' ORGANIZA-TION BE KEPT ALIVE?

During the past two years death has been tusy thinning our ranks. The majority of those who organized this association are gone Shall we, their survivors, continue

Without a single exception all of its meetings were successes. The annual gatherings renewed old acquaintances and friendships and recalled vivid memories of the 'Old Time.' Such men as John M. Mathewson, Jarvis C. Train, A. S. Stannard, James Lyon, Rueben Quick, W. P. Perrin, George W Parker, J. Edwin Lee and many other of our citizens of sterling worth, were closely identified with this organization and enthusiastic workers. They are gone. Shall we now neglect it?

These meetings were educational to the younger generation. Shall we eliminate from this community the benefits derived from this annual

The preliminary meetings which were called in February were so poorly attended that the officers thought it advisable to take no action. We now call a meeting for Friday afternoon, March 8th, at 3 o'clock at the Lowell State Bank parlors. All come. The youngest of us are growing old. The organization should live.

This is an age of combination and we should like to enter into an unwritten agreement to this effect with all the careful drug buyers of the locality.

We to see to it that every drug or other article supplied was of highest possible quality and sold at the fairest possible price. The buyer merely to agree to make this his regular trading place and to tell us if he ever finds the slightest cause for dissatisfaction.

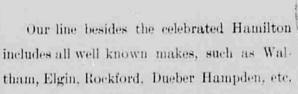

We are carrying out our part of such an agreement all the time in the belief that the public will do its part.

We have evidence that the combination is getting stronger all the time.

Increase Expense Heavily.

Warden Otis Fuller, of the Ionia prison, told the legislative committee that unless the people are allowed to vote out of the constitution this spring the provision relative to prison labor, 2,500 convicts will become idle. "They cannot even bake their own

bread, make their own clothes, or wait on the table at meal times," he Mr. Fuller talked at a joint meeting of the house and senate committees on constitutional revision. The hearing was on the senate resolution sub-

mitting to the people the proposition to take out of the constitution that section which prohibits teaching a trade in prison. "Under that section, and its con-

struction by the courts," said Fuller, the only thing we can do with the convicts is to turn our prison yard into an athletic field and develop sprintters, baseball and football players. The great point is that it would increase by a large sum the expense of conducting the prison, and we could not instill habits of industry in the convicts for the purpose of reforma-

concealed weapons. When the prisoner reached Detroit in charge of Sheriff Conley, that officer was informed that a prisoner could not be confined in the house of correction for carrying concealed weapons unless sent from Wayne county. Upon returning to Lapeer Cole was liberated.

I had seen him stand thus once on a time when he had eaten nothing in four days-it was in Abyssinia, and our guides had lost us in the worst possible place-with the same untroubled look in his eyes.

"Please don't appear surprised, or scared or anything, Jack," he said, with his delicious intonation. "I saw a fellow looking for me an hour or so ago. He's been at it for several months; hence my presence on these shores of the brave and the free. He's probably still looking, as he's a persistent devil. I'm here, as we may say, quite incog. In the country district of Burmah the natives still practice the oldworld stately courtesy, which is now seldom found in the cities where the natives have been long in contact

GAME AND FISH

Need of Revision of Laws Pointed Out by Warden.

Charles H. Chapman, of the Soo, state game and fish warden, in his biennial report says that the commercial fishing of the state is not in as satisfactory condition as his department or the people generally desire.

"There is much dissatisfaction among the fishermen," he says, over the complications and discriminations in the commercial fishing laws. The whitefish are fast disappearing and the number of lake trout is small, considering the large number planted in Michigan waters by the United States fish commission each year.'

To remedy the faults Warden Chapman recommends a complete revision of the laws. He says he believes the only way to save the food fishes is to absolutely prohibit fishing during the spawning period in each of the great lakes. As to inland fishing Warden Chapman believes there should be a general revision of local acts, making the general law applicable wherever

The warden estimates 10,000 deer were killed during the last season, but that wolves destroyed more than that number during the year.

Quail are said to be recovering from the severe winters of 1903 and 1904, but they have not yet become plentiful and will require protection for some time. The department has followed the policy, the warden announces, of endeavoring to prevent violations rather than make a showing of a large number of arrests.

The expenses of the department for 1906 were \$28,270, and the proceeds from the sale of deer licenses, confiscated property and permits, and from fines were \$29,206.

To Take Up Rescue Work.

The duchess of Marlborough, formerly Consuelo Vanderbilt, is to appear in a new role, according to which a dispatch asserts that the duchess, whose matrimonial troubles have received great attention lately, is planning to devote the remainder of her life to active social work in the church and to advancing the interests of the army. She will foreswear her former gaities and devote herself exclusively to the new work she has decided on. Her purpose has been confided to several intimate friends. As a part of her plan for assisting social reforms generally it is stated the duchess will convert the magnificent Blenheim palace into a rescue home.

A Great Count.

The' treasury department has dispatched four experts to Chicago to ake charge of the recount of the money in the sub-treasury there. It has been decided to count every dollar in the sub-trasury to ascertain whether there is more than \$173,000 missing from the institution. Deputy Treasurer Bantz is already on the scene and will have charge of the recount, with the four treasury experts next in charge, The work of recounting will take severel weeks.

Rheumatism Crazes the Mind

URIC-O, An Internal Treatment for the Blood-It is Widely Recommended as a Cure.

Every sufferer from Rheumstism is familiar with the sleepless nights, and nerve binding, muscle twisting pains which they have to endure. Vapor baths have been used, Mt. Clemens has been visited, and hundreds of dollars spent in search of relief. There is but little use of other experiments, as relief and a permanent cure for all forms of Rheumatism can only be found in Smith's Specific Uric-O. It matters little how long one has suffered from the trouble, or how intense the suffer-ing, Uric-O will cure you. It cures by its direct action upon the blood; muscles, and kidneys, neutralizing poison-ous uric and rheumatic acids. Druggists and Physicians everywhere are recommending Uric-O, because they know that at last there has been a remedy prepared which actually cures the disease. Uric-O is manufactured by the Smith Drug Company, Syracuse, N. Y. Is supplied to users in large size bottles, which sell for \$1.00. Your Druggist can supply you with the remedy, or you can order direct. Samples and circulars will be forwarded free to all who apply. Use Uric-O for Eheumatism only. It may possibly save your life.

URIC-O is sold and recommended in Lowell by D. G. LOOK.

My Dear Sir: When you were at our place in July, I promised to write you what my north quarter made per acre. You will remember it was all sown to wheat. Well, I finished threshing yesterday and received from it an average of 4314 bushels per acre-testing 641/2 pounds per stroked bushel. The wheat is the best sample I have ever raised -so uniform and even in size. You may know it was a good sample when ! I tell you that I have already sold 2,000 bushels of it for seed to my neighbors. This year has been my best effort in farming during my life. My wheat totaled 9,280 bushels and my oats nearly 5,000.

If some of those good, honest Hoosiers could have been with me during the last two weeks and could have seen the golden grain rushing down the spout into my wagon and then could have seen it in great piles in my granaries. I feel sure they would have been forced to acknowledge there is no better farming country in the world than this. I may just say that I have done all my farming with eight head of horses and once "woke up," can raise grain equal to the best Minnesota farmers. His ribbon this year.

The man let the tiller go and dropped both hands on his knees. The boat slid back and in toward the kelp bed again, slowly, obstinately. Forward his wife was wrapping her damp jacket around the little girl who showed signs of slumber. The boy was moving restlessly about, eager to help his father, and in the moonlight his thin little body looked elfish and unreal.

"It's no use," the man said, "the tide's going out too strongly and there's not a breath of wind in this confounded place!"

He caught his wife's glance, but she looked away quickly with tightened lips. They sat in the cold moonlight with no sound but the mysterious, fitful murmur of the water and the slap of the kelp. The boy began to shiver and yawn and his father wrapped him in his coat, offering his shoulder as a pillow. The dampness came strangely, silently, powerfully, like the moonlight, and cut into their very bones.

How to Sleep in a Blanket.

There are a great many very competent treatises telling you how to build your fire, pitch your tent and all the rest of it. I have never seen described the woodman's method of using a blanket, however. Lie flat on your back. Spread the blanket over you, Now raise your legs rigid from the hips, the blanket, of course, draping over them. In two swift motions tuck first one edge under your legs from right to left, then the second edge under from left to right, and over the first edge. Lower your legs, wrap up your shoulders and go to sleep. If you roll over one edge will unwind but the other will tighten .- Stewart Edward White in Outing.

IDEAS FOR FEAST

SANDWICH PARTY IS A NOVEL ENTERTAINMENT.

Something Different from the Usua' "Lunch Counter" Refreshments --- Recipes for Many Dainty Little Dishes.

Quite the newest thing in the way of entertainment is the sandwich party. It isn't as economical as it sounds, but it's fun.

lunch counter in sight.

Roast beef, ham and cheese were conspicuous by their absence, but Foster-Milburn Co., Buffalo, N. Y. there were the daintiest lettuce and mayonnaise sandwiches, bread and butter sandwiches as thin as a knife could cut them, nut sandwiches and chicken sandwiches, with celery, olives and other small edibles. A delicious nesselrode pudding finished the feast.

OYSTER FRITTERS .- Chop 25 oys ters. Make a batter of two cups of milk, two of flour, two well-beaten eggs, a teaspoonful of baking powder, small spoon of salt. Stir in the oysters. If the mixture is too stiff add more milk. Bake on a griddle or drop by spoonfuls into very hot fat. If the latter is done, drain well before serv-

CHERRY PUDDING .- Make a custard of a pint of milk, yolks of two eggs, tablespoonful of cornstarch and a little salt. Cook in double boiler and deal of attention, but it has become flavor with vanilla. Let cool. Drain the syrup from a pint of cherry preserve and pit the cherries, reserving six or eight. Heat the syrup to the boiling point and thicken with a large teaspoonful of cornstarch. There will be about a teacupful of syrup; set! this away to cool. Just before serving stir the cherries into the custard and put into a glass dish. Beat the white to a stiff froth, sweeten with three tablespoonfuls of powdered sugar and put in spoonfuls on top of custard, same person. Some of the illuminaplacing a cherry on top of each. Wet three tablespoons cornstarch in a little cold water, stir into the boiling syrup and cook ten minutes. Beat the whites of three eggs to a dry froth and whip the boiling mixture into them; return to the fire one minute to set the egg, adding one-half cup lemon juice and a little of the grated rind. Turn at once into a mold that has been wet in cold water, and set away to become ice cold. Serve with strawberries or other fruit piled high in the center or pour a soft custard around as a sauce.

HUNTERS' STEW .- Take one pound of steak, bottom of the round, cut in four or five pieces, and brown well on both sides in a hot frying pan. Also brown in the same way four large onions, do not slice, but keep them whole, and a large carrot cut lengthwise in four pieces. Turn all into a coffee drinking and by changing from small kettle and brown in the frying pan one heaping tablespoon of flour. When brown, add one and a half cups of hot water and a piece of butter the size of a walnut. Let thicken and strain over the meat and vegetables in the kettle. Shake the salt cellar been driven away from Postum befour times over it, then let simmer, closely covered, for two hours. This is an English dish and is truly delic ious.-Washington Star.

Marking Overshoes.

Rubber overshoes are all so much alike that it is well to have some distinguishing sign by which to recognize them when left in dressing rooms, etc. One woman accomplishes this by sewing a loop of black tape on the back of her overshoes, and this serves also to hang them on hooks and clotheshangers. In another family all the "rubbers" are painted in a broad band, This contest is confined to those who each member of the family having his or her particular color. Marking the initials inside is all very well if you can be assured of their permanence, but ordinary ink is very soon rubbed off. Get a small trunk stencil of the family surname, and it will last much longer and is more easily renewed.

PENMANSHIP A FINE ART.

Typewriting Has Not Driven Hand Work from the Field.

There is a renasissance in penmanship, despite the speedy comforts of the typewriters. Ten years ago it protably would not have occurred to anyone to show a page of manuscript at any exhibition; to-day pages or books of script form a feature of every show which takes to itself the name of arts and crafts. Some of the work is in Roman capitals, but the form of letter usually adopted is the unciel or halfunciel. Apparently all the writers have founded themselves in these models. Within these last few years not only has the art attracted a good quite the rage, so that in some circles it creates no more surprise now to learn that an amateur is taking lessons in script than it would have done some years back to be told that he or she had taken to poker work. From one viewpoint it is difficult to say where writing ends and illustration begins, but though in the recent revival the two arts naturally have gone hand in hand, the scribe and the illuminator are not necessarily one and the

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company-California Fig Syrup Co .plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

Had Confidence in Himself. It is recorded of the earl of Mansfield that he once dismissed a servant, should be taken out before the carbut wrote for him a "character," as follows: "The bearer, John ----, has served me for three years in the capacity of coachman. He is an able carpets should be swept always the driver and a very sober man. I discharged him because he cheated me. A day or two later the man returned to thank his old master for the help he had afforded him in getting him a new berth. How had the testimonial helped him? The man explained that his new master had observed that ability to drive and sobriety were the qualities he required in a coachman. As for the cheating, his employer had said: "I'm a Yorkshireman, and I'll be hanged if you cheat me."

SHORT TALKS BY L. T. COOPER.

THE STOMACH.

My but peoples' stomachs do cause a lot of trouble. I offered to wager some doctors in St. Paul, Minn.,

say, they had to agree with me. They heard people come in and tell me that for years they had been near the grave with Bright's disease, or lung trouble, or kidney complaint and all man-ner of diseases and that the New Discovery had cured them. Of course these people were mistaken, it was nothing but their stomachs. As a matter of fact when the stomach gives out most everything else is thrown out of order too.

When a person feels tired and dull and despondent, is loosing flesh and don't sleep well, has a poor memory, a bad taste in the mouth, a coated tongue, and other troubles he's liable to believe a lot of things are the matter with him. Nine chances to one it's his stomach. I've seen Cooper's New Discovery bring back health to too many people in just this shape to believe anything else. Here's a etter about it:

"I suffered for a long time without knowing just what was the matter with me. I seldom felt like eating. I lost greatly in weight. My digestion was exextremely poor and when I did eat I stipated and frequently suffered from nerve racking, violent headaches. When I heard of what the Cooper remedies were doing for others I resolved to try them.'

"Relief came with the first bottle. My appetite and digestion improved rapidly. am no longer constipated nor do I have those dreadful headaches. I sleep well and am gaining flesh." C. H. Powell, 13 Harrison Addition. Duluth, Minn.

We are selling immense quantities of these medicines and our customers express great satisfaction. D. G. LOOK.

Celery Jelly.

Put into a saucepan two cupfuls of the white stalks of celery cut in small pieces, a half onion sliced, a few sprigs parsley and salt and pepper to season. Add two cups boiling water and simmer until the celery is tender. Strain through a jelly bag. Soften two tablespoons gelatin in a cop of cold water, allowing it to stand at least an hour. Add the strained celery water while hot, stir until dissolved. and season with paprika and the juice of a lemon. Pour into tiny individual molds like the cups of a child's tea set, or on a platter wet with cold water. Set away until cold and stiffened, then cut in dice or, any fancy shape desired, and use as a garnish for salad.
